

SafeSchools Access

Renton School District has elected to use the SafeSchools online safety training program to train employees on school-related safety issues. SafeSchools offers trainings in all facets of school safety issues, and its compliance management system tracks all the training for the district allowing us to easily demonstrate state and federal compliance with safety mandates. SafeSchools courses have been authored by nationally renowned experts, and has been endorsed by a number of school boards and superintendent associations nationwide. In addition, there will be Renton School District Policies and Procedures that are required reading.
