November 27, 2018

President and Members of the Board of Education  
Keeneyville School District 20  
Hanover Park, IL 60103

The Comprehensive Annual Financial Report (CAFR) of Keeneyville School District 20 (the "District"), Hanover Park, Illinois, for the fiscal year ended June 30, 2018, is hereby submitted. The Director of Operations/Treasurer prepared the report. The audit was completed in November, 2018 and the report was subsequently issued.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The District includes all funds that are controlled by or dependent on the Board of Education of the District, as determined on a basis of financial accountability. The District does not have such financial accountability over any other entity and thus does not include any other entity as a component unit in this report. Additionally, the District is an independent entity, not includable as a component unit of any other reporting entity.

The Board of Education of Keeneyville School District 20, DuPage County, Illinois, provides educational instruction to children residing in the Villages of Hanover Park, Roselle, Bloomingdale and unincorporated Keeneyville. The District's operations are funded primarily through local property taxes. The District operates under guidelines and restrictions as set forth in the *School Code of Illinois* and various federal statutes.

On October 4, 1897, Lake Street School District 20, Bloomingdale, opened the doors of a one-room cabin schoolhouse with only nine students. Over the next hundred years, the District changed its name, expanded to include four different villages, and added necessary buildings to accommodate student population growth. By 1949, enrollment had grown to 35 students and by 1950, the name of Lake Street School officially changed to Keeneyville School, later to become known as Keeneyville School District 20.

The District has continued to grow. In 2018 the District houses 1,595 students in four separate school buildings with a teaching staff of 125 professionals. Waterbury Elementary in Roselle houses our kindergarten through fifth grades. Greenbrook Elementary in Hanover Park houses our kindergarten through fifth grades. Spring Wood Middle School in Hanover Park houses the sixth through eighth grade students. The Early Childhood Center houses our 3-5 pre-school program in Hanover Park.

Students leaving the District at the end of eighth grade attend Lake Park High School 108. District 108 levies its own local property tax and files its tax levy with the DuPage County Clerk.

The District has complete responsibility for the preparation and modification of its annual budget and is solely accountable for its fiscal matters, including surpluses and deficits, designation of management, and issuance of debt.

## **ECONOMIC CONDITION AND OUTLOOK**

The District is located approximately 25 miles west of Chicago's Loop and approximately 14 miles west of O'Hare International Airport covering an area of 4,678 square miles. The economic condition of the Hanover Park, Roselle, Bloomingdale and unincorporated Keeneyville areas is stable, and the prospect of additional property tax revenue is good. However, in 1990 the State of Illinois' legislature imposed a cap on property taxes which limits the tax levy to 105% or the Consumer Price Index increase (whichever is the lesser) of the previous tax extension, excluding growth due to new construction. The legislation allows voters to override the tax cap by referendum. Hanover Park, Roselle, Bloomingdale and unincorporated Keeneyville have traditionally been very supportive of maintaining excellent school systems. As long as local taxpayers are allowed to support their schools, no financing problems for the District are foreseen.

### **Mission, Belief and Strategic Plan for 2016-2017 to 2018-2019**

In January 2016, a group of community stakeholders came together to provide the Board of Education with information in support of an effort to revise the Mission and Belief as well as develop a new Strategic Plan for the next three years. The Board adopted the following Mission and Belief Statement in March 2016.

**Mission:** *Ignite the power and potential of each student*

#### **We Believe:**

All students have unique strengths and talents and excel in a rigorous, supportive environment.

Students learn best in a safe, secure and respectful atmosphere.

Our diversity enhances student learning and life experiences.

Partnerships among school, home and community are essential to success.

District resources must be managed responsively and efficiently.

Student growth is ignited by inspiring passion, uncovering knowledge and developing personal relationships.

In addition to the new mission and belief statement, the Board of Education approved a three year detailed Strategic Plan for the 2016-2017 through 2018-2019. The detailed plan is as follows:

**Keeneyville 20**

**2016-2019 Strategic Plan**

Themes	2016-2017	2017-2018	2018-2019
<b>Curriculum, Instruction, &amp; Assessment</b>	<ul style="list-style-type: none"> <li>-Create a District Curriculum Council and charge with the following: conduct a deep audit of the current core curricula, prioritize needs, establish a curriculum review/renewal cycle, create a curriculum development model/process, and develop assessment processes</li> <li>-Develop a 3-year Professional Development Plan that aligns with the new strategic plan, including but not limited to: new curriculum skills, PLC components, all components of the new long-range technology plan, social-emotional curriculum, and differentiation</li> <li>-Continue to offer high quality programs in fine arts, library and full day kindergarten; continually assess</li> </ul>	<ul style="list-style-type: none"> <li>-Implement Priority #1 from the curriculum audit and begin a curriculum study to recommend a new curriculum for this subject area</li> <li>-Implement Year One of the new professional development plan</li> <li>-Continue to offer high quality programs in fine arts, library and full day kindergarten; continually assess</li> </ul>	<ul style="list-style-type: none"> <li>-Implement the recommendation from the Priority #1 curriculum study</li> <li>-Implement Priority #2 from the curriculum audit and begin a curriculum study to recommend a new curriculum for this subject area</li> <li>-Implement Year Two of the new professional development plan</li> <li>-Continue to offer high quality programs in fine arts, library and full day kindergarten; continually assess</li> </ul>
<b>Technology</b>	<ul style="list-style-type: none"> <li>-Expand the scope and responsibilities of the current Technology Committee to create a long-range technology plan that includes but is not limited to: hardware/software acquisition and replacement; infrastructure capacity; 1:1 pilot and rollout; infusing technology into teaching, learning and curricula; training; and the feasibility of adding technology facilitators</li> </ul>	<ul style="list-style-type: none"> <li>-Implement Year One of the long-range technology plan</li> </ul>	<ul style="list-style-type: none"> <li>-Implement Year Two of the long-range technology plan</li> </ul>
<b>Meeting the Unique Needs of Children</b>	<ul style="list-style-type: none"> <li>-Create a process to continually monitor the effectiveness of special programs (sp. ed., ELL, 504 plans, reading support, early childhood and enrichment) and make recommendations for improvement and enhancement</li> <li>-Evaluate the effectiveness of the current MTSS process and make recommendations for improvement</li> </ul>	<ul style="list-style-type: none"> <li>-Implement recommendations for improvement and enhancement of special programs</li> <li>-Implement recommendations for improvement of the MTSS process</li> <li>-Develop the PLC model for improvement of student achievement and achievement gaps, including but not limited to: reviewing master schedules for maximum planning and instructional time, creating effective interventions and training for both team leaders and staff</li> </ul>	<ul style="list-style-type: none"> <li>-Continue to implement recommendations for improvement and enhancement of special programs</li> <li>-Continue to implement recommendations for improvement of the MTSS process and assess for effectiveness</li> <li>-Implement the PLC process, as developed</li> </ul>
<b>Student Life</b>	<ul style="list-style-type: none"> <li>-Examine the Social-Emotional Education curriculum as it currently exists in PreK-8, compare to State requirements and create a new integrated and coordinated program</li> <li>-Continue to provide a wide variety of extracurricular activities; seek ways to expand and possibly partner with the local community</li> <li>-Create a representative student behavior/discipline committee to make recommendations for: student discipline policy/implementation, compliance with SB 100</li> </ul>	<ul style="list-style-type: none"> <li>-Implement the new PreK-8 Social Emotional Education curriculum</li> <li>-Implement ways to expand extracurricular programs and partnerships</li> <li>-Implement recommendations from the student behavior/discipline committee</li> </ul>	<ul style="list-style-type: none"> <li>-Continue to implement the new PreK-8 Social Emotional Education curriculum and assess for effectiveness</li> <li>-Implement ways to expand extracurricular programs and partnerships and assess for effectiveness</li> <li>-Continue implementing recommendations from the student behavior/discipline committee and assess their effectiveness</li> </ul>
<b>Community, Collaboration and Culture</b>	<ul style="list-style-type: none"> <li>-Create an Employee Relationships Committee to study the topic and then recommend a variety of activities designed to build both trust and a more positive climate within all aspects of the school district</li> <li>-Develop recommendations for improvements regarding communication issues including but not limited to: utilization of the web site; district newsletters, use of social media, recognition of students/staff/district and enhancement of school climate and culture</li> </ul>	<ul style="list-style-type: none"> <li>-Implement the recommendations of the Employee Relationships Committee</li> <li>-Implement the recommendations of the communication review</li> <li>-Develop recommendations for improvements regarding community outreach and partnership opportunities including but not limited to: increased parental participation, school-business partnerships, service projects, enhancement of school climate/culture and extracurricular opportunities</li> </ul>	<ul style="list-style-type: none"> <li>-Continue to implement the recommendations of the Employee Relationships Committee and assess for effectiveness</li> <li>-Continue to implement the recommendations of the communication review and assess for effectiveness</li> <li>-Implement the recommendations of the community outreach and partnership</li> </ul>
<b>Finances and Facilities</b>	<ul style="list-style-type: none"> <li>-Continually and proactively monitor district finances, fund balances and budget to assure fiscal stability</li> <li>-Explore new revenue sources including but not limited to grants and business partnerships</li> <li>-Update the long-range facilities plan for all schools and include the study of available and appropriate space for learning and an update equipment and furnishings provided in classrooms</li> </ul>	<ul style="list-style-type: none"> <li>-Continually and proactively monitor district finances, fund balances and budget to assure fiscal stability</li> <li>-Explore new revenue sources including but not limited to grants and business partnerships</li> <li>-Implement recommendations from the long-range facilities plan and the study of learning space and furnishings</li> </ul>	<ul style="list-style-type: none"> <li>-Continually and proactively monitor district finances, fund balances and budget to assure fiscal stability</li> <li>-Explore new revenue sources including but not limited to grants and business partnerships</li> <li>-Continue to implement recommendations from the long-range facilities plan and the study of learning space and furnishings</li> </ul>

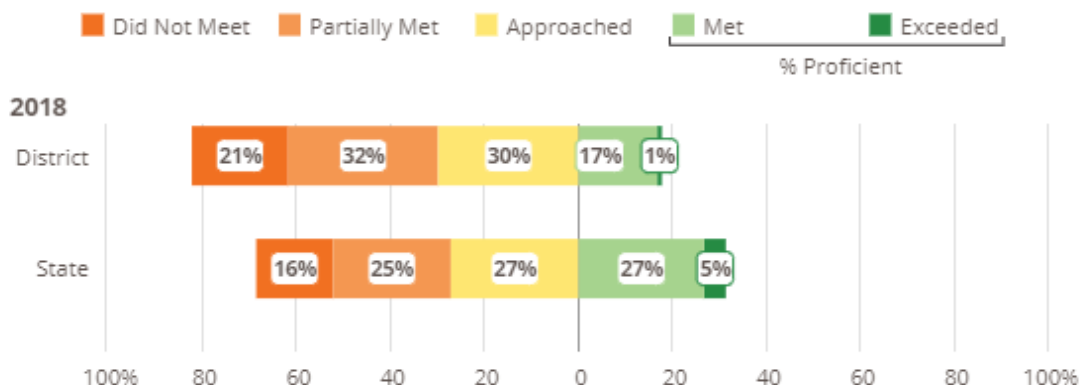

## STUDENT ACHIEVEMENTS

The Illinois State Board of Education measures the amount of academic growth a school's students demonstrate, Illinois compares student's performance on Partnership for Assessment of Readiness for College and Careers (PARCC). For the 2017-2018 school year, the percentages of state test scores categorized as meeting or exceeding the PARCC expectations for ELA and Math were as follows:

For ELA

For Math:

## FINANCIAL INFORMATION

The District administration is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles.

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

Tests are made by the District's independent auditor to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations. The results of the tests for the fiscal year ended June 30, 2018 provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

### ***Budget Control***

The District maintains sound budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the District's Board of Education.

Monthly, the business office provides the Board with a Variance Report based on changes to the approved budget.

Activities of the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the individual fund level.

The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at year-end, on June 30.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

### **OTHER INFORMATION**

#### ***Independent Audit***

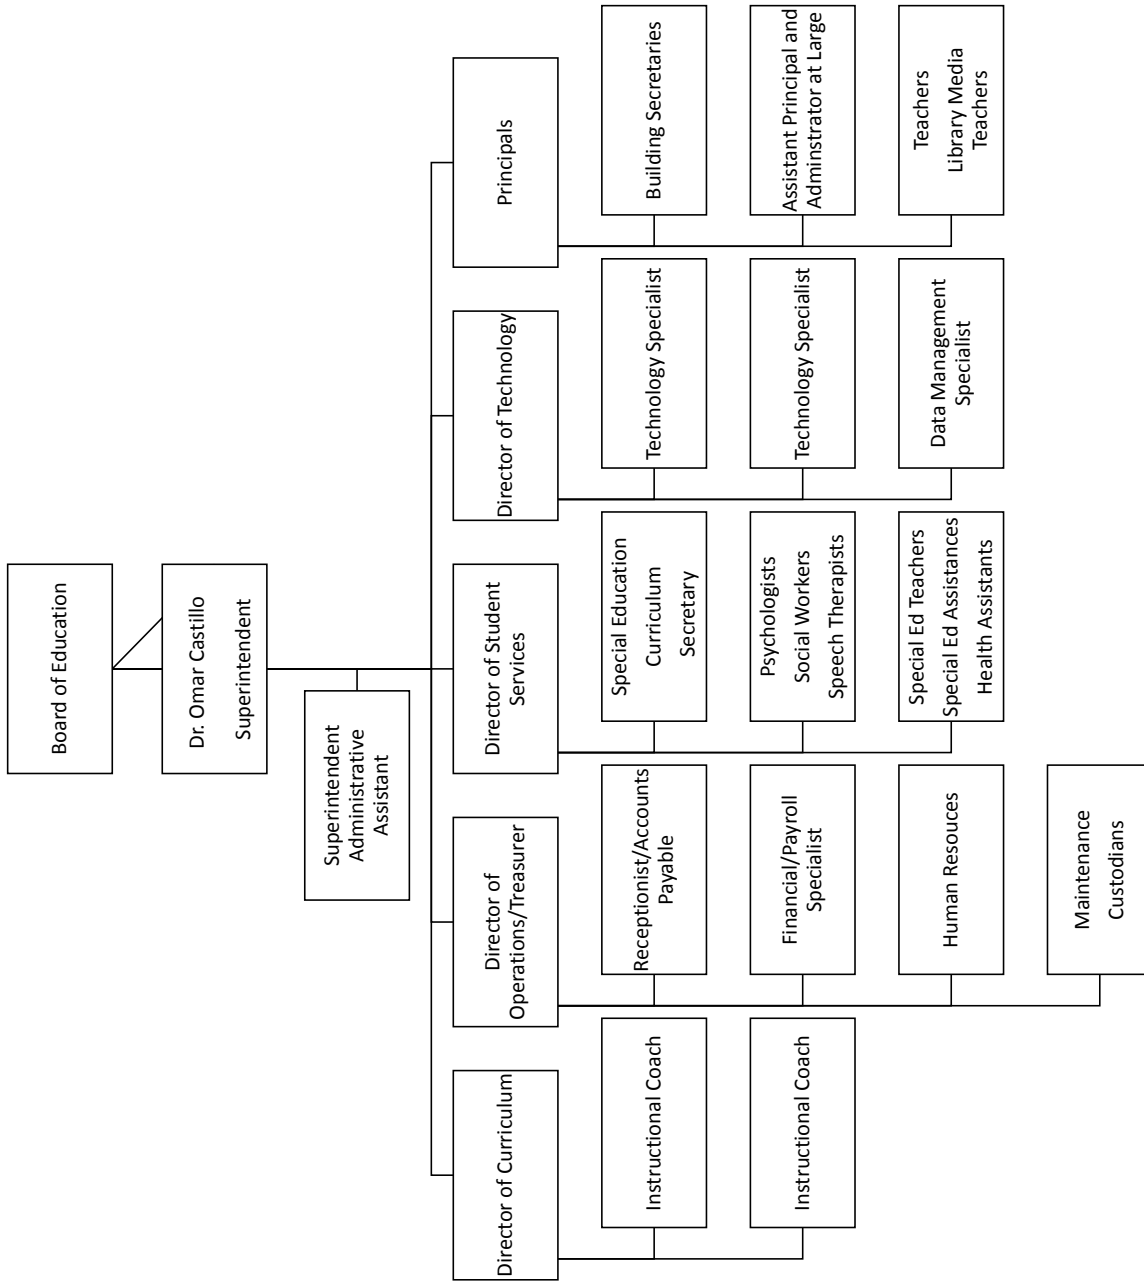

State statutes require an annual audit of the books of accounts, financial records and transactions of all funds of the District. The independent certified public accounting firm of Klein Hall CPAs performed the audit. The auditor's report is included in the financial section of this report.

#### ***Acknowledgments***

We wish to thank the members of the Board of Education for their interest and support in planning and conducting the financial operations of the District in a responsible and progressive manner. We also wish to thank the efficient and dedicated business office staff for their assistance in the timely preparation of this report.

Respectfully submitted,

Wendy J. Flaherty  
Director of Operations/Treasurer

## FINANCIAL SECTION

*Independent Auditor's Report*

Board of Education  
Keeneyville School District No. 20  
Hanover Park, Illinois

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Keeneyville School District No. 20 (the District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Keeneyville School District No. 20 as of June 30, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## ***Emphasis of Matter***

The District adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, during the year ended June 30, 2018. Statement No. 75 expands disclosures related to postemployment benefits other than pensions and requires the District to report the net other postemployment benefit liability in the statement of net position. The adoption of this statement had no effect on any of the District's fund balances but reduced the District's governmental activities net position by \$9,405,902 as of July 1, 2017 as disclosed in Note 14. Our opinions are not modified with respect to this matter.

## ***Other Matters***

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

We have also audited, in accordance with auditing standards generally accepted in the United States of America, the District's basic financial statements for the year ended June 30, 2017, which are not presented with the accompanying financial statements, and we expressed unmodified opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The schedules of revenues, expenditures and changes in fund balances - budget and actual, related to the 2017 financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2017 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those

basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2017 schedules of revenues, expenditures and changes in fund balances - budget and actual are fairly stated in material respects in relation to the basic financial statements from which they have been derived.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 27, 2018 on our consideration of Keeneyville School District No. 20's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## KEENEYVILLE ELEMENTARY SCHOOL DISTRICT NO. 20

Management's Discussion and Analysis  
For the Year Ended June 20, 2018

---

The discussion and analysis of Keeneysville Elementary School District No. 20's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2018. The District's financial statements incorporate required information for the District to be in compliance with the provisions of the Governmental Accounting Standards Board Statement No. 34. The management of the District encourages readers to consider the information herein in conjunction with the basic financial statements to enhance their understanding of the District's financial performance. This report, Management's Discussion and Analysis (MD&A), provides an overview of the District's financial activities for the fiscal year ended June 30, 2018 with comparative data to the fiscal year ended June 30, 2017.

### Financial Highlights

- The District's financial status continues to be strong as evidenced by ISBE's award of Financial Recognition with a score of 3.90 out of 4.00. This is the highest category a District can obtain.
- General Fund balances which include the Educational Account, Operations & Maintenance Account, Working Cash Account and Tort Immunity Account as of June 30, 2018 were \$12,276,036 reflecting an increase of \$2,526,269 or 25.9% due to additional revenues received as a result of the Evidenced Based Funding and other prudent financial management. The General Fund accounts for 84.47% of the total fund balance.
- The combined fund balances of all governmental funds as of June 30, 2018 was \$14,533,078 reflecting a decrease of \$447,847 or 3% due primarily to Capital Expenditures out of the Fire Prevention and Life Safety fund for the purchase of heating and ventilation systems at Spring Wood Middle School and Waterbury Elementary. The District also installed a Geothermal system at Greenbrook Elementary during the summer of 2017.
- The District's total net position as of June 30 2018 decreased by \$10,386,262 to \$9,276,244 or a 53% decline due to the implementation of GASB Statement No. 75. Statement No. 75 expands disclosures related to post-employment benefits other than pensions and requires to the District to report the other postemployment benefit liability in the statement of net position. This does not affect the District's fund balances but reduced the District's governmental activities net position.
- The District has one union for teachers, the Keeneysville Educational Association (KEA). During FY 2018 the District negotiated a five year contract that runs through August of 2022. This contract allows for better budgeting as it is tied to the CPI-U increase annually and eliminated the salary schedule.
- The Board of Education continues to adopt budgets that are balanced and is committed to operating these budgets within the parameters of each school year. For the past eighteen years, the Board of Education has approved balanced budgets and ended each of the past thirteen years with a fund surplus. Those surpluses have been used to fund infrastructure improvements annually.

### **Overview of the Financial Statements**

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and additional supplementary information. The basic financial statements include two types of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the District-wide statements.

## KEENEYVILLE ELEMENTARY SCHOOL DISTRICT NO. 20

Management's Discussion and Analysis  
For the Year Ended June 20, 2018

---

- The *governmental funds statements* tell how basic services such as regular and special education were financed in the *short-term* as well as what remains for future spending.
- *Fiduciary funds statements* provide information about the financial relationships in which the District acts solely as a *trustee* or *agent* for the benefit of others.

### **Reporting the District as a Whole**

#### ***Government-wide Financial Statements***

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies.

The statement of net position includes all of the District's assets plus deferred outflows and liabilities plus deferred inflows. All of the current year's revenues and expenses are accounted for in the statements of activities regardless of when cash is received or paid.

The two government-wide financial statements report the District's *net position* and how it has changed. A District's net position is the difference between the District's assets and deferred outflows and liabilities and deferred inflows – this is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether the financial position is improving or deteriorating.
- To assess the District's overall health, one must consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are categorized as *Governmental Activities*. All of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes finance over 67% of all activities with state aid and federal revenues supporting the rest.

#### **Financial Analysis of the District as a Whole**

The District's total net position decreased 53% or \$10,386,282 from \$19,662,526 to \$9,276,244. (see Table A-1). This can be accounted for due to the implementation of GASB Statement No. 75, which decreased net position by \$9,405,902 as of July 1, 2017. Prior to fiscal year 2018 this liability was not reported in the government-wide financial statements.

The District's total revenue increased 9% or \$2,149,535 from \$22,746,981 to \$24,896,516 see (Table A-2 – above).

On-Behalf Payments that the State of Illinois pays into the teachers' pension fund for employees increased by 20% or \$618,204. This figure, while a reporting requirement under GASB, is a pass through that does not increase the operating revenues of the District.

## KEENEYVILLE ELEMENTARY SCHOOL DISTRICT NO. 20

Management's Discussion and Analysis  
For the Year Ended June 20, 2018

---

Operating grants, if On-Behalf Payments are eliminated, include special education reimbursement, transportation reimbursement and other categorical grants increased \$229,813 or 11% from the prior year. This was due to increases in State funding of all categorical grants during the fiscal year.

Property taxes increased 3% or \$386,359 due to new construction which falls outside the tax cap for only one year. For tax levy year 2017 taxes collected in fiscal year 2018 the CPI-U was 2.1%. The CPI-U (or 2.1%) is the amount of additional revenue from the aggregate extension base the District can collect through local property taxes.

Unrestricted Federal and State aid increased \$682,399. In fiscal year 2018 the State implemented the evidence based funding model.

The total of all expenses for the 2017-2018 year was \$25,876,896. This was an increase of 25% or \$5,176,388 from the prior year's expenses of \$20,700,508.

Instructional services increased in the area of regular programs by 26% or \$2,459,991 due to the changes in the net pension liability and deferred inflow and outflows.

In the area of special educational programs, costs increased 20% or \$555,650 due to costs related to special education program services for students.

General Administration expenses increased \$323,126 or 44% due to personnel costs.

School Administration expenses increased \$32,252 or 3% due to salary and benefit increases. Three administrators retired at the end of fiscal year 2017.

Operation and maintenance increased \$551,553 or 52% due to the capital improvement program.

Transportation expenses increased \$58,122 or 7%

Central Support services costs increased \$46,997 or 9% over the prior year due to increased spending on technology equipment.

Interest on long-term liabilities increased \$32,037 or 9% due to the repayment of new bonds issued in December 2015 and March of 2016 that began payments in fiscal year 2017. Bond proceeds were deposited into the Fire Prevention and Safety Fund. Additionally the District entered into a new lease agreement in fiscal year 2018 to upgrade their current copier. A more detailed review of the Districts general long-term debt obligations can be found in Note 5 of the Notes to Financial Statements.

Total revenues for 2017-2018 were \$24,896,516 while the Districts expenses were \$25,876,896 thereby decreasing net position by 980,380. A prior period adjustment related to the implementation of GASB Statement No. 75 of \$9,405,902 further reduced the ending net position to \$9,276,244.

### ***Reporting the District's Most Significant Funds – Fund Financial Statements***

The District's fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole.

Fund accounting devices that the District uses to keep track of specific sources of funding and spending for particular programs include:

- Some funds that are required by state law and by bond covenants, and

## KEENEYVILLE ELEMENTARY SCHOOL DISTRICT NO. 20

Management's Discussion and Analysis  
For the Year Ended June 20, 2018

---

- Other funds established by the District to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as Working Cash).

The District has two categories of funds:

- *Governmental Funds*: All of the District's basic services are included in governmental funds which generally focus on (1) how cash and other financial assets can readily be converted to cash flow – both in and out and (2) the balances left at year-end that are available for spending.

Consequently, the governmental funds statements provide a detailed short-term view that allows one to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass additional long-term focus of the Government-wide statements, reconciliations are provided to explain the relationship (or differences) between them.

- *Fiduciary Funds*: The District is the trustee, or *fiduciary*, for assets that belong to others, such as the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

### Financial Analysis of the District's Funds

The District's governmental funds have a combined fund balance of \$14,533,078 as of June 30, 2018. This is a decrease of \$447,847 from the June 30, 2017 fund balance of \$14,980,925. The major reason for this decrease were expenditures from the Fire Prevention and Safety Fund to pay for the heating and ventilating projects at all three schools. The funds were originally provided for with bonds issued in fiscal year 2016.

The General Fund consists of the primary operating accounts of the District. These include the Educational Account, Operations & Maintenance Account, Working Cash Account and Tort Immunity Account. The District received \$22,509,601 in the General Fund for the 2017-2018 year and expended \$20,251,769 for a surplus of \$2,257,832 before other financing sources or uses. The ending increased General Fund fund balance of \$12,276,036 was due primarily to conservative budgeting on State Funding as well as reduction in costs for salaries and benefits due to retirements and attrition.

The Educational Account reflected an increase in revenues due to local property taxes increasing from additional new construction. State revenues increased down due to the evidence based funding formula. Federal revenues were relatively flat. Expenditures increased in instruction and support services due to additional teaching assists required for students with special needs but instruction costs were down as the District hired younger teachers during the year. (See Table A-3)

**KEENEYVILLE ELEMENTARY SCHOOL DISTRICT NO. 20**

Management's Discussion and Analysis

For the Year Ended June 20, 2018

<b>Educational Account (Table A-3)</b>			
<b>Schedule of Revenues and Expenditures</b>			
	<b>Fiscal Year 2018</b>	<b>Fiscal Year 2017</b>	<b>Increase (Decrease)</b>
<b>Revenues</b>			
Local Sources	\$ 12,274,522	\$ 11,843,644	\$ 430,878
State Sources	6,368,212	4,879,793	1,488,419
Federal Sources	1,318,860	1,205,640	113,220
<b>Total Revenues</b>	<b>19,961,594</b>	<b>17,929,077</b>	<b>\$ 2,032,517</b>
<b>Expenditures</b>			
Instructional Services	12,985,177	12,123,759	\$ 861,418
Support Services	5,087,097	4,683,340	403,757
Community Services	24,748	50,143	(25,395)
Payments to other governments	59,323	-	59,323
<b>Total Expenditures</b>	<b>18,156,345</b>	<b>16,857,242</b>	<b>\$ 1,239,780</b>
<b>Excess of Revenues over Expenditures</b>	<b>\$ 1,805,249</b>	<b>\$ 1,071,835</b>	

The Operations and Maintenance Account reflected a significant decline in capital outlay from \$265,149 in fiscal year 2017 to \$97,265 in fiscal year 2018 due to a majority of the summer construction being funded out of the Life Safety Fund from restricted bond proceeds. The Operations and Maintenance fund balance increased by \$443,578 in fiscal year 2018.

The Working Cash Account increased due to interest on investments. That fund balance ended the fiscal year at \$2,237,403, up just over \$19,000 for the year.

The Tort Immunity Account revenues consisted of local property taxes, evidence based funding as well as investments and a small refund from the prior year. This fund also remained relatively flat as expenditures for Property Casualty insurance were \$112,202 for the year. The fund balance ended the fiscal year at \$23,357.

Non-major Governmental Funds include the Transportation Fund, Municipal Retirement/Social Security Fund and Capital Projects Fund. Transportation is a significant operating expense for the District. As shown below in Table A-4, transportation revenues increased as a result of the State funding. Additionally, the District busing costs increase due to additional after school activities, special needs, and homeless transportation requirements.

**KEENEYVILLE ELEMENTARY SCHOOL DISTRICT NO. 20**

Management's Discussion and Analysis  
For the Year Ended June 20, 2018

<b>Transportation Fund (Table A-4)</b>			
<b>Schedule of Revenues and Expenditures</b>			
	<b>Fiscal Year 2018</b>	<b>Fiscal Year 2017</b>	<b>Increase (Decrease)</b>
<b>Revenues</b>			
Local Sources	\$ 614,954	\$ 575,279	\$ 39,675
State Sources	447,403	139,266	308,137
<b>Total Revenues</b>	<b>1,062,357</b>	<b>714,545</b>	<b>\$ 347,812</b>
<b>Expenditures</b>			
Support Services	885,046	869,068	15,978
<b>Total Expenditures</b>	<b>885,046</b>	<b>869,068</b>	<b>\$ 15,978</b>
<b>Excess of Revenues over Expenditures</b>	<b>\$ 177,311</b>	<b>\$ (154,523)</b>	

The Fire Prevention and Safety Fund decreased by \$3,125,712 due to the payment of HVAC construction upgrades done during fiscal year 2018.

**General Fund Budgetary Highlights**

The District budget is prepared in accordance with Illinois law and based on the modified accrual basis of accounting, utilizing revenues, expenditures and encumbrances.

<b>Comparison of 2016-2017 Budget vs. Actual (Table A-5)</b>					
<b>General Fund</b>	<b>Budget</b>	<b>Actual</b>	<b>\$ Difference</b>	<b>% Difference</b>	<b>Actual Revenue over Expenditures</b>
Educational Revenue	\$ 18,110,217	\$ 19,961,594	\$ 1,851,377	10%	
Educational Expenditures	18,110,217	18,156,345	46,128	0%	\$ 1,805,249
O&M Revenue	2,261,816	2,416,800	154,984	7%	
O&M Expenditures	2,281,816	1,983,222	(298,594)	-13%	433,578
Working Cash Revenue	15,000	19,006	4,006	27%	
Working Cash Expenditures	-	-	-	0%	19,006
Tort Immunity Revenue	58,900	112,201	53,301	90%	
Tort Immunity Expenditures	58,900	112,202	53,302	90%	(1)
<b>Total Revenue</b>	<b>20,445,933</b>	<b>22,509,601</b>	<b>2,063,668</b>	<b>10%</b>	
<b>Total Expenditures</b>	<b>\$ 20,450,933</b>	<b>\$ 20,251,769</b>	<b>\$ (199,164)</b>	<b>-1%</b>	<b>\$ 2,257,832</b>

Appropriate budgetary control over all governmental expenditures is maintained with the use of a formal encumbrance system. Encumbered amounts lapse at year-end, on June 30, 2018. All appropriations lapse at year-end and must be re-established the following fiscal year.

The Board of Education and the Administration will continue to develop strategies to ensure that the financial condition of the District remains sound.

**KEENEYVILLE ELEMENTARY SCHOOL DISTRICT NO. 20**

Management's Discussion and Analysis

For the Year Ended June 20, 2018

**Capital assets**

The District's investment in capital assets to improve its heating and ventilation systems including the addition of the Geothermal system at Greenbrook elementary. A more detailed review of the District's capital assets can be seen in Note 4 of the Notes to Financial Statements.

<b>Capital Assets Net of Depreciation (Table A-6)</b>		
	<b>2018</b>	<b>2017</b>
<b>Capital Assets</b>		
Land	\$ 2,151,258	\$ 2,151,258
Construction in Progress	-	2,670,525
Building and Improvements	14,266,151	12,220,140
Equipment	1,142,381	673,616
<b>Total Capital Assets</b>	<b>17,559,790</b>	<b>17,715,539</b>

**Debt Administration**

The District's statutory debt limit is 6.9% of the Equalized Assessed Valuation of all taxable property located within the boundaries of the District.

2017 Equalized Assessed Value:	<u>\$ 400,311,505</u>
Debt Limit @ 6.9%	<u>\$ 27,621,494</u>
General Obligation Debt	\$ 10,525,000
Less: Debt Service Fund Balance	(99,943)
Net General Obligation Debt Outstanding	<u>\$ 10,425,057</u>
Legal Debt Margin	<u>\$ 17,196,437</u>

**Long Term Debt**

General Obligation Bonds outstanding at year end were \$10,525,000. The District's tax bonds carry an AA rating from Standard & Poor's. The District's ratings reflect a steady, moderate tax base and sound financial operations with ample reserves, moderate debt burden and adequate security protection. Further detail is included in Note 5 of the Notes to Financial Statements.

<b>Outstanding General Obligation Bonds (Table A-7)</b>		
	<b>2018</b>	<b>2017</b>
<b>General Obligation Bonds</b>		
Series 2015	\$ 4,570,000	\$ 4,900,000
Series 2016	5,955,000	6,180,000
<b>Total Capital Assets</b>	<b>10,525,000</b>	<b>11,080,000</b>

## **KEENEYVILLE ELEMENTARY SCHOOL DISTRICT NO. 20**

Management's Discussion and Analysis  
For the Year Ended June 20, 2018

---

### **Initiatives**

The District annually reviews its educational and administrative objectives. The Board of Education meets annually to prepare and reflect on its accomplishments and to revise its major goals and objectives. The intent of this task is to reflect, revisit and refocus the mission and strategic objectives for the future of the District.

### **Next Year's Budget**

The 2018-2019 budget for the General Fund shows a balanced budget with revenues equal to expenditures.

### **Factors Bearing on the District's Future**

The District is presently aware of several circumstances that may impact the financial health in the future:

- While the economy has improved resulting in historically low unemployment and a strong GDP, we are starting to see some weakness in housing starts and sales as a result of increased interest rates. This may result in slower growth local tax revenues, which is the largest revenue source for the District.
- Illinois elected a new governor in 2018. The Evidenced Based Model provided additional state funding to Keeneyville. Any changes the current education reform philosophy at the state level could reduce funding to the District.
- Habitat for Humanities has been approved to add an additional 27 townhomes to Hanover Park. This could result in additional students for the District.
- The potential of a TRS cost shift, a property tax freeze as well as the State of Illinois financial position could negatively impact the District.

### **Contacting the District's Financial Management**

This financial report is designed to provide the District's citizens, taxpayers, investors and creditors with a general overview of the District's finances. Should you have questions about this report or need additional financial information, contact the Wendy Flaherty, Director of Operations/Treasurer, 5540 Arlington Drive E., Hanover Park, IL 60133.

**KEENEYVILLE SCHOOL DISTRICT NO. 20**

Reconciliation of the Statement of Revenues, Expenditures and  
 Changes in Fund Balances of Governmental Funds to the Statement of Activities  
 Year Ended June 30, 2018

**Net change in fund balances - total governmental funds** **\$ (447,847)**

Amounts reported for governmental activities in the statement of activities are different because

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$1,000 are capitalized and the cost is allocated over their estimated lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital outlays	\$ 2,869,420	
Depreciation expense	(3,786,070)	
	760,901	(155,749)

Because some of the governmental revenues will not be collected for several months after the School District's fiscal year ends, they are not considered "available" revenues and are not accrued in the governmental funds. (86,579)

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. These activities consist of

Change in deferred inflows/outflows related to pensions	\$ (396,286)	
Change in deferred inflows/outflows related to OPEB	(959,985)	
Change in net pension liability - IMRF	1,144,905	
Change in net pension liability - TRS	(798,564)	
Change in net OPEB liability - THIS	425,395	(584,535)

The governmental funds report bond and loan proceeds as an other financing source, while repayment of bond and loan principal is reported as an expenditure. Also, governmental funds report the effect of issuance costs and premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these differences in the treatment of bonds and loans and related items is as follows:

Capital lease proceeds	\$ (314,157)	
Repayment of bonds and other long term debt	590,159	
Bond premium amortization	42,060	
Amortization of deferred loss on refunding	(23,732)	294,330

**Change in net position of governmental activities** **\$ (980,380)**

Notes to Financial Statements

June 30, 2018

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Keeneyville School District No. 20 (the District) is governed by an elected Board of Education. The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. A summary of the significant accounting policies, consistently applied in the preparation of the accompanying financial statements is described below.

In June 1999 the GASB unanimously approved Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*. Certain of the significant changes in the Statement include the following:

The financial statements include;

- A Management’s Discussion and Analysis (MD&A) providing an analysis of the District’s overall financial position and results of operations.
- Financial statements prepared using the full-accrual basis accounting for all the District’s activities.
- A change in the fund financial statements to focus on major funds.

These and other changes are reflected in the accompanying financial statements (including notes to financial statements) as of June 30, 2018.

**a. The Reporting Entity**

The District includes all funds of its governmental operations that are controlled by or dependent upon the District as determined on a basis of financial accountability. Financial accountability includes appointment of the organization’s governing body, imposition of will, and fiscal dependency. The accompanying financial statements include only those funds of the District as there are no other organizations for which it has financial accountability.

Joint Venture – the District is also a member of the following organization:

School Association for Special Education (See Note 9)

**b. Fund Accounting**

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. The following summarizes the fund types used by the District:

GASB statement No. 54 refined the definitions of various governmental funds. These updated definitions are incorporated into the following fund descriptions.

**KEENEYVILLE SCHOOL DISTRICT NO. 20**

Notes to Financial Statements (continued)

June 30, 2018

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Governmental funds include the following fund types:

**General Fund** - The General Fund, which consists of the legally mandated Educational Account, Operations and Maintenance Account, Tort Immunity Account and Working Cash Account, is used to account for the revenues and expenditures, which are used in providing education in the District. It is used to account for all financial resources except those accounted for in other funds.

**Educational Account** – These accounts are used for most of the instructional and administrative aspects of the District's operations, as well as providing school lunch services to students. The revenue consists primarily of local property taxes, state and federal government aid and student registration fees and lunch receipts from the District food service program.

**Operations and Maintenance Account** – These accounts are used for expenditures made for operation, repair and maintenance of District property. Revenue consists primarily of local property taxes.

**Working Cash Account** – This fund accounts for financial resources held by the District to be used as loans for working capital requirements to any other fund for which taxes are levied. The Working Cash Account was established and has been used to respond to fluctuations in cash flow resulting from unpredictable property tax collections. The earnings of the fund are allowed to be transferred to another fund under the Illinois Compiled Statutes. The principal of the fund, accumulated from bond issues, can be used as a source from which the District borrows money to support temporary deficiencies in other funds, or may be partially or fully transferred to the General Fund's Educational Account, upon Board approval. In fiscal year 2017 the District created a small levy for this account to access property taxes.

**Tort Immunity Account** – This fund accounts for revenues and expenditures related to tort immunity. Revenue is primarily derived from local property taxes.

**Special Revenue Funds** - Special Revenue Funds account for the proceeds of specific revenue sources (other than Debt Service and Capital Projects Funds) that are legally restricted to expenditures for specified purposes. The District's Special Revenue Funds are the Transportation and Municipal Retirement/Social Security Funds.

**Transportation Fund** – This fund accounts for the revenue and expenditures relating to student transportation, both to and from school. Revenue is derived primarily from local property taxes and state reimbursement grants.

**Municipal Retirement/Social Security Fund** – This fund accounts for the District's portion of the pension contributions to the Illinois Municipal Retirement Fund for noncertified employees and social security contributions for applicable certified and noncertified employees. Revenue to finance the contributions is derived primarily from local property taxes.

**Debt Service Funds** - Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated. Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

**KEENEYVILLE SCHOOL DISTRICT NO. 20**

Notes to Financial Statements (continued)

June 30, 2018

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Debt Service Fund** - The Debt Service Fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. Since there are no legal requirements on bond indentures, which mandate that a separate fund be established for each bond issue, the District maintains one Debt Service Fund for all bond issues.

**Capital Projects Funds** - Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

**Capital Project Fund** – The Capital Projects Fund accounts for financial resources to be used for the acquisition or construction of major capital facilities. Revenue is primarily derived from debt proceeds.

**Fire Prevention and Safety Fund** – The Fire Prevention and Safety Fund accounts for financial resources to be used for acquisitions and construction projects, which qualify as Fire Prevention and Safety expenditures. Revenue is primarily derived from debt proceeds.

**Fiduciary Fund Type**

**Agency Funds** - The Agency Funds (Activity Funds) account for assets held by the District in trustee capacity or as an agent for student organizations. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of the results of operations. In accordance with GASB 34, fiduciary funds are not included in the government-wide financial statements.

The District reports the following funds as major governmental funds:

General Fund  
Debt Service Fund  
Fire Prevention and Safety Fund

The District has adopted a policy consistent with GASB Statement No. 34 to net the interfund receivables and payables for combined totals used to determine the major funds. Consequently, the interfund loan balances, which net to zero, are not utilized to determine major funds. The District has elected to report the Debt Service Fund as a major fund for the year ended June 30, 2018.

**c. Basis of Presentation**

**Government-wide Financial Statements (GWFS):**

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the District, except for fiduciary funds. The effects of interfund activity have been eliminated. All of the District's operating activities are considered "governmental activities", that is, activities that are normally supported by taxes and intergovernmental revenues. The District has no operating activities that would be considered "business activities". The statement of net position presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Property taxes and other revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenue of the District.

**Measurement focus, basis of accounting, and financial statement presentation**

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the District are included on the Statement of Net Position.

**Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting, as applicable. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

**Revenues- Exchange and Non-exchange Transactions**

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, interest, grants, entitlements and student fees.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Deferred Inflows/Outflows of Resources**

In addition to assets, the statement of net position/balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position/balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

**Expenses/Expenditures**

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocation of costs, such as depreciation and amortization are not recognized in governmental funds.

**d. Deposits and Investments**

Investments held by the District which are short-term highly liquid investments having a remaining maturity of one year or less at the time of purchase are reported by the District at amortized cost. All other investments are reported at fair value. Gains or losses on the sale of investments are recognized upon realization. Unrealized gains and losses are realized for those investments valued at fair value. Investments are placed according to guidelines provided by the Illinois Compiled Statutes public funds investment act.

Under Illinois law, the District is restricted to investing funds in specific types of investment instruments. The following generally represents the types of instruments allowable by state law:

- Securities issued or guaranteed by the United States.
- Interest-bearing accounts of financial institutions insured by the Federal Deposit Insurance Corporation.
- Short-term obligations (less than 180 days) of U.S. corporations with assets over \$500,000,000 rated in the three highest classifications by at least two rating agencies.
- Insured accounts of an Illinois credit union chartered under United States or Illinois law.
- Money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same types of obligations.
- Illinois Public Treasurers' Investment Pool.
- Repurchase agreements which meet instrument transactions requirements of Illinois law.
- Interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation, school district, the State of Illinois, any other state, or any political subdivision or agency of the State of Illinois or any other state.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**e. Capital Assets**

Capital assets, which include land, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$2,500 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized.

Buildings, improvements, furniture and equipment of the District are depreciated using the straight-line method over the following estimated lives:

<u>Assets</u>	<u>Years</u>
Buildings and building improvements	40-50 years
Land improvements	20 years
Furniture, equipment and vehicles	5-10 years

**f. Long-term Obligations**

In the GWFS, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**g. Fund Equity**

In the GWFS, net position is reported as restricted when constraints placed on net position are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

**h. Property Taxes**

Property taxes are levied each year on all taxable real property located in the District on or before the last Tuesday in December. The adoption date for the 2017 tax levy was November 30, 2017. Taxes attach as an enforceable lien on property on January 1 and are payable in two installments (on or about June 1 and September 1) subsequent to the year of levy. The District receives significant distributions of tax receipts approximately one month after these due dates. Property taxes for the 2017 levy, which are partially collected during the 2018 fiscal year, are considered to be budgeted to fund the operations of the 2018/19 school year and are reported as unavailable revenue.

**KEENEYVILLE SCHOOL DISTRICT NO. 20**

Notes to Financial Statements (continued)

June 30, 2018

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**i. Personal Property Replacement Taxes**

Personal property replacement tax revenues are first allocated to the extent required by Illinois law to the Municipal Retirement/Social Security Fund with the balance allocated to funds at the discretion of the District.

**j. Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF), together "the Plans," and additions to/deductions from the Plans' fiduciary net positions have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**k. Use of Estimates**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

**l. Prior Year Comparative Information**

The basic financial statements include certain prior-year partial comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2017 from which the partial information was derived.

**2. CASH AND INVESTMENTS**

**Custodial Credit Risk –Deposits**

At June 30, 2018 the carrying amount of the District's deposits totaled \$9,240,883 (excluding student activity funds of \$22,815) and the bank balances totaled \$10,805,163. Custodial credit risk is the risk that in the event of a bank failure, the government's deposit may not be returned to it. As of June 30, 2018, all of bank deposits were insured or collateralized.

**KEENEYVILLE SCHOOL DISTRICT NO. 20**

Notes to Financial Statements (continued)

June 30, 2018

**2. CASH AND INVESTMENTS (Continued)****Investments**

As of June 30, 2018, the District had the following investments and maturities:

<i>Investment Type</i>	<i>Fair Value</i>	<i>Maturities (in years)</i>		<i>Percent of Portfolio</i>	<i>Applicable Agency Rating</i>
		<i>Less than 1</i>	<i>Over 1</i>		
<b>Other Investments:</b>

Vanguard Long Term Tax Exempt	100,000	100,000	-	1%	N/A
<b>Total Investments</b>	<b>\$ 14,325,690</b>	<b>\$ 13,961,871</b>	<b>\$ 363,819</b>	<b>100%</b>	

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of June 30, 2018:

- Municipal bonds of \$523,959 are valued by a pricing service based on recent market transactions (Level 2 inputs)

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is an investment pool created and regulated by the Illinois General Assembly. The fair value of the District's investment in ISDLAF+ has been determined using the net asset value (NAV) per share (or its equivalent) of the investments. The NAV of the Liquid Class and MAX Class are determined as of the close of business on each Illinois banking day. The Multi-Class Series invests in high-quality short-term debt instruments (money market instruments), and shares may be redeemed on any Illinois banking day. The Term Series invest in high-quality debt instruments, which are generally money market instruments but may include instruments with a maturity over one year, and shares may be redeemed with seven days' advance notice. There were no known restrictions on redemption of the District's investments as of June 30, 2018.

*Credit Risk.* The District's investments are rated, as shown above, by the applicable rating agency. The District has adopted a policy to limit its credit risk by limiting its investments to the investments allowed in Note 1d.

*Concentration of Credit Risk.* The District places no limit on the amount the District may invest in any one issuer. More than 5 percent of the District's investments are concentrated in specific individual investments. The above table indicates the percentage of each investment to the total investments of the District.

*Interest Rate Risk.* The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**3. SPECIAL TAX LEVIES**

Proceeds from the Tort Immunity (liability insurance) special tax levy and related expenditures disbursed have been included in the operations of the Tort Immunity Account. At June 30, 2018, the cumulative Tort Immunity revenues exceeded related cumulative expenditures resulting in a \$23,357 fund balance. Tort expenditures consisted of \$112,202 of insurance premiums.

Proceeds from the Special Education special tax levy and related expenditures disbursed have been included in the operations of the Educational Fund. At June 30, 2018, the cumulative Special Education expenditures disbursed exceeded related cumulative revenues received in the Educational Fund.

**4. CAPITAL ASSETS**

A summary of changes in capital assets follows:

	<b>2017</b>	<b>Additions</b>	<b>Deletions</b>	<b>2018</b>
Capital assets, not being depreciated:				
Land	\$ 2,151,258	\$ -	\$ -	\$ 2,151,258
Construction in progress	2,670,525	-	2,670,525	-
Total capital assets not being depreciated	<u>4,821,783</u>	-	<u>2,670,525</u>	<u>2,151,258</u>
Capital assets, being depreciated:				
Buildings	21,588,295	5,344,395	-	26,932,690
Improvements other than buildings	1,081,819	195,550	-	1,277,369
Equipment	4,713,678	-	2,085,624	2,628,054
Total capital assets being depreciated	<u>27,383,792</u>	<u>5,539,945</u>	<u>2,085,624</u>	<u>30,838,113</u>
Accumulated depreciation for:				
Buildings	9,767,546	3,283,257	-	13,050,803
Improvements other than buildings	682,428	210,677	-	893,105
Equipment	4,040,062	292,136	2,846,525	1,485,673
Total accumulation depreciation	<u>14,490,036</u>	<u>3,786,070</u>	<u>2,846,525</u>	<u>15,429,581</u>
Total capital assets being depreciated, net	<u>12,893,756</u>	<u>1,753,875</u>	<u>(760,901)</u>	<u>15,408,532</u>
<b>Total capital assets, net</b>	<b><u>\$ 17,715,539</u></b>	<b><u>\$ 1,753,875</u></b>	<b><u>\$ 1,909,624</u></b>	<b><u>\$ 17,559,790</u></b>

Depreciation expense was charged to functions of the District as follows:

<b>Instructional Services:</b>	
Regular programs	\$ 3,036,428
Special programs	302,886
<b>Supporting Services:</b>	
Instructional staff	49,219
General administration	234,736
School administration	37,861
Operations and maintenance of	75,721
Transportation	49,219
	<u><u>\$ 3,786,070</u></u>

**5. GENERAL LONG-TERM DEBT**

The following is a summary of the components of long-term debt and related transactions of the District for the year ended June 30, 2018:

Long Term Debt at June 30, 2018 is comprised of the following:

	<i>Balance July 1, 2017</i>	<i>Additions</i>	<i>Reductions</i>	<i>Balance June 30, 2018</i>	<i>Amount due in one year</i>
<b>General Obligation Bonds Payable:</b>					
12/15/15 Refunding/Fire Prevention & Safety Bonds	\$ 4,900,000	\$ -	\$ 330,000	\$ 4,570,000	\$ 340,000
3/30/2016 Fire Prevention & Safety Bonds	6,180,000	-	225,000	5,955,000	235,000
<b>Total General Obligation Bonds</b>	<b>\$ 11,080,000</b>	<b>\$ -</b>	<b>\$ 555,000</b>	<b>\$ 10,525,000</b>	<b>\$ 575,000</b>
Premium on Bonds Issued	620,508	-	42,060	578,448	-
Capital Leases	123,399	314,157	35,159	402,397	100,460
Net Pension Liability - TRS	57,633	798,564	-	856,197	-
Net Pension Liability (Asset) - IMRF	897,355	-	1,144,905	(247,550)	-
Net OPEB Liability - THIS	9,405,902	-	425,395	8,980,507	-
<b>Total Long-Term Debt</b>	<b>\$ 22,184,797</b>	<b>\$ 1,112,721</b>	<b>\$ 2,202,519</b>	<b>\$ 21,094,999</b>	<b>\$ 675,460</b>

**a. General Obligation Bonds Payable**

Bonds dated 12/15/15 were issued in the amount of \$5,655,000. Principal payments are due January 1, with the last installment due 1/1/2029. Interest is paid July 1 and January 1, with rates varying from 3.0% to 4.0%.

Bonds dated 3/30/16 were issued in the amount of \$6,180,000. Principal payments are due January 1, with the last installment due 1/1/2035. Interest is paid July 1 and January 1, with rates varying from 3.0% to 4.0%.

At June 30, 2018 the annual cash flow requirements of all bonds payable to retirement were as follows:

<u>For the year ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2019	\$ 575,000	\$ 383,000	\$ 958,000
2020	590,000	365,750	955,750
2021	610,000	348,050	958,050
2022	630,000	326,150	956,150
2023	655,000	300,950	955,950
2024-2028	3,660,000	1,121,950	4,781,950
2029-2033	2,850,000	538,050	3,388,050
2034-2035	955,000	50,400	1,005,400
<b>Total</b>	<b>\$ 10,525,000</b>	<b>\$ 3,434,300</b>	<b>\$ 13,959,300</b>

**5. GENERAL LONG-TERM DEBT (Continued)**

Payments to retire bonds payable will be made from debt service levies in future periods. There is \$99,943 of fund equity available in the Debt Service Fund to service outstanding bonds payable. The District is subject to the Illinois Compiled Statutes which limits the amount of bond indebtedness, to 6.9% of the most recent available equalized assessed valuation of the District. As of June 30, 2018 the statutory debt limit for the District was \$27,621,494, providing a debt margin of \$17,196,437 after taking into account amounts available in the Debt Service Fund.

**b. Long-Term Capital Leases**

The District has entered into a lease agreement for copy machines. As of June 30, 2018, the lease was compromised of one repayment schedule, payable from the Debt Service Fund. The lease currently extends into fiscal year 2021. The lease calls for monthly payments, which are made up of principal and interest. The interest rate is 4.50%. Total assets received under the lease amount to \$170,627.

The District has entered into a lease agreement for interactive panels. As of June 30, 2018, the lease was compromised of one repayment schedule, payable from the Debt Service Fund. The lease currently extends into fiscal year 2023. The lease calls for annual payments, which are made up of principal and interest. The interest rate is 2.986%. Total assets received under the lease amount to \$314,157.

Remaining principal and interest requirements for the leases are as follows:

Due In Fiscal Year	Capital Lease		
	Total	Principal	Interest
2019	\$ 104,577	\$ 100,460	\$ 4,117
2020	104,577	95,368	9,209
2021	85,491	79,557	5,934
2022	66,405	62,559	3,846
2023	66,404	64,453	1,951
<b>Total</b>	<b>\$ 427,454</b>	<b>\$ 402,397</b>	<b>\$ 25,057</b>

**6. EMPLOYEE RETIREMENT SYSTEMS**

The retirement plans of the District include the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed below.

**a. Teachers' Retirement System of the State of Illinois (TRS)**

*Plan Description*

The District participates in the TRS. TRS is a cost-sharing, multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the

## KEENEYVILLE SCHOOL DISTRICT NO. 20

Notes to Financial Statements (continued)

June 30, 2018

---

### 6. EMPLOYEE RETIREMENT SYSTEMS (Continued)

System's administration.

TRS issues a publicly available financial report that can be obtained at <http://trs.illinois.gov/pubs/cafr/fy2017>; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

#### *Benefits Provided*

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier III hybrid retirement plan, but it has not yet gone into effect. The earliest possible implementation date is July 1, 2019.

#### *Contributions*

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2018, was 9.0% of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

**On-behalf contributions to TRS.** The State of Illinois makes employer pension contributions on-behalf of the District. For the year ended June 30, 2018, State of Illinois contributions recognized by the District were based on the State's proportionate share of the collective net pension liability associated with the District, and the District recognized revenue and expenditures of \$3,678,162 in pension contributions from the State of Illinois.

**6. EMPLOYEE RETIREMENT SYSTEMS (Continued)**

**2.2 formula contributions.** The District contributes 0.58% of total creditable earnings for the 2.2 formula change. This rate is specified by statute. Contributions for the year ended June 30, 2018 were \$47,822, and are deferred because they were paid after the June 30, 2017 measurement date.

**Federal and special trust fund contributions.** When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2018, the employer pension contribution was 10.10% of salaries paid from federal and special trust funds. For the year ended June 30, 2018, no salaries were paid from federal and special trust funds.

**Employer retirement cost contributions.** Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The District is required to make a one-time contribution to TRS for members retiring under the Early Retirement Option (ERO). The payments vary depending on the member's age and salary. The maximum employer ERO contribution under the program that ended on June 30, 2016 is 146.5% and applies when the member is age 55 at retirement. For the year ended June 30, 2018, the employer made no payments to TRS for employer ERO contributions for retirements that occurred before July 1, 2016.

The employer is also required to make a one-time contribution to TRS for members granted salary increases over 6% if those salaries are used to calculate a retiree's final average salary. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2018, the District paid \$24,382 to TRS for employer contributions due on salary increases in excess of 6% and made no payments for sick leave days granted in excess of the normal annual allotment.

*Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions*

At June 30, 2018, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for State pension support provided to the District. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 856,197
State's proportionate share of the net pension liability associated with the District	<u>58,942,357</u>
Total	<u>\$ 59,798,554</u>

**6. EMPLOYEE RETIREMENT SYSTEMS (Continued)**

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016 and rolled forward to June 30, 2017. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2017, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2018, the District's proportion was .0011207%, which was an increase of 0.0011907% from its proportion measured at June 30, 2017.

For the year ended June 30, 2018, the District recognized pension expense of \$3,678,162 and revenue of \$3,678,162 for support provided by the state. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 9,299	\$ 395
Changes in assumptions	57,145	24,603
Net difference between projected and actual earnings on pension plan investments	587	-
Changes in proportion and differences between District contributions and proportionate share of contributions	738,733	1,352,055
District contributions subsequent to the measurement date	72,204	-
Total	<u>\$ 877,968</u>	<u>\$ 1,377,053</u>

\$72,204 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30	Net Deferred Outflows of Resources
2018	\$ (160,192)
2019	(212,211)
2020	(264,458)
2021	46,454
2022	19,118
Total	<u>\$ (571,289)</u>

**6. EMPLOYEE RETIREMENT SYSTEMS (Continued)**

*Actuarial Assumptions*

The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	Varies by amount of service credit
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 White Collar Table with adjustments as appropriate for TRS experience. The rates are used on a fully-generational basis using projection table MP-2014. The same assumptions were used in the June 30, 2016 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. large cap	14.4%	6.94%
U.S. small/mid cap	3.6%	8.09%
International equities	14.4%	7.46%
Emerging markets equities	3.6%	10.15%
U.S. bonds core	10.7%	2.44%
International debt	5.3%	1.70%
Real estate	15.0%	5.44%
Commodities	11.0%	4.28%
Hedge funds	8.0%	4.16%
Private equity	14.0%	10.63%
	100.0%	

*Discount rate*

At June 30, 2017 the discount rate used to measure the total pension liability was 7.0%, which was a change from the June 30, 2016 rate of 6.83%. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2017 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially-funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All

**6. EMPLOYEE RETIREMENT SYSTEMS (Continued)**

projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

At June 30, 2016 the discount rate used to measure the total pension liability was 6.83%. The discount rate was lower than the actuarially-assumed rate of return on investments that year because TRS's fiduciary net position and the subsidy provided by Tier II were not sufficient to cover all projected benefit payments.

*Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate*

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
District's proportionate share of the net pension liability	\$ 1,051,950	\$ 856,197	\$ 695,859

Detailed information about the TRS's fiduciary net position as of June 30, 2017 is available in the separately issued TRS Comprehensive Annual Financial Report.

**b. Illinois Municipal Retirement Fund (IMRF)**

*Plan Description and Benefits*

The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained online at [www.imrf.org](http://www.imrf.org).

All employees (other than those covered by TRS) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with 10 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

**KEENEYVILLE SCHOOL DISTRICT NO. 20**

Notes to Financial Statements (continued)

June 30, 2018

---

**6. EMPLOYEE RETIREMENT SYSTEMS (Continued)**

*Plan Membership*

As of June 30, 2018, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	117
Inactive employees entitled to but not yet receiving benefits	105
Active employees	58
Total	<u>280</u>

*Contributions*

As set by statute, Regular plan members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's actual contribution rate for calendar year 2017 was 9.07% of covered payroll. The District contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

*Net Pension Liability*

The District's net pension liability was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

**6. EMPLOYEE RETIREMENT SYSTEMS (Continued)**

*Actuarial Assumptions*

The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method Asset valuation method Price inflation Salary increases Investment rate of return Retirement age	Entry Age Normal Market Value of Assets 2.50% 3.39% to 14.25% 7.50% Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016.	The long- term
Mortality	For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.	

expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

**6. EMPLOYEE RETIREMENT SYSTEMS (Continued)**

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Equities	37.0%	6.85%
International equities	18.0%	6.75%
Fixed income	28.0%	3.00%
Real estate	9.0%	5.75%
Alternatives	7.0%	2.65-7.35%
Cash	1.0%	2.25%
	<u>100.0%</u>	

*Single Discount Rate*

The Single Discount Rate used to measure the total pension liability for IMRF was 7.50%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.31%, and the resulting single discount rate is 7.50%.

**6. EMPLOYEE RETIREMENT SYSTEMS (Continued)**

*Changes in Net Pension Liability*

	Total Pension Liability (A)	Plan Fiduciary Net Position (B)	Net Pension Liability (A) - (B)
Balances at December 31, 2016	\$ 11,690,646	\$ 10,793,291	\$ 897,355
Changes for the year:			
Service Cost	197,450	-	197,450
Interest on the Total Pension Liability	858,902	-	858,902
Changes of Benefit Terms	-	-	-
Differences Between Expected and Actual Experience of the Total Pension Liability	62,658	-	62,658
Changes of Assumptions	(373,860)	-	(373,860)
Contributions - Employer	-	159,628	(159,628)
Contributions - Employees	-	81,448	(81,448)
Net Investment Income	-	1,981,446	(1,981,446)
Benefit Payments, including Refunds of Employee Contributions	(674,697)	(674,697)	-
Other (Net Transfer)	-	(332,467)	332,467
Net Changes	70,453	1,215,358	(1,144,905)
Balances at December 31, 2017	\$ 11,761,099	\$ 12,008,649	\$ (247,550)

*Sensitivity of the Net Pension Liability to Changes in the Discount Rate*

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
Net pension liability (asset)	\$ 1,029,641	\$ (247,550)	\$ (1,310,645)

**6. EMPLOYEE RETIREMENT SYSTEMS (Continued)**

*Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions*

For the year ended June 30, 2018, the District recognized pension expense of \$388,024. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 27,423	\$ -
Changes in assumptions	-	163,626
Net difference between projected and actual earnings on pension plan investments	360,768	960,542
Contributions subsequent to the measurement date	98,945	-
	<hr/>	<hr/>
Total	\$ 487,136	\$ 1,124,168
	<hr/> <hr/>	<hr/> <hr/>

\$98,945 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31	Net Deferred Outflows of Resources
2018	\$ (186,427)
2019	(79,505)
2020	(229,908)
2021	(240,137)
2022	-
Thereafter	-
	<hr/>
Total	\$ (735,977)
	<hr/> <hr/>

**7. OTHER POST-EMPLOYMENT BENEFITS**

**Teacher Health Insurance Security (THIS)**

*Plan Description*

The District participates in the THIS. The THIS is a cost-sharing, multiple-employer defined benefit post-employment healthcare plan (OPEB) that was established by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. The THIS members are retirees of public schools who were certified educators or administrators. Eligibility is currently limited to former full-time employees, and others who were not full-time employees that meet certain requirements, and

**7. OTHER POST-EMPLOYMENT BENEFITS (Continued)**

their dependents. The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) (SEGIA) establishes the eligibility and benefit provisions of the plan.

The THIS issues a publicly available financial report that can be obtained at the website of the Illinois Auditor General: <https://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp>. The current reports are listed under "Central Management Services"; prior reports are available under "Healthcare and Family Services".

*Benefits Provided*

The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state administered participating provider option plan or choose from several managed care options. Annuitants who were enrolled in Medicare Parts A and B may be eligible to enroll in Medicare Advantage Plans.

Amendments to the plan can be made only by legislative action with the Governor's approval. Effective July 1, 2012, in accordance with Executive Order 12-01, the plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS.

*Contributions*

The SEGIA requires that all active contributors to the TRS, who are not employees of a department, make contributions to the plan at a rate of 1.18% of salary and for every employer of a teacher to contribute an amount equal to 0.88% of each teacher's salary. Additionally, the SEGIA requires the State to match the employees' contribution on-behalf of the employer. The Department determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the THIS, an amount equal to the amount certified by the Board of Trustees of TRS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year.

The SEGIA requires that the Department's Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

**On-behalf contributions to THIS.** The state of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 1.18% of pay during the year ended June 30, 2018. State of Illinois contributions were \$97,293, and the district recognized revenue and expenditures of this amount during the year.

**Employer contributions to THIS Fund.** The District also makes contributions to THIS Fund. The District THIS Fund contribution was 0.88% during the year ended June 30, 2018. For the year ended June 30, 2018, the District paid \$72,557 to the THIS Fund, which was 100 percent of the required contribution.

*OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of*

**7. OTHER POST-EMPLOYMENT BENEFITS (Continued)**

*Resources Related to OPEB*

At June 30, 2018, the District reported a liability for its proportionate share of the net OPEB liability. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability	\$	8,980,507
State's proportionate share of the net OPEB liability associated with the District		11,793,638
Total	<u>\$</u>	<u>20,774,145</u>

The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2016 and rolled forward to June 30, 2017. The District's proportion of the net OPEB liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2017, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2017, the District's proportion was 0.034608%, which was an increase of 0.000199% from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the District recognized OPEB expense of \$673,972.

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ -	\$ 5,087
Changes in assumptions	-	1,069,248
Net difference between projected and actual earnings on OPEB plan investments	-	99
Changes in proportion and differences between District contributions and proportionate share of contributions	41,942	-
District contributions subsequent to the measurement date	72,557	-
Total	<u>\$ 114,499</u>	<u>\$ 1,074,434</u>

\$72,557 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

**7. OTHER POST-EMPLOYMENT BENEFITS (Continued)**

Year Ending June 30	Net Deferred Inflows of Resources
2018	\$ (158,610)
2019	(158,610)
2020	(158,610)
2021	(158,610)
2022	(158,585)
Thereafter	<u>(239,467)</u>
Total	<u>\$ (1,032,492)</u>

*Actuarial Valuation Method*

The actuarial valuation was based on the Entry Age Normal cost method. Under this method, the normal cost and actuarial accrued liability are directly proportional to the employee's salary. The normal cost rate equals the present value of future benefits at entry age divided by the present value of future salary at entry age. The normal cost at the member's attained age equals the normal cost rate at entry age multiplied by the salary at attained age. The actuarial accrued liability equals the present value of benefits at attained age less present value of future salaries at attained age multiplied by normal cost rate at entry age.

*Actuarial Assumptions*

The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	Depends on service and ranges from 9.25% at 1 year of service to 3.25% at 20 or more years of service. Salary increase includes a 3.25% wage inflation assumption,
Investment rate of return	0.00%, net of OPEB plan investment expense, including inflation.
Healthcare cost trend rates	Actual trend used for fiscal year 2017. For fiscal years on and after 2018, trend starts at 8.00% and 9.00% for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.50%. Additional trend rate of 0.59% is added to non-Medicare costs on and after 2020 to account for Excise Tax.

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table, All tables reflect future mortality improvements using Projection Scale MP-2014.

**KEENEYVILLE SCHOOL DISTRICT NO. 20**

Notes to Financial Statements (continued)

June 30, 2018

**7. OTHER POST-EMPLOYMENT BENEFITS (Continued)**

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2014.

*Discount rate*

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since the THIS is financed on a pay-as-you-go basis, a discount rate consistent with the 20-year general obligation bond index has been selected. The discount rates are 2.85% as of June 30, 2016, and 3.56% as of June 30, 2017. The increase in the single discount rate from 2.85% to 3.56% caused the total OPEB liability to decrease by approximately \$3.564 billion from 2016 to 2017.

*Sensitivity of the employer's proportionate share of the net OPEB liability to changes in the discount rate and healthcare cost trend rate*

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 3.56%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.56%) or 1-percentage-point higher (4.56%) than the current rate:

	1% Decrease (2.56%)	Current Discount Rate (3.56%)	1% Increase (4.56%)
District's proportionate share of the net OPEB liability	\$ 10,776,562	\$ 8,980,507	\$ 7,543,379

The following presents the District's proportionate share of the net OPEB liability calculated using the healthcare cost trend rate, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease (a)	Healthcare Cost Trend Rate Assumptions	1% Increase (b)
District's proportionate share of the net OPEB liability	\$ 7,248,189	\$ 8,980,507	\$ 11,466,957

(a) One percentage point decrease in healthcare trend rates are 7.00% in 2018 decreasing to an ultimate trend rate of 4.09% in 2025, for non-Medicare coverage, and 8.00% in 2018 decreasing to an ultimate trend rate of 3.50% in 2027 for Medicare coverage.

(b) One percentage point increase in healthcare trend rates are 9.00% in 2018 decreasing to an ultimate trend rate of 6.09% in 2025, for non-Medicare coverage, and 10.00% in 2018 decreasing to an ultimate trend rate of 5.50% in 2027 for Medicare coverage.

**KEENEYVILLE SCHOOL DISTRICT NO. 20**

Notes to Financial Statements (continued)

June 30, 2018

---

**8. COMMON BANK ACCOUNT**

Separate bank accounts are not maintained for all District funds; instead, certain funds maintain their uninvested cash balances in a common checking account, with accounting records being maintained to show the portion of the common bank account balance attributable to each participating fund. Occasionally, certain funds participating in the common bank account will incur overdrafts (deficits) within the account. The overdrafts result from expenditures distributed which have been approved by the School Board.

**9. JOINT VENTURE – SCHOOL ASSOCIATION FOR SPECIAL EDUCATION IN DUPAGE COUNTY (SASED)**

The District has entered into a joint agreement with other districts in DuPage County to provide special education programs and services to the students enrolled. Each member district has a financial responsibility from annual and special assessments as established by the policy board. Complete financial statements for SASED can be obtained from its business office at 6S331 Cornwall Road, Naperville, IL 60540.

**10. RISK MANAGEMENT**

The District has purchased insurance from a risk pool (see Notes 11 and 12) and private insurance companies. Risks covered include general liability, workers compensation, medical, and other. Premiums have been displayed as expenditures in appropriate funds. No material decreases in insurance coverages have occurred nor have any insurance claims in excess of insurance coverages been paid or reported during the last three years.

**11. SUBURBAN SCHOOL COOPERATIVE INSURANCE POOL (SSCIP)**

The District is a member of SSCIP, a voluntary cooperative agency consisting of Illinois public school districts and joint agreements. SSCIP's purpose is to manage and fund first-party property losses and third-party liability claims of its members. Each member district has a financial responsibility to make annual contributions based on property values, student enrollment, personnel employed, past loss history and vehicles owned.

Complete financial statements of SSCIP are available from its treasurer at 5540 Arlington Drive, Hanover Park, IL 60103.

**12. EDUCATION BENEFIT COOPERATIVE (EBC)**

The District is a member of the Educational Benefit Cooperative (EBC) which is the voluntary cooperative agency consisting of Illinois public school districts joint agreements. Its purpose is to manage and fund medical and dental claims of the covered employees (and their spouses and dependents) of its members. Currently, the various districts are covered under different plans voted on by their members which create various coverage costs and features. Additionally, EBC offers to its members Group Life Insurance Coverage obtained through an outside insurance company. EBC began operations on June 30, 1984, and currently has fifty-four members.

Complete financial statements can be obtained from the Treasurer at 1860 Glen Ellyn Road, Glendale Heights, IL 60139.

## KEENEYVILLE SCHOOL DISTRICT NO. 20

Notes to Financial Statements (continued)

June 30, 2018

---

### 13. FUND BALANCE REPORTING

According to Government Accounting Standards, fund balances are to be classified into five major classifications; Nonspendable Fund Balance, Restricted Fund Balance, Committed Fund Balance, Assigned Fund Balance, and Unassigned Fund Balance.

#### A. Nonspendable Fund Balance

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts.

#### B. Restricted Fund Balance

The restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the entity. Things such as restrictions imposed creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Special Revenue Funds are by definition restricted for those specified purposes. The District has several revenue sources received within different funds that also fall into these categories –

##### 1. Special Education

Revenues and the related expenditures of this restricted tax levy are accounted for in the Educational Account. Expenditures exceeded revenue for this purpose, resulting in no restricted fund balance.

##### 2. Tort Immunity Account

Expenditures and the related revenues are accounted for in the Tort Immunity Account. Revenues received exceeded expenditures disbursed for this purpose, resulting in a restricted fund balance of \$23,357.

##### 3. State and Federal Grants

Proceeds from state and federal grants and the related expenditures have been included in the General Fund and various Special Revenue Funds. At June 30, 2018, expenditures exceeded revenue from state and federal grants, resulting in no restricted balances.

##### 4. Capital Projects Funds

Expenditures and the related revenues are accounted for in the Capital Projects and Fire Prevention and Safety Funds. All equity within these funds are restricted for the associated capital expenditures within these funds.

#### C. Committed Fund Balance

The committed fund balance classification refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government’s highest level of decision making authority (the School Board through passage of a board resolution). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

**KEENEYVILLE SCHOOL DISTRICT NO. 20**

Notes to Financial Statements (continued)

June 30, 2018

---

**13. FUND BALANCE REPORTING (Continued)**

D. Assigned Fund Balance

The assigned fund balance classification refers to the amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted nor committed. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

E. Unassigned Fund Balance

The unassigned fund balance classification is the residual classification for amounts in the General Funds for amounts that have not been restricted, committed, or assigned to specific purposes within the General Fund, or negative fund balance in any other fund.

F. Expenditures of Fund Balance

Unless specifically identified, expenditures disbursed act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures disbursed for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

**14. CHANGE IN ACCOUNTING PRINCIPLE**

The District adopted GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, during the year ended June 30, 2018. Statement No. 75 expands disclosures related to postemployment benefits other than pensions and requires the District to report the net other postemployment benefit liability in the statement of net position. The adoption of this statement had no effect on any of the District's fund balances but reduced the District's governmental activities net position by \$9,405,902 as of July 1, 2017.

**KEENEYVILLE SCHOOL DISTRICT NO. 20**

Schedule of Employer Contributions

Illinois Municipal Retirement Fund

Last Four Fiscal Years

Fiscal Year	Actuarially Determined Contribution	Contributions in Relation to Actuarially Determined Contribution	Deficiency (Excess)	Contribution Covered Payroll	Contributions as a Percentage of Covered Payroll
2018	176,389	176,389	-	1,830,601	9.64%
2017	168,190	168,190	-	1,762,877	9.54%
2016	163,430	163,430	-	1,610,322	10.15%
2015	144,205	144,205	-	1,546,050	9.33%

**Notes to Schedule**

Valuation date: Actuarially determined contribution rates are calculated as of December 31 of each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Aggregate entry age normal
Amortization method	Level percent of pay, closed
Remaining amortization period	26 year closed period
Asset valuation method	5-year smoothed market; 20% corridor
Wage growth	3.50%
Price inflation	3%
Salary increases	3.75% to 15.50% including inflation
Investment rate of return	7.50%
Retirement age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation pursuant to an experience study of the period 2011 - 2013.
Mortality	For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

The District implemented GASB Statement No. 68 in fiscal year 2015.

Information prior to fiscal year 2015 is not available.

Plan fiduciary net position as a percentage of the total pension liability	39.30%	36.40%	41.50%	43.00%

**Notes to Schedule**  
*Changes of assumptions*  
 For the 2017 and 2016 measurement years, the assumed investment rate of return was of 7.0 percent, including an inflation rate of 2.5 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit.  
 For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the threeyear period ending June 30, 2014.  
 For the 2014 measurement year, the assumed investment rate of return was also 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. However, salary increases were assumed to vary by age.

\* The amounts presented have a measurement date of the previous fiscal year end.

The District implemented GASB Statement No. 68 in fiscal year 2015. Information prior to fiscal year 2015 is not available.

**BUDGETS AND BUDGETARY ACCOUNTING**

Annual budgets for all Governmental Funds are adopted on the modified accrual basis, consistent with generally accepted accounting principles (GAAP) for local governments. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the Governmental Funds. All encumbrances are canceled at year end, and, if necessary, are reinstated at the beginning of the subsequent fiscal year. The legal level of budgetary control is the fund level, due to transfers which can be made by the Superintendent in accordance with No.4 below, the District may overspend the budgets at the department level, but may not alter the total fund budget. The Board of Education, in accordance with Chapter 105, Section 5/17-1 of the *Illinois Compiled Statutes*, follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
3. Prior to September 30 the budget is legally adopted through passage of a resolution. On or before the last Tuesday in December, a tax levy ordinance is filed with the County Clerk to obtain tax revenues.
4. The Superintendent is authorized to transfer up to 10% of the total budget between departments within any fund without Board of Education approval; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education following the public hearing process mandated by law. The budget was originally adopted on June 22, 2017.
5. Formal budgetary integration is employed as a management control device during the year for the Governmental Funds.
6. The District has adopted a legal budget for all its Governmental Funds. Total actual expenditures for the governmental funds may not legally exceed the total budgeted for such funds. However, under the State Budget Act expenditures may exceed the budget if additional resources are available to finance such expenditures.
7. The budget (all appropriations) lapses at the end of each fiscal year.
8. The District had the following excess of expenditures over budget:

	<b>Budget</b>	<b>Actual</b>	<b>Excess</b>
Tort Immunity Fund	\$ 58,900	\$ 112,202	\$ 53,302
Debt Service Fund	957,650	1,002,570	44,920

percentage of total tax rate	43%	43%	43%	42%

\*Includes Road District

Tax rates are expressed in dollars per one hundred of assessed valuation.  
Tax rates are presented for all governments with boundaries that overlap the District.  
The total tax rate applied to each parcel of taxable property in the District would  
be less than the total shown above.
