Food Sales Other than National School Lunch Program

The Superintendent of Schools or his/her designee shall establish such administrative procedures to control food sales which compete with the District's non-profit food service in compliance with federal and state statutes and regulations.

Specifically, the food service program shall restrict the sale of foods of minimal nutritional value as defined by the U.S. Department of Agriculture, Connecticut State regulations and State Department of Education annual nutrition standards in the food service areas during the meal periods, in compliance with the timeframes and criteria meeting federal and state regulations.

The District shall make available for purchase by students nutritious and low-fat foods which shall include, but shall not be limited to, low-fat dairy products and fresh or dried fruit at all times when food is available for purchase during the regular school day in schools.

The sale of beverages to students from any source during the school day, including, but not limited to, school stores, vending machines, school cafeterias and any fund-raising activities on school grounds, whether or not school-sponsored, shall be restricted to milk, non-dairy drinks such as soy or rice milk, 100% fruit juices, vegetable juices or combination of such juices, beverages that contain only water or vegetable juice and water. All allowed beverages must fulfill the requirements specified in Connecticut statute and federal regulations regarding artificial sweeteners, flavoring, caffeine and portion size.
