

## OES STUDENT ATHLETE PLEDGE

***The following language is an excerpt from the Athletics & Sports policy in the Upper School Student Handbook:***

All student-athletes agree to and sign the Alcohol, Nicotine, and Drug Contract. Any verifiable on or off-campus use of alcohol, nicotine, or other drugs by an athlete will be subject to the Upper School disciplinary process and, in addition, will result in the following consequences:

- Upon the first offense, students will be suspended from play for two contests; students are expected to participate in practice and be present at the contests.
- A second offense within a school year will result in dismissal from the team.
- A third offense could result in permanent suspension from the OES athletic program.

Seeking care for a substance abuse problem demonstrates responsible judgement, as such, students who come forward with concerns about their own use will receive assistance. If a violation is confirmed before or after the student requests assistance, disciplinary action will result.

***I, \_\_\_\_\_, have read the Athlete & Sports policy excerpted above, and I agree to abide by this policy and not use alcohol, nicotine, or illicit drugs.***
