

# Choice Board Activities

*Queridos Estudiantes,*

Please **save a copy** of this Power Point to be able to edit it. Save it as "Vernano de -> (your name)"

The following slides contain **choices** for you to continue practicing Spanish. **Please complete at least 5 out of the 8 choices for full credit.**

You can use the digital tools we have at school and follow the instructions on each slide.

You can also **choose** a different way to watch, read, listen, speak, study grammar, learn vocabulary or connect with the Hispanic Culture.

If you choose a different activity, just duplicate the slide, keep the title and add your own content.

Look at the standard on the right and think of creative ways to show how you can use Spanish for personal enjoyment and enrichment.

Students show evidence of becoming lifelong learners by using the language for personal enjoyment and enrichment.

\* Each day millions of Americans spend leisure time reading, listening to music, viewing films and television programs, and interacting with each other. By developing a certain level of comfort with their new language, students can use these skills to access information as they continue to learn throughout their lives. Students who study a language can use their skills to further enrich their personal lives by accessing various entertainment and information sources available to speakers of the language. Some students may have the opportunity to travel to communities and countries where the language is used extensively and, through this experience, further develop their language skills and understanding of the culture.

# CHOICE BOARD

## Mirar

WATCH

Watch something in Spanish and complete the assigned activity

## Leer

READ

Complete the reading activities from *Garbanzo*

## Escuchar

LISTEN

Listen to audio clips in Spanish and complete the accompanying comprehension questions.
