## Ecological Studies in Panama

*A Fairfield Prep global STEM experience for 2020*

Fairfield Prep is excited to announce a week-long summer-school STEM program [Ecological Studies in Panama – Waterways and Wetlands](#) during the third week of June 2020. Sponsored by Prep's Science Department in conjunction with [EF Educational Tours](#), students will engage in a variety of activities with scientists and researchers in Panama to learn about wetland and tropical forest ecology. The trip is open to all students who have completed Biology by the end of this academic year and will be rising sophomores, juniors, and seniors.

**Environmental Science Teacher Mr. Robert Ford** is organizing and leading the trip.

### Informational Meeting for Students/Parents:

Date: **Tuesday September 24, 2019**

Time: **6:30-7:30 PM**

Place: **A103**

Please RSVP for the meeting here: [Ecological Studies in Panama – Waterways and Wetlands](#)

The informational meeting will cover:

- Where and when we're going
- What we'll see and do
- Travel logistics
- How your child can earn academic credit
- Flexible payment options that keep the tour affordable

**SPACE IS LIMITED.** Mr. Ford will share details on how to sign up and will answer any questions attendees might have.

Questions? [Contact Mr. Ford.](#)
