REFERENDUM UPDATE

Highlights from June 2019

OPERATIONS & CAPITAL MAINTENANCE SUBCOMMITTEE MEETING

Overview

June not only closed out another school year but saw great progress on the referendum projects. Staff engagement, design and engineering continued, with Ashley Field and the second high school being the primary focus.

A few notable activities accomplished in June include:

- Ashley Field site plan continues to be developed with field, bleacher, and building placements becoming finalized.
- Initial Ashley Field exterior design ideas were created, shared and refined. *See the last page for an exterior rendering.*
- Schematic floor plans of the second high school were a major focus and are close to being finalized.
- Conceptual site plans for the second high school were created and shared with the committees. Additional work continues on this important piece of the second high school planning.
- Operations & Capital Maintenance Subcommittee continued to meet and support the design and engineering teams in establishing and implementing the District's energy efficiency, operational, safety, and ongoing maintenance objectives.

Secondary Space Capacity

Over the past month, the Current & Second High School Subcommittee has focused on the following:

- Evaluated two macro-level organizational plans and provided direction on the preferred plan.
- Reviewed and provided feedback on learning communities (i.e. classroom and lab organizational models).

At-a-Glance

Here's a quick look at what has been happening:

- Two [Activities, Athletics & Recreation Subcommittee](#) meetings.
- Two [Current & Second High School Subcommittee](#) meetings.
- Two [Operations & Capital Maintenance Subcommittee](#) meetings.
- Two [Core Planning Team](#) (CPT) meetings.
- Meetings with high school user groups continued including:
 - » Nutrition / Food Service
 - » Swimming Pool
 - » Music
 - » Performing Arts
 - » Library
 - » Family & Consumer Science
- Interviewed three potential vendors to provide the bleachers at the outdoor multi-purpose stadium.
- Kicked-off civil, plumbing, HVAC, and electrical engineers on the second high school.
- Planning for upcoming neighborhood and community engagement sessions.

Visit the [website](#) to see meeting agendas, minutes and presentations.

Look Ahead

- **July 8, 2019:** Referendum 2019 progress presentation to the District Support Center
- **July 8, 2019:** Update to the School Board on Referendum 2019 progress
- **July 17, 2019:** Ashley Field Neighbor Meeting
- **July 22, 2019:** Community Open House at the High School Commons from 5:00-6:00 PM
- **July 25, 2019:** Initial Naming / Mascot Committee meeting

Highlights from June 2019

Secondary Space Capacity (continued)

- Studied the quantities of teaching and learning spaces being provided to ensure the school's capacity objectives will be met.
- Identified the ideal organization and location for administration and students services staff.
- Continued updating Career Technical Education (CTE) placement in the building.
- Refined the conceptual floor plans to ensure they enhance teaching and learning, support community access and use, and provide a safe and secure learning environment for students and staff.
- Began exploring the exterior massing / scale of the school with specific focus on the 3-story learning community section of the building.

Outdoor Multi-Purpose Facilities

This month, the Activities, Athletics & Recreation Subcommittee redirected their focus to activity and athletic spaces at the second high school, as well as continued to review plans for Ashley Field. Here is a summary of their work:

- Reviewed Ashley Field conceptual exterior rendering and provided feedback.
- Considered bleacher options for Ashley Field and recommended to CPT that 4,000–4,400 seats be the target capacity.
- Evaluated the conceptual floor plans for the second high school with a focus on the following:
 - » Flexibility provided by building a main gym with 3 courts and an auxiliary gym with 1 court vs. the 4-court gym at the current high school.
 - » Providing lobby/common space to allow multiple events to go on at once (e.g. how would the common spaces support an event in the main gym, the pool and the auditorium at the same time).
 - » Adjacency of key support spaces (e.g., how locker rooms support the pool and the gyms, where are toilet rooms located to provide easy access while serving multiple spaces, how does storage support both athletics and physical education, etc.).
 - » Ensuring teacher and coaches offices are adjacent to but not in the locker rooms to provide greater flexibility of teacher and coach collaboration without the barrier of gender specific offices as are traditionally provided in high schools.
