

Car Line Procedure at Dismissal

The numbers on this map should be followed in order 1 through 5 by any driver **not** planning on parking in the lot.

Keep this area clear so buses and other drivers may enter the lot.

Please do not block the driveway entry at any time.

If I am a driver, where do I go?

- Enter the lot at **point 1**. If you cannot pull into the line at point 2 without blocking the area shaded in gray, please wait along the curb on 9th Avenue until you can do so.
- Pull into the lane at **point 2** and proceed all the way around to **point 3**. Proceed forward until you reach the last vehicle in line.
- Cars must remain in line at point 3 until the buses have gone. **Once the buses have gone**, the car line at point 3 will be signaled to move up to **point 4**.
- The first car in line will pull all the way forward to **point 5**. Four vehicles at a time may pull up to the parking spaces along the curb, where students may be picked up. If you do not see your student, please keep the line moving by circling through the car line again. This will expedite everyone's pick-up process.
- Please note:** when you reach point 3 and see that moving to point 4 would block the driveway, **wait at point 3** until the line moves forward again. Also, **drivers – please do not pull from point 1 directly to point 4 in front of cars still waiting at point 3**. If there is no waiting line at point 3, you may pull right up to point 4 and beyond.
