

Dear Parent/Guardian,

Students are now able to borrow eBooks from our exciting eBook library!

eBooks can be read on most tablets, smartphones and computers. Reading on a tablet or smartphone

Students might find it easiest to read books on a mobile device such as a smartphone or tablet.

In your Android or Apple App store, simply search for 'ePlatform by Wheelers' to find the App.

- Once downloaded, search for 'Sydenham School' within the 'Find Your Library' link.
- Select 'Sydenham School' when it comes up.
- This then takes you to the school's eBook library where you can browse for a book to read
- Sign in or Register to borrow the book; the Username and password are the normal IT logon details your student normally uses.
- Once you've opened your eBook, it will save to the homepage of your app, ready for offline reading.
- To avoid data charges and excess broadband usage, return to the homepage of the app to open the book and, if wished, switch the device to flight mode.

Reading through your web browser or on a laptop or desktop computer

To access the eBook library students simply need to sign in at

<https://librarysydenhamschool.wheelers.co/> or click on the link on the Library page of the school website.

Students can borrow 1 eBook at a time, which will expire automatically from their device, usually after two weeks.

If you have finished with an eBook before the loan has expired, you can return it early. To do this, just click on the title within 'My Shelf' and click 'Return this title'.

Happy reading!

Christine Joseph
