SPRINKLE OF INSPIRATION

The best way to predict the future, is to create it.”

-Abraham Lincoln

“It’s harder to stay on top than it is to make the climb. Continue to seek new goals.”

- Pat Summitt

Words from the Director

By James Middleditch

Hello Parents and Students!!

The 2019-20 school year has officially started. We are excited to be back and working with all families new and old. We have already heard from several parents interested in being a part of the School Improvement Team. If you are interested, please continue to reach out to us for more information. Count day is quickly approaching. Our Fall Count is Wednesday October 2nd. We will still have open enrollment until September 20th. If you know someone who is interested, please encourage them to complete their enrollment before September 20th. Thank you for everyone that has participated in our perception survey. If you have not already, please do so. A link to our survey is on the announcements page in Hero. We appreciate the feedback that you provide so we can do our best to meet your needs and continue to grow.

Field Trips! **- Stacy Long**

Welcome Back!

The school year has officially begun and that means exciting field trips are in the works for the students of WAY Michigan. Please mark your calendars for February 20, 2020. Interested students are invited to attend a field trip to the Charles H. Wright African American History Museum in Detroit. Students are free and the cost for adults interested in attending with their students will be \$8.

A field trip to the Holocaust Museum in Bloomfield Hills is also being planned. Watch for more information on that in upcoming newsletters.

Do you have ideas for field trips for the students of WAY Michigan? Please send your field trip ideas to stacy.long@wayprogram.net

Career Cruising Updates - Jackee Peterson

This year Career Cruising has changed a bit and has added some valuable steps. Even though Career Cruising is a state requirement, it is a fun project that was put together by our own expert, Mrs. Kim Torillo. These new steps will not only help your students to learn more about the careers they are currently interested in, but also help them to explore other careers that they might not have been aware of.

Students will engage in learning about volunteer experience, work experience, college selection, and the importance of having other activities outside of school. It's exciting to see the new information that we get to share with the students, and we can't wait to see what the future has to hold.
