Students will be guided through stretching methods and workouts focused on building strength, confidence, endurance and energy, as well as conditioning for sports and general wellness. We will do indoor and outdoor bodyweight-based workouts, running, sprinting, and build up to resistance training using resistance bands. The goal for this group is to encourage self-confidence, healthy activity, increase the student's energy levels to support all the other activities in their lives, and help them learn more about the benefits of fitness.
