Independent Auditor's Report

To the Board of Education
Gull Lake Community Schools

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major funds, and the aggregate remaining fund information of Gull Lake Community Schools (the "School District") as of and for the year ended June 30, 2019 and the related notes to the financial statements, which collectively comprise Gull Lake Community Schools' basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major funds, and the aggregate remaining fund information of Gull Lake Community Schools as of June 30, 2019 and the respective changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Education
Gull Lake Community Schools

Other Matters

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, major fund budgetary comparison schedule, and schedules of the School District's proportionate share of the net pension and OPEB liabilities and contributions, as defined in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Gull Lake Community Schools' basic financial statements. The other supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements.

The other supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplemental information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 10, 2019 on our consideration of Gull Lake Community Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Gull Lake Community Schools' internal control over financial reporting and compliance.

September 10, 2019

This section of the annual financial report for Gull Lake Community Schools (the "School District") presents our discussion and analysis of the School District's financial performance during the year ended June 30, 2019. Please read it in conjunction with the School District's financial statements, which immediately follow this section.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those financial statements. These statements are organized so the reader can understand Gull Lake Community Schools financially as a whole. The government-wide financial statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short-term, as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the government-wide financial statements by providing information about the School District's most significant funds - the General Fund and the 2018 Capital Projects Fund, with all other funds presented in one column as nonmajor funds. The remaining statement, the statement of fiduciary assets and liabilities, presents financial information about activities for which the School District acts solely as an agent for the benefit of students and parents. This report is composed of the following elements:

Management's Discussion and Analysis (MD&A) (Required Supplemental Information)

Basic Financial Statements

Schedule of OPEB Contributions

Other Supplemental Information

Reporting the School District as a Whole - Government-wide Financial Statements

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net position and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources, using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School District's net position - the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, as reported in the statement of net position - as one way to measure the School District's financial health or financial position. Over time, increases or decreases in the School District's net position - as reported in the statement of activities - are indicators of whether its financial health is improving or deteriorating. The relationship between revenue and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

Gull Lake Community Schools

Management's Discussion and Analysis (Continued)

The statement of net position and the statement of activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, support services, community services, athletics, and food services. Property taxes, unrestricted state aid (foundation allowance revenue), and state and federal grants finance most of these activities.

Reporting the School District's Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. Some funds are required to be established by state law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Hot Lunch Fund is an example) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects).

Governmental Funds

Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in a reconciliation.

Fiduciary Funds

The School District has certain fiduciary responsibility for its student activity funds. All of the School District's fiduciary activities are reported in a separate statement of fiduciary assets and liabilities. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Gull Lake Community Schools

Management's Discussion and Analysis (Continued)

The School District as a Whole

Recall that the statement of net position provides the perspective of the School District as a whole. The following table provides a summary of the School District's net position as of June 30, 2019 and 2018:

	Governmental Activities	
	2019	2018
	(in millions)	
Assets		
Current and other assets	\$ 65.7	\$ 12.2
Capital assets	48.8	47.4
Total assets	114.5	59.6
Deferred Outflows of Resources	24.7	14.8
Liabilities		
Current liabilities	5.4	4.7
Noncurrent liabilities	82.1	31.3
Net pension liability	57.4	48.4
Net OPEB liability	15.4	16.5
Total liabilities	160.3	100.9
Deferred Inflows of Resources	10.3	5.3
Net Position		
Net investment in capital assets	20.8	19.4
Restricted	2.6	0.9
Unrestricted	(54.8)	(52.1)
Total net position	<u>\$ (31.4)</u>	<u>\$ (31.8)</u>

The above analysis focuses on net position. The change in net position of the School District's governmental activities is discussed below. The School District's net position was \$(31.4) million at June 30, 2019. Net investment in capital assets totaling \$20.8 million compares the original cost, less depreciation of the School District's capital assets, to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School District's ability to use that net position for day-to-day operations. The remaining amount of net position, \$(54.8) million, was unrestricted.

The \$(54.8) million in unrestricted net position of governmental activities represents the accumulated results of all past years' operations. The unrestricted net position balance enables the School District to meet working capital and cash flow requirements, as well as to provide for future uncertainties. The operating results of the General Fund will have a significant impact on the change in unrestricted net position from year to year.

Gull Lake Community Schools

Management's Discussion and Analysis (Continued)

The results of this year's operations for the School District as a whole are reported in the condensed statement of activities below, which shows the changes in net position for the years ended June 30, 2019 and 2018:

	Governmental Activities	
	2019	2018
	(in millions)	
Revenue		
Program revenue:		
Charges for services	\$ 1.4	\$ 1.3
Operating grants	6.9	7.1
General revenue:		
Taxes	10.2	8.3
State aid not restricted to specific purposes	25.7	25.0
Other	1.2	0.2
Total revenue	45.4	41.9
Expenses		
Instruction	24.4	22.8
Support services	13.9	12.6
Athletics	0.6	0.6
Food services	1.3	1.2
Community services	2.4	2.0
Debt service	2.4	1.1
Total expenses	45.0	40.3
Change in Net Position	0.4	1.6
Net Position - Beginning of year	(31.8)	(33.4)
Net Position - End of year	\$ (31.4)	\$ (31.8)

As reported in the statement of activities, the cost of all of our governmental activities this year was \$45.0 million. Certain activities were partially funded from those who benefited from the programs (\$1.4 million) or by other governments and organizations that subsidized certain programs with grants and contributions (\$6.9 million). We paid for the remaining "public benefit" portion of our governmental activities with \$10.2 million in taxes, \$25.7 million in state foundation allowance, and with our other revenue (i.e., interest and general entitlements).

The School District experienced a increase in net position of \$0.4 million. Key reasons for the change in net position were due to the planning and executing the 2018 Capital Projects Fund bond project and the additional related property tax revenue.

As discussed above, the net cost shows the financial burden that was placed on the State and the School District's taxpayers by each of these functions. Since property taxes for operations and unrestricted state aid constitute the vast majority of district operating revenue sources, the Board of Education and administration must annually evaluate the needs of the School District and balance those needs with state-prescribed available unrestricted resources.

The School District's Funds

As we noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

Gull Lake Community Schools

Management's Discussion and Analysis (Continued)

As the School District completed this year, the governmental funds reported a combined fund balance of \$60.6 million, which is an increase of \$53.0 million from last year. The primary reasons for the increase are as follows:

In the General Fund, our principal operating fund, the fund balance increased \$0.1 million to \$4.5 million. Starting with the 2010-2011 budget year, the School District was required to include the Athletic Fund budget with the General Fund budget. The Athletic Fund revenue and expenditures will now be shown within the General Fund detail. The General Fund balance is available to fund costs related to allowable school operating purposes.

The Hot Lunch Fund is the School District's special revenue fund, which had a fund balance that slightly decreased. The fund continues to be self-supporting.

Combined, the fund balance of our debt service funds increased \$0.8 million. Millage rates were increased in order to adjust the debt service funds fund balances. Millage rates are determined annually to ensure that the School District accumulates sufficient resources to pay annual bond issue-related debt service. Debt service fund balances are reserved since they can only be used to pay debt service obligations.

The 2018 Capital Projects Fund and 2018 Technology Bond fund balance increased a combined \$52.4 million. Fund balance increased, as the School District issued \$47,950,000 in new voter-approved bonds during the current year. These bonds were issued at a premium, which contributed to the increase in fund balance.

The 2015 Capital Projects Fund and 2016 Capital Projects Fund were established to account for proceeds from bonds to fund capital projects. Combined, the fund balance of these funds decreased slightly. The remaining combined fund balance of \$43,788 represents unspent bond proceeds.

The 2014 Sinking Fund fund balance is \$0.5 million. The fund balance at year end is related to unspent tax levy received during the 2018-2019 year.

The Building and Site Fund balance is \$1.1 million. The fund balance decreased, as the School District used funds to support facility improvements during the 2018-2019 year.

General Fund Budgetary Highlights

Over the course of the year, the School District revises its budget as it attempts to deal with unexpected changes in revenue and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. The final amendment to the budget was adopted in June 2019. A schedule showing the School District's original and final budget amounts compared with amounts actually paid and received is provided in required supplemental information of these financial statements.

There were revisions made to the 2018-2019 General Fund original budget. Budgeted revenue was decreased \$0.1 million due to an unexpected change in certain categorical revenue from the State and an unanticipated decrease in foundation allowance payments due to actual student enrollment being less than original estimates.

Budgeted expenditures were also increased slightly to account for the increase in salaries and purchased professional services resulting from the School District's revised operating plan due to the fluctuations in revenue. The amount of transfers to other funds established in the amended budget was approximately \$190,000 and represents support provided by the General Fund to other functions.

There were no significant variances between the final budget and actual amounts.

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2019, the School District had \$48.8 million invested in a broad range of capital assets, including land, buildings, vehicles, furniture, and equipment. This represents a net increase (including additions, disposals, and depreciation) of approximately \$1.3 million from 2018 to 2019.

Gull Lake Community Schools

Management's Discussion and Analysis (Continued)

	2019	2018
Land	\$ 292,240	\$ 292,240
Construction in progress	1,987,723	79,901
Buildings and improvements	41,443,923	42,006,141
Furniture and equipment	4,128,175	3,928,963
Buses and other vehicles	916,983	1,133,144
	<u>\$ 48,769,044</u>	<u>\$ 47,440,389</u>
Total capital assets - Net of accumulated depreciation		

This year's additions of \$1.1 million included cafeteria equipment, technology, building renovations, new school construction, and band equipment. Several major capital projects are planned for the 2019-2020 fiscal year. We anticipate capital additions will be much greater than this year due to ongoing bond project. We present more detailed information about our capital assets in the notes to the financial statements.

Debt

At the end of this year, the School District had \$75.3 million in bonds outstanding versus \$30.4 million in the previous year.

The School District's general obligation bond rating continues to be an underlying rating of Aa3 and an enhanced rate of Aa1. The State limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the School District's boundaries. If the School District issues "qualified debt" (i.e., debt backed by the State of Michigan), such obligations are not subject to this debt limit. The School District's outstanding unqualified general obligation debt of \$75.3 million is significantly below this statutorily imposed limit.

Other obligations include accrued compensated absences and accrued interest on capital appreciation bonds. We present more detailed information about our long-term liabilities in the notes to the financial statements.

Economic Factors and Next Year's Budgets and Rates

Our elected officials and administration consider many factors when setting the School District's 2019-2020 fiscal year budget. One of the most important factors affecting the budget is our student count. The state foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The 2018-2019 budget was adopted in June 2018 based on an estimate of students who will enroll in September 2018. Approximately 64.0 percent of total General Fund revenue is from the foundation allowance. Under state law, the School District cannot access additional property tax revenue for general operations. As a result, district funding is heavily dependent on the State's ability to fund local school operations. Based on early enrollment data at the start of the 2018 school year, we anticipate that the fall student count will be close to the estimates used in creating the 2018-2019 budget. Once the final student count and related per pupil funding are validated, state law requires the School District to amend the budget if actual district resources are not sufficient to fund original appropriations.

Since the School District's revenue is heavily dependent on state funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenue to fund its appropriation to the School District. The State periodically holds a revenue-estimating conference to estimate revenue. Based on the results of the most recent conference, the State estimates funds are sufficient to fund the appropriation, including a foundation allowance increase of \$150 per pupil.

The School District settled labor contracts with the Food Service Association in June 2018 and settled with the Secretarial Association and Gull Lake Education Association in August 2018.

Governmental Funds Reconciliation of the Balance Sheet to the Statement of Net Position

June 30, 2019

Fund Balances Reported in Governmental Funds	\$ 60,590,070
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and are not reported in the funds:	
Cost of capital assets	72,525,827
Accumulated depreciation	<u>(23,756,783)</u>
Net capital assets used in governmental activities	48,769,044
Deferred inflows and outflows related to bond refundings are not reported in the funds	753,144
Bonds payable and bond premium and discounts are not due and payable in the current period and are not reported in the funds	(81,747,215)
Accrued interest is not due and payable in the current period and is not reported in the funds	(285,054)
Some employee fringe benefits are payable over a long period of years and do not represent a claim on current financial resources; therefore, they are not reported as fund liabilities:	
Employee compensated absences	(376,880)
Net pension liability and related deferred inflows and outflows	(41,259,388)
Net OPEB liability and related deferred inflows and outflows	(15,719,157)
Revenue in support of pension contributions made subsequent to the measurement date is reported as a deferred inflow of resources in the statement of net position and is not reported in the funds	<u>(2,138,952)</u>
Net Position of Governmental Activities	<u><u>\$ (31,414,388)</u></u>

Gull Lake Community Schools

Governmental Funds

Statement of Revenue, Expenditures, and Changes in Fund Balances

Year Ended June 30, 2019

	General Fund	2018 Capital Projects Fund	Nonmajor Funds	Total Governmental Funds
Revenue				
Local sources	\$ 4,899,750	\$ 1,007,574	\$ 6,952,645	\$ 12,859,969
State sources	28,856,900	-	99,960	28,956,860
Federal sources	352,803	-	527,033	879,836
Interdistrict sources	2,943,383	-	-	2,943,383
Total revenue	37,052,836	1,007,574	7,579,638	45,640,048
Expenditures				
Current:				
Instruction	22,072,302	-	-	22,072,302
Support services	11,324,448	-	62	11,324,510
Athletics	497,463	-	-	497,463
Food services	-	-	1,206,537	1,206,537
Community services	2,307,689	-	-	2,307,689
Interfund reimbursement (Note 7)	(25,000)	-	25,000	-
Debt service:				
Principal	385,000	-	2,650,000	3,035,000
Interest	75,195	-	2,266,410	2,341,605
Other debt costs	500	-	734	1,234
Capital outlay	85,039	2,221,885	1,723,383	4,030,307
Total expenditures	36,722,636	2,221,885	7,872,126	46,816,647
Excess of Revenue Over (Under) Expenditures	330,200	(1,214,311)	(292,488)	(1,176,599)
Other Financing Sources (Uses)				
Face value of debt issued	-	46,755,000	1,195,000	47,950,000
Premium on debt issued	-	6,209,851	12,233	6,222,084
Transfers in (Note 7)	-	-	190,000	190,000
Transfers out (Note 7)	(190,000)	-	-	(190,000)
Total other financing (uses) sources	(190,000)	52,964,851	1,397,233	54,172,084
Net Change in Fund Balances	140,200	51,750,540	1,104,745	52,995,485

Gull Lake Community Schools

Governmental Funds Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances to the Statement of Activities

Year Ended June 30, 2019

Net Change in Fund Balances Reported in Governmental Funds	\$ 52,995,485
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures; however, in the statement of activities, these costs are allocated over their estimated useful lives as depreciation:	
Capitalized capital outlay	3,070,181
Depreciation expense	(1,726,526)
Net book value of assets disposed of	(15,000)
Revenue in support of pension contributions made subsequent to the measurement date	(181,383)
Issuing debt, net of premiums and discounts, provides current financial resources to governmental funds, but increases long-term liabilities in the statement of net position	(54,172,084)
Repayment of bond principal is an expenditure in the governmental funds, but not in the statement of activities (where it reduces long-term debt); amortization of premium/discounts and inflows/outflows related to bond refundings are not expenses in the governmental funds	3,102,228
Interest expense is recognized in the government-wide statements as it accrues	(144,426)
Some employee costs (pension, OPEB, and compensated absences) do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds	(2,584,089)
Change in Net Position of Governmental Activities	<u>\$ 344,386</u>

Fiduciary Funds Statement of Fiduciary Assets and Liabilities

June 30, 2019

Agency Funds

Assets - Cash and investments (Note 4)

\$ 465,693

Liabilities - Due to student groups

\$ 465,693

June 30, 2019

Note 1 - Nature of Business

Gull Lake Community Schools (the "School District") is a school district in the state of Michigan that provides educational services to students.

Note 2 - Significant Accounting Policies

Accounting and Reporting Principles

The School District follows accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. Accounting and financial reporting pronouncements are promulgated by the Governmental Accounting Standards Board. The following is a summary of the significant accounting policies used by the School District:

Reporting Entity

The School District is governed by an elected seven-member Board of Education. In accordance with government accounting principles, there are no separate legal entities appropriate to be reported within these financial statements.

Report Presentation

Governmental accounting principles require that financial reports include two different perspectives - the government-wide perspective and the fund-based perspective. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units, as applicable. The government-wide financial statements are presented on the economic resources measurement focus and the full accrual basis of accounting. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The statements also present a schedule reconciling these amounts to the modified accrual-based presentation found in the fund-based statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue includes: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Taxes, unrestricted intergovernmental receipts, and other items not properly included among program revenue are reported instead as general revenue.

As a general rule, the effect of interfund activity has been removed from the government-wide financial statements. Exceptions to this general rule occur when there are charges between the School District's business-type activities and various other functions. Eliminations of these charges would distort the direct costs and program revenue reported for the various functions concerned.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

Note 2 - Significant Accounting Policies (Continued)

Fund Accounting

The School District accounts for its various activities in several different funds in order to demonstrate accountability for how it spends certain resources; separate funds allow the School District to show the particular expenditures for which specific revenue is used. The various funds are aggregated into the following fund types:

Governmental Funds

Governmental funds include all activities that provide general governmental services that are not business-type activities. Governmental funds can include the General Fund, special revenue funds, debt service funds, capital project funds, and permanent funds. The School District's major funds are the General Fund, which is the primary operating fund because it accounts for all financial resources used to provide government services other than those specifically assigned to another fund, and the 2018 Capital Projects Fund, which is used to record bond proceeds or other revenue and the disbursement of invoices specifically designed for acquiring new capital assets.

Additionally, the School District reports the following nonmajor governmental fund types:

- Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes.
- Capital projects funds are used to record bond proceeds or other revenue and the disbursement of invoices specifically designated for acquiring new school sites, buildings, equipment, and technology upgrades and for remodeling and repairs. The funds operate until the purpose for which they were created is accomplished.
- Debt service funds are used to record tax, interest, and other revenue for payment of interest, principal, and other expenditures on long-term debt.

Fiduciary Funds

Fiduciary funds include amounts held in a fiduciary capacity for others. These amounts are not used to operate the School District's programs. The School District maintains a student activity agency fund to record the transactions of student groups for school and school-related purposes. The funds are segregated and held for the students.

Interfund Activity

During the course of operations, the School District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Furthermore, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Basis of Accounting

The governmental funds use the current financial resources measurement focus and the modified accrual basis of accounting. This basis of accounting is intended to better demonstrate accountability for how the School District has spent its resources.

Note 2 - Significant Accounting Policies (Continued)

Expenditures are reported when the goods are received or the services are rendered. Capital outlays are reported as expenditures (rather than as capital assets) because they reduce the ability to spend resources in the future; conversely, employee benefit costs that will be funded in the future (such as pension and retiree healthcare-related costs or sick and vacation pay) are not counted until they come due for payment. In addition, debt service expenditures, claims, and judgments are recorded only when payment is due.

Revenue is not recognized until it is collected or collected soon enough after the end of the year that it is available to pay for obligations outstanding at the end of the year. For this purpose, the School District considers amounts collected within 60 days of year end to be available for recognition. Revenue not meeting this definition is classified as a deferred inflow of resources.

Fiduciary funds use the economic resources measurement focus and the full accrual basis of accounting. Revenue is recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Specific Balances and Transactions

Cash and Investments

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Inventories and Prepaid Items

Inventories are valued at cost, on a first-in, first-out basis. Inventories are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements, when applicable.

Restricted Assets

The following amounts are reported as restricted assets:

- Unspent bond proceeds and related interest of the bonded capital projects funds required to be set aside for construction or other allowable bond purchases
- Unspent property taxes levied held in the debt service funds required to be set aside for future bond principal and interest payments
- Unspent property taxes levied and held in the Sinking Fund required to be set aside for construction or allowable purchases

Capital Assets

Capital assets are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

Capital assets are depreciated using the straight-line method over the following useful lives:

	Depreciable Life - Years
	<hr/>
Building and building additions	20-50 years
Furniture and equipment	3-10 years
Buses and other vehicles	5-10 years

Note 2 - Significant Accounting Policies (Continued)

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed at the time they are incurred. In the fund financial statements, governmental fund types recognize bond issuances and premiums as an "other financing source" and bond discounts as "other financing uses." The General Fund and debt service funds are generally used to liquidate governmental long-term debt.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense/expenditure) until then.

The School District reports deferred outflows related to deferred charges on refundings and deferred pension and OPEB plan costs.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time.

The School District reports deferred inflows related to revenue in support of pension contributions made subsequent to the measurement date and deferred pension and OPEB plan cost reductions.

Net Position

Net position of the School District is classified in three components. Net investment in capital assets consists of capital assets net of accumulated depreciation and is reduced by the current balances of any outstanding borrowings used to finance the purchase or construction of those assets. The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted net position is the remaining net position that does not meet the definition of invested in capital or restricted.

Net Position Flow Assumption

The School District will sometimes fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide, a flow assumption must be made about the order in which the resources are considered to be applied. It is the School District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Fund Balance Flow Assumptions

The School District will sometimes fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the School District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Furthermore, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Note 2 - Significant Accounting Policies (Continued)

Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The nonspendable fund balance component represents amounts that are not in spendable form or are legally or contractually required to be maintained intact. Restricted fund balance represents amounts that are legally restricted by outside parties, constitutional provisions, or enabling legislation for use for a specific purpose. The School District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the School District's highest level of decision-making authority. The Board of Education is the highest level of decision-making authority for the School District that can, by passing a resolution prior to the end of the fiscal year, commit fund balance. Once passed, the limitation imposed by the resolution remains in place until a similar action is taken (the passing of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes, but do not meet the criteria to be classified as committed. The School District has, by resolution, authorized the superintendent or assistant superintendent to assign fund balance. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Property Tax Revenue

Properties are assessed as of December 31, and the related property taxes become a lien on July 1 of the following year. Tax collections are forwarded to the School District as collected by the assessing municipalities through March 1, at which time they are considered delinquent and added to county tax rolls. Any delinquent taxes collected by the county are remitted to the School District by June 30. The School District considers all receivables to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded.

Grants and Contributions

The School District receives federal, state, and local grants, as well as contributions from individuals and private organizations. Revenue from grants and contributions (including contributions of capital assets) is recognized when all eligibility requirements, including time requirements, are met. Grants and contributions may be restricted for either specific operating purposes or for capital purposes. Amounts that are unrestricted or that are restricted to a specific operating purpose are reported as nonoperating revenue. Amounts restricted to capital acquisitions are reported after nonoperating revenue and expenses.

Pension and Other Postemployment Benefit (OPEB) Plans

For the purpose of measuring the net pension and net OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to each plan, and pension and OPEB expense, information about the fiduciary net position of the Michigan Public School Employees' Retirement System (MPSERS) and additions to/deductions from MPSERS fiduciary net position have been determined on the same basis as they are reported by MPSERS. MPSERS uses the economic resources measurement focus and the full accrual basis of accounting. Contribution revenue is recorded as contributions are due, pursuant to legal requirements. Benefit payments (including refunds of employee contributions) are recognized as expenses when due and payable in accordance with the plan benefit terms. Related plan investments are reported at fair value.

Note 2 - Significant Accounting Policies (Continued)

Compensated Absences (Vacation and Sick Leave)

It is the School District's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. Sick pay is accrued for the estimated amount that the School District will pay upon employment termination; vacation pay is accrued when incurred. Both of these are reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only for employee terminations as of year end. Generally, the funds that report each employee's compensation are used to liquidate the obligations.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Tax Abatements

The School District evaluated tax abatements and considered the total property tax abatements to be insignificant.

Upcoming Accounting Pronouncement

In January 2017, the Governmental Accounting Standards Board issued Statement No. 84, *Fiduciary Activities*. This statement establishes criteria for identifying fiduciary activities of all state and local governments. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. The School District is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the School District's financial statements for the year ending June 30, 2020.

Note 3 - Stewardship, Compliance, and Accountability

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles and state law for the General Fund and all special revenue funds except that capital outlay and debt service costs are budgeted by function, and athletics revenue is presented separately from local revenue. All annual appropriations lapse at fiscal year end. The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. State law requires the School District to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year. During the year, the budget was amended in a legally permissible manner. There were no significant amendments during the year.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders or contracts) outstanding at year end are reported as restrictions, commitments, or assignments of fund balances and do not constitute expenditures or liabilities because the goods or services have not been received as of year end; the commitments will be reappropriated and honored during the subsequent year. There were no significant encumbrances outstanding at June 30, 2019.

Note 3 - Stewardship, Compliance, and Accountability (Continued)

Excess of Expenditures Over Appropriations in Budgeted Funds

During the year, the School District incurred expenditures in the General Fund, which were in excess of the amounts budgeted, as follows:

	Budget		Actual
Instruction - Basic programs	\$ 19,899,256	\$	19,990,482
Debt service	451,500		460,695

Capital Projects Fund Compliance

The 2018 Technology Bond Fund and the 2018 Capital Projects Fund include capital project activities funded with bonds issued after May 1, 1994. For these capital projects, the School District has complied with the applicable provisions of §1351a of the State of Michigan’s School Code.

The 2014 Sinking Fund Capital Projects Fund records capital project activities funded with Sinking Fund millage. For this fund, authorized prior to March 31, 2017, the School District has complied with the applicable provisions of §1212(1) of the State of Michigan School Code and the State of Michigan Department of Treasury Letter No. 01-95.

Note 4 - Cash and Investments

State statutes and the School District’s investment policy authorize the School District to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The School District is allowed to invest in U.S. Treasury or agency obligations, U.S. government repurchase agreements, bankers’ acceptances, certificates of deposit, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The School District’s deposits are in accordance with statutory authority.

The School District has designated two banks for the deposit of its funds.

The School District’s cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the School District’s deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. At year end, the School District had \$4,053,503 of bank deposits (certificates of deposit and checking and savings accounts) that were uninsured and uncollateralized. The School District believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the School District evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk of Investments

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have a policy for custodial credit risk. At June 30, 2019, the School District does not have investments with custodial credit risk.

June 30, 2019

Note 4 - Cash and Investments (Continued)

Interest Rate Risk

Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The School District's investment policy restricts investment maturities to within two years of the date of purchase. In addition, the policy restricts investments in commercial paper, which can only be purchased with a 270-day maturity.

Credit Risk

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The School District's investment policy does not further limit its investment choices. As of year end, the credit quality ratings of debt securities (other than the U.S. government) are as follows:

Investment	Carrying Value	Rating	Rating Organization
Primary Government			
Michigan Liquid Asset Fund - MAX Class	\$ 56,030,168	AAAm	S&P
Michigan Liquid Asset Fund - Cash management	<u>113,663</u>	AAAm	S&P
Total	<u>\$ 56,143,831</u>		

The Michigan Liquid Asset Fund - MAX Class investment may not be redeemed for at least 14 calendar days with the exception of direct investments of funds distributed by the State of Michigan. In addition, redemptions made prior to the 14-day period are subject to a penalty equal to 15 days' interest on the amount so redeemed. The Michigan Liquid Asset Fund - Cash Management investment has no limitations or restrictions on participant withdrawals, except for a one-day minimum investment period.

Concentration of Credit Risk

The School District places no limit on the amount it may invest in any one issuer. The School District does not have any investments subject to concentration of credit risk.

Foreign Currency Risk

Foreign currency risk is the risk that an investment denominated in the currency of a foreign country could reduce its U.S. dollar value as a result of changes in foreign currency exchange rates. State law and the School District's investment policy prohibit investments in foreign currency.

Note 5 - Unavailable/Unearned Revenue

Governmental funds report unavailable revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also report unearned revenue recognition in connection with resources that have been received but not yet earned.

At June 30, 2019, the various components of unearned revenue were as follows:

	Governmental Funds Liability - Unearned
Grant and categorical aid payment received prior to meeting all eligibility requirements	\$ 121,555

June 30, 2019

Note 6 - Capital Assets

Capital asset activity of the School District's governmental activities was as follows:

Governmental Activities

	Balance July 1, 2018	Reclassifications	Additions	Disposals and Adjustments	Balance June 30, 2019
Capital assets not being depreciated:					
Land	\$ 292,240	\$ -	\$ -	\$ -	\$ 292,240
Construction in progress	79,901	(57,481)	1,965,303	-	1,987,723
Subtotal	372,141	(57,481)	1,965,303	-	2,279,963
Capital assets being depreciated:					
Buildings and improvements	57,037,438	57,481	474,446	(15,000)	57,554,365
Furniture and equipment	8,991,656	-	630,432	-	9,622,088
Buses and other vehicles	3,069,411	-	-	-	3,069,411
Subtotal	69,098,505	57,481	1,104,878	(15,000)	70,245,864
Accumulated depreciation:					
Buildings and improvements	15,031,297	-	1,079,145	-	16,110,442
Furniture and equipment	5,062,693	-	431,220	-	5,493,913
Buses and other vehicles	1,936,267	-	216,161	-	2,152,428
Subtotal	22,030,257	-	1,726,526	-	23,756,783
Net capital assets being depreciated	47,068,248	57,481	(621,648)	(15,000)	46,489,081
Net governmental activities capital assets	<u>\$ 47,440,389</u>	<u>\$ -</u>	<u>\$ 1,343,655</u>	<u>\$ (15,000)</u>	<u>\$ 48,769,044</u>

Depreciation expense was charged to programs of the primary government as follows:

Governmental activities:	
Instruction	\$ 659,815
Support services	960,764
Community services	4,296
Food services	11,259
Athletics	90,392
Total governmental activities	<u>\$ 1,726,526</u>

Construction Commitments

The School District has active construction projects at year end. At year end, the School District's commitments with contractors are as follows:

	Spent to Date	Remaining Commitment
Admin building HVAC	\$ 5,500	\$ 29,300
MS HVAC upgrades	-	42,020
Athletic improvements	75,684	654,307
Athletic fencing	86,112	58,377
Ryan Intermediate improvements	56,408	7,286,733
Total	<u>\$ 223,704</u>	<u>\$ 8,070,737</u>

June 30, 2019

Note 7 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

	Fund Due To	Fund Due From	
		General Fund	Nonmajor funds
General Fund		\$ -	\$ 1,695
Nonmajor funds		1,057,287	-
Total		\$ 1,057,287	\$ 1,695

Interfund transfers reported in the fund financial statements are composed of the following:

Paying Fund (Transfer Out)	Receiving Fund (Transfer In)	Amount
General Fund	Building and Site Fund	\$ 190,000

Operating transfers from the General Fund are to provide support for nonbond-funded capital projects.

Interfund reimbursement was made from the Food Service Fund to the General Fund in the amount of \$25,000 to reimburse the General Fund for indirect costs related to the food service activities.

Note 8 - Long-term Debt

Long-term debt activity for the year ended June 30, 2019 can be summarized as follows:

Governmental Activities

	Beginning Balance	Additions	Reductions	Ending Balance	Due within One Year
Bonds payable:					
Other debt - General obligation	\$ 30,365,000	\$ 47,950,000	\$ (3,035,000)	\$ 75,280,000	\$ 3,215,000
Unamortized bond premiums	628,942	6,222,084	(364,673)	6,486,353	399,628
Unamortized bond discounts	(29,579)	-	10,441	(19,138)	(10,441)
Total bonds payable	30,964,363	54,172,084	(3,389,232)	81,747,215	3,604,187
Compensated absences	346,454	30,426	-	376,880	-
Total governmental activities long-term debt	\$ 31,310,817	\$ 54,202,510	\$ (3,389,232)	\$ 82,124,095	\$ 3,604,187

The School District had deferred outflows of \$753,144 related to deferred charges on bond refundings at June 30, 2019.

June 30, 2019

Note 8 - Long-term Debt (Continued)

General Obligation Bonds and Contracts

The School District issues general obligation bonds to provide for the acquisition and construction of major capital facilities. General obligations have been issued for governmental activities. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. The School District's qualified bonds are fully guaranteed by the State of Michigan. The primary source of any required repayment is from the School District's property tax levy; however, the State of Michigan may withhold the School District's state aid funding in order to recover amounts it has paid on behalf of the School District. General obligations outstanding at June 30, 2019 are as follows:

Purpose	Remaining Annual Installments	Interest Rates (Percent)	Maturing May 1	Outstanding
Governmental Activities				
\$4,600,000 2012 School Building and Site Bonds	\$475,000 - \$500,000	3.00	2024	\$ 2,450,000
\$5,405,000 2013 Series A Refunding Bonds	\$545,000 - \$565,000	2.00 - 2.50	2021	1,110,000
\$9,395,000 2013 Series B Refunding Bonds	\$1,000,000 - \$1,500,000	4.00 - 5.00	2021	2,500,000
\$1,200,000 2015 Series B School Building and Site Bonds	\$160,000 - \$165,000	1.00	2021	325,000
\$3,150,000 2016 School Improvement and Bus Bonds	\$235,000 - \$405,000	2.00	2026	2,040,000
\$18,905,000 2017 Refunding Bonds	\$590,000 - \$2,095,000	1.70 - 3.10	2030	18,905,000
\$47,950,000 2018 School Building and Site Bonds	\$120,000 - \$2,280,000	2.00 - 5.00	2048	47,950,000
Total governmental activities				<u>\$ 75,280,000</u>

Debt Service Requirements to Maturity

Annual debt service requirements to maturity for the above bonds and note obligations are as follows:

Years Ending June 30	Governmental Activities - Other Debt		Total
	Principal	Interest	
2020	\$ 3,215,000	\$ 3,054,568	\$ 6,269,568
2021	3,315,000	2,942,118	6,257,118
2022	3,060,000	2,851,763	5,911,763
2023	3,110,000	2,786,557	5,896,557
2024	3,245,000	2,714,386	5,959,386
2025-2029	15,820,000	12,244,148	28,064,148
2030-2034	11,645,000	9,573,836	21,218,836
2035-2039	11,350,000	6,832,500	18,182,500
2040-2044	11,400,000	3,990,000	15,390,000
2045-2048	9,120,000	1,140,000	10,260,000
Total	<u>\$ 75,280,000</u>	<u>\$ 48,129,876</u>	<u>\$ 123,409,876</u>

Bond Refunding

In previous years, the School District defeased an advance refunding. As of June 30, 2019, there is still \$4,070,000 of bonds outstanding that is considered defeased.

June 30, 2019

Note 9 - Restricted Assets

At June 30, 2019, restricted assets are composed of the following:

Description	Governmental Activities
Unspent bond proceeds and related interest	\$ 52,912,776
Unspent debt service funds	1,849,940
Unspent sinking fund millage	521,565
Total	<u>\$ 55,284,281</u>

Note 10 - Risk Management

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The School District has purchased commercial insurance for each of these claims. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

Note 11 - Michigan Public School Employees' Retirement System

Plan Description

The School District participates in the Michigan Public School Employees' Retirement System (MPERS or the "System"), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. Certain school district employees also receive defined contribution retirement and healthcare benefits through the System. The System provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The System also provides postemployment healthcare benefits to retirees and beneficiaries who elect to receive those benefits.

The System is administered by the Office of Retirement Services (ORS). The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplemental information for the pension and postemployment healthcare plans. That report is available on the web at <http://www.michigan.gov/orsschools>, or by writing to the Office of Retirement System (ORS) at 7150 Harris Drive, P.O. Box 30171, Lansing, MI 48909.

Benefits Provided

Benefit provisions of the defined benefit (DB) pension plan and the postemployment healthcare plan are established by state statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit pension plan and the postemployment healthcare plan.

Depending on the plan option selected, member retirement benefits are calculated as final average compensation times years of services times a pension factor ranging from 1.25 percent to 1.50 percent. The requirements to retire range from attaining the age of 46 to 60 with years of service ranging from 5 to 30 years, depending on when the employee became a member. Early retirement is computed in the same manner as a regular pension, but is permanently reduced 0.50 percent for each full and partial month between the pension effective date and the date the member will attain age 60. There is no mandatory retirement age.

Depending on the member's date of hire, MPERS offers the option of participating in the defined contribution (DC) plan that provides a 50 percent employer match (up to 3 percent of salary) on employee contributions.

Note 11 - Michigan Public School Employees' Retirement System (Continued)

Members are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits, but are payable immediately without an actuarial reduction. The disability benefits plus authorized outside earnings are limited to 100 percent of the participant's final average compensation, with an increase of 2 percent each year thereafter.

Benefits may transfer to a beneficiary upon death and are determined in the same manner as retirement benefits, but with an actuarial reduction.

Benefit terms provide for annual cost of living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The annual adjustment, if applicable, is 3 percent. Some members who do not receive an annual increase are eligible to receive a supplemental payment in those years when investment earnings exceed actuarial assumptions.

MPSERS provides medical, prescription drug, dental, and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by MPSERS, with the balance deducted from the monthly pension of each retiree healthcare recipient. Depending on the member's date of hire, this subsidized portion ranges from 80 percent to the maximum allowed by the statute.

Contributions

Public Act 300 of 1980, as amended, required the School District to contribute amounts necessary to finance the coverage of pension benefits of active and retired members. Contribution provisions are specified by state statute and may be amended only by action of the state Legislature. Under these provisions, each school district's contribution is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance a portion of the unfunded accrued liability.

Under the OPEB plan, retirees electing this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent, or 20 percent for those not Medicare eligible, of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. The MPSERS board of trustees annually sets the employer contribution rate to fund the benefits. Participating employers are required to contribute at that rate.

Under Public Act 300 of 2012, members were given the choice between continuing the 3 percent contribution to the retiree health care and keeping the premium subsidy benefit described above, or choosing not to pay the 3 percent contribution and, instead, opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2 percent employee contribution into their 457 account as of their transition date, earning them a 2 percent employer match into a 401(k) account. Members who selected this option stop paying the 3 percent contribution to the retiree health care as of the day before their transition date, and their prior contributions were deposited into their 401(k) account.

The School District's contributions are determined based on employee elections. There are multiple different pension and healthcare benefit options included in the plan available to employees based on date of hire and the elections available at that time. Contribution rates are adjusted annually by the ORS.

The range of rates is as follows:

	Pension	OPEB
October 1, 2017 - January 31, 2018	13.54% - 17.89%	7.42% - 7.67%
February 1, 2018 - September 30, 2018	13.54% - 19.74%	7.42% - 7.67%
October 1, 2018 - September 30, 2019	13.39% - 19.59%	7.57% - 7.93%

Note 11 - Michigan Public School Employees' Retirement System (Continued)

Depending on the plan selected, member pension contributions range from 0 percent up to 7.0 percent of gross wages. For certain plan members, a 4 percent employer contribution to the defined contribution pension plan is required. In addition, for certain plan members, a 3 percent employer match is provided to the defined contribution pension plan.

The School District's required and actual pension contributions to the plan for the year ended June 30, 2019 were \$5,337,575, which include the School District's contributions required for those members with a defined contribution benefit. The School District's required and actual pension contributions include an allocation of \$2,138,952 in revenue received from the State of Michigan and remitted to the System to fund the MPSEERS unfunded actuarial accrued liability (UAAL) stabilization rate for the year ended June 30, 2019.

The School District's required and actual OPEB contributions to the plan for the year ended June 30, 2019 were \$1,434,574, which include the School District's contributions required for those members with a defined contribution benefit.

Net Pension Liability

At June 30, 2019, the School District reported a liability of \$57,392,586 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2017, which used updated procedures to roll forward the estimated liability to September 30, 2018. The School District's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2018 and 2017, the School District's proportion was 0.191 and 0.187 percent, respectively, representing a change of 2.30 percent.

Net OPEB Liability

At June 30, 2019, the School District reported a liability of \$15,375,561 for its proportionate share of the net OPEB liability. The net OPEB liability for fiscal year 2019 was measured as of September 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of September 30, 2017, which used updated procedures to roll forward the estimated liability to September 30, 2018. The School District's proportion of the net OPEB liability was based on a projection of its long-term share of contributions to the OPEB plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2018 and 2017, the School District's proportion was 0.193 and 0.186 percent, respectively, representing a change of 3.88 percent.

June 30, 2019

Note 11 - Michigan Public School Employees' Retirement System (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For 2019, the School District recognized pension expense of \$8,483,070, inclusive of payments to fund the MPSERS UAAL stabilization rate. At June 30, 2019, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 266,312	\$ (417,062)
Changes in assumptions	13,292,076	-
Net difference between projected and actual earnings on pension plan investments	-	(3,924,194)
Changes in proportion and differences between the School District's contributions and proportionate share of contributions	2,690,125	(253,951)
The School District's contributions to the plan subsequent to the measurement date	4,479,892	-
Total	<u>\$ 20,728,405</u>	<u>\$ (4,595,207)</u>

The \$2,138,952 reported as deferred inflows of resources resulting from the pension portion of state aid payments received pursuant to the UAAL payment will be recognized as state appropriations revenue for the year ending June 30, 2020. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending	Amount
2020	\$ 4,907,217
2021	3,524,041
2022	2,342,733
2023	879,315
Total	<u>\$ 11,653,306</u>

In addition, the contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the next year.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the School District recognized OPEB expense of \$847,210.

June 30, 2019

Note 11 - Michigan Public School Employees' Retirement System (Continued)

At June 30, 2019, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ -	\$ (2,861,787)
Changes in assumptions	1,628,280	-
Net difference between projected and actual earnings on OPEB plan investments	-	(590,920)
Changes in proportionate share or difference between amount contributed and proportionate share of contributions	543,811	(86,962)
Employer contributions to the plan subsequent to the measurement date	1,023,982	-
Total	<u>\$ 3,196,073</u>	<u>\$ (3,539,669)</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (note that employer contributions subsequent to the measurement date will reduce the net OPEB liability and, therefore, will not be included in future OPEB expense):

Years Ending	Amount
2020	\$ (353,894)
2021	(353,894)
2022	(353,894)
2023	(227,691)
2024	(78,205)
Total	<u>\$ (1,367,578)</u>

Actuarial Assumptions

The total pension liability and total OPEB liability as of September 30, 2018 is based on the results of an actuarial valuation as of September 30, 2017 and rolled forward. The total pension liability and OPEB liability were determined using the following actuarial assumptions:

Actuarial cost method		Entry age normal cost actuarial cost method
Investment rate of return - Pension	6.00% - 7.05%	Net of investment expenses based on the groups
Investment rate of return - OPEB	7.15%	Net of investment expenses based on the groups
Salary increases	2.75% - 11.55%	Including wage inflation of 2.75 percent for 2019 and 3.50 percent for 2018
Healthcare cost trend rate - OPEB	7.50%	Year 1 graded to 3.0% year 12
Mortality basis		RP2014 Male and Female Employee Annuitant Mortality tables, scaled 100 percent (retirees: 82 percent male and 78 percent for females) and adjusted for mortality improvements using projection scale MP2017 from 2006
Cost of living pension adjustments	3.00%	Annual noncompounded for MIP members

Assumption changes as a result of an experience study for the periods from 2012 to 2017 have been adopted by the System for use in the annual pension and OPEB valuations beginning with the September 30, 2017 valuation.

June 30, 2019

Note 11 - Michigan Public School Employees' Retirement System (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 6.00 to 7.05 percent as of September 30, 2018 depending on the plan option. The discount rate used to measure the total OPEB liability was 7.15 percent as of September 30, 2018. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that district contributions will be made at statutorily required rates.

Based on those assumptions, the pension plan's fiduciary net position and the OPEB plan's fiduciary net position were projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan and OPEB plan investments was applied to all periods of projected benefit payments to determine the total pension liability and total OPEB liability.

The long-term expected rate of return on pension plan and OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Domestic equity pools	28.00 %	5.70 %
Private equity pools	18.00	9.20
International equity pools	16.00	7.20
Fixed-income pools	10.50	0.50
Real estate and infrastructure pools	10.00	3.90
Absolute return pools	15.50	5.20
Short-term investment pools	2.00	-
Total	100.00 %	

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the School District, calculated using the discount rate depending on the plan option. The following also reflects what the School District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1 Percent Decrease (5.00% to 6.05%)	Current Rate (6.00% to 7.05%)	1 Percent Increase (7.00% to 8.05%)
Net pension liability of the School District	\$ 75,352,032	\$ 57,392,586	\$ 42,471,205

June 30, 2019

Note 11 - Michigan Public School Employees' Retirement System (Continued)

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the School District, calculated using the current discount rate. It also reflects what the School District's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1 Percent Decrease (6.15%)	Current Rate (7.15%)	1 Percent Increase (8.15%)
Net OPEB liability of the School District	\$ 18,458,049	\$ 15,375,561	\$ 12,782,813

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate

The following presents the net OPEB liability of the School District, calculated using the current healthcare cost trend rate. It also reflects what the School District's net OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1 Percent Decrease (6.50%)	Current Rate (7.50%)	1 Percent Increase (8.50%)
Net OPEB liability of the School District	\$ 12,646,230	\$ 15,375,561	\$ 18,506,662

Pension Plan and OPEB Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in the separately issued MPSERS financial report.

Payable to the Pension Plan and OPEB Plan

At June 30, 2019, the School District reported a payable of \$933,415 and \$153,058 for the outstanding amount of contributions to the pension plan and OPEB plan, respectively, required for the year ended June 30, 2019.

Note 12 - State Aid Anticipation Note

State Aid Anticipation Note

The School District has direct borrowings from the Michigan Finance Authority (the "Lender") to provide sufficient resources before receiving its scheduled state aid. This liability is recorded as a fund liability in the General Fund.

During the year, the School District issued a state aid anticipation note (the "note") for \$1,600,000 and, through set aside payments, repaid \$1,280,000 during 2019, resulting in an outstanding balance of \$320,000 at June 30, 2019. The current note bears interest at 1.75 percent and matures on August 20, 2019. At June 30, 2019, School District had \$5,600 of interest accrued relating to the note.

In the event of default, the note is fully collateralized by the School District's future state aid funding, and the lender has the authority to intercept state aid payments at its discretion.

On August 2019, the School District borrowed \$1,600,000 in a state aid anticipation note with an interest rate of 1.30 percent. The note matures in August 2020 and has similar terms and provisions as the note outstanding at June 30, 2019.

Pension Information

Ultimately, 10 years of data will be presented in both of the pension-related schedules. The number of years currently presented represents the number of years since the accounting standard requiring these schedules first became applicable.

Benefit Changes

There were no changes of benefit terms for each of the reported plan years ended September 30.

Changes in Assumptions

There were no significant changes of assumptions for each of the reported plan years ended September 30, except for the following:

- 2018 - The discount rate used in the September 30, 2017 actuarial valuation decreased by 0.45 percent.
- 2017 - The discount rate used in the September 30, 2016 actuarial valuation decreased by 0.50 percent.

OPEB Information

Ultimately, 10 years of data will be presented in both of the OPEB-related schedules. The number of years currently presented represents the number of years since the accounting standard requiring these schedules first became applicable.

Benefit Changes

There were no changes of benefit terms for each of the reported plan years ended September 30.

Changes in Assumptions

There were no significant changes of assumptions for each of the reported plan years ended September 30, except for the following:

- 2018 - The discount rate used in the September 30, 2017 actuarial valuation decreased by 0.35 percent.
