Science, Humanities, Maths and PHE Semester 1

2019-20 GRADE 10	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14	Week 15	Week 16	Week 17	Week 18	Week 19
Biology	<p>Inheritance Key Concept – Relationships Related Concept – Forms / Models / Patterns Global Concept – Identities & Relationships SOI – Models can show structure, patterns and relationships between parts Assessment – Semester Exam (A); Genetics Infographic presentation (AD); DNA Extraction Lab Report (BC); Genetics in Primary Project (C); Human Infertility or Genetically-Modified Organisms Essay (D)</p>																		
Chemistry	<p>Chemical Energetics and Organic Chemistry Key Concept – Systems Related Concept – Forms / Models / Environment Global Concept – Globalization & Sustainability SOI – Organic Chemistry and Energetics is the system that makes our environment better through models. Assessment – Unit Test (A); Enthalpy reaction (BC); Plastic Waste Project (D)</p>										<p>Rates of Reactions Key Concept – Relationships Related Concept – Evidence / Interaction / Consequences Global Concept – Identities and relationships. SOI – Evidence is used to show the interactions between molecules and the consequences of these reactions. Assessment – Semester Exam (A); Rate Lab (BC)</p>								
Physics	<p>Electromagnetism Key Concept – Systems Related Concept – Interaction / Development / Environment Global Concept – Scientific and Technical Innovation SOI – Electric currents created by moving electrons are vital to us, from the microscopic currents in our brains to immense power outputs of modern generating stations. Assessment – Static Quiz (A), Current Quiz (A) Unit Test (A); Series & Parallel Lab (C); Ohm's Law (BC); Electromagnet Strength (BC); Power Generation Research (D)</p>																		
Humanities	<p>Urban sustainability Key Concept – Systems Related Concept – Sustainability Global Concept – Globalization & sustainability SOI – Transport systems can help cities become more sustainable Assessment – Xianlin sustainable transport investigation.</p>							<p>Perspectives Key Concept – Global interactions Related Concept – Perspectives Global Concept – Orientation in time & space SOI – Perspectives can shape the understanding of global interactions over time Assessment – Essay (Causes of the Cold War), Exam (Korean War) & Exhibition (Why was the US unable to win the Vietnam War?)</p>											
Maths (Extended)	<p>Coordinate Geometry Key Concept – Relationships Related Concept – Representation Global Concept – Identities & Relationships</p>				<p>Quadratic Functions Key Concept – Relationships Related Concept – Change & Model Global Concept – Orientation in space and time SOI – Modeling helps to demonstrate relationships between variables, and can be the driving force in change of policy or design. Assessment – A: Unit test</p>						<p>Probability Key Concept – Logic Related Concept – Equivalence/Representation Global Concept – Identities & Relationships SOI – Probability allows us to predict long-term trends with a considerable degree of accuracy. Assessment – A: Unit test B: Rolling for the big one.</p>								

	<p>SOI – Mathematical models can be used to better understand changes in relationships in our world.</p> <p>Assessment – A: Unit test B: Number patterns</p>	<p>C/D: Transformations of quadratic graphs and modelling real life structures with quadratic functions.</p>	<p>C/D: Exploring Parabolas.</p>
<p>Maths Standard</p>	<p>Coordinate Geometry Key Concept – Relationships Related Concept – Representation Global Concept – Identities & Relationships SOI – Mathematical models can be used to better understand changes in relationships in our world. Assessment – A: Unit test</p>	<p>Quadratic Functions Key Concept – Relationships Related Concept – Model & Pattern Global Concept – Scientific and Technical Innovation SOI – Parabolas, the graphical representation of quadratic functions, can be used to model real life situations. Assessment – A: Unit test C/D: Transformations of quadratic graphs and modelling real life structures with quadratic functions.</p>	<p>Probability Key Concept – Logic Related Concept – Change & Representation Global Concept – Identities & Relationships SOI – The study of probability can help us predict the future. Assessment – A: Unit test B/C/D: Probabilities in realistic situations. Semester Exam</p>
<p>PHE</p>	<p>Invasion Games – Ultimate Frisbee Key Concept: Relationships Related Concepts: Interactions, Systems Global Context: Identities and Relationships SOI: Developing and maintaining effective relationships will enhance social interaction. Assessment: Criteria A, B, C and D through a project and including teacher and peer observations.</p>	<p>PHE Personal Project Key Concept: Change Related Concepts: Choice, Refinement Global Context: Identities and Relationships SOI: Students develop own lines of inquiry based on personal interest Assessment: Criteria A, B, C and D through a project and including teacher and peer observations.</p>	<p>Individual Pursuits - Gym/Aquatics Key Concept: Communication Related Concepts: Adaptation Global Context: Identities and Relationships SOI: A well designed workout can be fun and very effective in improving fitness and health. Having a positive self-body image can lead to a more healthy and less stressful life. Exercise can affect the way our respiratory and circulatory systems function. Assessment: Criteria A, B, C and D through a project and including teacher and peer observations.</p>

Science, Humanities, Maths and PHE Semester 2

2019-20 GRADE 10	Week 20	Week 21	Week 22	Week 23	Week 24	Week 25	Week 26	Week 27	Week 28	Week 29	Week 30	Week 31	Week 32	Week 33	Week 34	Week 35	Week 36	Week 37	Week 38
Biology	<p>Evolution and Natural Selection Key Concept – Change Related Concept – Consequences / Environment / Evidence Global Concept – Orientation in time and space SOI – There is overwhelming evidence of environmental pressures leading to genetic change over time. Assessment – Semester Exam (A); Conservation data presentation (AD*); Conservation effort media product (D)*; Natural Selection simulation report (BC); Manipulating data from Grants’ study (BC partial).</p>																		
Chemistry	<p>Mole and Stiochiometry Key Concept – Change Related Concept – Transformation / Energy / Balance Global Concept – Scientific & technical inovation. SOI – Transformation of molecules releases energy and needs balance to understand the changes in composition. Assessment – Unit Test (A); Mole Lab (BC), Analytical Chemistry essay (D)</p>												<p>Oxidation and Reduction Key Concept – Relationships Related Concept – Balance / Function / Interaction Global Concept – Identities and relationships. SOI – Interactions between chemcials cause a balance to form which results in a function we can use in real life.. Assessment – Semester Exam (A); Redox Lab (BC)</p>						
Physics	<p>Waves Key Concept – Change Related Concept – Models / Form / Transformation Global Concept – Orientation in time and space SOI – Visual impairment and blindness have enormous implications for quality of life, and opportunities for their treatment varies globally. Assessment – Wave Characteristic Quiz (A), Unit Test (A); Speed of a Wave (BC); Snell’s Law (C); Total Internal Reflection (BC); EM Spectrum Poster (D); Convex/Concave Lens Lab (BC); Application of Waves Presentation (D)</p>																		
Humanities	<p>Perspectives cont’d (See Semester 1)</p>				<p>International Disparities IDU (with Maths) Key Concept – Global interactions Related Concept – Equity Global Context – Fairness & development SOI - Although disparities between countries are inevitable & often undesirable, they can be reduced. Assessment – Development decision-making activity</p>					<p>Social enterprise Key Concept – Creativity Related Concept – Choice Global Context – Scientific & technical innovation SOI – Individuals can create enterprises that help to make societies more sustainable. Assessment – Market research investigation, marketing plan, oral presentation of business plan & evaluation of performance.</p>									
Maths (Extended)	<p>Trigonometry Key Concept – Form Related Concept – Measurement & Quantity Global Context – Identities and</p>					<p>Other non-linear Functions Key Concept – Relationships Related Concept – Change & Model Global Context – Identities and Relationships</p>					<p>Exponents and Logs Key Concept – Logic Related Concept – Pattern, Simplification & System Global Context – Personal and cultural expression</p>								

	<p>Relationships SOI - Spatial relationships are both a means of understanding the physical and abstract world. Assessment – A: Unit test B: Trigonometric graphs D: correlation</p>	<p>SOI - Discovering how properties change over time can lead to a better understanding of mathematical relationships. Assessment – A: Unit test B:C Exponential functions: Growth and Decay</p>	<p>SOI - Simplification requires an understanding and logical application of rules within a system. Assessment – A: Unit test Semester 2 exam</p>
<p>Maths Standard</p>	<p>Trigonometry Key Concept – Relationship Related Concept – Model & Representation Global Context – Scientific and Technical Innovation SOI - Triangles and the patterns between the changes in the side lengths and angles can be used to model, represent and solve real world problems. Assessment – A: Unit test C/D: Oil Rig Investigation D: correlation</p>	<p>Relations, Functions, and Sequences Key Concept – Form Related Concept – Change & Equivalence Global Context – Scientific and Technical Innovation SOI - Functions and numbers can be used to model patterns. Assessment – A: Unit test B/C Fibonacci</p>	<p>Exponential and Logarithmic Functions Key Concept – Relationships Related Concept – Quantity & Representation Global Context – Identities and Relationships SOI - Simplification requires an understanding and logical application of rules within a system. Assessment – A: Unit test Semester Exam</p>
<p>PHE</p>	<p>Net Games - Badminton/Volleyball/Table Tennis Key Concept: Relationships Related Concepts: Choice Global Context: Fairness and Development SOI: Developing key relationships between organizing bodies is essential for making choices and refining systems to effectively structure a sporting tournament or season. Assessment: Criteria A, C and D through a project and including teacher and peer observations.</p>	<p>Track and Field Key Concept: Change Related Concepts: Movement Global Context: Scientific and Technical Innovation SOI: Effective use of technology has improved performances in track and field. Assessment: Criteria A, B, C and D through a project and including teacher and peer observations.</p>	<p>PHE Personal Project 2 - Wellbeing Key Concept: Development Related Concepts: Choice, Refinement Global Context: Identities and Relationships SOI: Students develop own lines of inquiry based on developing their own or others wellbeing. Assessment: Criteria A, B, C and D through a project and including teacher and peer observations.</p>

Design	<p>Unit Title: Make it like a pro! Key Concept: Systems Related Concept: Collaboration Global Context: Scientific and technical innovation. SOI: Students will collaborate to learn about systems to produce a highly innovative and scientific solution. Assessment: Design folio and a product of industry standard.</p> <p>Designing a narrative film. Key Concept: Communication Related Concept: Collaboration Perspective Global Context: Personal and Cultural Expression SOI: Directors make choices to position audience response. Assessment: Design Portfolio and Project</p>																		
Music	<p>Unit Title: Jazz Key Concept: Aesthetics Related Concept: Interpretation, Play Global Context: Personal & Cultural Expression SOI: Jazz is a polarizing genre. Assessment: Process Journal, Arrangement & Performance</p>										<p>Unit Title: OPEN Key Concept: Aesthetics Related Concept: Identity Global Context: Cultural & Personal Expression SOI: Students will design their own theme/topic and plan their individual inquiry using the creative cycle and Process Journal Assessment: Process Journal & Performances</p>								
Visual Arts	<p>Unit Title: Truth Key Concept: Identity Related Concept: Communication Global Context: Identities & Relationships SOI: Students will further develop their individual and personal understanding and application of the creative cycle. Assessment: Process Journal & Artwork(s)</p>										<p>Unit Title: OPEN Key Concept: Aesthetics Related Concept: Identity Global Context: Cultural & Personal Expression SOI: Students will design their own theme/topic and plan their individual inquiry using the creative cycle and Process Journal Assessment: Process Journal & Artwork(s)</p>								
Drama	<p>Unit Title: Theatre Production: Poor Theatre meets Pantomime Key Concept: Aesthetics Related Concept: Audience, expression, Play, Narrative Global Context: Personal and Cultural expression SOI: All that is needed to create a successful performance is actors. Assessment: Journal work, A final performance to a PYP audience, Final Evaluation and Review.</p>									<p>Unit Title: Theatre Production: Comedy for a Cause Key Concept: Culture Related Concept: Audience, Genre, Innovation Global Context: Personal and Cultural expression. SOI: Comedy is a product of culture Assessment: Journal work, A research Project. A performance to raise donations for a chosen Charity, Final Evaluation and Review.</p>
