

Dear Parents and Community Members:

We are pleased to once again provide you with information about the Mooresville Graded School District through the North Carolina School Report Card. This annual report card contains data, statistics and other important measures regarding student performance, class size, attendance, school safety, instructional resources and teacher quality, both for the district as well as for each school.

In 2018 - 2019, Mooresville Graded School District schools performed in an exemplary manner once again. There were several highlights in the report indicating the excellence that occurs in its classrooms at all levels. There are 18 different categories of End-of-Course / End-of-Grade tests required by the state that are administered to students in grades three through twelve. Out of the 115 NC school districts, MGSD ranked as a top 10 district in 10 out of the 18 subject areas tested. MGSD third grade students indicate a bright future with an overall ranking of fourth in the state and a second-place ranking in Math. MGSD sixth grade students finished eighth overall in the state. Secondary students also did well, with eighth grade students finishing ninth overall and Mooresville High School students finishing ninth in North Carolina in combined scores for tests at the high school level. These results are evidence that MGSD is helping students to excel at all levels.

While the North Carolina Report Card offers much information about our schools, there is much more to know about the unique strategies and plans our district has underway to provide the best educational opportunities for every student. Continuing to be one of the highest performing districts in North Carolina for a decade is no small accomplishment. However, we remain committed to excellence – for our schools, our students, and our staff. Please join us in our efforts to create the very best school system in North Carolina. Talk with your child’s teacher or school principal about ways you can become involved. We welcome your participation and input, and we appreciate your strong support.

Sincerely,

Stephen Mauney, Ed.D.  
Superintendent
