

Physician's written order and parent/guardian authorization for administration of medication/medical procedures

Dear Parent or Guardian,

The attached is a Physician's Order and Parent Authorization form that you receive from us yearly prior to start of school. State law requires a physician's written order and parent/guardian authorization for the administration of medication/medical procedures at school. We want to make you aware that this form is also available online at the school website.

We have placed this form on our school website so that if you are given a new prescription during the year, or forgot to bring the form with you when it is time for renewal, you or your physician's office can print it by accessing the following link:

<http://www.wyandotte.org/parents-and-community/health--safety/health-forms/medication-forms/>

This form is completed by the physician and requires both a physician and parent signature.

The form only needs to be completed if your son or daughter is a student that needs to take medicine (including over the counter) or requires a medical procedure at school. If you have already submitted the form for the 2013-2014 school year; you do not need to submit another one unless there are additions or changes to it.

We hope having online access to the form will help make the process more convenient for parents/guardians and physicians. If you have any questions please feel free to contact our school nurse, Laura Shonk RN at 734-759-6336.
