

Guidelines for Applying for SAT Accommodations

The Application for Extended time must be completed entirely before submitting it to me. Please note that I *cannot* process forms that are missing information. In the event that the College Board requires specific documentation, you will be notified by me. (Ex: concussions, injuries, new diagnosis)

- A student must be identified and have a service plan (IEP/504) for a minimum of 4 school months before submitting an application (some exceptions apply)
- The application process is in the process of changing. All changes are scheduled to take effect by the end of January including an overhaul of my dashboard.
- Demographics will still be required as well as 2 questions that will need answered: does the student have an IEP/504 (minimum of 4 school months) and are they currently receiving this accommodation.
- At this point, we are still applying the same way we always have (submitting documentation, testing within 5 year, etc)

Comments

- I am able to check the status of requests on both ACT/SAT dashboards.

-Last day to submit applications for the 2016-2017 is May 31, 2017.

If you have any additional questions, please do not hesitate to ask. Room # D101 Ext # 10108

Have a great year!

Amy Mavrich

SSD Coordinator
