

CHARTIERS VALLEY

SCHOOL DISTRICT

 | *Inspiring excellence.*

Dear Parent/Guardian,

This past spring, Chartiers Valley students participated in the annual Keystone Exams. The Pennsylvania Department of Education requires all school districts to participate in these assessments. The Keystone Exams are end-of-course assessments designed to assess student learning in Algebra 1, Literature, and Biology. These assessments provide students, parents, educators, and citizens with valuable information on student learning in comparison to the Pennsylvania State Standards for learning.

Your student's scores will be used to assist teachers in designing instruction that aligns with their academic needs. Please take the time to review your student's scores with him/her and identify both the strengths and opportunities for improvement. By reinforcing the value of education with your child, you are supporting Chartiers Valley School District's mission for students to achieve personal success by providing an exceptional academic foundation.

For more information about the Keystone Exams, or about the assessments provided to your student, please visit the district website academic and assessment sections, or contact your student's teacher(s), guidance counselor, or building principal.

Thank you for your ongoing support,

Misty L. Slavic
Assistant Superintendent of Curriculum and Assessment
