

# 2013 - 2019

Jeff Craig  
Superintendent  
(2014 - Present)

## 2014

John C. Dunham STEM Partnership School for the education of local elementary-age students in discipline of Engineering, Mathematics, Science, and Technology.

## 2015

The District 129 community overwhelmingly approved an \$84 million bond referendum that benefitted virtually every school in the district. To improve the learning environment for the roughly 3,700 students at the high school, classrooms were updated, the Veterans Fieldhouse was built, and state-of-the-art geothermal heating and cooling was installed throughout.

**2018 2019**

West Aurora High School celebrates its 150th anniversary with great pride in the achievements of its students, faculty and administration, and with great appreciation to the community for continued support of academic excellence in the Aurora area.

West Aurora is now one of the largest high schools under one roof in the state of Illinois.
