

# DAVIS SCHOOL DISTRICT - Construction Calendar

updated September 2019

The **budgets** listed above are updated estimates near end of the bond authorization. The District adapts the project budgets to best fit the needs of the students involved at those locations. All of these projects are constrained by the total dollar amount of bonds authorized in the November 2015 election (which was \$298 million).

The construction **schedules** listed above are “best case scenarios” not considering the effects of major weather delays or other unforeseen events that may occur during the course of construction. The project timing displayed is based solely upon the experience of the District’s New Construction Department.
