

CULINARY

Employees working in the Restaurant and Food/Beverage Services pathway perform a variety of tasks to maintain operations and promote guest services in eating and drinking establishments.

Chefs and head cooks oversee the daily food preparation at restaurants and other places where food is served. They direct kitchen staff and handle any food-related concerns. Typically, chefs and head cooks are responsible for ensuring the freshness of foods, supervision of staff, development of recipes, menu planning, inspection of facilities and supplies, training, order placement, customer satisfaction, and more.

WHY?

Apprenticeships are a win-win for workers and employers alike. Individuals get access to training in critical and relevant skills without the challenges of time and money that often accompany the pursuit of a degree – and employers benefit from higher productivity, increased retention rates, and a substantial return on investment. It's a “grow-your-own” strategy that better aligns the needs of employers with the interests of the workforce. Apprenticeships may have been around for centuries, but employers, training providers, and policymakers alike are rediscovering their value in advancing the future of work.
