

Adlai E. Stevenson High School District 125 Official Compliance Statements

Asbestos Management

Adlai E. Stevenson High School HSD 125 is in compliance with the EPA Asbestos Hazard Emergency Response Act (AHERA) regulations. As part of this compliance, a copy of the Asbestos Management Plan can be found in the District Office and in the Principal's school office for review. Any questions regarding the Management Plan or review of the records can be directed to Mr. Habib Osman, Director of Building and Grounds or Mr. Sean Carney, Assistant Superintendent for Business.

Integrated Pest Management Plan

In the spring of 1999, the Illinois General Assembly passed SB0527 and SB0529, amendments to the Structural Pest Control Act and the Illinois Pesticide Act, which affect how pests, mice, ants, and other insects and rodents are controlled in schools.

Under the legislation, all Illinois schools are required to adopt an Integrated Pest Management Plan, and also are required to notify staff, students and parents prior to certain types of pest control applications.

Integrated Pest Management places emphasis on inspection and communication with the school administration. The focus of the program is to identify and eliminate conditions in the school, which could breed pest infestation. Applications of pest control materials are made only when necessary to eliminate a pest problem. Spraying is not part of the program.

If it becomes necessary to use any pest control products other than traps or baits, notice will be posted two business days prior to the application. The only exception to the two-- day notice would be if there is an immediate threat to health or property.

Any questions regarding the Integrated Pest Management Plan can be directed to Mr. Habib Osman, Director of Buildings and Grounds, or Mr. Sean Carney, Assistant Superintendent for Business.
