CURRICULUM

The Secondary School curriculum (Grades 6 to 12) is guided by the IB Middle Years Programme (MYP) and Diploma Programme (DP). All students in Grades 11 and 12 take the full DP or DP Courses and must complete Creativity, Activity and Service (CAS). In addition, DP candidates complete coursework in Theory of Knowledge and an Extended Essay.

GRADING

Grading is on the IB 1-7 scale and we do not calculate GPAs for our students. In cases of transfer students, prior courses at other schools are considered in determining passing credits towards graduation. Official records from prior schools will be attached but we do not take responsibility for verifying their accuracy.

Class Rank: ISHCMC does not rank its students.

IB MIDDLE YEARS PROGRAMME

The IB Middle Years Programme (MYP) is the ISHCMC curriculum framework for Grades 6-10. Students follow courses in eight subject areas and learn via interdisciplinary units in each grade. Students also learn via Creativity, Activities and Service (CAS) as an integral part of the programme. The MYP is recognized by Ofqual (the official regulator of examinations in England) as a high quality programme in education alongside equivalents like the IGCSE.

A significant part of the final two years of the MYP is the Personal Project, a self-directed inquiry conducted over nine months on a topic of their choice. The students' reflective reports that draw on their process journals throughout the Project are externally moderated. From the 90 Grade 10 students in 2018-19, the average score was 5.02 on a 1-7 grade scale.

ADVISORY/HOUSE

Every student at ISHCMC is assigned an advisor who assists the student in achieving their personal and academic goals. The advisor acts as both teacher and mentor to the student. Advisory is a place where students become connected – engaged in their school, feel a sense of belonging, develop a nurturing relationship. Advisory sessions cover topics relevant to the students' well-being, providing a culture of care and safety. All students meet in Advisory each afternoon and once a week for extended sessions.

MINDFULNESS

Each day students and faculty participate in ten minutes of Mindfulness. Through Mindfulness, the community focuses on an awareness of the present moment, recognizing our feelings, thoughts and sensations. As a result, we hope to achieve better balance in our lives and greater understanding of our thoughts and feelings and concerns for others.

POSITIVE EDUCATION

Positive Education focuses on the overall well-being of our community. With an emphasis on Positive Education, we teach students and faculty and parents how to build positive relationships, and to seek out the good in one another.
