

WYANDOTTE PUBLIC SCHOOLS
PROCEDURES
Head Lice

2000.07

The School District of the City of Wyandotte understands the importance of its role in controlling communicable disease. Therefore, students with active head lice will have a parent/guardian notified. Prior to re-admittance, the student will need to be treated and show proof that all live lice have been removed. Students excluded for lice are expected to return to school within 48 hours, lice free.

Please refer to the District Head Lice Manual at <http://www.wyandotte.org/parents-and-community/health--safety/forms/lice-information> on our District Website.

Effective Date: September 6, 2015
