Saint Mary's Hall Tuition Assistance Philosophy

The Saint Mary's Hall (SMH) Grant program has a two-fold purpose: to provide qualified students an opportunity for a unique and valuable education experience regardless of their ability to pay, as well as to increase the diversity of our student body. Our tuition assistance funds are used to enable qualified students who broaden our diversity (academic, artistic, athletic, cultural, ethnic, geographic, racial, socioeconomic, etc.) to attend despite financial obstacles. Furthermore, no athletic or fine arts scholarships are awarded under the umbrella of tuition assistance.

Application to Determine Financial Need

SMH tuition assistance is granted based only on financial need. The school uses an application process provided by an independent service to establish each family's unique need. Based on information each family provides, Financial Assistance for School Tuition (referred to as FAST) issues a report that the school uses as a guideline to allocate limited resources. The report does not bind SMH to any specific award. To be considered for aid, a student must be entering Form 1 or higher and be admissible or have been accepted based on academic merit.

Documentation Required for Tuition Assistance Application

A complete tuition assistance application package requires a variety of documentation to support a determination of financial need:

Copies of Tax Returns

Current Wage & Tax Statements (IRS Form W-2)

Bank Statements (if requested)

Other financial documentation (if requested)

Evaluation by the SMH Grant Committee

The school's Grant Committee is comprised of the Head of Admission and Enrollment Management, Associate Head of Admission and Enrollment Management, Chief Financial Officer, and Head of School. The committee reviews all applications for tuition assistance and allocates the school's resources in a balanced, informed manner. This method puts a human touch on the assistance process and provides the opportunity to consider the unique differences between individuals.

Notice of Award and Tuition Assistance Agreements

Parents are notified of tuition assistance awards by letter and may accept the award by completing the Enrollment Agreement and Statement of Intent, which verifies the family's commitment to meet the remaining tuition payment obligation.

Tuition Assistance Awards Apply Only to a Single Year

There are no multi-year tuition assistance awards. Awards are considered independently each year as part of the reenrollment process. Factors that affect tuition assistance consideration constantly change, such as individual family financial conditions, changing student population, and the amount of available grant resources.

Returning Students May Initiate First-Time Requests for Assistance

Because circumstances do change, families may apply for tuition assistance in any enrollment year, regardless of their application status in any previous year. The application receives the same consideration. A tuition assistance award is not guaranteed, but the committee will make every effort to make it financially possible for a student to remain at SMH.

Confidentiality

All applications for tuition assistance are held in the strictest confidence and only members of the Grant Committee have access to records. All tuition assistance awards are confidential agreements between the recipient family and Saint Mary's Hall. *Because we take confidentiality very seriously, we expect families receiving awards to do the same.*

Marital Status and Parental Financial Responsibility

It is the position of SMH that separated or divorced parents retain their individual and collective obligation to finance their child's SMH education. Financial awards consider the FAST application of both parents. The Grant Committee appropriately considers related issues of remarriage and step-parent obligations to other children. The school is not bound by agreements or settlements that might otherwise exist between individual parents.

The Head of Admission and Enrollment Management may waive the requirement of financial information from the non-custodial parent when the non-custodial parent has given no financial support to the student, has made no contact with the student, or the non-custodial parent's whereabouts are unknown.

Non-Working Parent – Effect on Tuition Assistance Calculation

The Grant Committee considers the circumstances of a non-working parent and may attach a minimum income value to the non-working parent. Circumstances the Grant Committee may consider include pre-school-age children and burdens of caring for disabled or critically ill family members.

Appeals

Appeals must be made in writing to the Grant Committee once grants have been awarded. Appeals should provide sufficient detail about the family's financial circumstances that might render the grant amount insufficient and should include a revised amount requested. Personal account information, medical bills, and other information may be included in the appeal or requested by the Grant Committee to make a final decision on the award.

Requirement to be in Good Financial Standing with SMH

Families applying for tuition assistance must be in good financial standing with the school. In the event that an account becomes delinquent, the family is not eligible to receive further tuition assistance until the balance has either been paid in full or a payment plan has been approved by the Chief Financial Officer. If the applicant is not in good standing with the school when grants are being awarded, the Business Office will send a letter informing the family they will not qualify for a grant until the existing balance has been rectified.

Tuition Payment Plans

SMH offers all families three payment plan options:

- a. Single Payment (due by July 1st)
- b. Two-Payments
(50% due July 1st; 50% due December 1st; 6% interest on balance; Tuition Refund Plan required)
- c. Ten-Payments
(10 equal payments; auto bank draft; 6% interest on balance; Tuition Refund Plan required)

Tuition Refund Plan

Families are contractually obligated to pay the full tuition amount required by the enrollment agreement even if students leave the school before the year is complete. Partial protection against unanticipated circumstances is available through the school's Tuition Refund Plan for a fee. Please read and understand the terms of the Tuition Refund Plan before the plan is purchased or the enrollment agreement is completed.

Merit Scholarships

For information about merit scholarships, please visit our website at www.smhall.org.

*For detailed information regarding tuition payment plans or the tuition refund plan, please contact Sandy Martin, Accounts Receivable Administrator, at (210) 483-9240 or smartin@smhall.org.
