The Governing Board intends that technological resources provided by the district be used in a safe, responsible and proper manner in support of the instructional programs and for the advancement of student learning. The Governing Board recognizes that technology provides ways to access the most current and extensive sources of information and enables students to practice skills and to develop reasoning and problem-solving abilities. In addition, electronic resources foster workplace skills that may be transferable to new technologies.

In that agreement, the student and his/her parent/guardian shall agree not to hold the district or any district staff responsible for the failure of any technology protection measures, violations of copyright restrictions, or user mistakes or negligence. Inappropriate use also may result in disciplinary action and/or legal action in accordance with law and Board policy.
