Office Services/Records and Reports

Electronic Communications Use and Retention

This policy applies to the retention, storage, and destruction of electronic information and records within the District and does not supersede any state or federal laws, or any other District policies regarding confidentiality, information dissemination, or standards of conduct. Generally, electronic information should be used only for legitimate District business; however, brief and occasional e-mail messages may be sent and received pursuant to policy 4118.4 and policy 4118.5.

Electronic communications is transmittal of a communication between two or more computers or electronic devices, whether or not the message is converted to hard copy format, whether or not the message is viewed upon receipt or stored for later retrieval, and whether or not the transmittal is through a local, district or global computer network.

Electronic communications, including records made with other software and sent in e-mail, which are sent or received by the Milford Board of Education (Board) or District employees pertaining to the business of the schools may be subject to public disclosure and inspection as public records under the Connecticut Freedom of Information Act and discovery in litigation as evidence in support of a claim. The Superintendent or his/her designee shall be responsible for implementing procedures concerning the placing of a "hold" on electronic and paper records that may reasonably be anticipated to be subject of discovery in the course of litigation.

Use of electronic mail should conform to the same standards of judgment, propriety and ethics as other forms of school business-related communications.

The District is obligated to respect and, where necessary, to protect confidential data. The Board recognizes technical and legal limitations may restrict the District's ability to protect confidentiality. Electronic communication is recognized as similar to a paper document for legal purposes. The Board understands it may be legally compelled to disclose electronic information including business or personal use of e-mail to community members in accordance with the Freedom of Information Act. Such information will be disclosed to governmental authorities or, in the context of litigation, to other third parties. E-mail may also contain information that should be retained in the official records of the District.

Section: Business/Non-Instructional Operations

Subject: Electronic Communications Use and Retention

P3543.31

Electronic communication on District computers or electronic communication systems shall be retained only as long as necessary. The same record retention policy that applies to paper records applies to electronically stored information, including e-mail communications. Therefore, like paper records, the content and function of an electronic record, including e-mail communications, determines the retention period for that document and will be retained in accordance with the Management and Retention Guide for State and Municipal Government Agencies (General Letter 98-1) administered by the Connecticut State Library, Public Records Administrator.

In addition to the District's retention guidelines, all District employees have a duty to preserve all paper records and electronic information, including records and electronic information that might otherwise be deleted or destroyed, that relate to any matter that is currently in litigation or may be anticipated to involve litigation. The Superintendent or his/her designee shall develop procedures to preserve such records and electronically stored information that could potentially be related to any matter currently in litigation or which may be anticipated to result in future litigation.

The responsible authority for the maintenance and security of records shall be the Superintendent of Schools or his/her designee. The Superintendent shall designate a Records Custodian who will be responsible for implementation of District policies and administrative regulations pertaining to the preservation of paper records and electronically stored information, including e-mails and to respond to requests to inspect electronic mail pursuant to the Freedom of Information Act.

When security of certain financial, student, and other confidential information must be maintained, employees shall take appropriate security measures such as the use of personal identification passwords and/or encryption codes. Employees shall safeguard the confidentiality of passwords and codes and shall take reasonable steps to insure that computer terminals do not become available for unauthorized use.

Users are responsible for appropriate access to and use of electronic mail systems. Illegal or improper use of the electronic mail systems, including, but not limited to, pornography, obscenity, harassment, solicitation, gambling and violating copyright or intellectual property rights are prohibited.

Use of the electronic mail systems for which the District will incur an expense without written permission of a supervisor is prohibited.

Violation of this policy shall constitute just cause for appropriate disciplinary action.
