EXPLORING EDUCATIONAL EXPERIENCES

At the Y, we believe the values and skills learned early on are vital building blocks for quality of life and future success. That's why our before and after-school programs are staffed with people who understand the cognitive, physical and social development of kids, the need children have to feel connected and supported in trying new things and the caring and reinforcement parents and families need to help each other. At the Y, school-age kids make friends, play and have fun, learn new skills and get help with their homework. Most importantly, they learn how to be their best selves. That makes for confident kids today, and contributing and engaged adults tomorrow.
