

Northwestern Regional High School No. 7  
Ms. Robin Waring  
100 Battistoni Rd  
Winsted, CT 06098

Dear Robin:

We are pleased to report that Water for South Sudan has drilled the well that you sponsored. We have now drilled over 390 wells since 2005. We are deeply grateful for the continued support from donors like you which enables our work.

WFSS will continue to provide access to clean water and hygiene education, led by our South Sudan team. Although parts of South Sudan continue to experience unrest, we have been able to continue drilling wells safely. Our work continues to provide grassroots development and sustainability for rural villages and schools. The installation of a new well can also serve as a starting point for conflict resolution between different groups, bringing peace and stability.

Attached please find photos of the well that your donation helped drill. Your well is in the village of Nazareth in Wau South, Wau, South Sudan. The village chief is Wol Uyak. GPS coordinates of your well are N: 07' 40' 937" E: 028' 00' 350".

Thank you for your support and generosity, which is now helping to provide fresh, clean water, and a new future, to the people in Nazareth, South Sudan.

Very truly yours,

A handwritten signature in black ink that reads "Lynn Malooly". The signature is written in a cursive, flowing style.
