

INDEPENDENT STUDY

Independent study is a method of self-development and personal growth. It involves choosing a problem or topic that has particular meaning for the individual and following it to a point where it satisfies his/her curiosity or need at the time. Independent study may be independent of all course work in which a student is enrolled, or may be within a course under the direction of that teacher.

Purposes

- To enrich the curriculum for the more highly motivated, independent, and self-reliant student.
- To encourage students to pursue a self-directed, self-initiated intellectual inquiry.
- To give students the opportunity to develop good independent study habits and to learn to discipline their own time, a need expressed frequently by our graduates in college.
- To provide an opportunity to study an established subject to a level beyond the existing curriculum or to study an area not presently included in our course offerings. (Courses offered in the curriculum cannot be taken on an independent study basis.)

Eligibility and Selection of Students

- Only juniors and seniors will be eligible for directed independent study.
- Students who have shown unusual interest in their subject of study in the regular school program will be eligible.
- A student will not pursue more than one directed independent study project at one time, or two per year.
- Independent study courses cannot be applied toward the 300-minute supervision requirement or toward an academic waiver.

Student Responsibilities

1. To prepare a proposal for independent study including:
 - A statement of purpose with clearly defined goals.
 - An outline of the material to be read, experiment to be conducted, creative task to be undertaken, or appropriate description of study to be pursued.
 - A schedule showing time to be devoted and dates for completion (must be completed no later than the end of the semester—one semester minimum).
 - A list of library resources needed or the equipment and facilities required.
 - Criteria for evaluation.
2. To pursue this study with a maximum of self-motivation and independence, minimum of assistance, or supervision from a faculty member.
3. To plan, schedule, and report all activities carried out in connection with the directed independent study program.
4. To solicit the help of a teacher-advisor to supervise the study.

Grading

Grading of directed independent study projects completed successfully shall be “Pass”. Projects not completed shall receive no grade nor will any record be maintained.

Procedures to Receive an Independent Study Project

- Receive forms for the independent study project in the divisional chairperson’s office.
- Receive student, parent, supervising teacher, counselor, and division director approval of the proposed project.
- Complete application and approval within the first ten days of the semester in which it is taken.

Final approval will be determined by division director.
