August 2019

TO: Parents, Teachers, Staff and School Organizations

This letter is addressed to parents, teachers, employees and organizations in our school district as required by the Federal Asbestos Hazard Emergency Response Act (AHERA). This act requires all schools to inform its employees and building occupants about certain asbestos related activities and records.

The EPA requires the District to perform a visual inspection of any existing asbestos every six months, as well as an in depth detailed triennial inspection. The triennial inspection was performed in June 2016.

During the past six-month period there were no asbestos abatement projects.

Remaining asbestos in our schools will be surveyed every six months so that it may be maintained in good condition. Prior to any asbestos abatement projects, students, faculty and staff will be provided with specific project information ten days prior to project commencement.

Please note:

- A copy of the school asbestos management plan is available for the public review at 575 Colonial Avenue, Pelham, N.Y. 10803.

Sincerely,

A handwritten signature in blue ink, appearing to read "John P. Condon".

John P. Condon
Director of Facilities

Cc: Dr. Cheryl Champ - Superintendent of Schools
