

## **Students with Health Related Needs Administering Medication to Students**

If your student has a medical condition (Asthma, Diabetes, Allergies) please complete a **Plan of Care**. If your student will take medication (both prescription and over the counter) during the school day, an **Administering Medication Plan of Care** must be completed by the guardian and physician. This form must be completed if the student carries the medication on his/her person, or if it is stored in the IAW Office. All medications stored in the IA West Office must be in their original containers and dropped off by the parent. Please visit <http://www.hvs.org/district/studentsupportservices/health--wellness/> for Care Plans.
