August 2019

Dear Parent/Guardian and Student:

Attached are the rules and regulations for the **Champion High School**. These rules and regulations have been prepared by the administration and approved by the Brockton School Committee.

Students and parents should acquaint themselves with the contents of this booklet. Every organization must have a set of guiding principles by which to operate. The rules and regulations set forth in this manual have been formulated to ensure a safe and orderly atmosphere in which meaningful education can take place. Additionally, these rules also provide students with a set of standards for individual behavior.

Both students and parents should be reminded of the school's use of surveillance cameras. School cameras are operated under the supervision and authority of the Brockton Police Department and access to any recordings is at the discretion of the BPD.

It is our sincere hope that all parents will work with the school to prevent problems before they happen. We encourage parents to maintain contact with teachers, guidance counselors and administrators on a regular basis in an effort to resolve minor issues before they become major problems. We stand ready to assist you. If you have any comments or questions, please feel free to contact the school.

Best wishes to both students and parents as we begin a new school year.

Sincerely,

Michael P. Thomas
Interim Superintendent of Schools

**BROCKTON PUBLIC SCHOOLS
BROCKTON, MASSACHUSETTS**

I have thoroughly read and understand the **Champion High School** Handbook. I am aware of the rights and responsibilities outlined therein for both parents and students.

Parent Health Screening Opt-Out Letter

Dear Parent/Guardian:

This year, the school district will be performing the following health screenings on students in Brockton Public Schools:

- **Vision** - Kindergarten through fifth grade, seventh and ninth grades
- **Hearing** - Kindergarten through third grade and seventh and ninth grades
- **BMI** (height and weight)-First, four, seventh and ninth grades
- **Scoliosis (Postural)** - fifth grade through ninth grade
- **Screening Brief intervention and referral to treatment (SBIRT)**-seventh and ninth grade.

Brockton Public Schools will participate in SBIRT, which is a public health approach to delivering early intervention to anyone who uses alcohol and/or drugs in unhealthy ways. Because school nurses and counselors are uniquely positioned to discuss substance use among young people, it is recommended that schools allow for opportunities for appropriately trained staff to reinforce prevention, screen for substance use, provide counseling and make referrals as necessary to all adolescents, including students in upper elementary and middle school grades. Adolescent Screening, Brief Intervention, and Referral to Treatment (SBIRT) focuses on prevention, early detection, risk assessment, brief counseling and referral intervention that can be utilized in the school setting. School nurses will use a validated screening tool to detect risk for substance use-related problems and to address them at an early stage in adolescents.

If your child is tested, and the results are not in the "normal" range for the test, you will be notified by letter. If you receive one of those letters, it is recommended that you take your child to a doctor or healthcare provider for an evaluation.

If you want your child to participate in the screenings for his/her grade, no further action is required.

If you **DO NOT** want your child to participate in any or all of the screenings, please complete the bottom portion of this letter and return it to your child's school.

If you have any questions, **please feel free to call Health Services at (508) 580-7470**

**IF YOU DO NOT WANT YOUR CHILD TO PARTICIPATE IN HEALTH SCREENINGS
PLEASE INDICATE BELOW**

Youth Risk Survey

Periodically, the Massachusetts Department of Elementary and Secondary Education requests our school department to perform random surveys that monitor youth risk behaviors related to the leading causes of morbidity and mortality among adolescents as well as other health indicators. Public High School students are often surveyed from a scientifically selected random sample of schools across the Commonwealth. The data collected is used to identify critical areas of need for our school. This information assists the district with adjusting learning opportunities for our students as well as implement critical programs that focus on these health issues. Students do have the right to “opt out” and if you do not want your son/daughter to participate in these surveys, you should notify school administration of your wishes, and they will be honored.

Brockton Public Schools Responsible Use Policy

Students

The Brockton Public Schools provides access to technology in order to enhance digital literacy for all students and staff. As educators we must: expose students to available technologies, encourage exploration, promote digital citizenship and ensure students have opportunities to demonstrate technological skill in preparation for life after school.

The Brockton Public Schools will work with families to convey expectations children should follow when using media and information sources. To that end, families should be aware that Brockton Public Schools intends to incorporate network use, internet access and email in the grade levels identified below. The Brockton Public Schools utilizes CIPA (Children’s Internet Protection Act) compliant blocking and/or filtering safeguards required by law, and will make every reasonable effort to minimize the chance or exposure to objectionable material on the Internet. These measures, coupled with user education, implementation of this policy and grade-appropriate supervision, the Brockton Public Schools believes that the Internet can be safely used to enhance the delivery of educational services.

- a. *Grades Kindergarten through Three:* Students at these grade levels will not have individual computer network passwords or e-mail accounts. During school time, teachers of students in grades kindergarten through three will guide them toward appropriate materials. Web access at these grade levels will be limited to teacher-directed and teacher-demonstrated use. Students will not be conducting independent research on the Internet, nor will they be sending or receiving electronic mail independently.
- b. *Grades Four and Five:* Students in grades four and five will be given individual network access and passwords. Students at these grade levels will not be issued individual e-mail accounts. Students at these grade levels may have the opportunity to conduct research via the Web in the classroom, and to access electronic mail for a group account, during directly supervised instruction.
- c. *Grades Six through Twelve:* Students in grades six through twelve will be given individual network access passwords and receive individual e-mail accounts. Students at these grade levels will have the opportunity to access the internet and conduct independent, self-directed research, both during classroom instruction and outside of classroom. This will be under the direct or indirect supervision of a teacher or staff member

In order for students to be granted independent access to the internet or individual e-mail accounts, they must agree to and abide by the *Guidelines for Student Use*. For students under 18, parents must sign the Brockton Public Schools *Responsible Use Agreement* form before students will be permitted to gain independent access to the internet or individual email accounts. If the Brockton Public Schools does not receive a signed user agreement, students will continue to have the opportunity to access the internet during supervised classroom instruction.

Guidelines for Student Use

Access to BPS' computer network, including the Internet, is a privilege, not a right. The use of the network must be consistent with, and directly related to, the educational objectives of the Brockton Public Schools. A violation of the terms of this Responsible Use Policy may result in suspension or termination of network access privileges and may also result in other disciplinary action consistent with the disciplinary policies of the Brockton Public Schools. Further action may include criminal prosecution where applicable. The Brockton Public Schools will cooperate fully with law enforcement officials in any investigation relating to misuse of the Brockton Public Schools computer network.

The Brockton Public Schools is committed to providing ongoing educational support to students around responsible digital citizenship. Before being permitted to access the Brockton Public Schools email system, all students are required to complete the Brockton Student Responsible Use Policy and Guideline Tutorial. Once completed, the student will be given grade-appropriate access to technologies. With this access, students are expected to adhere to the guidelines outlined in the BPS Responsible Use Policy and Guidelines.

1. Violations of this Responsible Use Policy include, but are not limited to, the following conduct:
 - Cyberbullying, using profane, vulgar, threatening, defamatory, abusive, discriminatory, harassing or otherwise objectionable or criminal language in a public or private message.
 - Sending messages or posting information that would likely result in the loss of a recipient's work or system (e.g., viruses, malicious scripts).
 - Participating in unauthorized activities which would cause congestion of the network or interfere with the work of others such as the use of prohibited file sharing sites.
 - Using the network in a manner that would violate any U.S. or state law. This includes, but is not limited to, copyrighted material, threatening material and spreading of computer viruses.
 - Accessing or transmitting materials that are obscene, sexually explicit, or without redeeming educational value.
 - Attempting to harm, modify, or disseminate another user's personal information including passwords.
 - Attempting to gain unauthorized access to system programs or computer equipment, including attempts to override, or to encourage others to override, any security established on the network.
 - Using social networking sites, discussion groups, chat rooms, instant messaging, or other forms of online conversation except with prior staff approval and for educational purposes only.
2. The Brockton Public Schools assumes no responsibility for:
 - Any unauthorized charges or fees, including telephone charges, long distance charges, per minute surcharges and/or equipment or line costs.
 - Any financial obligations arising out of unauthorized use of the system for the purchase of products or services.
 - Any cost, liability or damages caused by a user's violation of these guidelines
3. The Brockton Public Schools makes no guarantee, implied or otherwise, regarding the reliability of the data connection. The Brockton Public Schools shall not be liable for any loss or corruption of data resulting while using the network.
4. All messages and information created, sent or retrieved on the network are the property of Brockton Public Schools. The Brockton Public Schools reserves the right to access and monitor all messages and files on the computer system, including web pages accessed, as it deems necessary and appropriate in the ordinary course of its business for purposes including, but not limited to, ensuring proper use of resources, investigating allegations of improper use and conducting routine network maintenance. By participating in the school district's computer network, users are indicating their consent to such monitoring and access. Where appropriate, communications including text and images may be disclosed to law enforcement or other third parties without prior consent of the sender or receiver.
5. Any users caught illegally obtaining software or transferring such software through the network may have their accounts revoked. In such an event, the user's network access will be limited to directly supervised use during classroom instruction. In addition, all users should be aware that software piracy is a federal offense and is punishable by a fine or imprisonment.
6. Should a user, while using the Brockton Public Schools Technology Network, encounter any material that s/he feels may constitute a threat against the safety of fellow students, staff members or the property of the Brockton Public Schools, that user is obligated to report his/her discovery of such material to a teacher or to his/her principal.
7. Any user who is issued a username and password must ensure that they protect that username and password and refrain from sharing it with anyone. If a user believes their username and password has been compromised or knowingly or unknowingly shared, that user is obligated to share this information with a teacher or his/her principal so that the password and/or user name shall be changed.
8. The Brockton Public Schools reserves the right to seek restitution from any user for costs incurred by the district, including legal fees, due to such user's inappropriate use of electronic resources considered confidential.
9. Any user who chooses to bring their own device (BYOD) and accesses the BPS network through that personal device is expected to adhere to the BPS Responsible Use Policy and Guidelines.

The Brockton Public Schools administration reserves the right to amend this policy at any time without prior notice.

Mission Statement

The mission of the Champion High School is to provide a high quality, academically challenging education for our students that uses School to Career pedagogy as its framework. The learning environment embraces the vision of the Brockton Public Schools and involves a broad range of community-based organizations.

Champion uses an innovative and flexible model to provide educational opportunities for students in our community who need an alternative path. It will provide an integrated learning experience for each student that will continually demonstrate how what is learned in the classroom relates to the workplace, their personal growth, and their role in the community and their future.

Commitments and Expectations for Students

Champion High School has high expectations for all students. Faculty and staff are committed to supporting students and providing them with the tools they need to reach their full potential. Students are expected to focus on goals and maintain a positive attitude, be responsible for themselves, work cooperatively with teachers and classmates, behave appropriately, follow school rules, and be a responsible member of the community. As a community, teachers and advisors work to promote achievement for all students

Commitment to Diversity

The diversity of our school is one of our greatest strengths; and Champion High School is committed to maintaining an environment in which all people, regardless of race, gender identity, sexual orientation, political beliefs, physical disability, ethnicity, class, age, and religion are valued and respected. It is the collective responsibility of the community to commit itself to fostering an environment where all may reach their full potential.

Graduation Requirements

In order to graduate from the Champion High School, students must successfully complete Champion's Graduation Requirements, pass the Massachusetts Comprehensive Assessment System Tests, complete a Massasoit Community College course, maintain and complete a College and Career Readiness Portfolio, and successfully complete a 100 hour internship experience.

Probationary Period

All Champion High School students enter a 20-day probationary period upon enrollment in the school. During the probationary period, students are evaluated academically to make sure he/she is placed appropriately. During the probationary period, a student may be asked to leave Champion (and be referred to a more appropriate setting) or may have academic levels changed.

How Does Initial Placement Work at Champion?

Students are placed in the appropriate classes at Champion depending on skill level, age, prior credit accumulation, and previous classes taken. As part of the application process, prospective students to Champion take a diagnostic placement test to determine class/course placement.

College/Post-secondary Education Experiences

All Champion High School Students are required to complete one Massasoit Community College course. This experience will expose and prepare students to meet the demands, challenges, and opportunities that they will encounter in a college or university.

Champion will pay for one Massasoit course with funds allocated specifically for this purpose. Should you need to enroll in more than one course due to poor grades (i-e., a grade lower than C-), or withdrawing from the course after the colleges add-drop period, you will be expected to pay the associated costs. Note: This requirement may be waived or altered at the discretion of the Principal.

The Champion Difference: Preparing for Future Success

Champion High School Students are required to prepare and maintain a College/Career Readiness Portfolio. Students will work on the Portfolio during their advisory periods and will be provided with a variety of learning activities and work-related experiences such as field trips, job shadowing, and on-line career exploration tools.

Job Preparation/Employment Opportunities

The Champion High School will provide students the opportunity to explore a variety of careers, assist in making a career choice, and help develop a plan to pursue that career.

We will focus on:

- Learning to set goals
- Providing a structured work-based learning internship
- Preparing a resume and application for work or college
- Applying for financial aid to college

In addition to the above, the Champion High School will also provide:

- Life management skills
- Work readiness skills
- Conflict negotiation skills
- Interpersonal skills

Attendance

Students are expected to be in attendance every day that school is in session and to attend all classes during the school day. Students who do not attend regularly or who frequently cut classes rarely complete enough quality class work and authentic assessments (portfolios) to progress through the program to graduation.

The Absence Policy

1. Students who have a total of three (3) unexcused absences in one term will be contacted. Continuous outreach to the family of the student will occur through letters and telephone calls. During this time all necessary supports to encourage student attendance will be explored, developed, and implemented.
2. Students will be allowed five (5) unexcused absences in a class during a term. On the 6th class absence, the student will receive automatic failure for that term. It is important to note that if a “no credit” is received during the first term of a semester, it is still possible to pass the course as long as the second term work demonstrates strong understanding of the identified standards and competencies. Additionally, students will still be able to include quality work in their portfolios which they complete during a quarter in which they receive “no credit.”

A student may apply directly to the Principal or his/her designee for a waiver for one or more of one’s absences.

Excused absence days may be for any of the following reasons

- Death in family
- Religious holidays
- Authorized school sponsored activities and related activities
- Illness - A doctor's note must verify that the doctor saw the student in the office the day(s) absent from school or specify the dates the student needed to remain at home for a medical issue. All documentation for waivers, including doctor's notes, must be on file in the Housemaster's Office within five school days after the student returns to school.
- In the event of a pandemic, such as the H1N1 influenza, other credible evidence may, at the discretion of the building administrator or one’s designee, be accepted in lieu of a doctor’s note in support of a waiver of unexcused absence from school.
- Court appearances
- Military obligations
- For Grade 12 and 11 students ONLY: College interview/visit documented on college letterhead.
- Other reasons as deemed appropriate by the school administration

Examples of UNEXCUSED ABSENCES (not a complete list):

- Truancy
 - Tardy to school/class (20 minutes late)
 - Class cutting
 - Illness absence without documentation from a physician’s office
 - Family vacations, trips, obligations, etc.
 - Unnecessary absences from class as determined by an administrator.
 - Any form of “Skip Day”
3. If a student is absent for ten consecutive days during a term, a letter will be sent to the student’s home reminding them of the attendance policy.

4. If a student is absent for fifteen consecutive days, the student will be dropped from Champion's rolls, and the student and family will receive a letter regarding the student's removal from Champion High School.
5. Students will be allowed to "Buyback" absences throughout the term. The Buyback Policy requires the students attend school on time for five consecutive days, attend all classes, and maintain good behavior. If the five days are completed by the student, then one day's absence will be bought back.
6. If a student is found to be excessively absent from school, they will be considered for a Corrective Action/Support Plan to address the issue.

If a student has at least five (5) days in which he/she has missed two (2) or more periods unexcused in a school year, or if a student has missed five (5) or more school days unexcused in a school year, the school principal or his/her designee shall make reasonable effort to meet with the parent or guardian of the student to develop action steps for the student's attendance. These action steps shall be developed jointly and agreed upon by the school principal or his/her designee, the student and the student's parent or guardian and with input from other relevant school personnel and officials from relevant public safety, health and human service, housing and nonprofit agencies.

Vacation Waivers

Waivers will be given for vacations only once during a student's four years at Champion High School and such waiver shall not exceed five school days. A note must be given to the School Administration at least one month in advance. No vacation waivers will be issued during the MCAS testing period to any student involved in the MCAS program. No waivers will be given during final exam week for seniors or underclassman. No credit shall be given unless all work is completed satisfactorily by any student accepting a waiver. In addition, and due to a shortened Semester II for seniors, no waivers for vacation will be allowed during the second semester.

A student will not be considered for a waiver unless notes for indicated absences deemed excusable by the administration are on file in the Administration Office. All documentation for waivers, including doctor's notes, must be on file in the Administration Office within five school days after the student returns to school. All requests for waivers at the end of the term must be received by the Administration Office no later than the last day before the end of the marking term.

Waivers will not be given for class absences due to unexcused tardiness.

Tardiness Policy

The school day begins at 8:00 a.m. All students who arrive to school after 8:15 a.m. must sign in at the front desk and receive a late pass before proceeding to class. If a student is found to be habitually tardy, they may be placed on a disciplinary contract or a Corrective Action/Support Plan. The principal will require a meeting with a parent/guardian for excessive tardiness.

Students may not enter the building after 9:00 a.m. without a parent/guardian. Students arriving after 9:00 a.m. will spend the day in the In-School Intervention Room.

Class Attendance Policy

Students who are absent without leave from a class will receive an unexcused absence in the class for the day. A student will be considered for a Corrective Action/Support Plan to address absenteeism from class. Teachers monitor class attendance for each period on a daily basis to determine whether or not a student will achieve credit for that class based on the attendance policy.

Early Dismissal

Students who have to leave school before the end of the school day must present the Principal's Secretary or the School Adjustment Counselor with appropriate documentation explaining the reason for the early dismissal in order for the class absences to be considered excused. If an emergency arises during the day and there is a need for an early dismissal, a parent or guardian should call the school and speak with the main office. Parents should never communicate with students via a student's cell phone. If a student leaves the school without an approved reason, it will be considered leaving school grounds without permission and he/she may be suspended. Important Note: Seniors and internship students will have a shortened daily schedule.

No Idling Policy

Brockton School Committee Policy EAAF prohibits drivers from idling their vehicle for more than 5 minutes outside a school or school-supported event. The "No Idling" policy is in accordance with M.G.L. ch. 90, 16A and 310 CMR, 7:11, the Commonwealth's idling reduction law, which seeks to reduce the health and environmental effects of vehicle exhaust and decrease our use of fuel by reducing unnecessary idling.

Sexual harassment is defined as repeated, unwanted, or unwelcome verbalisms or behaviors of a sexist nature related to a person's sex or sexual orientation. In addition, sexual harassment includes unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when (1) submission to such conduct is made, either explicitly or implicitly, a term or condition of an individual's success as a student, (2) submission to or rejection of such conduct by an individual is used as the basis for educational decisions affecting such individual, or (3) such conduct has the purpose or effect of substantially interfering with an individual's educational performance or creating an intimidating, hostile or offensive educational environment

While it is not possible to list all circumstances that may constitute sexual harassment, the following are some examples of conduct which if unwelcome, may constitute sexual harassment depending upon the totality of the circumstances and including the severity of the conduct

Examples of sexual harassment include, but are not limited to the following:

- offensive sexual flirtations, unwelcome sexual advances or propositions
- continued verbal abuse or innuendo of a sexual nature
- uninvited physical contact such as touching, hugging, patting or pinching

Please note: Because sexual harassment is a violation of Massachusetts General Law, building principals have been instructed to refer certain cases to the School Police and to the District Attorney's office for possible prosecution.

Process

1. Students who believe that they have been subjected to sexual harassment should report the incidents to any teacher, counselor, or administrator as soon as possible. The student will be offered interim measures, as appropriate, to support the student during the course of the investigation. The incidents will be investigated and appropriate action will be taken.

Complaint Officer

Sharon R. Wolder, Chief Officer for Student Support Services, is the designated complaint officer for students. She is vested with the authority and responsibility of processing all harassment complaints. Ms. Wolder's office is located in the Crosby Administration Building at 43 Crescent Street, Brockton, MA 02301-4376, (508) 894-4341.

Bullying and Cyberbullying

It is the policy of the School Committee to prohibit any and all forms of bullying in all schools in compliance with M.G.L. ch.71 § 370. The School Committee is committed to providing an educational environment which is free from bullying and cyberbullying. Bullying/cyber-bullying is the unwelcome, written, electronic, verbal or physical act or gesture where a student feels intimidated, coerced, harassed, or threatened by a student or school staff member. Parents/ guardians who feel that their child is the victim of bullying/cyberbullying, or the students themselves, may contact any member of the school staff who will immediately report the incident to the school leadership team. The designated member of the leadership team will conduct an investigation and will communicate with the parents/guardians of the victim(s) and perpetrator(s) throughout the process. At the conclusion of the investigation process at the school level, the investigation form will be sent to the school system's Equity Officer. The Chief Officer for Student Support Services is the designated Equity Officer for cases involving students.

Definition of Bullying

Bullying is defined as "the repeated use by one or more of students or by a member of a school staff including, but not limited to, an educator, administrator, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity or paraprofessional of a written, verbal or electronic expression or a physical act or gesture or any combination thereof, directed at a victim that: (i) causes physical or emotional harm to the victim or damage to the victim's property; (ii) places the victim in reasonable fear of harm to oneself or of damage to one's property; (iii) creates a hostile environment at school for the victim; (iv) infringes on the rights of the victim at school; or (v) materially and substantially disrupts the education process or the orderly operation of a school. For the purposes of this section, bullying shall include cyberbullying.

Definition of Cyberbullying

Cyberbullying is defined as "bullying through the use of technology or any electronic communication, which shall include, but shall not be limited to, any transfer of signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic, photo electronic or photo optical system, including, but not limited to, electronic mail, internet communications, instant messages or facsimile communications. Cyberbullying shall also include (i) the creation of a web page or blog in which the creator assumes the identity of another person or (ii) the knowing impersonation of another person as the author of posted content or messages, if the creation or impersonation creates any of the conditions enumerated in clauses (i) to (v), inclusive, of the definition of bullying. Cyberbullying shall also include the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions enumerated in clauses (i) to (v), inclusive, of the definition of bullying."

Bullying Shall Be Prohibited

(i) on school grounds, property immediately adjacent to school grounds, at a school- sponsored or school-related activity, function or program whether on or off school grounds, at a school bus stop, on a school bus or other vehicle owned, leased or used by a school district or school, or through the use of technology or an electronic device owned, leased or used by a school district or school and (ii) at a location, activity, function or program that is not school-related, or through the use of technology or an electronic device that is not owned, leased or used by a school district or school, if the bullying creates a hostile environment at school for the victim, infringes on the rights of the victim at school or materially and substantially disrupts the education process or the orderly operation of a school. Nothing contained herein shall require schools to staff any non-school related activities, functions, or programs.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying shall be prohibited. Students who wish to report bullying or other activities that concern them to school administrators and School Police may do so using TipSoft SMS, a text- and web-based anonymous tip line. Brockton High School students can text 274637, type in the school's keyword "Boxer" and type in their message. The system can also be accessed through the district website, at <https://www.bpsma.org/parents-community/bullying-information/tipsoft-sms>. Making false allegations, providing discriminatory statements, and making defamatory statements is prohibited and engaging in such activity will be reported to the appropriate authorities.

The Brockton Public School District understands that members of certain student groups, such as students with disabilities, students who are gay, lesbian, bisexual, or transgender, and homeless students may be more vulnerable to becoming targets of bullying, harassment, or teasing. The Brockton Public Schools will take specific steps to create a safe, supportive environment for vulnerable populations in the school community, and provide all students with the skills, knowledge, and strategies to prevent or respond to bullying, harassment or teasing.

Threats

Making any threats verbally, written, through a third party, through any Social Media platform, text messages, or with gestures will result in a due process hearing with a possibility of long term suspension or other disciplinary consequences.

The Educational Rights of Children and Youth in Homeless Situations

The Brockton Public School district complies with federal and state laws and regulations in the identification and education of children who are in homeless situations. The intent of this policy is to provide each child and youth equal access to the same free appropriate public education, including public preschool, as provided to other children and youth. In accordance with requirements of the McKinney-Vento Act, the Superintendent has designated Karen McCarthy as the Homeless Education Liaison.

Hazing

It is the policy of the Brockton Public Schools to promote and maintain an educational environment that is free from any form of hazing practices. Hazing is against the law and will not be tolerated by the Brockton Public Schools.

Chapter 269 of the General Laws of Massachusetts includes the following three sections relative to the prohibition of hazing.

SECTION 17. Whoever is a principal organizer or participant in the crime of hazing as defined herein shall be punished by a fine of not more than three thousand dollars or by imprisonment in a house of correction for not more than one year, or by both such fine and imprisonment.

The term "hazing" as used in this section and in sections eighteen and nineteen, shall mean any conduct or method of initiation into any student organization, whether on public or private property, which willfully or recklessly endangers the physical or mental health of any student or other person. Such conduct shall include whipping, beating, branding, forced calisthenics, exposure to the weather, forced consumption of any food, liquor, beverage, drug or other substance, or any other brutal treatment or forced physical activity which is likely to adversely affect the physical health or safety of any such person or other person, or which subjects such student or other person to extreme mental stress, including extended deprivation of sleep or rest or extended isolation

SECTION 18. Whoever knows that another person is the victim of hazing as defined in section seventeen and is at the scene of such crime shall, to the extent that such person can do so without danger or peril to oneself or others, report such crime to an appropriate law enforcement official as soon as reasonably practicable. Whoever fails to report such crime shall be punished by a fine of not more than one thousand dollars.

SECTION 19. Each institution of secondary education and each public or private institution of post-secondary education shall, at least annually, before or at the start of enrollment, deliver to each person who enrolls as a full-time student in such institution a copy of this section and sections seventeen and eighteen.

Each institution of secondary education and each public or private institution of post-secondary education shall file, at least annually, a report with the board of higher education and in the case of secondary institutions, the board of education, certifying that such institution has complied with its responsibility to inform student groups, teams or organizations and to notify each full time student enrolled by it of the provisions of this section and sections seventeen and eighteen and also certifying that said institution has adopted a code of conduct policy with regard to the organizers and participants of hazing, and that such policy has been set forth with appropriate emphasis in the student handbook or similar means of communicating the institution's policies to its students. The board of higher education and, in the case of secondary institutions, the board of education shall promulgate regulations governing the content and frequency of such reports, and shall forthwith report to the attorney general any such institution which fails to make such report.

Maintaining a Professional and Academic Environment

In order to maintain a school atmosphere that promotes learning and professionalism, we require a professional environment for both students and staff.

- Memorial t-shirts are not permitted.
- Clothing, pins, insignias, colors, or emblems that identify them as a member of a gang.

Fragrance Sensitivity Awareness

Perfume, cologne, and scented body sprays and lotion are common irritants that can adversely affect the health of certain individuals. Exposure to fragrance can trigger asthma, migraine headaches, and other severe health ailments in people who are sensitive to chemicals. BPS is committed to the health and safety of all students and staff. Minimizing the use of fragrances within our schools is a crucial step in creating and maintaining a healthy environment for everyone. Therefore, we kindly ask that you refrain from wearing strong smelling fragrances at school.

Inappropriate Touching/Sexual Behavior

Touching with sexual meaning or unwanted touching is prohibited. Additionally, engaging in lewd conduct and/or sexual activity on school grounds, on the school bus or while participating in school-sponsored activities is strictly prohibited. Violations of this policy may result in disciplinary action as noted and notification of law enforcement agencies as appropriate.

Food and Drinks

Food and drinks are not allowed outside the cafeteria, with the exception of bottled water in a clear container. Exceptions to this rule are at the teacher's discretion.

Respect Class Time

Students are expected to be in their classes on time and for the full length of the period

Cell Phones

Cell Phones are NOT allowed in school. Phones need to be checked in the morning and will remain locked in the main office until they are distributed at end of day. Violation of this policy may lead to confiscation and disciplinary action. Parents who need to contact a student during the school day may do so by contacting the school secretary at (508) 894-4377.

Electronics

iPads, tablets, and similar devices may NOT be used in the school building. Electronics need to be checked in the morning and will remain locked in the main office until they are distributed at end of day. At the discretion of the teacher, these devices may be used as part of a teacher-supervised classroom activity. There may also be times when students are allowed to use headphones. Large, sound deadening headphones will not be allowed.

Privilege Policy

- Larger headphones are a safety issue, they cannot be used in class or halls (even one ear)
- Students are not allowed (with or without a pass) to leave a class to go "find" headphones, chargers, etc.

Cheating

Cheating on tests, assignments, and homework or engaging in plagiarism is a serious violation and will result in zero credit for the assignment. Parents will be contacted, and student may face disciplinary action.

Health, Safety, and Welfare Issues

Drug and Alcohol Policy

The School Drug/Alcohol Policy established for Brockton is based upon the concept that the role of the school is basically educational and rehabilitative; consequently, the major concerns of the school with regard to drug and alcohol use and abuse are the welfare of the individual student and the general welfare of the school population. However, in order to safeguard the individual and general welfare and safety, the school must at times initiate medical, psychological, social and legal safeguards in the case of drug and alcohol abuse.

The Brockton School Committee policy is to uphold and enforce the laws of the Commonwealth of Massachusetts relating to the unlawful possession and/or unlawful distribution of controlled substances and alcoholic beverages.

Screening Brief Intervention and Referral to Treatment (SBIRT)

Brockton Public Schools will participate in SBIRT, which is a public health approach to delivering early intervention to anyone who uses alcohol and/or drugs in unhealthy ways. Because school nurses and counselors are uniquely positioned to discuss substance use among young people, it is recommended that schools allow for opportunities for appropriately trained staff to reinforce prevention, screen for substance use, provide counseling and make referrals as necessary to all adolescents, including students in upper elementary and middle school grades. Adolescent Screening, Brief Intervention, and Referral to Treatment (SBIRT) focuses on prevention, early detection, risk assessment, brief counseling and referral intervention that can be utilized in the school setting. School nurses will use a validated screening tool to detect risk for substance use-related problems and to address them at an early stage in adolescents. If a student's parent/guardian does not want their child to be screened, the parent/guardian should contact the school in writing by October 1 of the academic year to opt-out of the screening.

Guidelines Related to Legal Aspects of Drug Use and Abuse

A. Search for Contraband Materials

1. Search of Lockers - According to an opinion by the Attorney General, under the circumstances of a clear and present danger to individual and general well-being and/or to the maintenance of discipline and order in the school, the principal and designee shall have the right and duty to inspect students' lockers and the contents therein without prior judicial authorization or police participation. Courts have generally held that the school principal has a reasonable right of inspection of school property and premises including student lockers and desks. **(Please be aware that in an ongoing effort to keep Brockton Public Schools drug-free, police dogs may be used to search for drugs, paraphernalia, and other contraband in lockers, parking lots, storage areas, and selected locations.)**
2. Search of Students - A member of the school administrative staff may search, in the presence of a witness upon reasonable suspicion to believe that a student is in possession of a controlled substance, and, if the circumstances permit, the individual pupil's person or any belongings which are on his/her person. This includes clothing, pockets, wallets, purses, etc. The police shall make such search only where there is proper legal justification.
3. Rights of Questioned Students - Parents will be notified in any interrogation situation by a police officer which carries an implication of possible allegation of guilt or the furnishing of information leading to an indictment. The designated official of the school will maintain an informal record of the interview showing the time, place, persons, and summary of discussion and findings.

B. Confidentiality

It should be recognized that the Massachusetts laws do not accord any privilege to the confidential communications that are made between pupils and members of the faculty or the school administration. All school personnel (other than medical doctors conducting psychotherapy) can be subpoenaed into court and required to reveal information that has been confided to them.

Teachers must make it clear to pupils who confide in them information about their personal drug or alcohol problems that it is the duty of the teacher to report this information to the school principal or designee, but only in order to further the goal of promoting the pupils' personal welfare and the security of the school.

In all instances where the principal or designee has received information of drug/alcohol involvement on the part of pupils, steps should be taken to advise the pupil that his parents must be notified and consulted about further actions that are appropriate in the particular situation.

Massachusetts Regulations on Restraining Students

The Massachusetts Legislature has enacted regulations regarding the restraint of students (603 CMR 46.00 et seq).

A copy of the Brockton Public School's procedure will be available at the Champion High School main office.

Medications

In every case where a student is required to take medication in school, a parent or guardian shall refer to and follow the regulations regarding the taking of medication in school. In this way students will have no justification for having medication of any kind on their person. Any medication found on a student's person will constitute a violation of the school policies and regulations, with the exceptions of the following prescription medications upon prior approval of the school nurse and with the appropriate physician's orders:

- Students with asthma or other respiratory diseases may possess and self-administer prescription inhalers under the rules for Student Self-Administration of Medication.
- Students with cystic fibrosis may possess and self-administer prescription enzyme supplements under the rules for Student Self-Administration of Medication.
- Students with diabetes may possess and self-administer glucose monitoring tests and an insulin delivery system under the rules for Student Self-Administration of Medication.

The school district will, through the district nurse leader, register with the Department of Public Health and train designated personnel in the use of Epi-pens.

Smoking

The Education Reform Act of 1993, Section 49, Subsection 37H expressly prohibits the use of any tobacco products within school buildings, school facilities or school grounds by any individual. This includes any form of "Vaping" and/or the use of e-cigarettes or JUULs, which are strictly prohibited. Possession of tobacco products (cigarettes, cigars, chewing tobacco, snuff or any other form of tobacco), tobacco related paraphernalia (cigarette lighters, pipes, papers and cigarette holders), or vaping products (vapor liquid or vaporizers, e-cigarettes of any kind or JUULs) on school property will result in the confiscation of the tobacco related item by the Administration or Faculty and these items will not be returned.

School Property

School property (desks, books, etc.) is not to be defaced or vandalized. Any and all surfaces within the school's domain are not to be defaced. This policy will be strictly enforced and restitution for damages will be required. Prosecution will be sought for incidents of vandalism involving a loss of more than two hundred and fifty dollars (\$250.00).

Search of Persons/Property

To safeguard the property and lives of our students, staff and administration, to help prevent the possession, sale and use of illegal drugs on the school premises, and to support the school's prohibition of possessing weapons on the school premises, the Brockton Public Schools reserves the right to search the person and/or property of students, staff and visitors. Therefore, any person entering the premises of our school will be deemed to have conceded to a reasonable search of their person and effects therefore, school administrators and officials may conduct reasonable searches on the school property of lockers, desks, vehicles and personal belongings such as purses, book bags, wallets and satchels with or without probable cause.

Cell Phone/Electronic Device Searches

The search of cell phones or electronic devices for pictures, text messages, video, audio, uploaded and downloaded online materials, pertinent to a specific investigation regarding a violation of Brockton Public Schools policy or procedure is permissible if the search is reasonable in its inception and justified in its scope.

Acceptable searches may include, but are not limited to:

- Video and pictures of assaults and fighting
- Evidence of harassment/intimidation/bullying
- Graffiti/destruction of property
- Possession, use, or distribution of controlled substances, illegal drugs, or alcohol
- Identification of ownership of stolen or lost devices.

If a search of an electronic device is found to contain evidence pertinent to an investigation, the school administration has the sole discretion to hold on to the device, contact the police, or give the device to law enforcement officials.

Use of Surveillance Cameras

The Brockton Public Schools is committed to providing a safe and secure learning environment. The district uses surveillance cameras when necessary in school buildings, buses, and/or on school grounds. The purpose of the surveillance cameras within the school district is to promote discipline, health, welfare and safety of staff and students, as well as that of the general public. Surveillance cameras are only utilized in public areas where there is no reasonable expectation of privacy. Students observed by video surveillance in acts which break school district policy, procedures, or disciplinary guidelines will be subject to the consequences or sanctions imposed for violating those policies, procedures or disciplinary guidelines, which may include criminal charges. Surveillance cameras are monitored by district staff and local law enforcement.

Champion High School Student Discipline

The Brockton Public Schools adheres to the regulations regarding student discipline and access to education that are embodied in Chapter 222 of the Acts of 2012, and made effective July 1, 2014.

BPS Policies and Procedures Regarding Student Discipline

- Require the use of discretion and professional judgment;
- Respect the rights of students and families to due process, including the right to notice, opportunity to be heard before consequences are imposed, and fairness, including consideration of the unique circumstances presented;
- Consider the use of alternatives to suspension;
- Allow students the opportunity to make academic progress during time of suspension;

Overall, BPS practice regarding student discipline seeks to provide a supportive school environment in which students have opportunities to mature and develop into responsible citizens, while respecting the need to maintain a safe and orderly school community.

Due Process for Student Discipline

Eligibility to Participate in School Activities and Events

Extra-curricular activities and events are an important part of the educational experience for our students, but participation in these activities is a privilege, not a right. The variety of clubs, activities and events is extensive and students are encouraged to become involved in one or more of these opportunities.

Participation in clubs and activities at Brockton Public Schools and attending school-sponsored, school-related events is a privilege afforded to students who remain in good standing. To participate in school activities, events and clubs, students are expected to maintain good attendance and demonstrate good behavior and citizenship during school and at school-sponsored events. Eligibility for participation in activities, events, clubs, awards, scholarships and honorary positions at Brockton Public Schools is limited to students who are currently enrolled in and attending Brockton Public Schools in good standing. Students not meeting these expectations may be excluded at the discretion of the Principal or his/her designee. A student's removal from extracurricular activities and attendance at school sponsored events is not subject to the procedural requirements of Massachusetts Laws Chapter 71, § 37H ¾ (Principal's Hearing). The removal is not a suspension for the purpose of counting the school days that a student is suspended. Parents will be notified when a student is removed or excluded from extracurricular activities.

Suspensions

The Brockton Public Schools adheres to the Student Discipline Laws and Regulations as set forth in M.G.L. ch. 71, § 37H, 37H½ and 37H¾ and 603 CMR 53.00 et seq.

In-School Suspension Procedures

A student may be removed from regular classroom activities, but not from the school premises, for up to ten (10) consecutive school days or up to ten (10) school days cumulatively for multiple infractions during the school year. Students who are placed in in-school suspension shall have the opportunity to earn credits, make up assignments, tests, papers, and other school work as needed to make academic progress during the in-school suspension.

A student who is unable to consistently adhere to acceptable classroom standards in a particular class may be removed from the class permanently and assigned to a different class at the discretion of the principal and/or his/her designee.

Notice of In-School Suspension

The principal or his/her designee shall inform the student of the disciplinary offense charged and the basis for the charge, and provide the student with an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident. If the principal or his/her designee determines that the student committed the disciplinary offense, the principal or his/her designee shall inform the student of the length of the student's in-school suspension. If the in-school suspension exceeds ten (10) days, cumulatively or consecutively, in a school year, the student shall have the right to appeal the suspension to the Superintendent or Superintendent's designee.

On the same day as the in-school suspension decision, the principal or his/her designee shall make reasonable efforts to notify the parent orally of the disciplinary offense, the reasons for concluding that the student committed the infraction, and the length of the in-school suspension.

On the day of the suspension, the principal or his/her designee shall send written notice (by hand-delivery, certified mail, first class mail or email) to the student and parent including the reason and the length of the in-school suspension, and inviting the parent to a meeting if the meeting has not already occurred. The notice shall be in English and the primary language of the home if another language is identified in the home language survey, or by other means, as appropriate.

Parent Meeting

The principal or his designee shall also invite the parent to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. Such meeting shall be scheduled on the day of the suspension if possible, and if not, as soon thereafter as possible. If the principal or his/her designee is unable to reach the parent after making and documenting at least (2) attempts to do so, such attempts shall constitute reasonable efforts for purposes of orally informing the parent of the in-school suspension.

No Right to Appeal

The decision of the Principal or his/her designee is the final decision for in-school suspensions not exceeding ten (10) days, consecutively or cumulatively during a school year.

Out-of-School Suspension Procedures Under M.G.L. ch. 71, § 37H^{3/4}

Due Process Procedures for Out-of-School Suspensions

There are two types of out-of-school suspensions, Short-Term Suspensions and Long-Term Suspensions under M.G.L. ch. 71, § 37H^{3/4}. The principal or his/her designee shall determine the extent of the rights to be afforded the student at a disciplinary hearing based on the anticipated consequences for the disciplinary offense. If the consequence may be long-term suspension from school, the principal or his/her designee shall afford the student, additional rights as described below, in addition to those rights afforded to students who may face a short-term suspension from school. All students facing out-of-school suspension shall have the right to oral and written notice, as described below.

Notice for Any Out-of-School Suspension

Prior to suspending a student, the Principal or his/her designee will provide the student and the Parent oral and written notice of the possible suspension, an opportunity for the student to have a hearing and the opportunity of the Parent(s) to participate in the hearing. The notice will be in English and in the primary language of the home if other than English as identified in the home language survey, or by other means of communication where appropriate.

The notice will set forth in plain language:

- (a) the disciplinary offense;
- (b) the basis for the charge;
- (c) the potential consequences, including the potential length of the student's suspension;
- (d) the opportunity for the student to have a hearing with the principal or his designee concerning the proposed suspension, including the opportunity to dispute the charges and to present the student's explanation of the alleged incident, and for the parent to attend the hearing;
- (e) the date, time, and location of the hearing;
- (f) the right of the student and the student's parent to interpreter services at the hearing if needed to participate;
- (g) if the student may be placed on long-term suspension following the hearing with the principal:
 1. the rights set forth in 603 CMR 53.08(3)(b); and
 2. the right to appeal the principal's decision to the superintendent.

The principal or his/her designee shall make reasonable efforts to notify the parent orally of the opportunity to attend the hearing. Prior to conducting a hearing without the parent present, the principal or his/her designee will document reasonable efforts to include the parent. The principal or his/her designee is presumed to have made reasonable efforts if the principal or his/her designee has sent written notice and has documented at least two (2) attempts to contact the parent in the manner specified by the parent for emergency notification.

Written notice to the parent may be made by hand delivery, first-class mail, certified mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the principal and parent.

Emergency Removal of Student

Under certain emergency circumstances, it may not be practical for the principal or his/her designee to provide prior oral and written notice before removing a student from school. The principal or his/her designee may remove a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the principal's (or his/her designee's) judgment, there is no alternative available to alleviate the danger or disruption. The principal or his/her designee will immediately notify the superintendent in writing of the removal and the reason for it, and describe the danger presented by the student. The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the principal shall:

- (a) Make immediate and reasonable efforts to orally notify the student and the student's parent of the emergency removal, the reason for the need for emergency removal, the disciplinary offense, the basis for the charge, the potential consequences, including potential length of suspension, the opportunity for a hearing including the date/time/location of the hearing, the right to interpreter services, and other rights permitted for students who may be placed on long-term suspension as set forth in 603 CMR. 53.08(3)(b);
- (b) Provide written notice to the student and parent, including the information described in 603 CMR 53.06(2);
- (c) Provide the student an opportunity for a hearing with the principal or his/her designee that complies with 603 CMR 53.08(2) or 53.08(3), as applicable, and the parent an opportunity to attend the hearing, before the expiration of the two (2) school days, unless an extension of time for hearing is otherwise agreed to by the principal, student, and parent.
- (d) Render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of 603 CMR 53.08(2)(c) and 53.08(2)(d) or 603 CMR 53.08(3)(c) and 53.08(3)(d), as applicable.

A principal will not remove a student from school on an emergency basis for a disciplinary offense until adequate provisions have been made for the student's safety and transportation.

Short-Term Suspension Procedures Under M.G.L. ch. 71, § 37H^{3/4}

A Short-Term Suspension is the removal of a student from the school premises and regular classroom activities for ten (10) consecutive school days or less. The principal, or his/her designee, may, in his or her discretion, allow a student to serve a short-term suspension in school. Any student facing a potential short-term suspension is entitled to a hearing with the Principal or his/her designee with the following process:

Principal Hearing - Short-term Suspension

- (a) The purpose of the hearing with the principal or his/her designee is to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction. At a minimum, the principal or his/her designee shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information. The student also shall have an opportunity to present information, including mitigating facts that the principal or his/her designee should consider in determining whether other remedies and consequences may be appropriate as alternatives to suspension. The principal or his/her designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the principal should consider in determining consequences for the student.
- (b) Based on the available information, including mitigating circumstances, the principal or his/her designee shall determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.
- (c) The principal or his/her designee shall notify the student and parent of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as provided in 603 CMR 53.13(1). The determination shall be in writing and may be in the form of an update to the original written notice.

- (d) If the student is in a public preschool program or in grades K through 3, the principal shall send a copy of the written determination to the superintendent and explain the reasons for imposing an out-of-school suspension, before the short-term suspension takes effect.

No Right to Appeal

The decision of the Principal or his/her designee is the final decision for short-term out-of-school suspensions not exceeding ten (10) days, consecutively or cumulatively during a school year.

Long-Term Suspension Procedures Under M.G.L. ch. 71, § 37H¾

A Long-Term Suspension is the removal of a student from the school premises and regular classroom activities for more than ten (10) consecutive school days, or for more than ten (10) school days cumulatively for multiple disciplinary offenses in any school year. No long-term suspension under M.G.L. ch. 71, § 37H¾ shall extend beyond the end of the school year in which such suspension is imposed. Any student facing a potential long-term suspension is entitled to a hearing with the Principal or his/her designee with the following process

Principal Hearing - Long-term Suspension

- (a) The purpose of the hearing with the principal or his/her designee is to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction. At a minimum, the principal or his/her designee shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information. The student also shall have an opportunity to present information, including mitigating facts, that the principal should consider in determining whether other remedies and consequences may be appropriate as alternatives to suspension. The principal or his/her designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the principal should consider in determining consequences for the student.
- (b) In addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following additional rights:
1. In advance of the hearing, the opportunity to review the student's record and the documents upon which the principal may rely in making a determination to suspend the student or not;
 2. the right to be represented by counsel or a lay person of the student's choice, at the student's/parent's expense;

- (c) The principal or his/her designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the principal should consider in determining consequences for the student.
- (d) Based on the evidence, the principal or his/her designee shall determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The principal or his/her designee shall send the written determination to the student and parent by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the principal and the parent. If the principal or his/her designee decides to suspend the student, the written determination shall:
1. Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing;
 2. Set out the key facts and conclusions reached by the principal;
 3. Identify the length and effective date of the suspension, as well as a date of return to school;
 4. Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school;

5. Inform the student of the right to appeal the principal's decision to the superintendent or designee, but only if the principal has imposed a long-term suspension.  - b) If the student is in a public preschool program or in grades K through 3, the principal shall send a copy of the written determination to the superintendent and explain the reasons for imposing an out-of-school suspension, before the suspension takes effect.

- 2) The student or parent shall file a notice of appeal with the superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent may request and receive from the superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days. If the appeal is not timely filed, the superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.
- 3) The superintendent shall hold the hearing within three (3) school days of the student's request, unless the student or parent requests an extension of up to seven (7) additional calendar days, in which case the superintendent shall grant the extension.

The superintendent shall send written notice to the parent of the date, time, and location of the hearing.
- 5) The superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The superintendent shall arrange for an audio recording of the hearing, a copy of which shall be provided to the student or parent upon request. The superintendent shall inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent upon request.
- 6) The student shall have all the rights afforded the student at the principal's hearing for long-term suspension.
- 7) The superintendent shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of 603 CMR 53.08(3)(c)1 through 5. - 8) The decision of the superintendent shall be the final decision of the school district, with regard to the suspension.

A parent conference (re-entry meeting) with the Principal or his/her designee is strongly encouraged before students who are suspended return to school. This conference will be used to promote the engagement of the parents or guardians in discussions of the student's misconduct and to assist the student in re-engaging with the school community.

Code of Conduct Provisions for Students with Disabilities

Procedures for Suspension(s) not Exceeding 10 School Days

- Any student with a disability may be suspended for up to ten (10) school days during a school year. Disciplinary decisions are the same as for students without disabilities and in accordance with the due process procedures in this handbook.
- The school provides additional procedural safeguards for students with disabilities prior to any suspension beyond 10 consecutive days or more than 10 cumulative days (if there is a pattern of suspension) in any school year.

Procedures for Suspension(s) Exceeding 10 School Days

- If your child is suspended for more than 10 school days in a school year, this removal is considered a “change of placement”. A change of placement invokes certain procedural protections under federal special education law and Section 504.
- Prior to any removal that constitutes a change of placement, the school may convene a team meeting to develop a plan for conducting a functional behavioral assessment (FBA) that will be used as the basis for developing specific strategies to address your child’s problematic behavior.
- Prior to any removal that constitutes a change in placement, the school must inform you that the law requires the school district consider whether or not the behavior that forms the basis of the disciplinary action is related to your child’s disability. This consideration is called a “manifestation determination”. Parents have a right to participate in this process. All relevant information will be considered including the IEP or Section 504 Plan, teacher observations, and evaluations reports.
- At a manifestation determination meeting, the Team will consider:
 - Did the student’s disability cause or have a direct and substantial relationship to the conduct in question?
 - Was the conduct a direct result of the district’s failure to implement the IEP?
- If the manifestation determination decision is that the disciplinary action *was* related to the disability, then your child may not be removed from the current educational placement (unless under the special circumstances or parents agree). The Team will review the IEP or Section 504 Plan and any behavioral intervention plans and may amend those plans as appropriate. The Team will complete a functional behavior assessment and behavior intervention plan if it has not already done so.
- If the manifestation determination decision is that the disciplinary action *was not* related to the disability, then the school may suspend or otherwise discipline your child according the school’s code of conduct. The Team may, as appropriate, complete a functional behavioral assessment and behavioral intervention services and modification, to address the behavior so that it does not recur. For students with IEPs, during the period of time of removal from school that exceeds 10 school days, the school district must provide educational services that allow your child to continue to make educational progress. For students with Section 504 Plans, there is no automatic right to receive educational services beyond the 10th school day of suspension under federal law, however, state law does provide all students with the rights to receive educational services during periods of suspensions lasting longer than ten days.

Special Circumstances for Exclusion

Special circumstances exist if your child: possesses, uses, sells or solicits illegal drugs on school grounds or at a school-sponsored event; carries a weapon to school or a school-sponsored event; or inflicts serious bodily harm upon another person at school or a school-sponsored event. Under these circumstances, the principal may place your child in an interim alternate educational setting (IAES) for up to 45 school days. Your child may remain in this IAES for a period of time not to exceed 45 school days. Thereafter, your child will return to the previously agreed-upon placement unless a hearing officer has ordered another placement, or you and the school agree to another placement. For students with Section 504 Plans, there is no automatic right to receive educational services beyond the 10th school day of suspension under federal law, however, state law does provide all students with the rights to receive educational services during periods of suspensions lasting longer than ten days.

School personnel will provide Parent's Notice of Procedural Safeguards (Special Education) or Notice of Parent and Student Rights Under Section 504 for students with disabilities prior to any suspension exceeding 10 school days in one school year. These notices will provide an explanation of the process should there be disagreement regarding the manifestation determination or any placement decision. Parent, guardian and/or student may petition Bureau of Special Education Appeals for a hearing or the Office for Civil Rights (Section 504).

Procedural Requirements Applied to Students Not Yet Determined to Be Eligible for Special Education or a 504 Plan

1. If, prior to the disciplinary action, a district had knowledge that the student may be a student with a disability, then the district makes all protections available to the student until and unless the student is subsequently determined not to be eligible. The district may be considered to have prior knowledge if:
 - a. The parent had expressed concern in writing; or
 - b. The parent had requested an evaluation; or specific concerns about a pattern of behavior demonstrated by the student. The district may not be considered to have had prior knowledge if the parent has not consented to evaluation of the student or has refused special education services, or if an evaluation of the student has resulted in a determination of ineligibility.
2. If the district had no reason to consider the student disabled, and the parent requests an evaluation subsequent to the disciplinary action, the district must have procedures consistent with federal requirements to conduct an expedited evaluation to determine eligibility.
3. If the student is found eligible for an IEP or 504 Plan, then one receives all procedural protections subsequent to the finding of eligibility.

Disciplinary Action

Champion High School's rules of conduct are created to encourage, support, and promote a safe atmosphere for learning. The following are infractions of school rules. Athletics and Extracurricular Activities

Generally

Participation in clubs and activities at Champion High School and attending school- sponsored, school-related events is a privilege afforded to students who remain in good standing. To participate in school activities, events and clubs, students are expected to maintain good attendance and good grades and demonstrate good behavior and citizenship during school and at school-sponsored events. Eligibility for participation in activities, events, clubs, awards, scholarships and honorary positions at Champion High School is limited to students who are currently enrolled in and attending Champion High School in good standing. Students not meeting these expectations may be excluded at the discretion of the Principal or his designee.

Team Sports

The Champion High School considers the development of the physical and mental growth of each individual athlete of paramount importance. Consequently, the athletic program of The Champion High School is open to all students who are enrolled, and who meet the school's eligibility requirements. The purpose of the Champion High School Athletic Program is to provide a successful, efficient, balanced program of athletics, giving full consideration to the fundamentals of student's health, to emotional and personality growth of the student, and to good sportsmanship in the schools and community. Students must demonstrate good citizenship in order to be able and eligible to participate. The final decision will be made by the Coach and the Principal.

The athletic programs should provide additional experiences that may not be fostered in the normal classroom setting. Participation in a sport is an opportunity for all students enrolled at the Champion High School. It can also be a positive way to motivate students to complete academic assignments and improve attendance. Because the season is short, it is necessary to look at academic progress and attendance on a weekly basis and provide an accountability strategy that provides motivation to the student athlete.

Attendance and Academic Policy for Team Sports

Students who have no credit in a subject, incomplete assignment or attendance that falls below the requirements outlined in the Champion High School Attendance Policy will not be allowed to practice or play in a game. Additionally, all students must be in attendance on the day of a game or practice. This policy and procedure is developed to provide students with a manageable way to complete assignments in a timely manner and provide an accountability plan for participating in team practices and games. Student(s) on an Academic Plan are required to provide the Coach with a signed note from their teacher(s) indicating that they are complying or completed with their academic plan. Students on suspension are not allowed to practice or participate in any games and could be terminated from the team for the remainder of the season.

All students and staff are guaranteed the right of due process, and the student accused of a violation will be notified of the violation and be afforded the opportunity to present one's version of the alleged violation. All students have a right to an education and to the equality of educational opportunity.

Freedom of speech is guaranteed to all citizens, and students are allowed to exercise their constitutionally protected rights of free speech, petition, and assembly as long as they do not substantially disrupt the educational process at Champion High School, or create a hostile environment for other students or members of the school community.

- a. Students have a right to wear political buttons, armbands and other badges of symbolic expression, provided the material is not obscene, libelous, espousing prejudicial views or creating a hostile environment for other students or members of the school community.
- b. Students may form political and social organizations. These organizations, however, must be open to all students and must abide by Board of Education policies as developed in guidelines established by the student government acting in concert with the principal. These organizations shall have reasonable access to school facilities.
- c. School newspapers, yearbooks, literary magazines and other publications are guaranteed the right of freedom of the press, subject to the existing laws of libel and obscenity. The staffs will have qualified advisers and seek the highest publication standards. Other non-school sponsored student publications should be subjected to locally determined procedures for distribution on school premises.

Student Record

The Family Educational Rights and Privacy Act (FERPA) is a federal law that provides two basic rights to parents with regard to student records.

1. The right to inspect and review their child's education records
2. The right to prevent unauthorized persons from seeing the same records

The Commonwealth's student record regulations are designed to ensure parents and students the right to confidentiality, inspection, amendment and destruction of student records, and to assist school authorities in carrying out their responsibilities under state and federal law. To request records, please send a written request to your child's school and/or to the Student Support Services department.

A student's record is any information that is kept about the student in school (examples: grades, test scores, attendance). It is made up of the "transcript" (name, address, courses taken, credits, and grades) and the "temporary record" (progress reports, test scores, class rank, extracurricular activities and any other relevant education information). M.G.L. ch. 71, § 34H specifies detailed procedures that govern access to student records by parents who do not have physical custody of their children. For more information, please contact the school principal.

For students in the ninth grade or higher or 14 years old or older, the rights below belong to the students and their parents or guardian. For students 18 years old or older, the rights below belong to the students alone if they request in writing that only they, and not their parents or guardians, should have these rights.

For students under 14 or not yet in the ninth grade, the rights below belong only to their parents or guardians.

- a. Seeing a student's records - Parents or guardians have the right to see and have copies made of all materials in the record within ten days of the request. The school may not charge more than the cost of the copies.
- b. Privacy of a student's records – Authorized school personnel who work directly with a student have access to a student's records when it is necessary to perform their duties. With very few exceptions, no one else may see these records without the written permission of a student/parent or guardian. Destroying a student's records - The school system must keep a student's transcript for at least 60 years after the student leaves the school system. Temporary records must be destroyed within seven years after the student leaves the system. Before any records are destroyed, the student/parent or guardian must be given notice and an opportunity to get a copy.
- c. Amending a Student's Record and Appealing it - A student/parent or guardian may add any relevant written material to the student's record. If there is information in the record that the student/parent or guardian feels is inaccurate, misleading, or irrelevant and the student wants it removed, the student may ask the Principal to remove it. If the request is denied, or if the student has any other objections to the school records policy, there is an appeals process. Information about the appeals process will be supplied by the guidance office.
- d. Notice is given that, under Massachusetts law, Brockton schools will allow access to student records to authorized school personnel of the school to which a student seeks to transfer (603 CMR 23.00)
- e. National Student Clearinghouse Data – Brockton High School provides information to the National Student Clearinghouse for the purposes of tracking college enrollment verification. The information provided is in compliance with FERPA laws. However, parents/students may opt-out of providing information to this organization. Opt-out requests must be submitted to the student's Principal in writing.

Special Education Student Records

State regulations have been adopted regarding the retention and destruction of student records, including special education records. It is the policy of the Brockton Public Schools to comply with all state and federal statutes and regulations regarding student records. Special education records are considered by state regulation to be part of a student's temporary record. The temporary record contains the majority of the information maintained by the school about the student. The information may include such things as standardized test results, class rank, Individualized Educational Programs (IEP's), student progress reports, assessment/evaluation reports, extracurricular activities, and comments by teachers, counselors and other school staff. By state regulation, the temporary record must be kept by the school district for a period not exceeding seven (7) years after the student graduates, transfers or withdraws from the district. Before the records are destroyed, the parent and student will be notified and have an opportunity to receive a copy of any information before its destruction.

Age of Majority

The student, upon reaching the age of majority and in the absence of any court actions to the contrary, may choose to make his/her own decisions. Such a choice is made in the presence of at least one representative of the school and one other witness, and is documented in written form and maintained in the student record.

If the parent has sought and received guardianship from a court of competent jurisdiction, then the parent retains full decision-making authority. The parent does not have authority to override any decision made by the student who has reached the age of majority unless the parent has sought and received guardianship or other legal authority from a court of competent jurisdiction.

Students with IEP's, upon reaching the age of majority and in the absence of any court actions to the contrary, may choose to share decision making with his or her parent (or other willing adult), including allowing the parent to co-sign the IEP. Such a choice is made in the presence of the Special Education team and is documented in written form. The student's choice prevails at any time that a disagreement occurs between the adult student and the parent or other adult with whom the student has shared decision-making.

EPA Warnings & Notification

AHERA 40 CFR 763.1 11

The Brockton School Department as a local education agency (LEA), has posted in the primary administrative and custodial offices and in the faculty common rooms of each school under its authority, a completed copy of a Notice to School Employees which indicates that the school has been inspected and has friable asbestos containing materials in it. This posted notice shall remain in place indefinitely in all schools that have friable asbestos containing material.

AHERA regulations, to wit, 40 CFR Part 763, "to protect users of school buildings from unwitting exposure to concentrations of airborne asbestos which occurs when friable asbestos containing materials are damaged or disturbed. Compliance with this rule will both ensure that these materials are identified, and that the school users are notified of their presence so that they can prevent or reduce release of asbestos."

All Brockton Public Schools were inspected for friable and non-friable asbestos containing materials in late 1988, in response to the EPA Asbestos Hazard Emergency Response Act (400 CFR 763m AHERA, 1987). As a result of information obtained from the inspections of each school, a Management Plan was developed in February of 1989 to manage the asbestos in the school in a manner that protects human health and the environment. This plan contains the locations, by room or building area, of all friable and non-friable asbestos containing materials, sample results and an estimate of the percent of asbestos content. In each school a Management Plan is available for public inspection in the Principal's Office and at the Office of the Director of Facilities for the Brockton Public Schools.

In each school a Management Plan is available for public inspection in the Principal's Office and at the Office of the Director of Facilities for the Brockton Public Schools. Copies of the Management Plan are available upon written request, with a nominal fee for the cost of reproduction of the document(s).
