

## Finn Taylor

**Atkinson Gallery, Millfield**

2 November – 12 December 2015

Private view: Monday 2 November, 7-9pm.

### Press Release

We are excited to announce that **Finn Taylor** will be exhibiting his work in the Atkinson Gallery.

Finn Taylor was born in 1982 in Hong Kong. His early childhood was spent in Cyprus, until he moved to Dorset in 1993. Finn always had a camera close by when growing up, kicking off with a 110 picked from the Argos catalogue. He knew back then he wanted to people-watch and document these moments for a living.

Throughout school at Millfield, and later at University, Finn practised endlessly, documenting people in close proximity and producing images he felt exuded honesty, and which the subjects felt to be a fair and true representation of themselves. Not getting on to a photography course provided the fuel, grit and determination to practise snapping relentlessly, and to spend hours sitting on library and bookshop floors, surrounded by photography books.

Finn's eye for documentary photography has produced stunning images of East London Team GB athletes, India National Team cricket players, the Polish football team, British youths in chicken shops, and OAP's hosting their own radio show in Birmingham, amongst other projects.

As a successful commercial photographer Finn has also made portraits of Snoop Dogg, A\$AP Rocky, Drake, Kesha, John Legend, Rooney, Messi, Zlatan and Lewandowski and works for clients including Nike, Sony, Time Magazine and Bloomberg.
