

**The American School Foundation of
Monterrey
Mathematics Department**

May 20, 2019

Dear Parent:

For over two decades, high school students at ASFM have been using a graphing display calculator as an integral part of their mathematics education. This tool, the TI_{inspire} CX CAS, will continue to be the calculator that we use at ASFM high school for the next school year.

As it can be quite difficult to find this particular calculator here in Mexico, we will arrange for the Texas Instruments distributor in Monterrey (Grupo Linnoit) to come to the school on **Tuesday, May 28 between the hours of 8:30 a.m. and 3:30 p.m. and Wednesday May 29 between 8:30 and 1:30 pm** with calculators for purchase. The cost of this tool is \$3,700.00 pesos (this price already includes IVA and the calculator comes with a 1 year guarantee). Attached is the quote from the distributor, which outlines the prices and payment methods. If you have any questions about this, feel free to contact our distributor, Mr. Edwin Lopez, for clarifications. Likewise, if you need a fiscal invoice, you must do this also through Edwin. He can be reached at: 811-1095-9122 (extension 1007).

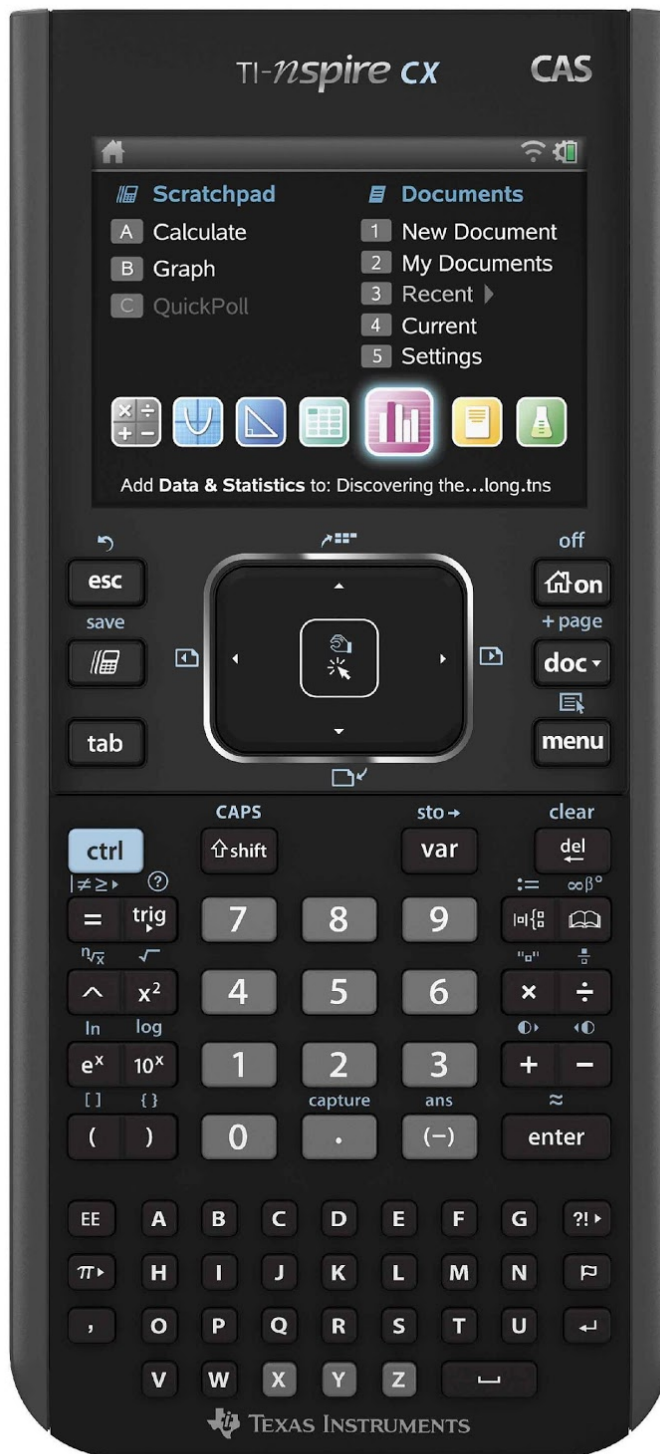

Feel free to try to purchase this calculator on your own, but while you may find this calculator in the US at a somewhat lower price, there are two reasons why it may be in your best interests to purchase here. First, the distributor will either fix it or replace it in case it malfunctions; calculators bought in the US will need to deal with these issues north of the border. Second, if you purchase at the school, you can be guaranteed that you are buying the correct calculator. In case you choose to purchase the calculator from somewhere else, please understand that you **must purchase the TI-*Nspire* CX CAS (photo on following page)**. There are several other models that look alike, and your child must have the school-authorized calculator next August.

We look forward to the learning that will take place in the coming years by using this tool.

Best regards,

A handwritten signature in black ink that reads 'Elena Cortés'. The signature is written in a cursive style and is underlined.

Elena Cortés
MS/HS Mathematics Department Head

In August 2019, all ASFM students in grades 9, 10, 11 and 12 will be expected to have their own TI *nspire* CX CAS calculator (pictured above).

No other calculator will be allowed, so be sure that this is the model that you purchase.
