The Oregon Legislature passed and the Governor signed the \$2 billion Student Success Act (HB 3427). This is an historic and much needed investment in K-12 schools. The Beaverton School District could be able to access an estimated \$34 million per year through a state application process.

School districts are required to apply for funds and must engage their community in a needs assessment process prior to the application for funds. All Beaverton Schools will be engaging their communities in these conversations during September and October.
