

The Great Clay Adventure 9 Week Program.

College Sculpture Professor and Chapman Hills Mom Cybele Rowe will be teaching ceramic sculpture at Linda Vista. As an internationally exhibiting sculptor she knows how to bring out the artist in your child. Each week your child will build and glaze their sculpture and receive their fired work back the next week. Cybele was OC Weekly Magazine People of 2015 because of her contribution to the After School Enrichment Program. Google her and see your child will be learning from the best, no student or substitute teacher ever.
