

During registration, student volunteers will be there to guide you and your student through the various stations to get your student's Tilton School email address, ID, and keys. You and your student will be able to sign up for laundry services, make arrangements for a cell phone, and open a bank account. You will also meet members of our Parents Association and confirm that you have access to MyTilton on the Tilton School website. After you register, your student will be able to move into their dorm room.

Thursday, August 29
