

# Parent Board

The 2019-2020 Parent Board consists of appointed leaders from the parent community who will lead our Parent Association. Representatives from each class, as well as the representatives for the three Booster Clubs (Athletics, Drama and Band), serve as the primary point of contact with the parents in order to better communicate information about events, activities and opportunities for parents to get more involved with the school. The Parent Association is parent-driven, yet moderated and guided by the Administration and the Development office.
