**Introductory Section** 

### La Porte Independent School District

1002 San Jacinto Street La Porte, Texas 77571 Lloyd W. Graham
Superintendent of Schools

(281) 604-7001 Fax (281) 604-7010 www.lpisd.org

November 14, 2017

Ms. Dee Anne Thomson, President, Members of the Board of Trustees, and Citizens of the La Porte Independent School District

Dear Members of the Board of Trustees and Citizens:

The Texas Education Code requires that all school districts file a complete set of financial statements with the Texas Education Agency (TEA) within 150 days of the close of each fiscal year. The financial statements must be presented in conformity with generally accepted accounting principles (GAAP) and audited by a firm of licensed certified public accountants in accordance with generally accepted auditing standards. Pursuant to that requirement, we hereby issue the Comprehensive Annual Financial Report of the La Porte Independent School District (the District) for the fiscal year ended June 30, 2017. The Comprehensive Annual Financial Report is management's report of financial operations to the Board of Trustees (the Board), taxpayers, grantor agencies, employees, the TEA, and other interested parties.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, resides with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operation of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

Management of the District is responsible for establishing and maintaining internal control structures designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The financial statements of the District have been audited by Weaver and Tidwell, LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2017, are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2017, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements is part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and legal requirements involving the administration of federal awards. These reports are available in the Federal Awards section of this report. The results of the District's Single Audit for the fiscal year ended June 30, 2017, provided no instances of material weaknesses in the internal control structures or material violations of applicable laws and regulations.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

#### **Profile of the District**

Residents of the District elect a seven-member Board of Trustees (the Board), each of which serves for three years. La Porte Independent School District is not included in any other governmental "reporting entity" since the Board of Trustees is elected by the public and has decision making authority. Monthly meetings of the Board are posted and advertised as prescribed under state laws so that the Board may fulfill its charge to the students, parents, staff, and taxpayers of the District. Special meetings or study sessions are scheduled as needed. The Board has final control over all school matters except as limited by state law.

The District occupies 55 square miles in Southeast Harris County. Included in its boundaries are the cities of La Porte, Shoreacres, Morgan's Point, and a small section of southeast Deer Park and Pasadena. Established for the 1915-1916 school year, La Porte ISD is fortunate to have the support of the La Porte community which has retained that special "hometown" feeling while being able to take advantage of opportunities offered by the nearby metropolitan Houston area. During the 2016-2017 fiscal year, the District operated one senior high school, one alternative secondary campus, two junior high schools, one 6th grade campus, and seven elementary schools. The District serves approximately 7700 students, and provides a full range of educational services appropriate to grade levels Pre-K through 12. These include regular and enriched academic education, special education for children with special needs, career and technology education, and programs for students with limited English proficiency. These basic programs are supplemented by a wide variety of offerings in fine arts and athletics.

#### A Vision for LPISD

The La Porte Independent School District *Portrait of a Graduate* presents a set of attributes that reflect our district's high expectations and commitment to provide our students with pride, loyalty, academic and social accomplishment, citizenship, curiosity, and a lifelong desire to contribute back to the greater community. This portrait serves as a framework for developing a coherent set of competencies for all La Porte Independent School District students.

The goals for improvement, which grew out of a comprehensive needs assessment and the work of the district Board of Trustees, staff, and community, are to increase achievement and success for every student through rigorous, broad-based academic programs and expanded opportunities; provide a safe, secure and disciplined learning environment; attract, develop and retain excellent staff; promote family engagement and active involvement of the community in the education of our students; and ensure and demonstrate efficient and effective use of district resources.

#### **Economic Condition and Outlook**

The information presented in the financial statements is perhaps best understood when it is considered within the broader perspective of the specific environment in which the District operates. Located just southeast of Houston, Texas, in Harris County, the La Porte Independent School District is a dynamic factor in the quality of life and economic development efforts of the area. The commercial/industrial growth and the overall economic health of the area have dramatically increased in recent years. Increased property values and growth in the District's tax base easily demonstrate this. The strong collaborative ties with the chamber of commerce, the business community, other local governmental entities in the area, and San Jacinto College, LPISD is continuing to make new inroads in building support and targeting resources to achieve the greatest impact for all of our students. The financial, cultural, educational and recreational climate of the area is a testimony to the collective leadership and to the communities' progressive attitude toward responsible growth and their vision of the future.

#### **Financial Information**

**Accounting Systems** - The Board of Trustees maintains a system of accounting controls designed to assist the administration in meeting its responsibility for accurately reporting the financial condition of the District. The system is designed to provide reasonable assurance that assets are safeguarded against loss, theft, or misuse so activities can be recorded and transacted by the administration for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement.

The cost of operating the District's schools and the revenues to cover these costs are recorded in the General Fund. Food service operations and special programs funded by state or federal government grants designed to accomplish a particular objective are recorded in Special Revenue Funds.

The District accounts for school construction financed by bond sales through a Capital Projects Fund. A specific portion of the tax rate is dedicated to payment of bond principal and interest. These transactions are recorded in the Debt Service Fund.

The District has established Internal Service Funds to account for the transactions of its self-insured workers' compensation plan and its print shop. Income for the self-funded workers' compensation plan is derived primarily from charges to governmental funds based on employee salaries. Income for the print shop is derived primarily from charges to governmental funds for printing services.

Financial schedules for fiduciary funds are included in the CAFR. Fiduciary funds are trust and agency funds used to account for assets held by the district in a trustee capacity. Included in this type of fund are the scholarship and activity funds.

The District's accounting records are maintained on a modified accrual basis for governmental fund types and a full accrual basis for the proprietary fund types as prescribed by Texas Education Agency Financial Accountability System Resource Guide (FASRG). Additionally, the District has prepared the Government-wide Financial Statements on the full accrual basis as required by Governmental Accounting Standards Board Statement No. 34.

Financial data is submitted by the District to the Texas Education Agency through the Public Education Information Management System (PEIMS). The data is then analyzed, reviewed and presented to the State Board of Education.

**Budgetary Process** – State law requires that every local education agency in Texas prepare and file an annual budget of anticipated revenues and expenditures with the Texas Education Agency. The budget itself is prepared utilizing a detailed line item approach for governmental fund types and is prepared in accordance with the budgeting requirements as outlined in the FASRG. The annual budget serves as the foundation for the District's financial planning and control. The District maintains budgetary controls throughout all of its financial systems. The objective of these controls is to ensure compliance with legal provisions embodied in the annually appropriated budget approved by the Board of Trustees. Activities of the general fund, child nutrition fund and debt service fund are included in the annually appropriated budget. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established by function within each individual fund. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Although encumbered amounts lapse at year-end, they are generally re-appropriated as part of the next year's budget. The budget may be amended during the year to address unanticipated or changing needs of the District. Changes to functional expenditures categories, revenues, and other sources and uses require Board approval.

**Significant Financial Activities** –The District's total tax base in 2016-17 was over \$9.43 billion, an increase of 16.2 % from the previous year. The tax rates per \$100 of assessed value for the past five years are shown on the following table.

| Year | 2012-2013 | 2013-2014 | 2014-2015 | 2015-2016 | 2016-2017 |
|------|-----------|-----------|-----------|-----------|-----------|
| M&O  | 1.04      | 1.04      | 1.04      | 1.04      | 1.04      |
| I&S  | 0.29      | 0.29      |           | 0.41      | 0.38      |

#### **Major Indicators**

In looking at the most common indicators of quality in a school system, the following are examples of major indicators in the District:

Test Scores – Under the state accountability system, STAAR (State of Texas Assessments of Academic Readiness) testing, the District as a whole met the state's expectations for the 2016-2017 school year. This is the fifth consecutive year that the state has awarded ratings as part of the STAAR accountability system. La Porte ISD and all campuses have met the state's standards since the inception of the program. Additionally, districts and campuses may receive distinctions in recognition of outstanding achievement towards performance index goals. Seven La Porte ISD campuses were recognized with distinctions in one or more areas. Lomax Elementary earned six distinctions, followed by La Porte Elementary with five distinctions. Earning three distinctions each were College Park Elementary and Jennie Reid Elementary schools. Bayshore Elementary school earned two distinctions while La Porte Junior High and Lomax Junior High schools each earned one distinction.

**Attendance Rate** - Despite the lack of growth in the District and the problems facing families today, the attendance rate in the District remains high at 95.16%.

**Dropout Rate** - The dropout rate remains below the State average, meaning more students are finishing high school and are entering college or the work force.

**Public Support** - Pursuant to voter approval of a \$260 million bond authorization on August 12, 2015, the district sold \$72,545,000 in bonds. Additionally, another \$43,385,000 in bonds was sold on June 7, 2016. At the end of the 2016-17 school year, all construction projects were 100% complete except for La Porte High School which is at 97% completion. The bond funds also provide funding for additional capital expenditures for fine arts, technology, transportation and maintenance. This bond has allowed the district to make substantial improvements resulting in improved student and staff morale as well as creating an attractive environment to draw future families and students to the La Porte community.

#### **Awards and Acknowledgments**

#### **Financial Reporting Awards**

The TEA has awarded the District a rating of "Superior" for the year ended June 30, 2016. This is the fifteenth year of the State's financial accountability rating system for school districts (School FIRST). La Porte ISD has received the highest possible rating for the past fifteen years. The rating is based upon an analysis of staff and student data reported for the 2015-2016 school year and budgetary and actual financial data for the fiscal year ended June 30, 2016. The primary goal of School FIRST is to ensure quality performance in the management of school districts' financial resources, a goal made more significant due to the complexity of accounting associated with Texas' school finance system.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to La Porte Independent School District for its comprehensive annual financial report for the fiscal year ended June 30, 2016. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The District was also awarded the Certificate of Excellence in Financial Reporting by the Association of School Business Officials International (ASBO) for its comprehensive annual financial report for the fiscal year ended June 30, 2016. The District believes that the current comprehensive annual financial report continues to conform to the standards for which this award is granted and we will again submit the report for review.

In addition, for the school year ended June 30, 2017 the District received the TASBO Award of Merit for Purchasing Operations. This award recognizes school district's achievement in implementing best practices in the area of purchasing. Each year two districts are singled out for the highest honor and awarded the Elite Award for either Large District or Small District. La Porte ISD received the prestigious Elite Award for Small District for the year ended June 30. 2017.

**Acknowledgments** – As we come to the completion of construction, we would like to express appreciation to all the stakeholders of the community for voting for the 2014 \$260 million bond referendum. We would also like to express appreciation to the Board of Trustees for its concern for providing fiscal accountability to patrons of our District and for its leadership in the development of one of the best educational operations within the State of Texas. Countless hours have been devoted to this District by teachers, principals, and

supporting staff and thanks is extended to the entire La Porte Independent School District Team that has worked so hard to provide the high-quality, cost-efficient education to the students we serve. Additionally, the preparation of this report was accomplished through much time and effort on the part of the District Finance department, and special appreciation is expressed to them.

Presented to

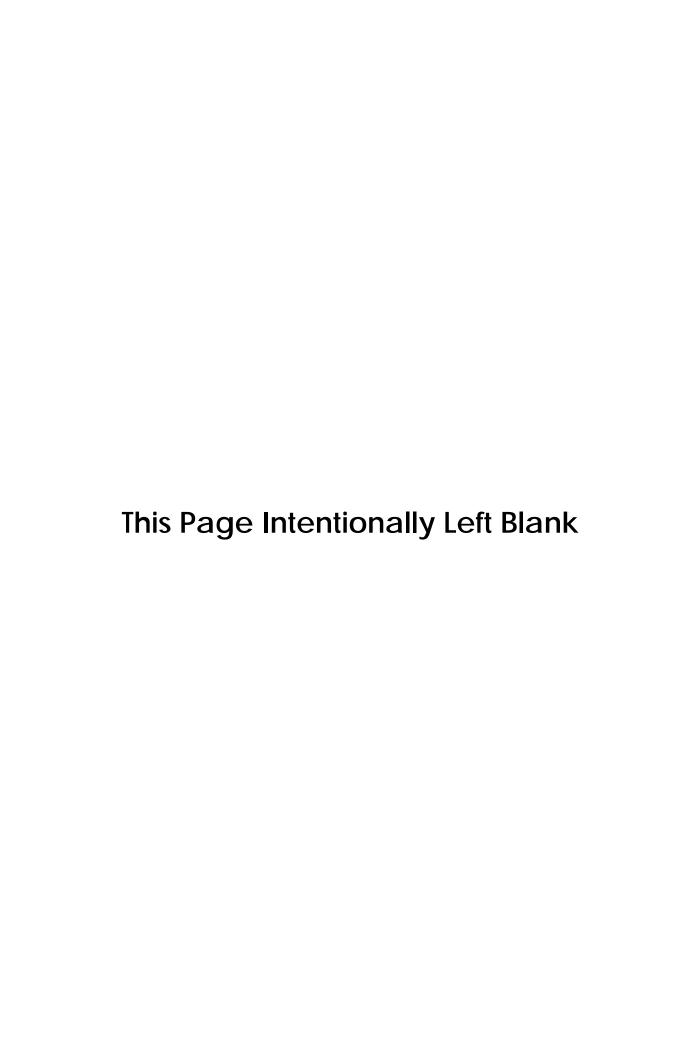

### La Porte Independent School District Texas

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

June 30, 2016

Executive Director/CEO

**Financial Section** 

#### **Independent Auditor's Report**

Board of Trustees La Porte Independent School District La Porte, Texas

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of La Porte Independent School District (the District), as of and for the year ended June 30 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Trustees La Porte Independent School District

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Introductory Section, Supplementary Information, and Statistical Section as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Supplementary Information and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Board of Trustees La Porte Independent School District

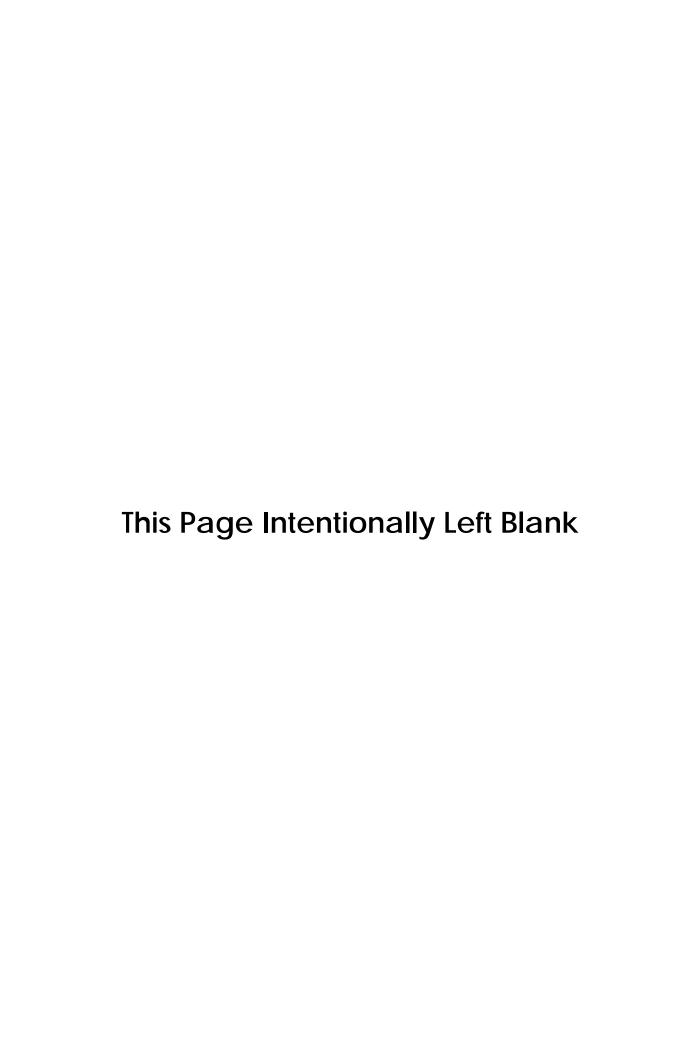

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 14, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

#### La Porte Independent School District

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017

As the management of the La Porte Independent School District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with the notes to the basic financial statements and the financial statements themselves to enhance their understanding of the District's financial condition.

#### **Financial Highlights**

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$66,991,217 (net position). Of this amount, \$22,128,205 (unrestricted net position) may be used to meet the District's ongoing obligations to students and creditors.
- The District's total net position decreased by \$2,806,891.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$85,975,366, a decrease of \$61,203,081 in comparison with the prior year. The decrease in governmental fund balances was primarily due to a decrease of \$65,628,084 and \$390,552 in the capital projects fund and non-major governmental funds respectively and an increase of \$4,141,544 and \$674,011 in the general fund and debt service fund respectively.
- At the end of the current fiscal year unassigned fund balance for the general fund was \$30,245,650, or 29.6 percent of total general fund expenditures.
- The District's total long-term debt decreased by 7.5 percent or \$20,355,000 during the current fiscal year.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components:

1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements. The Government-Wide Financial Statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all the District's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused sick leave).

The government-wide financial statements of the District are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include Instruction; Instructional Resources and Media Services; Curriculum and Instructional Staff Development; Instructional Leadership; School Leadership; Guidance, Counseling, and Evaluation Services; Social Work Services; Health Services; Student Transportation; Food Services; Cocurricular/Extracurricular Activities; General Administration; Plant Maintenance and Operations; Security and Monitoring Services; Data Processing Services; Community Services; Interest on Long-term Debt; Bond Issuance Costs and Fees; and Facilities payments. The government-wide financial statements can be found on pages 17 and 18 of this report.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

#### **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as *governmental* activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains twenty individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, and the capital projects fund, all of which are considered to be major funds. Data from the other seventeen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds are provided in the form of combining statements elsewhere in the financial statements. The District adopts an annual appropriated budget for its general fund, debt service fund, and National School Breakfast and Lunch Program special revenue fund.

The basic governmental fund financial statements can be found on pages 19 through 24 of this report.

**Proprietary Fund.** Proprietary funds are used to account for operations that are financed similar to those found in the private sector. These funds provide both long- and short-term financial information. The District maintains two internal service funds. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the District's various funds and functions. The District uses an internal service fund to account for its self-funded workers' compensation insurance program and its print shop. Because their service predominantly benefits governmental functions, it has been included within *governmental activities* in the government-wide financial statements. Proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail. The basic proprietary fund financial statements can be found on pages 25 through 27 of this report.

**Fiduciary Fund.** The fiduciary fund is used to account for resources held for the benefit of students. The fiduciary fund is *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the District's own programs. The fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations.

The basic fiduciary fund financial statements can be found on pages 28 and 29 of this report.

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 30 of this report.

Required Supplementary Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements. The required supplementary information relates to comparison of the original adopted budget, the final amended budget, and the actual amounts for the fiscal year. This is required supplementary information for the general fund and any major special revenue funds. The District did not have any major special revenue funds; therefore, only the general fund is presented as required supplementary information. The required supplementary information also includes the Schedule of the District's Proportionate Share of the Teacher Retirement System Net Pension Liability and the Schedule of the District's Teacher Retirement System Contributions. This required supplementary information can be found immediately following the notes to the financial statements of this report.

*Other Information.* The combining and individual fund statements and schedules and other supplementary information are presented immediately following the required supplementary information and can be found on pages 61 through 74 of this report.

#### **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a District's financial position. In the case of the District, assets exceeded liabilities by \$66,991,217 at the close of the most recent fiscal year.

The largest portion of the District's net position (\$33,311,721) reflects its investment in capital assets (e.g., capitalized bond and debt issuance costs, land, buildings and improvements, furniture and equipment and construction in progress), less any outstanding related debt used to acquire those assets. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

#### La Porte Independent School District's Net Position (Amount in 000's)

|   | 2017 |         | 2016 |         |
|---|------|---------|------|---------|
| Assets:   |      |         |      |         |
| Current and other assets                            | \$   | 119,603 | \$   | 174,728 |
| Capital and non-current assets                      |      | 364,389 |      | 327,134 |
| Total assets  |      | 483,992 |      | 501,862 |
| Deferred outflows of resources                      |      | 16,515  |      | 18,312  |
| Total assets and deferred outflows of resources     |      | 500,507 |      | 520,174 |
| Liabilities:  |      |         |      |         |
| Current liabilities                                 |      | 53,932  |      | 53,145  |
| Long-term liabilities                               |      | 378,485 |      | 395,880 |
| Total liabilities                                   | -    | 432,417 |      | 449,025 |
| Deferred inflows of resources                       |      | 1,099   |      | 1,351   |
| Total liabilities and deferred inflows of resources |      | 433,516 |      | 450,376 |
| Net Position:                                       |      |         |      |         |
| Net investment in capital assets                    |      | 33,312  |      | 40,916  |
| Restricted  |      | 11,551  |      | 11,272  |
| Unrestricted  |      | 22,128  |      | 17,609  |
| Total net position                                  | \$   | 66,991  | \$   | 69,797  |

Net position of \$10,114,148 is restricted for debt service activities and net position of \$1,437,143 is restricted for grant activities. The remaining balance of unrestricted net position, \$22,128,205, may be used to meet the District's ongoing obligations to students and creditors. At the end of the current fiscal year, the District is able to report positive balances in all three categories of net position. The District's net position decreased \$2,806,891 during the current fiscal year.

### La Porte Independent School District's Change in Net Position (Amounts in 000's)

|   | 2017      | 2016      | Percentage<br>Change |
|---|-----------|-----------|----------------------|
| Program revenues:                                 |           |           |                      |
| Charges for services                              | \$ 1,787  | \$ 1,773  | 1%                   |
| Operating grants                                  | 10,010    | 11,675    | -14%                 |
| General revenues:                                 |           |           |                      |

| Other intergovernmental charges                   | 964       | 887       | 9%                   |
| Total expenses                                    | 140,025   | 131,498   | 6%                   |
| Increase (decrease) in net position               | (2,807)   | 6,830     | -141%                |
| Beginning net position                            | 69,798    | 62,968    | 11%                  |
| Ending net position                               | \$ 66,991 | \$ 69,798 | -4%                  |

**Governmental Activities.** Governmental activities decreased the District's net position by \$2,806,891. Key elements of this increase are as follows:

Revenues are generated primarily from two sources. Grants and contributions (program and general revenues totaling \$15,971,862) represent 11.6 percent of total revenues, and property taxes of \$130,222,587 represent 94.9 percent of total revenues. The remaining \$5,537,490 is generated from charges for services, investment earnings, and miscellaneous revenues.

The primary functional expense of the District is instruction (\$52,296,542) which represents 48.1 percent of total expenses less contracted instructional services between schools of (\$31,237,688). Plant maintenance and operations (\$10,633,698) represents 7.6 percent and Debt Service (\$13,753,627) represents 9.8 percent of total expenses which are less contracted instructional services between schools. The remaining individual functional categories of expenses are each less than 5.0 percent of total expenses. The overall expenses increased 6.5 percent from the previous year which are less contracted instructional services between schools, and the decrease to net position was 2.3 percent. The decrease in net position was primarily due to a loss on the disposal of capital assets.

#### Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a District's net resources available for spending at the end of the fiscal year.

As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$85,975,366, a decrease of \$61,203,081 in comparison with the prior year. The decrease in governmental fund balances was primarily due to a decrease in the capital projects fund balance of \$65,628,084, a decrease in the non-major governmental funds balance of \$390,552. The general fund balance increased by \$4,141,544 and the debt service fund balance increased by \$674,011.

At the end of the current fiscal year unassigned fund balance for the general fund was \$30,245,650, or 29.6 percent of total general fund expenditures.

The debt service fund has a total fund balance of \$14,883,619, all of which is reserved for the payment of debt service. The net increase in the debt service fund balance (\$674,011) during the current year was primarily due to increased base even though the District decreased the debt service tax rate. A contributing factor to the increased base is the Chapter 313 agreements the District has with industry partners, 100% of the tax base they bring to the District is taxable for debt service purposes.

The capital projects fund has a total fund balance of \$32,021,719, all of which is reserved for authorized construction, plant maintenance and technology projects/enhancements. The decrease in fund balance during the current year (\$61,203,081) was due to voter approval of a \$260,000,000 bond authorization in May, 2014 in which \$67,011,753, was spent for the utilization of bond proceeds for construction projects, renovation projects, plant maintenance and technology projects/enhancements.

#### **General Fund Budgetary Highlights**

The primary difference between the original budget and the final amended budget of the general fund was an increase of \$1,645,180 in revenues. The increased revenue adjustment was primarily due to changes in estimates for state revenue in the per capita rate in the 2<sup>nd</sup> year of the biennium.

#### Capital Assets and Long-Term Liabilities

**Capital Assets.** The District's investment in capital assets for its governmental type activities as of June 30, 2017, amounts to \$364,388,864 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, furniture and equipment. The total increase in the District's investment in capital assets for the current fiscal year was \$37,254,939. A comparison of capital asset balances at current and prior fiscal year end follows:

#### Capital Assets (Amounts in 000's)

|  | Balance  |            | Balance       |          |
|--|----------|------------|---------------|----------|
|  | Jun      | e 30, 2017 | June 30, 2016 |          |
|  |          |            |               |          |
| Land                                   | \$       | 10,520     | \$            | 10,520   |
| Buildings and improvements             |          | 397,818    |               | 307,044  |
| Furniture and equipment                |          | 22,274     |               | 19,621   |
| Construction in progress               | 24,065   |            |               | 77,433   |
|  |          | 454,677    |               | 414,618  |
| Less accumulated depreciation for:     |          |            |               |          |
| Buildings and improvements             |          | (76,140)   |               | (74,317) |
| Furniture and equipment                | (14,148) |            | (13,167)      |          |
|  |          | (90,288)   |               | (87,484) |
| Governmental activities capital assets | \$       | 364,389    | \$            | 327,134  |

Additional information on the District's capital assets can be found in note 5 of the notes to the financial statements.

#### Long-term Liabilities

At the end of the current fiscal year, the District had \$377,602,434 in total debt outstanding, a decrease of \$23,136,784 as compared to the previous year. The underlying ratings of the bonds for general obligation debt are "AA" from Standard and Poor's and "Aa2" from Moody's Investors Service, and are guaranteed through the Texas Permanent School Fund Guarantee Program or by a municipal bond insurance policy.

A comparison of long-term liabilities as of current and prior fiscal year end follows:

#### Long-term Liabilities (Amounts in 000's)

|                              | _  | Balance<br>June 30, 2017 |    | Balance<br>June 30, 2016 |  |
|------------------------------|----|--------------------------|----|--------------------------|--|
| General obligation bonds     | \$ | 350,980                  | \$ | 371,335                  |  |
| Premium on bonds             |    | 25,609                   |    | 28,159                   |  |
| Accrued compensated absences |    | 1,013                    |    | 1,245                    |  |
|                              | \$ | 377,602                  | \$ | 400,739                  |  |

Additional information on the District's long-term liabilities can be found in note 4 of the notes to the financial statements.

#### **Major Initiatives**

Pursuant to voter approval of a \$260 million bond authorization on May 10, 2014, construction was completed for a new Lomax Elementary School and James H. Baker Sixth Grade Campus, as well as renovations at Heritage Elementary, Reid Elementary, Bayshore Elementary, and Rizzuto Elementary; construction is almost completed for a major rebuild of La Porte High School and a new district multipurpose center. This also provides funding for capital expenditures for fine arts, technology, transportation and maintenance.

The District continued its partnership with San Jacinto College and the La Porte San Jacinto College Center where students may receive dual enrollment credit while attending La Porte High School. The goal of the college center is to provide opportunities for students to earn college credit and/or industry certification. New in the 2015-2016 school year, the District and San Jacinto College instituted the Accelerated College Education (ACE) dual credit program where eligible students can graduate with an Associate's degree in addition to a high school diploma. In 2017, the inaugural class had 31 ACE students graduate with both an Associate's degree and a high school diploma.

The District provided purposeful professional development prior to the beginning of the school year for teachers, administrators, counselors, other professional staff, and paraprofessional staff. Instructional workshop topics included: growth mindset, gifted and talented; student engagement and motivation; Sean Cain's Fundamental Five focusing on quality instruction and high volume classroom walkthroughs; student behavior; dyslexia and dysgraphia; writing across the curriculum; and restorative practices. Special emphasis was given to social studies teachers whereby ongoing opportunities were provided to analyze and identify academic power standards, analyze student data, and build collaborative lessons. In addition, District level classroom walkthrough occurred to support the improvement efforts.

Pursuant to House Bill (HB) 5, the District increased the number of industrial or business license/certification programs available for our students. The District now offers the following license/certification programs that align with the career pathways embedded in the HB5 endorsement graduation plans:

#### **Business and Industry Endorsement**

Agricultural Science Animal Pathway (Hunter Education, Veterinarian Technician); Agricultural Science Mechanical Pathway (Occupational Safety and Health

Administration (OSHA), National Center for Construction Education and Research (NCCER);

Architecture and Construction (OSHA, NCCER);

Arts, Audio/Visual and Communications Animation/Graphic Design (Adobe);

Arts, Audio/Visual and Communications Audio Video Production (Adobe);

Business Management and Finance (Microsoft Office);

Hospitality Culinary Arts (ServSafe);

Manufacturing Welding (OSHA, NCCER);

Marketing (OSHA);

Transportation Automotive Collision (ASE);

Transportation Automotive Technology (ASE);

Transportation Maritime (NCCER, Coast Guard)

#### **Public Services Endorsement**

Education and Training Child Development (OSHA);

Health Science (Red Cross CPR, Phlebotomy, Pharmacy Technician, First Aid, EKG);

#### Science, Technology, Engineering and Mathematics (STEM) Endorsement

Engineering (Project Lead the Way)

The District has successfully sustained a district-wide Student Technology Initiative (STI), in which notebook devices are actively used by students, grades K -12. Each year additional devices are purchased as needs arise. Student access to STI devices has supported the District's transition to digital instructional materials in mathematics, science, and social studies. The STI implementation model varies depending on the grade levels served at each campus. At the elementary level, a distributive lab model has been implemented. Also, on the elementary campuses, fifth grade classes have access to two computer carts with 25 notebooks for instructional use. The District's secondary campuses have implemented an immersion model. This model provides a computer for each student in grades 6 through 12 for use in instructional settings.

The District maintains 12 campuses for instruction. Under the state accountability system, the District "met standard" for all accountability indexes (1-4). Lomax Elementary School earned distinction in six areas: English Language Arts/Reading; Math; Science; Top 25 Percent Student Progress; Top 25 Percent Closing Performance Gaps; and Postsecondary Readiness. La Porte Elementary School earned distinctions in five areas: English Language Arts/Reading; Math; Top 25 Percent Student Progress; Top 25 Percent Closing Performance Gaps; and Postsecondary Readiness. College Park Elementary School and Jennie Reid Elementary School earned distinctions in three areas. College Park's distinctions include: English Language Arts/Reading; Top 25 Percent Closing Performance Gaps; and Postsecondary Readiness. Jennie Reid's distinctions include: Math; Top 25 Percent Student Progress; and Top 25 Percent Closing Performance Gaps. Bayshore Elementary School received two distinctions for Top 25 Percent Closing Performance Gaps and Postsecondary Readiness. La Porte Junior High received recognition for Top 25 Percent Closing Performance Gaps.

The District increased course offerings that support students' attainment of endorsement and distinguished achievement plans. Construction of the new career and technical education building mentioned previously allowed for this expansion. Within the STEM pathway, Computer Automated Drafting (CAD) was offered and the District initiated the process for implementing Project Lead the Way in 2016-2017. In the Health Science pathway, three new courses were added: Health Science Specialty Hospitals of America for student clinical rotations and Walgreens for student job shadowing. In the Education and Training pathway, the District established a partnership with La Porte Elementary for Principles of Education students to visit the campus weekly to mentor/tutor students and assist teachers. In the Audio/Visual pathway, Sports Broadcasting was offered, and the students are live broadcasting and streaming district athletic events.

#### **Economic Factors and Future Budgets and Tax Rates**

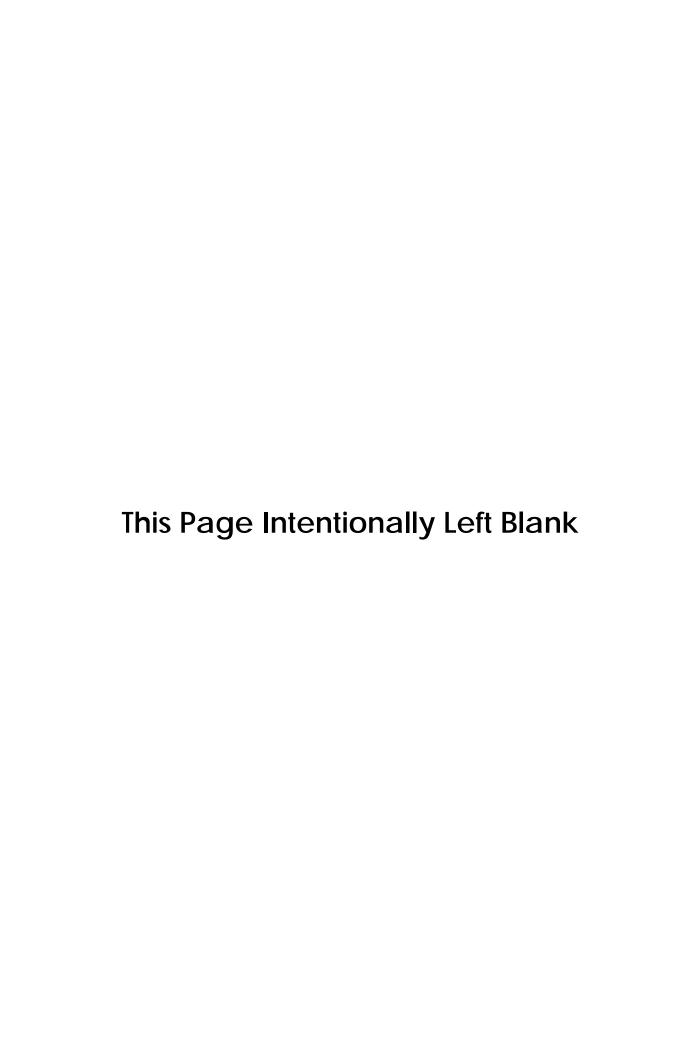

- The District remains a Chapter 41 district and subject to state capture of local maintenance and operation tax dollars. The District sent 37.25% in fiscal year 2017 and estimates 38% in fiscal year 2018 of our tax dollars to the state. During the special session of the 2011 Texas Legislative Session, Senate Bill 1 (SB 1) was enacted and made substantial changes in the manner the state school finance system is funded. SB 1 became effective for the 2011-2012 and 2012-2013 fiscal years. This change substantially reduced funding for the District. In the 2013 Texas Legislative Session approximately 52.4% of those cuts were restored. Since that time there has not been any relief in the legislature for funding as mandates have increased.
- The District currently has nine Chapter 313 agreements, as well as one under consideration. Under a Chapter 313 agreement for the purpose of maintenance and operations taxes the taxable value of the property is limited, but for the purpose of bond repayment, the taxable value of the property cannot be limited. Chapter 313 also limits the reduction of maintenance and operating (M&O) taxable value to a floor that generates \$100 per student in average daily attendance (ADA). The agreement, a negotiable payment in lieu of taxes, as well as negotiable support for supplemental school district endeavors such as a foundation perhaps, are made directly to the taxing entity. In our case, the payment would come directly to us and be outside of the current school funding system and not subject to recapture or equalization payments to the state. The 313 agreements are not factored into the District budget until they are approved, constructed and assessed. These agreements are a major contributing factor to the districts increased base.
- The District is one of several hundred Texas public school districts that sued the State claiming that the current school funding system established by the Texas Legislature violates various provisions of the Texas Constitution. The Texas Supreme Court unanimously upheld the state's school finance system as constitutional, even though it's flawed. "Despite the imperfections of the current school funding regime, it meets minimum constitutional requirements," reads the court's opinion by Justice Don Willett. All eight other justices joined him; four joined two concurring opinions, but there were no dissents. The court has left it up to lawmakers to reform school finances. The District budgets per the current school finance system.
- The District continues to incur a significant cost in property and casualty insurance due to the location of the District on Galveston Bay. The District has \$200 million of property in AE Zones close to the bay and \$100 million in coverage. This coverage costs the District \$1.5 million annually, with recapture, representing 3.1 pennies (2.98% of net maintenance and operation tax revenue after recapture) of the maintenance and operations tax collections which are then recaptured because the District is a chapter 41 district. The District also has costs to maintain two recovery storm shelters, and has routine shelter in place drills. Between summer 2008 and summer 2017 the District spent \$348 million for replacement and renovation of educational facilities with storm mitigation at the forefront of design and investment.
- The local economy is subject to volatility in the price of hydrocarbons.
- The District's enrollment and Average Daily Attendance (ADA) have not rebounded from the impact of Hurricane Ike. For FY 2018 the District anticipates a peak enrollment of 7,701 students, which is flat from FY 2017. The District's pre-Hurricane Ike ADA was 7,670, while FY 2017 ADA was 7,180 and is anticipated to be close to the same for FY 2018.

- The District has 1,180 faculty and staff comprised of the following: 42 employees in central administration departments; 537 teachers, librarians, counselors, and nurses; 267 other school leadership and support staff; 113 maintenance employees; 105 cafeteria workers; and 116 employees in transportation for the 2017-2018 budget. The District's Board of Trustees approved a 3% general pay increase for all employees, as well as increased the starting teacher salary to \$53,100. The minimum hourly rate for paraprofessionals is \$11.20 and the minimum hourly rate for manual trades is \$9.75.
- The 2017 preliminary certified taxable property value as reported by the Harris and Chambers County Appraisal Districts totaled \$9,938,147,531 which is approximately 5.2 percent higher than the 2016 preliminary certified taxable values. The certified values which the District receives after the budget is adopted for both Harris and Chambers County Appraisal Districts totaled \$9,848,710,689.
- The property tax rate for 2017-18 will be \$1.38 per \$100 of assessed value; the 2016-17 rate was \$1.42 per \$100 of assessed value.
- Supplemental funding sources that support student programs include: Title I, Title II Part A, Title III, Carl Perkins Grant, State Compensatory Education, School Health Advisory Competitive Grant, and a Governor's Grant for Communities in Schools (CIS) services for both junior high school campuses and high school campus. The High-Quality Prekindergarten Grant Program that supports the District's comprehensive, full-day prekindergarten program that continues for the 2017-18 budget year. The Communities in Schools ACE Grant provides for afterschool programs at Bayshore Elementary and La Porte Elementary. In addition, the La Porte Education Foundation supports teachers through grants that fund innovative instructional projects and programs.
- House Bill 2610 passed by the 84th Texas Legislature changes the school year from 180 days to 75,600 minutes. This provides more flexibility for the District when constructing the educational calendars. The District adopted a calendar based on instructional minutes instead of instructional days. This calendar allows for the District better operational and instructional efficiency.
- La Porte ISD became a District of Innovation which provides flexibility for the District to: develop an instructional calendar that supports the continuous improvement of student learning; ensure a safe and secure learning environment for students and staff; increase opportunities for the retention and recruitment of professional staff; attract and hire hard-to-fill Career and Technical Education (CTE) and Science, Technology, Engineering, Art, and Math (STEAM) staff positions, and develop a teacher appraisal cycle whereby teachers may be appraised less than annually.
- The STI continues for the 2017-18 year by providing all students in grades 6 12 a laptop for classroom instruction. These devices also may be taken home.
- In partnership with San Jacinto College, La Porte High School's Accelerated College Education (ACE) program graduated 31 seniors from the class of 2017 with both a high school diploma and an Associate of Arts or Applied Science degree from San Jacinto College. Nineteen rising seniors will graduate with the class of 2018 with both a high school diploma and an associate's degree. Beginning in the 2017-2018 school year, 43 juniors are participating in the District's third ACE cohort. The District provides transportation, tuition, fees and textbooks to all dual enrollment students. ACE is the next step in the District's continuing journey to increase our students' career and college readiness opportunities.
- The District increased course offerings through the implementation of Project Lead the Way. These courses include Civil Engineering and Aerospace Engineering. In 2018-2019, the District will add Engineering Design Development.
- In an effort to support student achievement in 8th grade social studies at La Porte Junior High, the District has entered into a contract with Lead4ward for ongoing social studies curriculum and instruction support. The social studies academy includes detailed curriculum and lesson planning, data analysis, classroom observations and instructional modeling.

These factors were considered in preparing the District's FY 2018 budget.

#### **Requests for Information**

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer, La Porte Independent School District.

**Basic Financial Statements**

## La Porte Independent School District Exhibit C-2 Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position June 30, 2017 Total fund balances - Governmental funds (Exhibit C-1) \$ 85,975,366 Amounts reported for governmental activities in the statement of net position are different because: Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. The governmental capital assets at year-end conisit of: Historical cost 454,677,440 Accumulated depreciation (90,288,576) Change due to capital assets 364,388,864 364,388,864 Property taxes receivable have been levied and are due this year, but are not available soon enough to pay for the current period's expenditures and, therefore, are recorded as deferred inflows in the funds. 2,591,472 Long-term liabilities, including bonds payable and net pension liability, are not due and payable in the current period and, therefore are not reported as liabilities in the funds. Liabilities at year end related to such items consist of: Long-term liabiliites at year end consist of: Net pension liability (19,059,283)Bonds payable, at original par (350,980,000)Premiums on bonds payable (25,609,109)Compensated absences (1,013,325)Accrued interest on the bonds (5,447,918)Change due to long-term liabilities (402,109,635) (402,109,635)Internal service funds are used by the District's management to charge the costs

Internal service funds are used by the District's management to charge the costs of the workers' compensation insurance program and print shop to the individual funds. The assets and liabilities of the internal service fund are included in the government wide statement of net position.

728,968

Deferred charge on refunding is reported as deferred outflow in the statement of net position and is not reported in the funds due to it is not a current financial resource available to pay for current expenditures.

9,286,433

Deferred outflows for pension are included in the statement of net position and are not reported in the funds due to they are not current financial resources available to pay for current expenditures

7,228,787

Deferred inflows for pension are included in the statement of net position and are not reported in the funds due to they are not current financial resources available to pay for current expenditures

(1,099,038)

Total net position - Governmental activities (Exhibit A-1)

\$ 66,991,217

| Amounts reported for governmental activities in the statement of activities are different because:  Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.  Capital assets increased  Depreciation expense  Capital assets increased  Depreciation expense  Capital assets increased  Depreciation expense  The net effect of miscellaneous transactions involving capital assets (transfers, adjustments and dispositions) is an increase (decrease) to net position.  Because some property taxes will not be collected for several months after the District's fiscal year end, they are not considered 'available' revenues and are deferred in the governmental funds. Deferred tax revenues increased (decreased) by this amount this year.  Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long term liabilities in the statement of net position.  Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due, the increase (decrease) in interest reported in the statement of activities consist of the following:  Accrued interest on current interest bonds payable (increased) decreased  Amortization of bond premium and discount Amortization of defeasance costs  An internal service fund is used by the District to charge the costs of workers' compensation benefits to the individual funds. The net activity of the internal service fund was reported in the governmental funds.  An internal service fund is used by the District to charge the costs of workers' compensation benefits to the individual funds, the net activity of the internal service | La Porte Independent School District Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balance to the Statement of Activities For the Fiscal Year Ended June 30, 2017   |           | Exhibit C-4     |

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.  Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The increase (decrease) in interest reported in the statement of activities consist of the following:  Accrued interest on current interest bonds payable (increased) decreased Amortization of bond premium and discount Amortization of bond premium and discount (2,549,907)  Amortization of defeasance costs  The (increase) decrease in compensated absences is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds.  An internal service fund is used by the District to charge the costs of workers' compensation benefits to the individual funds. The net activity of the internal service fund was reported in the government-wide statements.  405,707  The net change in net pension liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds. The | in the statement of activities, the cost of those assets is allocated over their   |           |                 |
| Because some property taxes will not be collected for several months after the District's fiscal year end, they are not considered 'available' revenues and are deferred in the governmental funds. Deferred tax revenues increased (decreased) by this amount this year.  Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.  Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The increase (decrease) in interest reported in the statement of activities consist of the following:  Accrued interest on current interest bonds payable (increased) decreased Amortization of bond premium and discount 2,549,907 (1,149,005) 1,042,390  The (increase) decrease in compensated absences is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds.  An internal service fund is used by the District to charge the costs of workers' compensation benefits to the individual funds. | Change in net position                                    | 30,382          |
| Net position - beginning                                  | 198,829         |
| NET POSITION - ENDING                                     | \$ 229,211      |

Notes to the Basic Financial Statements

## Note 1. Significant Accounting Policies

The La Porte Independent School District (the District) is a public educational agency operating under the applicable laws and regulations of the State of Texas (the State). It is governed by a seven member Board of Trustees that is elected by registered voters of the District. The District prepares its basic financial statements in conformity with U.S. Generally Accepted Accounting Principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB). Additionally, the District complies with the requirements of the appropriate version of the Texas Education Agency (TEA) Financial Accountability System Resource Guide (FASRG) and the requirements of contracts and grants of agencies from which it receives funds. The following is a summary of the more significant accounting policies of the District.

## A. Reporting Entity

The Board of Trustees (the Board) is elected by the public and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board (GASB) in its Statement No. 14, *The Financial Reporting Entity* as amended by GASB 39, *Determining Whether Certain Organizations are Component Units* and GASB 61, *The Financial Reporting Entity: Omnibus*. There are no component units included within the reporting entity and the District is not included in any other governmental reporting entity.

#### B. Government-Wide and Fund Financial Statements

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the La Porte Independent School District non-fiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, state foundation funds, grants and other intergovernmental revenues. *Business-type activities* include operations that rely to a significant extent on fees and charges for support. The District has no business-type activities for the year ended June 30, 2017.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as *general revenues*.

Interfund activities between governmental funds and between governmental and proprietary funds appear as due to/due from on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other resources and other uses on the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses, and Changes in Fund Net Position. All interfund transactions between governmental funds and between governmental funds and internal service funds are eliminated on the government-wide statements. Interfund services provided and used are not eliminated in the process of consolidation.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories – governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

Notes to the Basic Financial Statements

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses are non-operating.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Measurement focus is the accounting convention, which determines which assets, deferred outflows, liabilities and deferred inflows are included on the balance sheet of a fund type and whether a fund type's operating statement presents "financial flow" or capital maintenance information.

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurements made, regardless of the measurement focus applied.

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements (with the exception of agency funds which are custodial in nature thus do not have a measurement focus). Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility and timing requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, deferred outflows, current liabilities, deferred inflows and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in fund balance (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amounts.

Notes to the Basic Financial Statements

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable, and expenses in the accounting period in which they are incurred and become measurable. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. Net Position is segregated into net investment in capital assets, restricted, and unrestricted.

## D. Fund Accounting

The District's accounting system is organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows, liabilities, deferred inflows, fund balance, revenues and expenditures. District resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The District reports the following major governmental funds:

*The General Fund.* The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund. Major program revenues include local property taxes, state funding under the foundation school program, and interest earnings. Expenditures include all costs associated with the daily operations of the District except for specific programs funded by the federal or state government, food service, debt service, and capital projects.

**Debt Service Funds.** The debt service fund is utilized to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs arising from general obligation bonds.

Capital Projects Funds. The capital project fund is utilized to account for financial resources to be used for the acquisition or construction of major capital facilities. Such resources are derived from proceeds of general obligation bonds and interest earned on such monies and local sources designated for such purposes.

Additionally, the District reports the following non-major fund types:

#### Governmental Funds

Special Revenue Funds - The District accounts for resources restricted to, or committed for, specific purposes by the District or a grantor in a special revenue fund. Most federal and some state financial assistance is accounted for in a special revenue fund and sometimes unused balances must be returned to the grantor at the close of specified project periods.

#### **Proprietary Funds**

Internal Service Funds – Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis are accounted for in an internal service fund. The District's internal service funds are a worker's compensation fund and a print shop fund. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's ongoing operations. All other revenues and expenses are nonoperating items.

#### Fiduciary Funds

Trust and Agency Funds – The District accounts for resources held for others in a custodial capacity in trust and agency funds. The District's agency funds are student and teacher activity funds and trust funds include the student scholarship fund.

Notes to the Basic Financial Statements

#### E. Budgets and Budgetary Accounting

The District facilitates budgeting and budgetary control by preparing annual budgets for the General Fund, Food Service Fund, and Debt Service Fund and appropriately amending the budgets as circumstances dictate; the annual budgets as amended are an integral part of the accounting system, providing appropriate budgetary control over revenues, expenditures and transfers through comparison of actual data and encumbrances to budgetary data.

The Superintendent of Schools is designated as the budget officer of the District and is responsible for preparing, or causing to be prepared, a budget for the next succeeding fiscal year.

The Board of Trustees may approve amendments to the budget, which are required when a change is made to any one of the functional expenditure categories as defined by the Texas Education Agency. Such amendments must be reflected in the official minutes of the Board, and may not, by law, occur after June 30. Therefore, the legal level of budgetary control is at the function level within each budgeted fund. Management may transfer appropriations between objects, sub-objects, organizations, programs, and projects without approval from the Board of Trustees, as long as appropriations are not increased or decreased at the function level.

The Texas Education Agency (TEA) requires the budgets to be filed with them through regular submissions to the Public Education Information Management System (PEIMS).

The budget should not be exceeded in any functional expenditure category under TEA requirements. The final amended versions of these budgets are used in this report.

Budgets for the General Fund, Food Service Fund, and Debt Service Fund are adopted on a basis consistent with generally accepted accounting principles (GAAP).

#### F. Encumbrances

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as restricted, committed, or assigned fund balances as appropriate. The encumbrances do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

Significant encumbrances included in governmental fund balances are as follows:

|                       | Encumbrances Included in: |            |
|-----------------------|---------------------------|------------|
|                       | Restricted                |            |
|                       | Fund Balance              |            |
| Capital projects fund | \$                        | 18,902,828 |
| Total encumbrances    | \$                        | 18,902,828 |

## G. Cash and Cash Equivalents

The District's cash is comprised of demand accounts and imprest funds. All daily receipts are deposited to the demand accounts until the funds are invested under the terms of the District's depository contract. The District considers cash equivalents to be all highly liquid investments with initial maturities of ninety days or less from the date of purchase.

Notes to the Basic Financial Statements

#### H. Investments

The District's general policy is to report investments, except for certain investment pools and non-negotiable certificates of deposit, at fair value. Investment pools which elect to measure for financial reporting purposes all of their investments in accordance with GASB Statement 79 *Certain External Investment Pools and Pool Participants* (GASB 79), are reported at amortized cost or net asset value.

#### I. Inventory

Inventories on the balance sheet consist of materials and supplies and are recorded at first-in, first-out (FIFO) cost. The District follows the consumption method of accounting whereby supplies and materials are recorded as expenditures when utilized.

#### J. Compensated Absences

A permanent employee who was employed by the District prior to September 1, 1994, contributes to the Teacher Retirement System (TRS) through payroll deductions, was employed by the District for the past ten consecutive years, and who retires from the District under the provisions of TRS shall be paid for all unused state and local sick leave accrued while employed by the District. The total paid days cannot exceed 90 and will be based on the employee's then current rate during the 2003-2004 year.

In lieu of benefits provided in the preceding paragraph, an employee eligible for such benefits may opt to receive a lump sum equivalent to seventy percent of the eligible benefits made available by this policy in exchange for waiving all other benefits owned under this policy.

Twelve-month employees with less than ten years of service will accrue .834 days of vacation each month between July 1 and June 30. Twelve-month employees with greater than ten years of service will accrue 1.25 days of vacation each month between July 1 and June 30. Employees may accrue up to a maximum of 25 vacation days. Earned vacation time shall be paid to any terminating staff member.

The accrual for accumulated unpaid sick leave and vacation leave benefits has been recorded in the government-wide financial statements.

#### K. Account Code Reporting

In accordance with the Texas Education Code, the District has adopted and installed an accounting system which meets at least the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. Specifically, the District's accounting system uses codes and the code structure prescribed by the TEA in the Resource Guide. Mandatory codes are recorded in the order provided in that section.

#### L. Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, deferred inflows and disclosure of contingencies at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

The amount of state foundation revenue a school district earns for a year, can and does vary until the time when final values for each of the factors in the formula become available. Availability can be as late as midway into the next fiscal year. It is at least reasonably possible that the foundation revenue estimate for the year ended June 30, 2017 will change and those changes could be material.

Notes to the Basic Financial Statements

### M. Deferred Expenditures

The District's deferred expenditures are recorded at cost and reduced as services are consumed.

## N. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based upon historical experience in collecting property taxes. The District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

The District expects to receive all significant receivables within one year of June 30, 2017.

## O. Capital Assets

Capital assets, which include land, buildings and improvements, and furniture and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings and furniture and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

| <u>Assets</u>              | <u>Years</u> |
|----------------------------|--------------|
|                            |              |
| Buildings and improvements | 20-65        |
| Furniture and equipment    | 5-30         |

#### P. Long-Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

Notes to the Basic Financial Statements

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### Q. Deferred Inflows of Resources

In addition to liabilities, the Statement of Net Position and/or the Governmental Funds Balance Sheet will possibly report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that time. The District currently has two items, one of which arises only under the modified accrual basis of accounting, that qualify for reporting in this category. Accordingly, deferred property taxes, is reported only in the governmental funds balance sheet. The governmental funds will recognize deferred property taxes as an inflow of resources in the period in which the amounts become available. The District also has one item arising under the accrual basis of accounting that qualifies for reporting in this category. Accordingly, deferred resource inflow related to net pension liability, is reported only in the Statement of Net Position.

#### R. Deferred Outflows of Resources

In addition to assets, the Statement of Net Position and/or the Balance Sheet will possibly report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of resources that applies to a future period and therefore will not be recognized as an outflow of resources (expense/expenditure) until that time. The District currently has two items, which arise only under the accrual basis of account that qualify for reporting in this category. Accordingly, the deferred loss on issuance of refunding bonds and deferred resource outflow related to net pension liability are reported in the Statement of Net Position.

#### S. Pensions

In government-wide financial statements, pensions are required to be recognized and disclosed using the accrual basis of accounting (see Note 7 and the Required Supplementary Information section immediately following the Notes to the Financial Statements), regardless of the amount recognized as pension expenditures on the modified accrual basis of accounting. The District recognizes a net pension liability for the qualified pension plan in which it participates, which represents the excess of the total pension liability over the fiduciary net position of the qualified pension plan, or the District's proportionate share thereof in the case of a cost-sharing multiple-employer plan, measured as of the respective pensions' fiscal year-end. Changes in the net pension liability during the period are recorded as pension expense, or as deferred inflows of resources or deferred outflows of resources depending on the nature of the change, in the period incurred. Those changes in net pension liability that are recorded as deferred inflows of resources or deferred outflows of resources that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience are amortized over the weighted average remaining service life of all participants in the respective qualified pension plan and recorded as a component of pension expense beginning with the period in which they are incurred. Projected earnings on qualified pension plan investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five-year period beginning with the period in which the difference occurred.

Notes to the Basic Financial Statements

#### T. Interfund Transactions

During the course of normal operations, it is necessary for the District to enter into transactions among its various funds. These transactions consist of one or more of the following types:

- Reimbursements to a fund, which are generally reflected through the allocation of pooled cash accounts, for expenditures or expenses initially made from it, that are properly applicable to another fund
- Transfers of equity balances from one fund to another.
- Transfers in and out, as appropriate, which are shown as other financing sources or uses in the fund financial statements.
- All other outstanding balances between funds are reported as "due to/from other funds" in the fund financial statements.

#### U. Fund Balances and Net Position

#### **Government-Wide Financial Statements**

Net position on the Statement of Net Position includes the following:

Net investment in capital assets - the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt net of premiums and discounts, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets.

Restricted for debt service - the component of net position that reports the difference between assets and liabilities with constraints placed on their use by law.

Restricted for grant programs – the component of net position that reports the difference between assets and liabilities with constraints placed on their use by the providers of the funds.

Unrestricted - the difference between the assets and liabilities that is not reported in any of the classifications above.

#### **Governmental Fund Financial Statements**

The District has adopted the provisions of GASB Statement No. 54, Fund Balance Reporting and Government Fund Type Definitions (GASB 54). The objective of the statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing government fund type definitions. The statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Fund balance classifications, under GASB 54 are non-spendable, restricted, committed, assigned, and unassigned. These classifications reflect not only the nature of funds, but also provide clarity to the level of restriction placed upon fund balance. Fund balance can have different levels of constraint, such as external versus internal compliance requirements. Unassigned fund balance is a residual classification within the General Fund. The General Fund should be the only fund that reports a positive unassigned balance. In all other funds, unassigned is limited to negative residual fund balance.

Notes to the Basic Financial Statements

In accordance with GASB 54, the District classifies governmental fund balances as follows:

Non-spendable – includes amounts that cannot be spent because they are either not in spendable form, or, for legal or contractual reasons, must be kept intact. This classification includes inventories, prepaid items and long term receivables.

Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts restricted due to constitutional provisions or enabling legislation. This classification includes the child nutrition program, retirement of long term debt, construction programs and other federal and state grants.

Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the District through formal action in an open meeting of the highest level of decision making authority. Formal action of the highest level of decision making is also required to modify or rescind a fund balance commitment. Committed fund balance is reported pursuant to resolution passed by the District's Board of Trustees.

Assigned – includes fund balance amounts that are self-imposed by the District to be used for a particular purpose. Fund balance can be assigned by the District's Board, the Superintendent, or the Chief Financial Officer pursuant to the District's fund balance policy.

Unassigned – includes residual positive fund balance within the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

When restricted, committed, assigned, and unassigned fund balances are available for use, it is the District's policy to use restricted fund balance first. Then committed fund balances are reduced, followed by assigned amounts and unassigned amounts when expenditures are incurred for purposes for which amounts in any of those fund balance classifications can be used.

Notes to the Basic Financial Statements

Note 2. Bonded Debt Payable

Bonded debt payable as of June 30, 2017 is as follows:

| Description  | Interest<br>Rate<br>Payable | Amount of<br>Original<br>Issue | Amount<br>Outstanding<br>7/1/2016 | Issued<br>Current<br>Year | Retired<br>Current<br>Year | Amount<br>Outstanding<br>6/30/2017 |
|--|-----------------------------|--------------------------------|-----------------------------------|---------------------------|----------------------------|------------------------------------|
| Unlimited Tax School<br>Building Bonds Series 2016 | 2.00-5.00                   | \$ 43,385,000                  | \$ 43,385,000                     | \$ -                      | \$ 5,605,000               | \$ 37,780,000                      |
| Unlimited Tax<br>Refunding Bonds Series 2016       | 2.50-5.00                   | 21,370,000                     | 21,370,000                        | -                         | -                          | 21,370,000                         |
| Unlimited Tax School<br>Building Bonds Series 2015 | 2.00-5.00                   | 72,545,000                     | 66,155,000                        | -                         | 3,115,000                  | 63,040,000                         |
| Unlimited Tax<br>Refunding Bonds Series 2015       | 3.00-5.00                   | 67,760,000                     | 67,760,000                        | -                         | -                          | 67,760,000                         |
| Unlimited Tax<br>Refunding Bonds Series 2014       | 2.00-4.00                   | 6,090,000                      | 4,455,000                         | -                         | 1,595,000                  | 2,860,000                          |
| Unlimited Tax School<br>Building Bonds Series 2014 | 1.50-5.00                   | 99,675,000                     | 90,630,000                        | -                         | 2,450,000                  | 88,180,000                         |
| Unlimited Tax<br>Refunding Bonds Series 2012       | 2.00-5.00                   | 40,685,000                     | 40,475,000                        | -                         | -                          | 40,475,000                         |

In prior years, the District defeased certain general obligation bonds by placing the proceeds of the bonds in an irrevocable trust for all future debt service payments on the refunded bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the District's financial statements. The total amount of the defeased bonds outstanding at June 30, 2017 is approximately \$143.5 million.

Notes to the Basic Financial Statements

The debt service requirements on the District's bonds are as follows:

| Due Fiscal Year<br>Ending June 30 | Principal         |   | Interest          |     | Total          |   |
|-----------------------------------|-------------------|---|-------------------|-----|----------------|---|
|                                   |                   | • |                   | _   |                | _ |

| 2038-2039                         | 31,505,000        |   | 2,091,050         |     | 33,596,050     |   |
|                                   |                   |   | _                 |     |                |   |
|                                   | \$<br>350,980,000 | _ | \$<br>161,821,094 | _ : | \$ 512,801,094 |   |

Bonded debt payable is collateralized by revenue from the District's tax collections.

As of June 30, 2017, the District has \$30,000,000 of authorized but unissued bonds from the May 2014 election.

## Note 3. Accumulated Unpaid Leave Benefits

Permanent employees hired by the District prior to September 1, 1994 and employed for at least 10 consecutive years will be paid for all unused state and local sick leave, up to a maximum of 90 days, at their rate in the 2003-04 school years. In addition, certain District employees will be paid accumulated vacation time upon termination of employment. A summary of changes in these accumulated unpaid leave benefits follows:

| Balance, July 1, 2016              | \$ | 1,245,202 |
|------------------------------------|----|-----------|
| New entrants and salary increments |    | 75,277    |
| Payments to participants           |    | (307,154) |
| D-1 1 20 2047                      | Φ. | 1 010 005 |
| Balance, June 30, 2017             | \$ | 1,013,325 |

Unpaid leave benefits are liquidated by the funds based on the department personnel to whom the claims relate. In prior years, this has typically been the General Fund.

## Note 4. Changes in Long-Term Liabilities

Long-term activity for the year ended June 30, 2017 was as follows:

| Beginning      |   |   |   | Ending   | Due Within   |
|----------------|---|---|---|--|--|
| Balance        | Α   | dditions  | Reductions  | Balance  | One Year   |
|                |   |   |   |  |  |
|                |   |   |   |  |  |
| \$ 371,335,000 | \$  | -   | \$ 20,355,000   | \$ 350,980,000   | \$ 15,530,000  |

| Furniture and equipment                     | 13,167,091    | 1,274,706     | (293,052)       | 14,148,745    |
|   |               |               |                 |               |
| Total accumulated depreciation              | 87,484,514    | 10,996,466    | (8,192,404)     | 90,288,576    |
|   |               |               |                 |               |
| Governmental activities capital assets, net | \$327,133,925 | \$ 51,793,154 | \$ (14,538,215) | \$364,388,864 |
| ,   |               |               |                 |               |

Depreciation expense of the governmental activities was charged to functions/programs as follows:

| Instruction                                | \$<br>8,742,149  |
|--|------------------|
| Instructional resources and media services | 1,424            |
| Instructional administration               | 17,182           |
| School administration                      | 1,050            |
| Health services                            | 760              |
| Student (pupil) transportation             | 210,678          |
| Food services                              | 117,921          |
| Co-curricular/extracurricular activities   | 693,182          |
| General administration                     | 93,848           |
| Plant maintenance and operations           | 667,544          |
| Data processing services                   | 450,728          |
|  |                  |
| Total depreciation expense                 | \$<br>10,996,466 |

During 2017 the District incurred a \$14.5 million loss on the demolition of two school buildings. This loss is recorded in the Statement of Activities as a special item as the transaction is under the control of management and infrequent in nature.

Notes to the Basic Financial Statements

Construction in progress and remaining commitment, as of June 30, 2017, were as follows:

|                                       | Approved Construction | Construction   | Remaining     |  |

## Note 6. Deposits and Investments

#### Cash Deposits

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the Texas School Depository Act. The depository bank pledges securities which comply with state law and these securities are held for safekeeping and trust with the District's and the depository banks' agent bank. The pledged securities shall be in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

#### Investments

The District's investment policy is in accordance with the Public Funds Investment Act (PFIA), the Public Funds Collateral Act, and federal and state laws. State law and District policy limits credit risk by allowing investing in 1) Obligations of the United States or its agencies which are backed by the full faith and credit of the United States, obligations of the State of Texas or its agencies, counties, cities and other political subdivisions of any state rated as to investment quality by a nationally recognized statistical rating organization (NRSRO) not less than A or its equivalent; 2) Certificates of deposit issued by a depository located in Texas which is insured by the FDIC or purchased through a broker who has an office located in Texas; 3) Repurchase agreements secured by obligations of the United States or its agencies not to exceed 90 days to maturity from the date of purchase; 4) Bankers acceptances with a stated maturity of 270 days or fewer which are eligible for collateral for borrowing from a Federal Reserve Bank; 5) No-load money market mutual funds which shall be registered with the Securities and Exchange Commission which have an average weighted maturity of less than two years, investments comply with the Public Funds Investment Act and are continuously rated not less than AAA by at least one NRSRO; 6) Public funds investment pools which meets the requirements of the Public Funds Investment Act; 7) Commercial paper if it has a stated maturity of 271 days or fewer from the day of its issuance; and is rated not less than A-1 or P-1 or an equivalent rating by at least: two nationally recognized credit ratings agencies; or one nationally recognized agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States or any state.

Notes to the Basic Financial Statements

Cash and investments as of June 30, 2017 are classified in the accompanying financial statements as follows:

| Gov ernment al funds | \$<br>110,129,332 |
|----------------------|-------------------|
| Proprietary funds    | 1,182,117         |
| Fiduciary funds      | 550,119           |
|                      |                   |
|                      | \$<br>111,861,568 |

Cash and investments as of June 30, 2017 consist of the following:

| Deposits with financial institutions | \$<br>9,603,461   |
|--------------------------------------|-------------------|
| Investments                          | 102,258,107       |
|                                      |                   |
|                                      | \$<br>111,861,568 |

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, Fair Value Measurement and Application provides a framework for measuring fair value which establishes a three-level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs-other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

The District's investment measurements and balances, weighted average maturity, and credit risks of such investments are as follows:

|   |    |              | Weighted    |          |        |  |
|---|----|--------------|-------------|----------|--------|--|
|   |    |              | Percent of  | Average  |        |  |
|   |    |              | Total       | Maturity | Credit |  |
|   | Jι | ıne 30, 2017 | Investments | (Days)   | Risk   |  |
| Investments measured at amortized cost: |    |              |             |          |        |  |
| Investment pools:                       |    |              |             |          |        |  |
| Lone Star                               | \$ | 24,037,988   | 24%         | 37       | AAAm   |  |
| TexPool                                 |    | 23,730,718   | 23%         | 35       | AAAm   |  |

Notes to the Basic Financial Statements

Certain investment types are not required to be measured at fair value, those include certain investment pools measured at amortized cost, other investment pools which are measured at net asset value, and non-negotiable certificates of deposit which are measured at amortized cost. These investments are exempt from categorization within the fair value hierarchy.

The Texpool, Lone Star, and Texas DAILY investment pools are external investment pools measured at amortized cost. In order to meet the criteria to be recorded at amortized cost, investment pools must transact at a stable net asset value per share and maintain certain maturity, quality, liquidity and diversification requirements within the investment pool. The investment pools transact at a net asset value of \$1.00 per share, have weighted average maturity of 60 days or less and weighted average life of 120 days or less, investments held are highly rated by nationally recognized statistical rating organization, have no more than 5% of portfolio with one issuer (excluding US government securities), and can meet reasonably foreseeable redemptions. Texpool, Lone Star, and Texas DAILY have a redemption notice period of one day and no maximum transaction amounts. The investment pools' authorities may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium or national or state emergency that affects the pools' liquidity.

The State Comptroller of Public Accounts exercises responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both Participants in TexPool and other persons who do not have a business relationship with TexPool.

Texas DAILY is directed by an advisory board of experienced local government officials, finance directors and treasures and is managed by a team of industry leaders that are focused on providing professional investment services to investors.

Lone Star Investment Pool is governed by an 11-member board and is an AAA rated investment program tailored to the investment needs of local governments within the state of Texas. Lone Star Investment Pool assists governments across Texas make the most of taxpayer dollars. Local officials can improve the return on their invested balances by pooling their money with other entities to achieve economies of scale in a conservative fund in full compliance with the Texas Public Funds Investment Act.

Texas CLASS and Texas CLASS Government investment pools are governed by a board of investment participants and measured at their net asset value. Texas CLASS and Texas CLASS Government's strategy is to seek preservation of principal, liquidity and current income through investment in a diversified portfolio of short-term marketable securities. The District has no unfunded commitments related to the investment pool. Texas CLASS and Texas CLASS Government have a redemption notice period of one day and may redeem daily. The investment pools' authorities may only impose restrictions on redemptions in the event of general suspension of trading on major securities market, general banking moratorium or national or state emergency that affect the pool's liquidity.

## Credit Risk

At year end, the District's investments were rates as noted in the preceding table. All credit ratings met acceptable levels required by legal guidelines prescribed by both the PFIA and the District's investment policy.

#### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates may adversely affect the value of the investments. The District monitors interest rate risk utilizing weighted average maturity analysis. In accordance with its investment policy, the District reduces its exposure to declines in fair values by limiting the maturity of any individual investment from the time of purchase not to exceed one year.

Notes to the Basic Financial Statements

#### Concentration of Credit Risk

The District's investment policy dictates that no individual investment transaction shall be undertaken that jeopardizes the total capital position of the overall portfolio.

## Custodial Credit Risk - Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2017, District's banks' balances of \$9,804,466 were not exposed to custodial credit risk because it was insured and collateralized with securities held by the District's agent and in the District's name.

#### Custodial Credit Risk - Investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District is not exposed to custodial risk due to the investments are insured or registered, or securities held by the District or its agent in the District's name.

#### Note 7. Defined Benefit Pension Plans

#### A. Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

## B. Pension Plan Fiduciary Net Position

Detailed information about the TRS's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

### C. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Notes to the Basic Financial Statements

#### D. Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2015 thru 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for Plan fiscal years 2015. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for Plan fiscal years 2016 and 2017. Rates for such plan fiscal years are as follows:

#### Contribution Rates

|  | 2017 | 2016 | 2015 |
|--|------|------|------|
|  |      |      |      |
| Member                                   | 7.7% | 7.2% | 6.7% |
| Non-employer contributing entity (state) | 6.8% | 6.8% | 6.8% |
| Employers/District                       | 6.8% | 6.8% | 6.8% |

The contribution amounts for the District's fiscal year 2017 are as follows:

| District contributions       | \$<br>1,603,245 |
|------------------------------|-----------------|
| Member contributions         | 3,952,183       |
| NECE on-behalf contributions | 2,498,236       |

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall
  contribute to the retirement system an amount equal to 50% of the state contribution rate for
  certain instructional or administrative employees; and 100% of the state contribution rate for all
  other employees.

Notes to the Basic Financial Statements

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees.

#### E. Actuarial Assumptions

The total pension liability in the August 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Valuation date August 31, 2016

Actuarial cost method Individual entry age normal

Asset valuation method Market value

Single discount rate 8.00%
Long-term expected investment rate of return 8.00%
Municipal bond rate\* N/A\*

Last year ending August 31 in the 2016 to 2115

projection period (100 years) 2115 Inflation 2.50%

Salary increases including inflation 3.50% to 9.50%

Benefit changes during the year None

Ad hoc post-employment benefit changes None

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ended August 31, 2014 and adopted on September 24, 2015.

<sup>\*</sup> if a municipal bond rate was to be used, the rate would be 2.84% as of August 2016 (i.e. the weekly rate closest to but not later than the Measurement Date). The source of the rate is the Federal Reserve Statistical Relesase H.15, citing the Bond Buyer Index of general obligation bonds with 20 years to maturity and an average AA credit rating.

Notes to the Basic Financial Statements

#### F. Discount Rates

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2016 are summarized below:

| Asset Class                   | Target<br>Allocation | Long-Term<br>Expected<br>Geometric<br>Real Rate<br>of Return | Expected Contribution to Long-Term Portfolio Return* |
|-------------------------------|----------------------|--|--|
| Global equity:                |                      |  |  |
| U.S.                          | 18.0%                | 4.6%   | 1.0%   |
| Non-U.S. developed            | 13.0%                | 5.1%   | 0.8%   |
| Emerging markets              | 9.0%                 | 5.9%   | 0.7%   |
| Directional hedge funds       | 4.0%                 | 3.2%   | 0.1%   |
| Private equity                | 13.0%                | 7.0%   | 1.1%   |
| Stable value:                 |                      |  |  |
| U.S. treasuries               | 11.0%                | 0.7%   | 0.1%   |
| Absolute return               | 0.0%                 | 1.8%   | 0.0%   |
| Stable value hedge funds      | 4.0%                 | 3.0%   | 0.1%   |
| Cash                          | 1.0%                 | -0.2%  | 0.0%   |
| Real return:                  |                      |  |  |
| Global inflation linked bonds | 3.0%                 | 0.9%   | 0.0%   |
| Real assets                   | 16.0%                | 5.1%   | 1.1%   |
| Energy and natural resources  | 3.0%                 | 6.6%   | 0.2%   |
| Commodities                   | 0.0%                 | 1.2%   | 0.0%   |
| Risk parity                   |                      |  |  |
| Risk parity                   | 5.0%                 | 6.7%   | 0.3%   |
| Inflation expectation         | -                    | -  | 2.2%   |
| Alpha                         |                      | -  | 1.0%   |
| Total =                       | 100.0%               |  | 8.7%   |

<sup>\*</sup>The expected contribution to returns incorporates the volatility drag resulting from the conversion between arithmetic and geometric mean returns.

Notes to the Basic Financial Statements

#### G. Discount Rate Sensitivity Analysis

The following table presents the District's proportionate share of net pension liability for TRS calculated using the discount rate of 8.0%, as well as the District's proportionate share of the respective net pension liability if it was calculated using a discount rate that is 1-percentage-point lower (7%) or 1-percentage-point higher (9%) than the current rate:

|     |                        | Current                  |                        |
|-----|------------------------|--------------------------|------------------------|
|     | 1% Decrease<br>(7.00%) | Discount Rate<br>(8.00%) | 1% Increase<br>(9.00%) |
| TRS | \$ 29,497,350          | \$ 19,059,283            | \$ 10,205,692          |

# H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability of \$19,059,283 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the collective net pension liability State's proportionate share that is associated with the District | \$<br>19,059,283<br>29,292,219 |
|---|--------------------------------|
| Total   | \$<br>48,351,502               |

The net pension liability was measured as of August 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2015 thru August 31, 2016.

At August 31, 2016 the employer's proportion of the collective net pension liability was 0.0504367% which was a decrease of 0.00091% from its proportion measured as of August 31, 2015.

#### Changes since the Prior Actuarial Valuation

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended June 30, 2017, the District recognized pension expense of \$4,343,721 and revenue of \$3,039,834 for support provided by the State.

Notes to the Basic Financial Statements

At June 30, 2017, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | [  | Deferred    | ı         | Deferred  |
|--|----|-------------|-----------|-----------|
|  | 0  | outflows of | I         | nflows of |
|  | F  | Resources   | Resources |           |
|  | Φ. | 200.047     | Φ.        | F/0.000   |
| Difference between expected and actual experience            | \$ | 298,846     | \$        | 569,099   |
| Changes in assumptions                                       |    | 580,893     |           | 528,298   |
| Difference between projected and actual investment earnings  |    | 1,613,901   |           | -         |
| Changes in proportion and difference between the employer's  |    |             |           |           |
| contributions and the proportionate share of contributions   |    | 3,382,569   |           | 1,641     |
| Contributions paid to TRS subsequent to the measurement date |    | 1,352,578   |           | -         |
|  |    |             |           |           |
| Total  | \$ | 7,228,787   | \$        | 1,099,038 |

\$1,352,578 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources (deferred inflows of resources) related to pensions will be recognized in pension expense as follows:

|                     | Pension |           |  |  |  |
|---------------------|---------|-----------|--|--|--|
|                     |         | Expense   |  |  |  |
| Year ended June 30, |         | Amount    |  |  |  |
|                     |         |           |  |  |  |
| 2018                | \$      | 828,670   |  |  |  |
| 2019                |         | 828,670   |  |  |  |
| 2020                |         | 1,858,095 |  |  |  |
| 2021                |         | 749,575   |  |  |  |
| 2022                |         | 444,924   |  |  |  |
| Thereafter          |         | 67,237    |  |  |  |
|                     |         |           |  |  |  |
| Total               | \$      | 4,777,171 |  |  |  |

#### Note 8. School District Retiree Health Plan

#### **Plan Description**

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS-Care provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS Web site at <a href="https://www.trs.state.tx.us">www.trs.state.tx.us</a> under the TRS publications heading, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling 1-800-223-8778.

Notes to the Basic Financial Statements

#### **Funding Policy**

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting optional coverage. Contribution rates and amounts are shown in the table below for fiscal years 2017-2015.

Contribution Rates and Amounts

|      | Acti  | ve Me | mber    | State |        |         | School District |    |         |  |
|------|-------|-------|---------|-------|--------|---------|-----------------|----|---------|--|
| Year | Rate  |       | Amount  | Rate  | Amount |         | Rate            |    | Amount  |  |
| 2017 | 0.65% | \$    | 337,351 | 1.00% | \$     | 495,831 | 0.55%           | \$ | 285,451 |  |
| 2016 | 0.65% |       | 328,044 | 1.00% |        | 481,232 | 0.55%           |    | 277,575 |  |
| 2015 | 0.65% |       | 306,423 | 1.00% |        | 449,276 | 0.55%           |    | 259,281 |  |

The Medicare Prescription Drug, Improvement, and Modernization act of 2003 established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. Under Medicare Part D, TRS-Care receives retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the years ended June 30, 2017, 2016, and 2015, the subsidy payments received by TRS-Care on behalf of the District were \$240,612, \$147,904, and \$136,985, respectively. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements.

#### Note 9. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance.

In addition, the District is a member of the Texas Association of School Boards Joint Account Self-Insurance Fund (Fund). The Fund was created to formulate, develop and administer a program of modified self-funding for unemployment compensation coverage for its membership, provide claims administration, and develop a comprehensive loss control program. The District pays contributions to the Fund for its unemployment compensation coverage. The District's agreement with the Fund provides that the Fund will be self-sustaining through member premiums and will provide, through commercial companies, reinsurance contracts.

Effective in fiscal year 2008, the District established a self-insurance plan for workers' compensation benefits for employees. The Districts' retention of risk is \$500,000 per occurrence with an aggregate stop-loss limit of \$1,000,000. Claims incurred by the employees of the District are handled by a third party administrator who is responsible for estimating losses to be incurred by the District and ultimately paid to the claimant.

Settled claims have not exceeded the aggregate coverage in any year the plan has been in effect. Insurance coverage has not been reduced for the year from the prior year. Accrued claims payable of \$533,295 as of June 30, 2017, includes provisions for claims reported but not paid and claims incurred but not reported. The provision for reported claims and claims incurred but not yet reported is determined by estimating the amount that will ultimately be paid each claimant and is calculated and provided by the District's third party administrator. Accrued claims payable have not been discounted to their present value as the District expects such claims to be paid within the following fiscal year. The District believes that any discount of the claims payable would not be material to the overall financial statements.

Notes to the Basic Financial Statements

Changes in the fund's claims liability amount for the year ended June 30, 2017 are as follows:

|  | <br>2017      | <br>2016      |
|--|---------------|---------------|
| Liability, beginning of year                 | \$<br>660,092 | \$<br>716,151 |
| Current year claims and changes in estimates | 112,914       | 207,089       |
| Claim payments                               | (239,711)     | <br>(263,148) |
| Liability, end of year                       | \$<br>533,295 | \$<br>660,092 |

### Note 10. Litigation

The District is a party to various legal actions, none of which is believed by the administration or its legal counsel to have a material effect on the financial condition of the District. Accordingly, no provision for losses has been recorded in the accompanying basic financial statements for such contingencies.

#### Note 11. Revenues from Local and Intermediate Sources

During the current year, revenues from local and intermediate sources consisted of the following:

|                      | General       | Debt<br>Service | Capital<br>Projects | Nonmajor<br>Funds | Totals         |
|----------------------|---------------|-----------------|---------------------|-------------------|----------------|
| Property taxes       | \$ 85,276,700 | \$ 35,387,223   | \$ -                | \$ -              | \$ 120,663,923 |
| Charges for services | 236,486       | -               | -                   | 1,550,066         | 1,786,552      |
| Investment income    | 268,724       | 80,267          | 546,251             | 2,228             | 897,470        |
| Other                | 11,841,930    | 5,902           | 837,418             | 381,492           | 13,066,742     |
|                      |               |                 |                     |                   |                |
| Totals               | \$ 97,623,840 | \$ 35,473,392   | \$ 1,383,669        | \$ 1,933,786      | \$ 136,414,687 |

#### Note 12. Interfund Balances and Activities

#### Receivables/Payables

The composition of interfund receivable/payable balances as of June 30, 2017, is as follows:

| Due to Fund                          | Due from Fund                | Amount |                 | Amount  |  | Amount |  | Amount |  | Amount |  | Amount |  | Amount |  | Purpose |
|--------------------------------------|------------------------------|--------|-----------------|---|--|--------|--|--------|--|--------|--|--------|--|--------|--|---------|
| Nonmajor                             | General fund                 | \$     | 745,420         | Transfer to cover expenditures                              |  |        |  |        |  |        |  |        |  |        |  |         |
| Internal service<br>Capital projects | General fund<br>General fund |        | 7,158<br>66,094 | Interfund services provided  Transfer to cover expenditures |  |        |  |        |  |        |  |        |  |        |  |         |
| General fund                         | Debt service                 |        | 2,225           | Transfer to cover expenditures                              |  |        |  |        |  |        |  |        |  |        |  |         |
| Capital projects                     | Nonmajor                     |        | 59,714          | Interfund services provided                                 |  |        |  |        |  |        |  |        |  |        |  |         |
| Nonmajor                             | Nonmajor                     |        | 804             | Interfund services provided                                 |  |        |  |        |  |        |  |        |  |        |  |         |
| General fund                         | Internal service             |        | 54,062          | Transfer to cover expenditures                              |  |        |  |        |  |        |  |        |  |        |  |         |
|                                      |                              | \$     | 935,477         |   |  |        |  |        |  |        |  |        |  |        |  |         |

All amounts due are scheduled to be repaid within one year.

Notes to the Basic Financial Statements

#### **Transfers**

Interfund transfers are defined as "flows of assets without equivalent flow of assets in return and without a requirement for repayment." Transfers are the use of funds collected in one fund and are transferred to finance various programs accounted for in other funds. The following is a summary of the District's interfund transfers for the fiscal year ended June 30, 2017.

| Transfer Out | Transfer In  | Amount |       |  |  |
|--------------|--------------|--------|-------|--|--|
| Nonmajor     | General fund | \$     | 6,300 |  |  |
| Total        |              | \$     | 6,300 |  |  |

#### Note 13. Operating Leases

Commitments under operating leases (non-capitalized) for facilities and equipment are subject to fiscal funding clauses and are cancellable by the District. The District is therefore not obligated for minimum future rental payments as of June 30, 2017. The imputed interest on the leases is not readily determinable.

Rental expenditures for the year ended June 30, 2017 amounted to \$234,267.

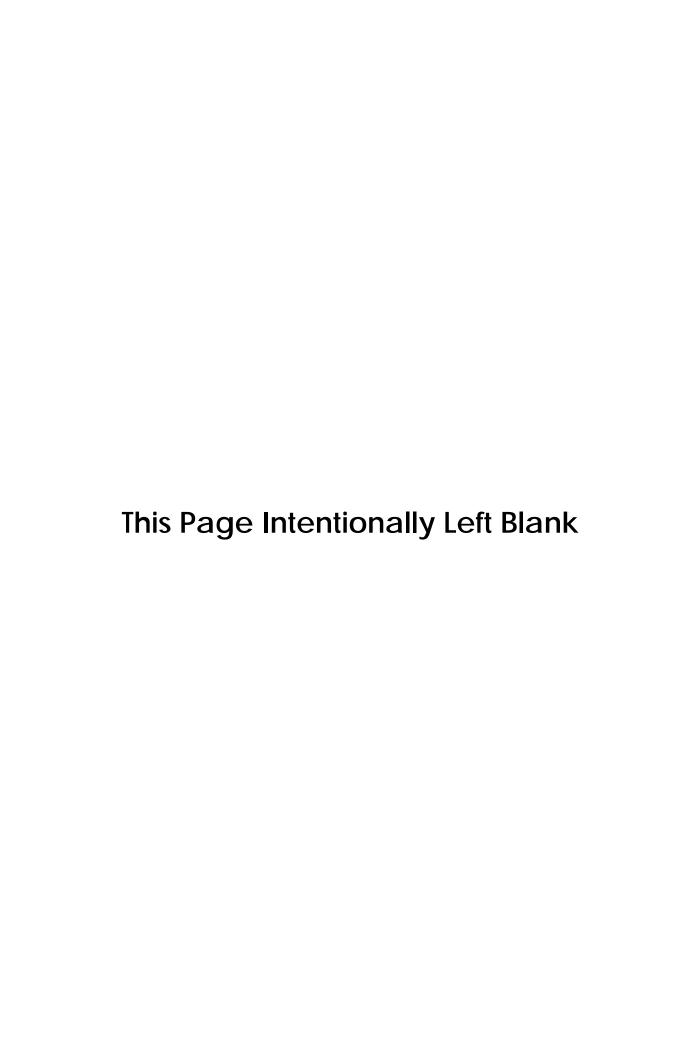

#### Note 14. Tax Abatements

The District entered into various property tax abatement agreements with local businesses under Texas Tax Code, Title 3. Subtitle B. Chapter 313. Texas Economic Development Act (the Act). Under the Act, Texas school districts may grant property tax abatements according to the category of taxable value. The qualified property is limited only from maintenance and operation (M&O) property tax. The tax abatements, which are approved by the Texas Comptroller's office and the District's board of trustees, are granted for the purpose of enhancing the local community; improving the public education system; creating high-paying jobs; and advancing economic development goals.

The agreements are for local businesses to invest a minimum capital investment totaling \$210,000,000 within the District's boundaries during a qualifying period and to create jobs. Each investment would be limited to taxable value of the lesser of the qualified appraised value or \$30,000,000. The District's tax abatements expire in increments beginning in 2023 through 2026.

For the fiscal year ended June 30, 2017, the District has foregone collecting property taxes totaling approximately \$12.4 million resulting from the M&O tax rate of \$1.04 per \$100 of taxable value. The qualified property per the agreements had a taxable value of approximately \$1.4 billion and was limited to a taxable value of \$210,000,000. However, in foregoing the property tax revenue, the District receives state funding through the Foundation School Program funding formula to offset the loss of property tax revenues.

**Required Supplementary Information**

<sup>\*</sup> The amounts presented for the fiscal years were determined as of the District's fiscal year end, June 30. Ten years of data is not available.

Notes to Required Supplementary Information

#### Note 1. Budget

#### A. Budgetary Information

The District adopts annual appropriations type budgets for the General Fund, Food Service Special Revenue Fund, and the Debt Service Fund using the same method of accounting as for financial reporting, as required by law. The remaining Special Revenue Funds (primarily federal grant programs) utilize a managerial type budget. These grants are subject to Federal, State and locally imposed project length budgets and monitoring through submission of reimbursement reports.

Expenditures may not legally exceed budgeted appropriations at the function or activity level. Expenditure requests which would require an increase in total budgeted appropriations must be approved by the Trustees through formal budget amendment. State law prohibits trustees from making budget appropriations in excess of funds available and estimated revenues. State law also prohibits amendment of the budget after fiscal year end.

The administrative level at which responsibility for control of budgeted appropriations begins is at the organizational level within each function of operations. The finance department reviews closely the expenditure requests submitted by the various organizational heads (principal and department heads) throughout the year to ensure proper spending compliance. No public funds of the District shall be expended in any manner other than as provided for in the budget adopted by the Board of Trustees.

The official school budget was prepared for adoption for budgeted governmental fund types by July 1, 2016. The budget was formally adopted by the Board of Trustees at a duly advertised public meeting prior to the expenditure of funds. The final amended budget is filed with the Texas Education Agency (TEA) through inclusion in the annual financial and compliance report.

Encumbrance accounting is utilized in all government fund types. Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at year end.

#### B. Variances with Final Budget

There were no significant variances between the original and final budget.

#### C. Excess of Expenditures Over Appropriations

For the fiscal year ended June 30, 2017, expenditures exceeded appropriations in the functions (the legal level of budgetary control) of the following funds:

| Fund         | Function | Final Budget  | Actual        | Variance   |
|--------------|----------|---------------|---------------|------------|
| General fund | 11       | \$ 39,845,887 | \$ 39,852,562 | \$ (6,675) |
| General fund | 23       | 4,291,016     | 4,291,710     | (694)      |
| General fund | 31       | 2,528,294     | 2,535,301     | (7,007)    |
| General fund | 97       | 1,610,000     | 2,054,938     | (444,938)  |

Notes to Required Supplementary Information

#### Note 2. Pension

#### TRS - Actuarial Assumptions for Contribution Rate

The information presented in the following table was used in the actuarial valuation for determining the actuarially determined contribution rate. The assumptions are as follows:

Valuation date August 31, 2016

Actuarial cost method Ultimate entry age normal

Amortization method Level percentage of payroll, floating

Remaining amortization period 33 Years

Asset valuation method 5 Year smoothed market

Actuarial assumptions:

Inflation 2.50%

Salary increases 3.50% to 9.50% including inflation

Investment rate of return 8.00%

Ad hoc post-employment benefit changes None

Benefit changes during the year None

# Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Trustees La Porte Independent School District La Porte, Texas

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of La Porte Independent School District (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 14, 2017.

#### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The Board of Trustees
La Porte Independent School District

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

# **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance In Accordance with the Uniform Guidance

To the Board of Trustees of La Porte Independent School District La Porte, Texas

#### Report on Compliance for Each Major Federal Program

We have audited La Porte Independent School District's (the District) compliance with the types of compliance requirements described in the U.S. *Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

# Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

#### Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

The Board of Trustees
La Porte Independent School District

#### Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as item 2017-001. Our opinion on each major federal program is not modified with respect to this matter.

The District's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

#### Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. However, we identified certain deficiencies in internal control over compliance as described in the accompanying schedule of findings and questioned costs as item 2017-001, that we consider to be a significant deficiency.

The District's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The Board of Trustees La Porte Independent School District

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Schedule of Findings and Questioned Costs For the Fiscal Year Ended June 30, 2017

#### Section 2. Financial Statement Findings

None noted

## Section 3. Federal Award Findings and Questioned Costs

2017-001 ESEA Title I Part A Improving Basic Programs (84.010A) – Matching, Level of Effort and Earmarking Monitoring Level of Effort – Significant Deficiency in Internal Control over Compliance

#### Criteria

The U.S. Department of Education requires local education agencies to monitor their own fiscal level of effort.

#### Condition

The District does not have procedures in place to monitor their local level of effort as required by the U.S. Department of Education.

#### **Questioned Costs**

None

#### Cause

The absence of procedures to monitor local level of effort.

#### Effect

The District relies on the Texas Education Agency to perform the calculation of level of effort, as part of their oversight requirements, and provide the District with a letter notifying them of compliance or non-compliance. If the District is non-compliant it could lead to decreased state funding if not corrected within an allowable remediation period.

#### Recommendation

We recommend the District implement policies and procedures to monitor their local level of effort.

# Views of Responsible Officials and Planned Corrective Actions:

See corrective action plan.

Audit Finding Reference: 2017-001

Planned Corrective Action: The District has implemented a process where the Director of Finance will perform the Maintenance of Effort monitoring not less than three times annually using the template provided by the Texas Education Agency. This monitoring process will take place once during the budget process, again mid-year and a final time near the fiscal year end. This process will allow the District to identify possible decreased local level of effort and make accommodations as necessary.

Estimated Date of Completion: Began implementation during fiscal year 2017-2018

Responsible Person: Director of Finance

<sup>\*\*</sup> Clustered programs as required by Uniform Guidance (Special Education)

Notes to the Schedule of Expenditures of Federal Awards

#### Note 1. Basis of Presentation

La Porte Independent School District (the District) utilizes the fund types specified in the Texas Education Agency's Financial Accounting System Resource Guide.

Special Revenue Funds – Special Revenue Funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund. Generally, unused balances must be returned to the grantor at the close of specified project periods.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus only current asset, deferred outflows, current liabilities and deferred inflows generally are included on the balance sheet. Operating statements of these funds present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for governmental funds. This basis of accounting recognizes revenues in the accounting period in which they become measurable and available. Expenditures are recorded in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due, and certain compensated absences and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grants are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly when such funds are received, they are recorded as deferred revenues until earned.

#### Note 2. Period of Availability

The period of availability for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project extended 30 days beyond the federal project period ending date, in accordance with the provisions of the Uniform Guidance.

### Note 3. Basis of Funding

Federal funding for Food Services under child nutrition programs is primarily based upon the number and type of meals served and in user charges as reported to the U.S. Department of Agriculture. Federal funding received related to various grant programs is based upon periodic reports detailing reimbursable expenditures made in compliance with the program guidelines to the grantor agencies. Included in the Schedule of Expenditures of Federal Awards is \$253,199 of noncash assistance in the form of USDA Donated Commodities. The programs are governed by various rules and regulations of the grantors. Amounts received and receivable under these various funding programs are subject to periodic audit and adjustment by the funding agencies. To the extent, if any, that the District has not complied with all the rules and regulations with respect to performance, financial or otherwise, adjustment to or return of funding monies may be required. In the opinion of the District's management, there are no significant contingent liabilities relating to matters of compliance and, accordingly, no provision has been made in the basic financial statements for such contingences.

Notes to the Schedule of Expenditures of Federal Awards

#### Note 4. Reconciliation to Basic Financial Statements

The following is a reconciliation of expenditures of federal awards program per Exhibit K-1 and expenditures reported on Exhibit C-3:

| Total expenditures of federal awards per exhibit K-1 | \$<br>5,190,681 |
|--|-----------------|
| School health and related services (SHARS)           | 1,278,145       |
| Reserve officers' training corps                     | <br>64,303      |
| Total federal revenues per Exhibit C-3               | \$<br>6,533,129 |

National School Lunch Program non-cash commodities are recorded at their estimated market value at the time of the donation. The District has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.
