

Autodesk Certified User in AutoCAD

Autodesk Certified Professional in AutoCAD

INDUSTRY-BASED CERTIFICATION DESCRIPTION

An Autodesk AutoCAD Certified User will demonstrate competency in computer-aided design (CAD). The exam covers the basic use of the AutoCAD software as well as basic drafting and design techniques.

Individuals who would like to earn an Autodesk AutoCAD certification will show demonstrated mastery in drawing objects with accuracy, modifying objects, using additional drawing techniques, and organizing objects. In addition, students should know how to reuse existing content, annotate drawings, complete layouts and printing and apply basic drawing skills.
