

Garden Club

Garden News

This summer, gardeners met to tend to tomatoes, peppers, broccoli, cabbage, carrots and potatoes. We will be able to harvest these veggies throughout the fall!

This fall, we will plant cilantro to go with the veggies from our summer garden. Before we close the beds for the winter, we will plant garlic.

In October, we will be building **2 more beds** to expand our garden! More information to come home soon for build day!

Should you have any questions or concerns, please email meghanspalding@smsd.org
