

HOLMDEL TOWNSHIP SCHOOLS

August 20, 2019

Dear Holmdel Township School Community,

It is an honor and a privilege to introduce myself to you as the new Supervisor of Special Services for the Holmdel Township School District. I come to you with unique experiences and knowledge to contribute, and with an eagerness to learn from each of you throughout our partnership.

As a graduate of The College of New Jersey, I have obtained a Masters of Arts in Teaching in Elementary and Special Education K-12, and a Masters in Educational Leadership. My teaching experience spans elementary through age 21, and envelopes Self-contained Autism/MD, Inclusion and Replacement programming. Additionally, I have had the pleasure to serve as a Transition Coordinator, Extended School Year Coordinator and Interim High School Supervisor of Special Services.

My philosophy of Education surrounds inclusive opportunities for all students, as well as preparing students for a successful adult life. I am prepared to work alongside Holmdel Township's knowledgeable faculty, staff and administration to continue the forward-thinking work that is already being done within our programs. I intend to partner with our wide array of experts to enhance practice, and empower both staff and students to take ownership of and further their learning.

I believe that open communication and collaboration are the keys to the success of our students, particularly our learners with unique and special needs. I am grateful for this opportunity and look forward to working alongside each of you. My office is located at Holmdel High School (Seminar J). Please know that my door is always open, and I am committed to supporting you as you teach and inspire our learners.

Enjoy the rest of your summer!

Emily Wright
