

Cupertino High School – Ways to Get Involved

At Cupertino High School, we value the participation of parents in their student’s high school experience. Participation in any of these groups helps to build up the school community and provides supports for a wide range of students.

Through participation, you can:

- **Stay informed** about CHS events, resources, and opportunities
- **Get connected** with other parents for information, advice, and friendship
- **Get involved** through volunteer opportunities that support our students, teachers, and school community
