About Cooperative Educational Services

C.E.S. was created in 1976 by Connecticut legislative action to help neighboring school districts communicate and collaborate to provide high quality, cost-efficient programs and services. C.E.S. is one of six regional educational service centers (RESCs) and a member of the RESC Alliance.

The mission of C.E.S. is to identify and provide quality educational opportunities to students, educators, families and communities. It's our goal to provide innovative, cutting-edge programs and services to meet the demands of our Fairfield County school district and communities.
