

Finding and Accessing Austin Seminary DMin Projects

Print copies at Stitt Library

Paper copies of all Austin Seminary DMin projects are located on the 2nd floor of Stitt Library under call number BV 4070.A8. DMin projects don't circulate but they can be browsed and used in the library. Some projects are also available on microfiche.

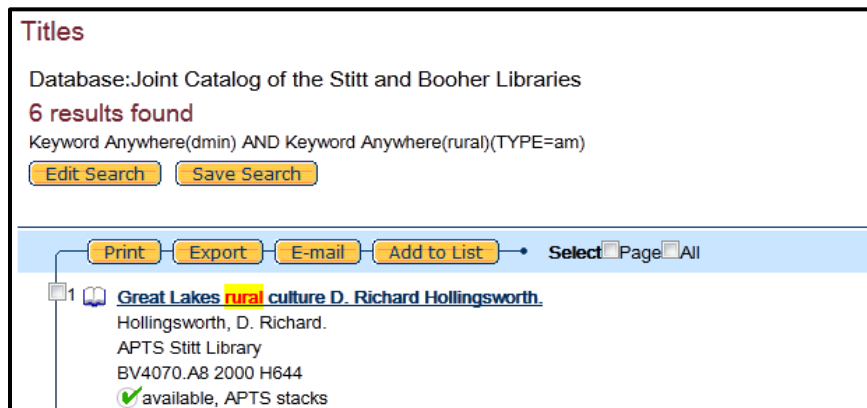

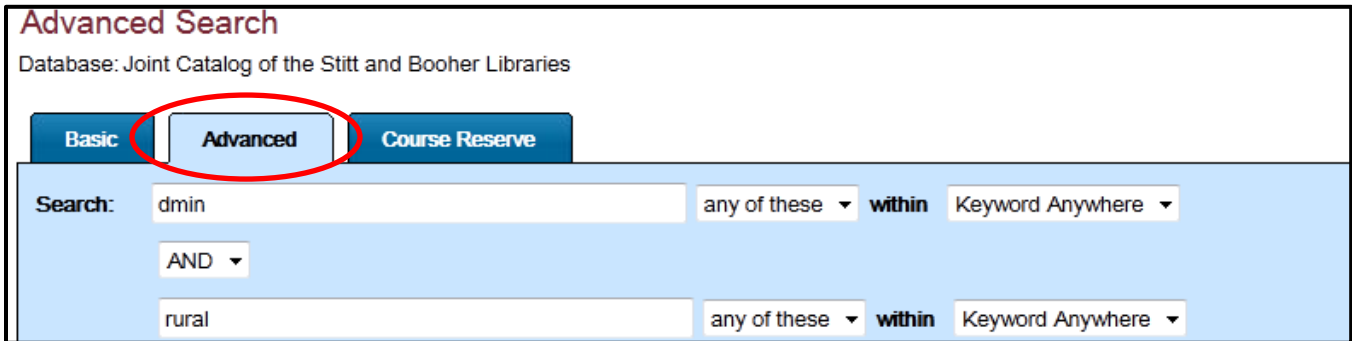

You can browse the DMin projects in the online catalog with a keyword search for "dmin." To browse DMin projects through Sophi Search, use the "Print books only" selection from the Find drop-down menu or limit to "Austin Seminary / SSW Library Catalog" in the Sophi Search interface, then do a keyword search for "dmin."

OR

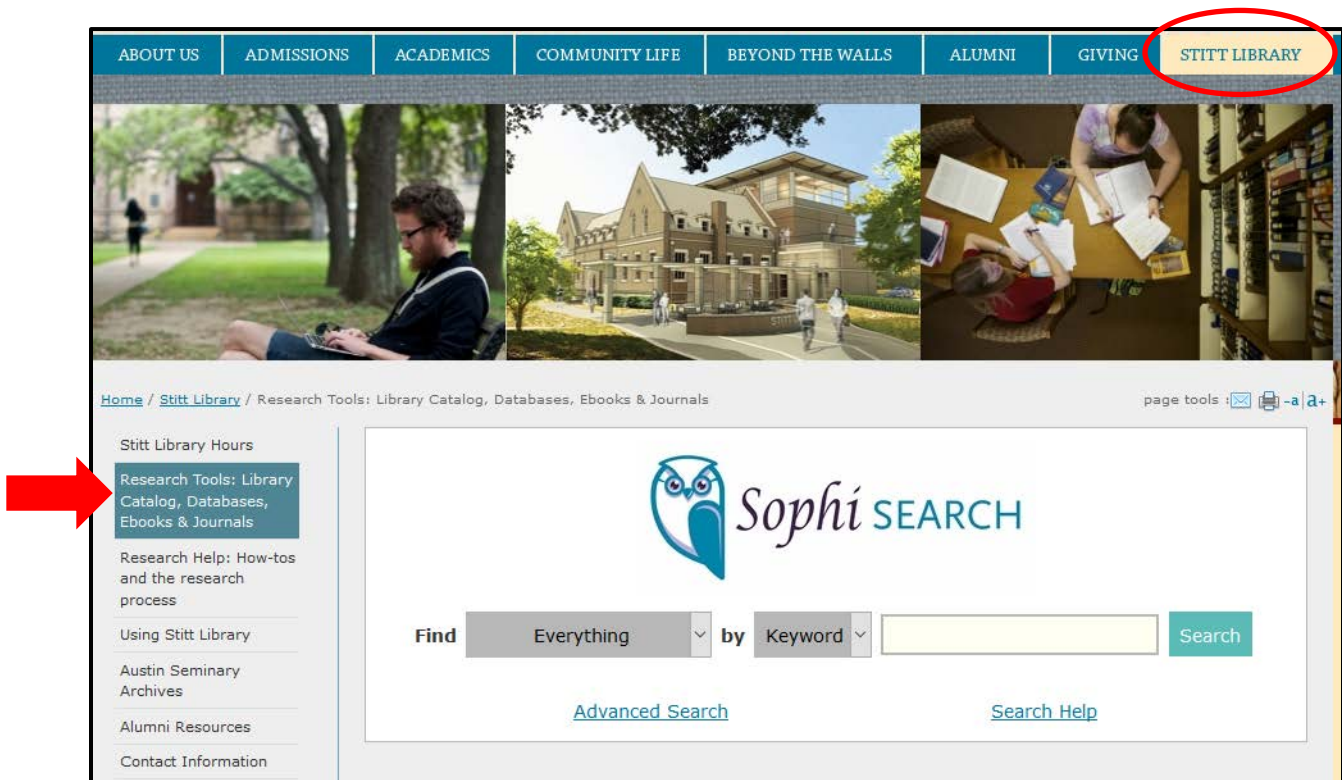

To search for a project on a specific topic, use the advanced search feature to combine a search for "dmin" with a search for another keyword or other term. If you know the title or author of the project you are looking for, you can do a regular title or author search in the catalog to find the project. This will work in either the library catalog or Sophi Search, but in Sophi Search you will also need to limit to the "Austin Seminary / SSW Library Catalog."

Digital copies through ProQuest

DMin projects submitted from 2013 to the present are available online through ProQuest, in addition to the paper copy in the library. They can be searched through Sophi Search (by author or title for a known project, or by doing a keyword search for “ProQuest ETD database”). They can also be searched directly through the ProQuest interface. To access ProQuest, go to the library homepage and click on the Research Tools link on the left:

Then scroll down to “Austin Seminary Sermons and DMin projects” and find the link for ProQuest Dissertations & Theses.

If you are on campus, you will be directed to the ProQuest page immediately. If you are off campus, you will need to login using your seminary credentials.

Once you are in the ProQuest site, you can search within the recent Austin Seminary DMin projects by title, author, keyword, or subject.

When you find a project of interest, you can view an abstract, preview, or the full text online. You also have the option of purchasing a print copy.
