Dear Parent(s)/Guardian,

Re: Online Viewing of In-District Students IEPs and Progress Reports via PowerSchool

Welcome to the 19-20 school year. We hope you had a relaxing, enjoyable summer.

We are pleased to resume electronic viewing of in-district student IEPs on PowerSchool. In addition to the ability to view demographics, report cards and other PowerSchool aids online, families of special education students using their existing PowerSchool portal credentials have access to the special ed progress reports and latest implemented IEP. You will continue to receive IEPs via email or via USPS depending upon your preferences indicated in PowerSchool.

The current IEP will be posted to the portal after a meeting is held and results in either initial implementation or changes to an existing IEP. Each time a new IEP is generated, it will replace the prior IEP on the portal.

Below are instructions for accessing a student IEP and progress report online via PowerSchool.

We are looking forward to a successful and rewarding school year working with you on behalf of your student.

Sincerely,

Department for Special Services
cb/att.

FREQUENTLY ASKED QUESTIONS:

Q: We just moved into the district with a classified child and have not had our first Bridgewater IEP meeting yet. How would we see progress reports?

A: The instructional staff is becoming acquainted with your child and developing goals and objectives that our district feels are appropriate. These may be a continuation of existing goals or recommendations for revision of the current goals. Parents will have the opportunity to review these goals and objectives in the next proposed IEP. You will then be able to begin tracking progress in the next progress reporting period.

Q: We have a newly classified child and a progress reporting period occurs shortly after the eligibility/consent for Initial IEP. Will I see an IEP progress report posted for my child?

A: As with a transfer-in student, the instructional/service staff will not be able to measure the progress on goals and objectives yet, but will have a clear picture by the time the next progress period occurs.

Q: We have one classified student indistrict and one attending an out of district school. Will we be able to view the progress reports online for our out of district student too?

A: No, the out of district school itself reports on student progress and will continue to provide parents with progress reports.

If a parent/guardian signs consent for implementation at the IEP meeting, the posting will occur before the 15 days. Parents/Guardians will continue to receive IEPs via email or whatever was the established method as indicated in the demographics in PowerSchool. Posting to PowerSchool is a convenience feature for families to view student's IEPs online. Draft IEPs are not posted up to the portal.
