### When is the health information due for my child(ren)?

Completed health information for all students is due on or before **JULY 25**.

Returning students who already have a valid physical on file with the school, do not need to re-submit this and will not have to submit an updated physical until the anniversary of the current physical.

Magnus Health will clearly list all the required information for each of your students, together with the status of each item.

### Why are there still some paper forms that we need to submit?

Wherever possible we have tried to replace paper forms, with the ability to enter information online, but if a form requires a physician's signature it must be printed out and completed, and then uploaded to your account.

### How do I submit or upload my child's physical or other paper forms?

You can either:

- Upload your form as either a pdf file or picture ([how to upload a file or picture](#))
- Mail or fax your form ([how to print the cover sheet](#))

### How do I change an answer?
