

Local Farmers & Producers

We know firsthand the importance of supporting local businesses. That's why we utilize Gordon Food Service's NearBuy program as our primary vendor.

NearBuy offers a variety of produce and specialty items, all produced by farmers and artisans within 250 miles. Their programs provide access to the highest-quality produce and specialty foods that we get to offer in our dining hall. By sourcing locally, we provide unique products that are in-season, in demand, and grown right here in our community.
