

DISCIPLINE (Continued)**A. Purpose and Scope**

Rules for student discipline shall be developed collaboratively with grade level specific schools (K-5, 6-8, 9-12) and Director of Student Services and Curriculum. These rules shall be adopted jointly by the principal or designee and a representative selected by classroom teachers employed at the school. The views of administrators, teachers, security personnel, parents/guardians and secondary school students shall be obtained when the rules are developed. The rules shall be consistent with law, Governing Board policy and district regulations; they shall be revised as necessary and shall undergo the site-level review and adoption process at least every four years. (Education Code 35291.5)

All avenues of discipline provided in policy, regulation and law may be used in developing grade-level rules. These include but are not limited to advising and counseling students, conferring with parents/guardians, detention during and after school hours, and the use of alternative educational environments, suspension and expulsion.

It shall be the duty of each employee of the school to enforce the school rules on student discipline. (Education Code 35291)

B. General**1. Corporal Punishment**

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student. (Education Code 49000, 49001)

For purposes of this policy, corporal punishment does not include an employee's use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to district property. (Education Code 49001)

Whenever physical control is used with students, the principal shall be notified in writing of the events and the circumstances involved. The principal will maintain a record of such events and forward a copy of the report to the Director for Student Services. Reports of the use of (and need for) physical control may be made to the Board of Trustees.

C. Disciplinary Strategies

To the extent possible, staff shall use disciplinary strategies that keep students in school and participating in the instructional program. Disciplinary strategies may include, but are not limited to:

Recess Restriction

A teacher may restrict a student's recess time only when he/she believes that this action is the most effective way to bring about improved behavior. When recess restriction may

involve the withholding of physical activity from a student, the teacher shall try other disciplinary measures before imposing the restriction. Recess restriction shall be subject to the following conditions:

1. The student shall be given adequate time to use the restroom and get a drink or eat lunch, as appropriate.
2. The student shall remain under a certificated employee's supervision during the period of restriction.
3. Teachers shall inform the principal of any recess restrictions they impose.

Detention After-School

Students may be detained for disciplinary reasons up to one hour after the close of the maximum school day. (5 CCR 353)

If a student will miss his/her school bus on account of being detained after school, or if the student is not transported by school bus, the principal or designee shall notify parents/guardians of the detention at least one day in advance so that alternative transportation arrangements may be made. The student shall not be detained unless the principal or designee notifies the parent/guardian.

In cases where the school bus departs more than one hour after the end of the school day, students may be detained until the bus departs. (5 CCR 307, 353)

Students shall remain under the supervision of a certificated employee during the period of detention.

Students may be offered the choice of serving their detention on Saturday rather than after school.

Community Service

As part of or instead of disciplinary action, the Board, Superintendent, principal, or principal's designee may, at his/her discretion, require a student to perform community service during non-school hours on school grounds, or, with written permission of the student's parent/guardian, off school grounds. Such service may include, but is not limited to, community or school outdoor beautification, campus betterment, and teacher, peer, or youth assistance programs. (Education Code 48900.6)

This community service option is not available for a student who has been suspended, pending expulsion, pursuant to Education Code 48915. However, if the recommended expulsion is not implemented or the expulsion itself is suspended, then a student may be

required to perform community service for the resulting suspension. (Education Code 48900.6)

Notice to Parents/Guardians and Students
