INDEPENDENT AUDITOR'S REPORT

Governing Board
Laguna Beach Unified School District
Laguna Beach, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Laguna Beach Unified School District (the District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the *2017-2018 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting,* issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

10681 Foothill Blvd., Suite 300, Rancho Cucamonga, CA 91730 P 909.466.4410 F 909.466.4431 W vtdcpa.com

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Laguna Beach Unified School District, as of June 30, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Change in Accounting Principles

As discussed in Note 1 and Note 16 to the financial statements, in 2018, the District adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 13, budgetary comparison schedule on page 61, schedule of changes in the District's net OPEB liability and related ratios on page 62, schedule of the District's proportionate share of the net pension liability on page 63, and the schedule of District contributions on page 64, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Laguna Beach Unified School District's basic financial statements. The accompanying supplementary information such as the combining and individual non-major fund financial statements and Schedule of Expenditures of Federal Awards, as required by *Title 2 U.S. Code of Federal Regulations (CFR)* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)* and the other supplementary information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2018, on our consideration of the Laguna Beach Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Laguna Beach Unified School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Laguna Beach Unified School District's internal control over financial reporting and compliance.

This section of Laguna Beach Unified School District's (the District) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2018, with comparative information for the year ending June 30, 2017. Please read it in conjunction with the District's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

The District's financial status remains positive. Key financial highlights for 2018 are as follows:

- General revenues from property taxes increased 6.5 percent over the prior year and represent 83.3 percent of revenue from governmental activities. Total cost of instruction-related activities increased 1.4 percent over the prior year and represents 69.0 percent of total expenses. Revenues exceeded expenditures for an increase in Net Position by 13.2 percent.

- Capital assets increased 2.0 percent, while long-term commitments decreased by 6.2 percent. The District contracted several major capital improvements that will continue over multiple fiscal years. The projects are funded through reserves, not debt financing; therefore, capital assets are expected to continue to increase while existing debt is redeemed.

- The District continued making contributions to the California Employers' Retiree Benefits Trust (CERBT) to fund Other Post-Employment Benefits (OPEB). Contributions and earnings through June 30, 2017 represented a 91 percent funded ratio.

OVERVIEW OF THE FINANCIAL STATEMENTS

- The first two statements are *District-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations *in more detail* than the District-wide statements.
- The *governmental funds* statements tell how *basic* services like regular and special education were financed in the *short-term,* as well as what remains for future spending.
- *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee* or *agent* for the benefit of others.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the financial statements with a comparison of the District's budget for the year.

550 Blumont Street, Laguna Beach, CA 92651

District-Wide Financial Statements

The District-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The *Statement of Net Position* includes *all* of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the *Statement of Activities* regardless of when cash is received or paid.

The two District-wide financial statements report the District's *net position* and how they have changed. Net position - the difference between the District's assets and liabilities - are one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.

- To assess the overall health of the District, it is necessary to consider additional non-financial factors such as changes in the District's condition of school buildings and other facilities.

In the District-wide financial statements, the District's activities are divided into two categories:

Governmental Activities

Most of the District's basic services are included here, such as regular and special education, pupil transportation, maintenance and operations, and administration. Property taxes finance most of these activities.

Fiduciary Activities

The District is the trustee, or fiduciary, for assets that belong to others, such as the student activity funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the District-wide financial statements because the District cannot use these assets to finance its operations.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law.

- The District establishes other funds to control and manage money for particular purposes.

The District has two kinds of funds:

Governmental funds - Most of the District's basic services are included in governmental funds, which generally focus on (1) how *cash and other financial assets* can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide financial statements, we provide additional information with the governmental funds statements that explain the relationship (or differences) between them.

Fiduciary funds - The District is the trustee, or *fiduciary*, for assets that belong to others, such as scholarship funds and student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. We exclude these activities from the District-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Position

The District's net position was more on June 30, 2018, than it was in the prior year, an increase of 13.2 percent to $30,311,692. Of this amount, $(6,862,155) was unrestricted. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School Board's ability to use those net positions for day-to-day operations. Our analysis below focuses on the net position (Table 1) and change in net position (Table 2) of the District's governmental activities.

Table 1

	Governmental Activities	
	2018	2017, as Restated
Assets		
Current and other assets	$ 40,779,020	$ 41,223,407
Capital assets	56,792,172	55,668,128
Total Assets	**97,571,192**	**96,891,535**
Deferred Outflows of Resources	**16,757,168**	**10,816,166**
Liabilities		
Current liabilities	3,735,539	6,614,017
Long-term obligations	25,978,448	27,702,106
Aggregate net pension liability	51,221,338	44,182,990
Total Liabilities	**80,935,325**	**78,499,113**
Deferred Inflows of Resources	**3,081,343**	**2,440,215**
Net Position		
Net investment in capital assets	32,654,737	29,991,949
Restricted	4,519,110	4,628,381
Unrestricted	(6,862,155)	(7,851,957)
Total Net Position	**$ 30,311,692**	**$ 26,768,373**

The $(6,862,155) in unrestricted net position of governmental activities represents the accumulated results of all past years' operations. Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements - decreased by 12.6 percent ($(6,862,155) compared to $(7,851,957)).

Changes in Net Position

The District's total revenues were $64,846,620 (See Table 2), an increase of $3,168,724, or 5.1 percent. This increase was due primarily to property taxes. Table 2 takes the information from the Statement of Activities, and rearranges them slightly to indicate total revenues for the year. Property taxes account for most of the District's revenue, about 83 cents of every dollar received or recognized for accounting purposes.

Table 2

	Governmental Activities	
	2018	2017
Revenues		
Program revenues:		
Charges for services	$ 699,158	$ 699,599
Operating grants and contributions	5,671,512	5,179,266
General revenues:		
Property taxes	54,051,594	50,764,480
Other general revenues	4,424,356	5,034,551
Total Revenues	**64,846,620**	**61,677,896**
Expenses		
Instruction-related	42,286,233	41,687,067
Pupil services	6,931,616	6,329,375
Administration	4,548,865	4,345,546
Plant services	4,530,995	3,950,791
Other	3,005,592	2,692,931
Total Expenses	**61,303,301**	**59,005,710**
Change in Net Position	**$ 3,543,319**	**$ 2,672,186**

The total cost of all programs and services was $61,303,301. The District's expenses are predominantly related to educating and caring for students (80.3 percent). The purely administrative activities of the District accounted for 7.4 percent of total costs.

Total revenues for governmental activities surpassed expenses, increasing the net position by $3,543,319 over last year, contributing to the District's fiscal status.

Governmental Activities

In Table 3, we have presented the cost and net cost of each of the District's largest functions: instruction including, special instruction programs and other instructional programs, pupil services, administration, plant services, and all other services. As discussed above, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

Table 3

	2018		2017	
	Total Cost of Services	Net Cost of Services	Total Cost of Services	Net Cost of Services
Instruction-related	$ 42,286,233	$ 37,862,302	$ 41,687,067	$ 37,912,566
Pupil services	6,931,616	5,415,191	6,329,375	4,680,247
Administration	4,548,865	4,429,125	4,345,546	4,217,196
Plant services	4,530,995	4,530,995	3,950,791	3,950,791
Other	3,005,592	2,695,018	2,692,931	2,366,045
Total	**$ 61,303,301**	**$ 54,932,631**	**$ 59,005,710**	**$ 53,126,845**

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by State law and by bond covenants. The District establishes other funds to control and manage money for particular purposes (e.g. capital facilities) or to show that it is properly using certain revenues (e.g. cafeteria revenues).

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The strong financial performance of the District as a whole is reflected in its governmental funds as well. The main day-to-day operating fund of the District is the General Fund. The monies deposited into the General Fund represent the Federal, State, and local revenues available for the ongoing cost related to instruction, school and district administration, student transportation, and regular maintenance and operations. During 2017-2018, the General Fund had revenues and transfers of $60,754,637 and expenditures and transfers of $58,573,978 for an increase of $2,180,659 or 9.2 percent. Excluding transfers to and from other funds of $(2,140,000), General Fund revenues exceeded expenditures by $4,320,659. The District achieves a financial balance between revenues and expenditures for its ongoing day-to-day operations.

The total of all governmental funds saw an increase in fund balance. As the District completed the year, its governmental funds reported combined fund balance of $37,522,294. Expenditures for the General Fund and revenue for the Special Reserve Fund for Capital Outlay Projects reflect transfers of $1,200,000 for the Capital Improvement Plan, $900,000 for the Facilities Repair and Replacement Program, $165,000 to cover cafeteria program costs and $125,000 for the Aliso Property Reserve.

Table 4

	Balances and Activity			
	July 1, 2017	Revenues and Other Financing Sources	Expenditures and Other Financing Uses	June 30, 2018
General Fund	$ 23,600,057	$ 60,754,637	$ 58,573,978	$ 25,780,716
Special Reserve Fund for Capital Outlay Projects	9,051,816	2,220,828	1,857,021	9,415,623
Adult Education Fund	67,634	92,481	68,040	92,075
Cafeteria Fund	46,273	859,192	887,253	18,212
Capital Facilities Fund	283,102	197,470	428,904	51,668
Bond Interest and Redemption Fund	2,063,571	2,733,679	2,633,250	2,164,000
Total	**$ 35,112,453**	**$ 66,858,287**	**$ 64,448,446**	**$ 37,522,294**

General Fund Budgetary Highlights

Over the course of the year, the Board approves three versions of the operating budget. These budget versions are the following: Adopted Budget, First Interim, and Second Interim with Unaudited Actuals brought forward after the year-end closing is completed.

Budget adjustments to revenues for the year include:

- Adjustment for actual local property taxes revenue received;
- One-time discretionary funds for outstanding mandate claims;
- Recalculation of the state's on-behalf STRS contributions in governmental funds; and
- A net increase in other local revenues to primarily reflect an increase due to higher interest earnings and receipt of donations received throughout the fiscal year.

While the District's estimated budget for the General Fund anticipated that revenues and expenditures would result in the General Fund ending balance of $22,966,039 the actual ending balance was $25,780,716. This difference was predominantly attributed to property taxes, donations received and program carryover.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

See Note 5 to the financial statements for more detailed information on the District's capital assets.

Table 5

	Governmental Activities	
	2018	2017
Land and construction in process	$ 7,869,841	$ 8,019,999
Other capital assets, net of accumulated depreciation	48,922,331	47,648,129
Total	**$ 56,792,172**	**$ 55,668,128**

Long-Term Obligations

At year-end, the District had $25,978,448 in general obligation bonds and other long-term obligations, the majority of which is to be repaid through the use of tax collections. Detailed information regarding long-term obligations is presented in Note 9 to the financial statements.

Table 6

	Governmental Activities	
	2018	2017, as Restated
General obligation bonds	$ 23,300,000	$ 24,755,000
Premium on issuance	2,096,448	2,306,093
Compensated absences	306,288	256,818
Net other postemployment benefits (OPEB) liability	275,712	384,195
Total	**$ 25,978,448**	**$ 27,702,106**

Net Pension Liability (NPL)

At year-end, the District had a pension liability of $51,221,338.

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time, these financial statements were prepared and audited, local property values continued to remain stable. The only known circumstance that could have a significant adverse effect on the District's financial health in the near future would be the devaluation of property values.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Jeff Dixon, Assistant Superintendent-Business Services, Laguna Beach Unified School District, 550 Blumont Street, Laguna Beach, California 92651.

Committed	17,067,615	9,415,623	-	26,483,238
Assigned	2,996,891	-	-	2,996,891
Unassigned	2,934,949	-	-	2,934,949
Total Fund Balances	25,780,716	9,415,623	2,325,955	37,522,294
Total Liabilities and Fund Balances	$ 29,050,195	$ 10,002,017	$ 2,417,832	$ 41,470,044

The accompanying notes are an integral part of these financial statements.

LAGUNA BEACH UNIFIED SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION
JUNE 30, 2018

Total Fund Balances - Governmental Funds		**$ 37,522,294**
Amounts Reported for Governmental Activities in the Statement of Net Position are Different Because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.		
The cost of capital assets is the following	$ 87,700,009	
Accumulated depreciation is the following	(30,907,837)	
Total Capital Assets		56,792,172
Deferred charges on refunding (the difference between the reacquisition price and net carrying amount of refunded debt) are capitalized and amortized over the remaining life of the new or old debt (whichever is shorter) and are included with governmental activities.		1,259,013
Deferred outflows of resources related to pensions represent a consumption of net position in a future period and is not reported in the District's funds. Deferred outflows of resources related to pensions at year-end consist of:		
Pension contributions subsequent to measurement date	4,332,537	
Net change in proportionate share of net pension liability	1,001,461	
Differences between projected and actual earnings on pension plan investments	413,794	
Differences between expected and actual experience in the measurement of the total pension liability	573,727	
Changes of assumptions	9,020,499	
Total Deferred Outflows of Resources Related to Pensions		15,342,018
Deferred inflows of resources related to pensions represent an acquisition of net position that applies to a future period and is not reported in the District's funds. Deferred inflows of resources related to pensions at year-end consist of:		
Net change in proportionate share of net pension liability	(1,210,165)	
Differences between projected and actual earnings on pension plan investments	(1,045,592)	
Differences between expected and actual experience in the measurement of the total pension liability	(684,751)	
Changes of assumptions	(140,835)	
Total Deferred Inflows of Resources Related to Pensions		(3,081,343)
Deferred outflows of resources related to OPEB represent a consumption of net position in a future period and is not reported in the District's funds. Deferred outflows of resources related to OPEB at year-end consist of OPEB contributions subsequent to measurement date.		156,137

The accompanying notes are an integral part of these financial statements.

LAGUNA BEACH UNIFIED SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION (CONTINUED)
JUNE 30, 2018

Net pension liability is not due and payable in the current period, and is not reported as a liability in the funds.		$ (51,221,338)
In governmental funds, unmatured interest on long-term obligations is recognized in the period when it is due. On the government-wide financial statements, unmatured interest on long-term obligations is recognized when it is incurred.		(478,813)
Long-term obligations at year-end consist of the following:		
General obligation bonds	$ 23,300,000	
Premium on issuance	2,096,448	
Compensated absences	306,288	
Net other postemployment benefits (OPEB) liability	275,712	
Total Long-Term Obligations		(25,978,448)
Total Net Position - Governmental Activities		**$ 30,311,692**

The accompanying notes are an integral part of these financial statements.

LAGUNA BEACH UNIFIED SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2018

Total Net Change in Fund Balances - Governmental Funds		**$ 2,409,841**
Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures, however, for governmental activities, those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities.		
This is the amount by which capital outlay exceeds depreciation in the period.		
Capital outlays	$ 3,957,972	
Depreciation expense	(2,763,119)	
Net Expense Adjustment		1,194,853
Loss on disposal of capital assets is reported in the government-wide Statement of Net Position, but is not recorded in the governmental funds.		(70,809)
In the Statement of Activities, certain operating expenses - compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for this item is measured by the amount of financial resources used (essentially, the amounts actually paid). This year, vacation used was less than the amounts earned by $49,470.		(49,470)
In the governmental funds, pension costs are based on employer contributions made to pension plans during the year. However, in the Statement of Activities, pension expense is the net effect of all changes in the deferred outflows, deferred inflows and net pension liability during the year.		(1,768,710)
In the governmental funds, OPEB costs are based on employer contributions made to OPEB plans during the year. However, in the Statement of Activities, OPEB expense is the net effect of all changes in the deferred outflows, deferred inflows and net OPEB liability during the year.		264,620
Repayment of debt principal is an expenditure in the governmental funds, but it reduces long-term obligations in the Statement of Net Position and does not affect the Statement of Activities:		
General obligation bonds		1,455,000

The accompanying notes are an integral part of these financial statements.

LAGUNA BEACH UNIFIED SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES, (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2018

Under the modified basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. This adjustment combines the net changes of the following balances:		
Amortization of debt premium	$ 209,645	
Amortization of deferred charge on refunding	(125,901)	
		$ 83,744
Interest on long-term obligations in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.		24,250
Change in Net Position of Governmental Activities		**$ 3,543,319**

The accompanying notes are an integral part of these financial statements.

LAGUNA BEACH UNIFIED SCHOOL DISTRICT

FIDUCIARY FUNDS
STATEMENT OF NET POSITION
JUNE 30, 2018

	Agency Funds
ASSETS	
Deposits and investments	$ 1,041,848
Stores inventories	4,587
Total Assets	$ 1,046,435
LIABILITIES	
Due to student groups	$ 136,265
Due to bond holders	910,170
Total Liabilities	$ 1,046,435

The accompanying notes are an integral part of these financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The Laguna Beach Unified School District was organized in 1936 under the laws of the State of California. The District operates under a locally elected five-member Board form of government and provides educational services to grades kindergarten through twelve as mandated by the State and/or Federal agencies. The District operates two elementary schools, one middle school, one high school, and an adult education program.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For the Laguna Beach Unified School District, this includes the general operations, food service, and student related activities of the District.

Component Units

Component units are legally separate organizations for which the District is financially accountable. Component units may include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt, or the levying of their taxes. For financial reporting purposes, the component unit has a financial and operational relationship which meets the reporting entity definition criteria of the Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, and thus is included in the financial statements of the District. The component unit, although a legally separate entity, is reported in the financial statements using the blended presentation method as if it were part of the District's operations because the governing board of the component unit is essentially the same as the governing board of the District and because its purpose is to finance the construction of facilities to be used for the benefit of the District.

Community Facility District (CFD) No. 98-1 has a financial and operational relationship which meets the reporting entity definition criteria of GASB Statement No. 14, *The Financial Reporting Entity*, for the inclusion of the CFD as a component unit of the District. Accordingly, the financial activities of the CFD have been included in the financial statements of the District. The financial statements present the CFD's financial activity within the Agency Fund. Debt instruments issued by the CFD do not represent liabilities of the District or component unit and are not included in the District-wide Financial Statements.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into two broad fund categories: governmental and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

Major Governmental Funds

General Fund The General Fund is the chief operating fund for all districts. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund.

A fund currently defined as a special revenue fund in the California State Accounting Manual (CSAM) does not meet the GASB Statement No. 54 special revenue fund definition. Specifically, Fund 17, Special Reserve Fund for Other Than Capital Outlay Projects is not substantially composed of restricted or committed revenue sources. While this fund is authorized by statute and will remain, open for internal reporting purposes, this fund functions effectively as an extension of the General Fund, and accordingly has been combined with the General Fund for presentation in these audited financial statements.

As a result, the General Fund reflects an increase in assets, fund balance and revenues of $16,567,615, $16,567,615, and $309,528, respectively, as of June 30, 2018.

Special Reserve Fund for Capital Outlay Projects The Special Reserve Fund for Capital Outlay Projects exists primarily to provide for the accumulation of General Fund monies for capital outlay purposes (*Education Code* Section 42840).

Non-Major Governmental Funds

Special Revenue Funds The Special Revenue funds are used to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities, that compose a substantial portion of the inflows of the fund, and that are reasonably expected to continue. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

Adult Education Fund The Adult Education Fund is used to account separately for Federal, State, and local revenues that are restricted or committed for adult education programs and is to be expended for adult education purposes only.

Cafeteria Fund The Cafeteria Fund is used to account separately for federal, State, and local resources to operate the food service program (*Education Code* Sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

Capital Project Funds The Capital Project funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

Capital Facilities Fund The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approval (*Education Code* Sections 17620-17626 and *Government Code* Section 65995 et seq.). Expenditures are restricted to the purposes specified in *Government Code* Sections 65970-65981 or to the items specified in agreements with the developer (*Government Code* Section 66006).

Debt Service Funds The Debt Service funds are used to account for the accumulation of resources for, and the payment of, principal and interest on general long-term obligations.

Bond Interest and Redemption Fund The Bond Interest and Redemption Fund is used for the repayment of bonds issued for a District (*Education Code* Sections 15125-15262).

Fiduciary Funds Fiduciary funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support the District's own programs. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency fund accounts for student body activities (ASB) and funds held for the Community Facilities District No. 98-1. Such funds have no equity accounts since all assets are due to individuals or entities at some future time.

Basis of Accounting - Measurement Focus

Government-Wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared.

The government-wide financial statement of activities presents a comparison between direct expenses and program revenues for each governmental function, and excludes fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the Statement of Activities, except for depreciation. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District. Eliminations have been made to minimize the double counting of internal activities.

Net position should be reported as restricted when constraints placed on net position are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities result from special revenue funds and the restrictions on their use.

Fund Financial Statements Fund financial statements report detailed information about the District. The focus of governmental financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

Governmental Funds All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide financial statements and the statements for the governmental funds on a modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Fiduciary Funds Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of the District.

Revenues – Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 45 or 60 days. However, to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose requirements. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned Revenue

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period, or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized.

Certain grants received before the eligibility requirements are met, are recorded as unearned revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as unearned revenue.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the entity-wide statements.

Investments

Investments held at June 30, 2018, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair value of investments in the Orange County Treasury Investment Pool is determined by the program sponsor.

Prepaid Expenditures (Expenses)

Prepaid expenditures (expenses) represent amounts paid in advance of receiving goods or services. The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditures when incurred.

Stores Inventories

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the first-in, first-out basis. The costs of inventory items are recorded as expenditures in the governmental type funds and expenses in the fiduciary funds.

Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the District. The District maintains a capitalization threshold of $5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide statement of net position. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at estimated fair market value on the date donated.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets is the same as those used for the capital assets of governmental funds.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 25 to 50 years; improvements, 20 to 50 years; equipment, 5 to 20 years.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the statement of net position, except for the net residual amounts due between governmental and fiduciary funds, which are presented as accounts receivables and payables.

Compensated Absences

Compensated absences are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide statement of net position. For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the accounts payable in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full-time.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds.

However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and long-term loans are recognized as liabilities in the governmental fund financial statements when due.

Debt Issuance Costs, Premiums, and Discounts

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Debt premiums and discounts, as well as issuance costs related to prepaid insurance costs are amortized over the life of the bonds using the straight-line method.

In the governmental fund financial statements, bond premiums and discounts, as well as issuance costs are recognized in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuance are also reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District reports deferred outflows of resources for deferred charges on refunding of debt, for pension related items, and for OPEB related items.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports deferred inflows of resources for pension related items.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of California Public Employees' Retirement System (CalPERS) plan has been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

Fund Balances - Governmental Funds

As of June 30, 2018, fund balances of the governmental funds are classified as follows:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed - amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or budget adoption as approved by the governing board.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the governing board or assistant superintendent of business services may assign amounts for specific purposes.

Unassigned - all other spendable amounts.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Minimum Fund Balance Policy

The governing board adopted a minimum fund balance policy for the General Fund in order to protect the district against revenue shortfalls or unpredicted on-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than four percent of General Fund expenditures and other financing uses.

Net Position

Net position represents the difference between assets and liabilities. Net position net of investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. The District has related debt outstanding as of June 30, 2018. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. The government-wide financial statements report $4,519,110 of restricted net position.

Interfund Activity

Transfers between governmental and fiduciary activities in the government-wide financial statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Property Tax

Secured property taxes attach as an enforceable lien on property as of March 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31 and become delinquent after November 1. The County of Orange bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

Change in Accounting Principles

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* The primary objective of this Statement is to improve accounting and financial reporting by State and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by State and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans.

The District has implemented the provisions of this Statement as of June 30, 2018.

In March 2017, the GASB issued Statement No. 85, *Omnibus 2017.* The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). Specifically, this Statement addresses the following topics:

- Blending a component unit in circumstances in which the primary government is a business-type activity that reports in a single column for financial statement presentation;
- Reporting amounts previously reported as goodwill and "negative" goodwill;
- Classifying real estate held by insurance entities;
- Measuring certain money market investments and participating interest-earning investment contracts at amortized cost;

- Timing of the measurement of pension or OPEB liabilities and expenditures recognized in financial statements prepared using the current financial resources measurement focus;
- Recognizing on behalf payments for pensions or OPEB in employer financial statements;
- Presenting payroll-related measures in required supplementary information for purposes of reporting by OPEB plans and employers that provide OPEB;
- Classifying employer-paid member contributions for OPEB;
- Simplifying certain aspects of the alternative measurement method for OPEB; and
- Accounting and financial reporting for OPEB provided through certain multiple-employer defined benefit OPEB plans.

The District has implemented the provisions of this Statement as of June 30, 2018.

In May 2017, the GASB issued Statement No. 86, *Certain Debt Extinguishment Issues.* The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

The District has implemented the provisions of this Statement as of June 30, 2018.

New Accounting Pronouncements

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations.* This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement.

This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. This Statement requires that recognition occur when the liability is both incurred and reasonably estimable. The determination of when the liability is incurred should be based on the occurrence of external laws, regulations, contracts, or court judgments, together with the occurrence of an internal event that obligates a government to perform asset retirement activities. Laws and regulations may require governments to take specific actions to retire certain tangible capital assets at the end of the useful lives of those capital assets, such as decommissioning nuclear reactors and dismantling and removing sewage treatment plants. Other obligations to retire tangible capital assets may arise from contracts or court judgments. Internal obligating events include the occurrence of contamination, placing into operation a tangible capital asset that is required to be retired, abandoning a tangible capital asset before it is placed into operation, or acquiring a tangible capital asset that has an existing ARO.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Early implementation is encouraged.

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities.* The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all State and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Early implementation is encouraged.

In June 2017, the GASB issued Statement No. 87, *Leases.* The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The requirements of this Statement are effective for the reporting periods beginning after December 15, 2019. Early implementation is encouraged.

In April 2018, the GASB issued Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established.

This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses.

For notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Early implementation is encouraged.

In June 2018, the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5–22 of Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements,* which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund.

This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The requirements of this Statement should be applied prospectively.

NOTE 2 - DEPOSITS AND INVESTMENTS

Summary of Deposits and Investments

Deposits and investments as of June 30, 2018, are classified in the accompanying financial statements as follows:

Governmental activities	$ 38,998,405
Fiduciary funds	1,041,848
Total Deposits and Investments	$ 40,040,253

Deposits and investments as of June 30, 2018, consist of the following:

Cash on hand and in banks	$ 1,350,679
Cash in revolving	51,295
Investments	38,638,279
Total Deposits and Investments	$ 40,040,253

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedule below:

Authorized Investment Type	Maximum Remaining Maturity	Maximum Percentage of Portfolio	Maximum Investment In One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptance	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by holding the majority of its investments in the Orange County Treasury Investment Pool. The pool purchases shorter-term investments and attempts to time cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investment by maturity:

Investment Type	Reported Amount	Average Maturity in Days
Orange County Treasury Investment Pool	$ 38,638,279	302

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investments in the county pool are not required to be rated.

Custodial Credit Risk – Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2018, the District's bank balances of $174,310 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution’s trust department or agent, but not in the name of the District.

NOTE 3 - FAIR VALUE MEASUREMENTS

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets that the District has the ability to access at the measurement date. Level 1 assets may include debt and equity securities that are traded in an active exchange market and that are highly liquid and are actively traded in over-the-counter markets.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, such as interest rates and curves observable at commonly quoted intervals, implied volatilities, and credit spreads. For financial reporting purposes, if an asset has a specified term, a Level 2 input is required to be observable for substantially the full term of the asset.

Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonably available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

Uncategorized - Investments in the Orange County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at $1.00 net asset value per share.

NOTE 4 - RECEIVABLES

Receivables at June 30, 2018, consisted of intergovernmental grants, entitlements, interest, and other local sources. All receivables are considered collectible in full.

	General	Special Reserve Fund for Capital Outlay Projects	Non-Major Governmental Funds	Total Governmental Activities
Federal Government				
Categorical aid	$ 689,095	$ -	$ 25,085	$ 714,180
State Government				
Categorical aid	79,276	-	1,559	80,835
Lottery	126,245	-	-	126,245
SELPA	352,517	-	-	352,517
Local Government				
Interest	38,040	12,241	5,094	55,375
Other Local Sources	365,825	-	27,640	393,465
Total	$ 1,650,998	$ 12,241	$ 59,378	$ 1,722,617

NOTE 5 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2018, was as follows:

	Balance July 1, 2017	Additions	Deductions	Balance June 30, 2018
Governmental Activities				
Capital Assets Not Being Depreciated				
Land	$ 1,173,934	$ -	$ -	$ 1,173,934
Construction in process	6,846,065	2,449,292	2,599,450	6,695,907
Total Capital Assets Not Being Depreciated	8,019,999	2,449,292	2,599,450	7,869,841
Capital Assets Being Depreciated				
Land improvements	18,719,709	13,100	19,800	18,713,009
Buildings and improvements	48,150,064	3,051,407	84,570	51,116,901
Portable classrooms and structures	217,200	-	114,500	102,700
Furniture and equipment	8,893,005	1,043,623	39,070	9,897,558
Total Capital Assets Being Depreciated	75,979,978	4,108,130	257,940	79,830,168
Less Accumulated Depreciation				
Land improvements	9,311,874	912,766	19,800	10,204,840
Buildings and improvements	15,458,512	1,132,096	34,741	16,555,867
Portable classrooms and structures	190,912	2,384	103,050	90,246
Furniture and equipment	3,370,551	715,873	29,540	4,056,884
Total Accumulated Depreciation	28,331,849	2,763,119	187,131	30,907,837
Governmental Activities Capital Assets, Net	$ 55,668,128	$ 3,794,303	$ 2,670,259	$ 56,792,172

Depreciation expense charged to governmental activities was as follows.

Governmental Activities	
Instruction	$ 2,486,807
School site administration	138,156
All other pupil services	138,156
Total Depreciation Expenses Governmental Activities	$ 2,763,119

NOTE 6 - INTERFUND TRANSACTIONS

Interfund Receivables/Payables (Due To/Due From)

Interfund receivable and payable balances at June 30, 2018, between major and non-major governmental funds are as follows:

	Due From		
Due To	General Fund	Non-Major Governmental Funds	Total Governmental Activities
General Fund	$ -	$ 11,286	$ 11,286
Special Reserve Fund for Capital Outlay Projects	663,331	-	663,331
Non-Major Governmental Funds	16,407	-	16,407
Total	$ 679,738	$ 11,286	$ 691,024

A balance of $10,782 is due to the General Fund from the Adult Education Non-Major Governmental Fund for reimbursement of payroll expenditures.

A balance of $504 is due to the General Fund from the Cafeteria Non-Major Governmental Fund for reimbursement of payroll expenditures.

The balance of $663,331 is due to the Special Reserve Fund for Capital Outlay Projects from the General Fund for reimbursement of the roofing project expenditures.

A balance of $1 is due to the Adult Education Non-Major Governmental Fund from the General Fund for reimbursement of payroll expenditures.

A balance of $16,406 is due to the Cafeteria Non-Major Governmental Fund from the General Fund for catering services provided and reimbursement of payroll expenditures.

Operating Transfers

Interfund transfers for the year ended June 30, 2018, consisted of the following:

	Transfer From		
Transfer To	General Fund	Special Reserve Fund for Capital Outlay Projects	Total
General Fund	$ -	$ 125,000	$ 125,000
Special Reserve Fund for Capital Outlay Projects	2,100,000	-	2,100,000
Non-Major Governmental Funds	165,000	-	165,000
Total	$ 2,265,000	$ 125,000	$ 2,390,000

The General Fund transferred to the Special Reserve Fund for Capital Outlay Projects for the Facilities Repair and Replacement Program.	$ 900,000
The General Fund transferred to the Special Reserve Fund for Capital Outlay Projects for the Capital Improvement Plan (CIP).	1,200,000
The General Fund transferred to the Cafeteria Non-Major Governmental Fund to cover program costs.	165,000
The Special Reserve Fund for Capital Outlay Projects transferred to the General Fund for the Aliso Property Reserve.	125,000
Total	$ 2,390,000

NOTE 7 - ACCOUNTS PAYABLE

Accounts payable at June 30, 2018, consisted of the following:

	General Fund	Special Reserve Fund for Capital Outlay Projects	Non-Major Governmental Funds	Total Governmental Activities
Salaries and benefits	$ 1,127,468	$ -	$ 49,775	$ 1,177,243
Supplies and materials	45,242	-	22,991	68,233
Services	471,855	-	-	471,855
Construction	398,274	586,394	3,995	988,663
Other vendor payables	233,752	-	3,830	237,582
Total	$ 2,276,591	$ 586,394	$ 80,591	$ 2,943,576

NOTE 8 - UNEARNED REVENUE

Unearned revenue at June 30, 2018, consisted of the following:

	General Fund
State categorical aid	$ 14,594
Other local	298,556
Total	$ 313,150

NOTE 9 - LONG-TERM OBLIGATIONS

Summary

The changes in the District's long-term obligations during the year consisted of the following:

	Balance July 1, 2017, as Restated	Additions	Deductions	Balance June 30, 2018	Due in One Year
General obligation bonds	$ 24,755,000	$ -	$ 1,455,000	$ 23,300,000	$ 1,585,000
Premium on issuance	2,306,093	-	209,645	2,096,448	-
Compensated absences	256,818	49,470	-	306,288	-
Net other postemployment benefits (OPEB) liability	384,195	417,140	525,623	275,712	-
	$ 27,702,106	$ 466,610	$ 2,190,268	$ 25,978,448	$ 1,585,000

Payments on the general obligation bonds are made by the bond interest and redemption fund with local revenues. The compensated absences will be paid by the fund for which the employee worked. Net other postemployment benefits (OPEB) liability is generally paid by the General Fund.

Bonded Debt

The outstanding general obligation bonded debt is as follows:

Issue Date	Maturity Date	Interest Rate	Original Issue	Bonds Outstanding July 1, 2017	Redeemed	Bonds Outstanding June 30, 2018
7/8/10	8/1/28	2.00-5.00%	$ 30,090,000	$ 24,755,000	$ 1,455,000	$ 23,300,000

2010 General Obligation Refunding Bonds

In July 2010, the District issued the $30,090,000 2010 General Obligation Refunding Bonds. The bonds have a final maturity that occurs August 1, 2028, with interest rates from 2.00 to 5.00 percent. The net proceeds of $33,688,894 from the issuance (issuance of $30,090,000 net of premium received of $3,773,607 and costs incurred on issuance of $174,713) were used to advance refund a portion of the District's outstanding 2001 General Obligation Bonds, Series 2001 and 2003. At June 30, 2018, the principal balance outstanding on the 2010 General Obligation Refunding Bonds was $23,300,000. Unamortized premium and deferred charges on refunding received on issuance of the bonds amounted to $2,096,448 and $1,259,013 as of June 30, 2018, respectively.

The bonds mature through 2029 as follows:

Fiscal Year	Principal	Interest to Maturity	Total
2019	$ 1,585,000	$ 1,117,450	$ 2,702,450
2020	1,710,000	1,043,000	2,753,000
2021	1,870,000	953,500	2,823,500
2022	2,030,000	856,000	2,886,000
2023	2,200,000	750,250	2,950,250
2024-2028	12,250,000	1,879,750	14,129,750
2029	1,655,000	41,375	1,696,375
Total	$ 23,300,000	$ 6,641,325	$ 29,941,325

Accumulated Unpaid Employee Vacation

The long-term portion of accumulated unpaid employee vacation for the District at June 30, 2018, amounted to $306,288.

Net Other Postemployment Benefits (OPEB) Liability

District Plan

Plan Administration

The California Public Employees’ Retirement System (CalPERS) administers the Laguna Beach Unified School District’s Postemployment Benefits Plan (the Plan) by maintaining the assets provided and payment at the direction of the District. The Plan is a single-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for eligible retirees and their spouses. Financial information for CalPERS can be found on the CalPERS website at:
https://calpers.ca.gov/pages/forms-publications.

Plan Membership

At June 30, 2017, the Plan membership consisted of the following:

Inactive employees or beneficiaries currently receiving benefits payments	16
Active employees	303
	319

Benefits Provided

The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Benefits are provided through a third-party insurer, and the full cost of benefits is covered by the Plan. The District's governing board has the authority to establish and amend the benefit terms as contained within the negotiated labor agreements.

Contributions

The contribution requirements of Plan members and the District are established and may be amended by the District, the Laguna Beach Unified Faculty Association (LBUFA), the local California Service Employees Association (CSEA), and unrepresented groups. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually through the agreements with the District, LBUFA, CSEA, and the unrepresented groups. For fiscal year 2016-2017, the District contributed $525,623 to the Plan, of which $261,339 was used for current premiums and $264,284 was used to fund the OPEB Trust.

Net OPEB Liability of the District

The District's net OPEB liability of $275,712 was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The components of the net OPEB liability of the District at June 30, 2017, were as follows:

Total OPEB liability	$ 2,980,812
Plan fiduciary net position	(2,705,100)
District's net OPEB liability	$ 275,712
Plan fiduciary net position as a percentage of the total OPEB liability	90.75%

Actuarial Assumptions

The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.75	percent
Salary increases	2.75	percent, average, including inflation
Investment rate of return	6.00	percent, net of OPEB plan investment expense, including inflation
Healthcare cost trend rates	4.00	percent for 2017

The discount rate was based on the Bond Buyer 20-bond General Obligation Index.

Mortality rates were based on the 2009 CalSTRS Mortality Table for certificated employees and the 2014 CalPERS Active Mortality for Miscellaneous Employees Table for classified employees. Mortality rates vary by age and sex. (Unisex mortality rates are not often used as individual OPEB benefits do not depend on the mortality table used.) If employees die prior to retirement, past contributions are available to fund benefits for employees who live to retirement. After retirement, death results in benefit termination or reduction. Although higher mortality rates reduce service costs, the mortality assumption is not likely to vary from employer to employer.

The actual assumptions used in the June 30, 2017 valuation were based on the results of an actual experience study for the period July 1, 2016 to June 30, 2017.

Changes in the Net OPEB Liability

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)
Balance at June 30, 2016	$ 2,720,649	$ 2,336,454	$ 384,195
Service cost	355,725	-	355,725
Interest	165,777	-	165,777
Contributions-employer	-	525,623	(525,623)
Actual investment income	-	105,639	(105,639)
Benefit payments	(261,339)	(261,339)	-
Administrative expense	-	(1,277)	1,277
Net change in total OPEB liability	260,163	368,646	(108,483)
Balance at June 30, 2017	$ 2,980,812	$ 2,705,100	$ 275,712

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is one percent lower or higher than the current discount rate:

Discount Rate	Net OPEB Liability
1% decrease (5.0%)	$ 473,072
Current discount rate (6.0%)	275,712
1% increase (7.0%)	93,741

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are one percent lower or higher than the current healthcare costs trend rates:

Healthcare Cost Trend Rates	Net OPEB Liability
1% decrease (3.0%)	$ 122,061
Current healthcare cost trend rate (4.0%)	275,712
1% increase (5.0%)	417,684

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources related to OPEB

For the year ended June 30, 2018, the District recognized OPEB expense of $(108,483). At June 30, 2018, the District reported deferred outflows of resources for OPEB contributions subsequent to measurement date of $156,137.

NOTE 10 - NON-OBLIGATORY DEBT

Non-obligatory debt relates to debt issued by the Community Facility District as authorized by the Mello-Roos Community Facilities Act of 1982 as amended, and are payable from special taxes levied on property within the Community Facilities District according to a methodology approved by the voters within the District. Neither the faith and credit nor taxing power of the District is pledged to the payment of the bonds. Reserves have been established from the bond proceeds to meet delinquencies should they occur. If delinquencies occur beyond the amounts held in those reserves, the District has no duty to pay the delinquency out of any available funds of the District. The District acts solely as an agent for those paying taxes levied and the bondholders. The Community Facilities District Special Tax Bonds currently active include Community Facilities District No. 98-1 with a remaining balance as of June 30, 2018, of $8,300,000.

NOTE 11 - FUND BALANCES

Fund balances are composed of the following elements:

	General Fund	Special Reserve Fund for Capital Outlay Projects	Non-Major Governmental Funds	Total
Nonspendable				
Revolving cash	$ 50,000	$ -	$ 1,295	$ 51,295
Stores inventories	-	-	12,232	12,232
Prepaid expenditures	45,766		-	45,766
Total Nonspendable	95,766	-	13,527	109,293
Restricted				
Legally restricted programs	2,685,495	-	-	2,685,495
Special revenue funds	-	-	96,760	96,760
Capital projects funds	-	-	51,668	51,668
Debt service funds	-	-	2,164,000	2,164,000
Total Restricted	2,685,495	-	2,312,428	4,997,923
Committed				
Basic aid differential	17,067,615	-	-	17,067,615
Aliso property	-	5,164,736	-	5,164,736
Capital Improvement Plan	-	2,989,848	-	2,989,848
Facilities repair and replacement program	-	1,261,039	-	1,261,039
Total Committed	17,067,615	9,415,623	-	26,483,238
Assigned				
Carryover for reallocation	857,979	-	-	857,979
Potential one-time expenditures	2,138,912	-	-	2,138,912
Total Assigned	2,996,891	-	-	2,996,891
Unassigned				
Reserve for economic uncertainties	2,934,949	-	-	2,934,949
Total	$ 25,780,716	$ 9,415,623	$ 2,325,955	$ 37,522,294

NOTE 12 - RISK MANAGEMENT

Description

The District's risk management activities are recorded in the General Fund. Employee life, health, and disability programs are administered by the General Fund through the purchase of commercial insurance. The District participates in a public entity risk pool for its workers' compensation program. Refer to Note 15 for additional information regarding the public entity risk pool.

NOTE 13 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

For the fiscal year ended June 30, 2018, the District reported net pension liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for each of the above plans as follows:

Pension Plan	Collective Net Pension Liability	Collective Deferred Outflows of Resources	Collective Deferred Inflows of Resources	Collective Pension Expense
CalSTRS	$ 39,259,595	$ 11,650,860	$ 2,797,267	$ 3,946,552
CalPERS	11,961,743	3,691,158	284,076	2,154,695
Total	$ 51,221,338	$ 15,342,018	$ 3,081,343	$ 6,101,247

The details of each plan are as follows:

California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the State Teachers Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2016, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at:
http://www.calstrs.com/member-publications.

Benefits Provided

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age, and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program, and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

The District contributes exclusively to the STRP Defined Benefit Program, thus disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2018, are summarized as follows:

	STRP Defined Benefit Program	
	On or before	On or after
Hire date	December 31, 2012	January 1, 2013
Benefit formula	2% at 60	2% at 62
Benefit vesting schedule	5 Years of Service	5 Years of Service
Benefit payments	Monthly for Life	Monthly for Life
Retirement age	60	62
Monthly benefits as a percentage of eligible compensation	2.0% - 2.4%	2.0% - 2.4%
Required employee contribution rate	10.25%	9.205%
Required employer contribution rate	14.43%	14.43%
Required State contribution rate	9.328%	9.328%

Contributions

Required member District and State of California contributions rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with AB 1469, employer contributions into the CalSTRS will be increasing to a total of 19.1 percent of applicable member earnings phased over a seven-year period. The contribution rates for each plan for the year ended June 30, 2018, are presented above and the District's total contributions were $3,305,273.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support and the total portion of the net pension liability that was associated with the District were as follows:

Total Net Pension Liability, Including State Share:

District's proportionate share of net pension liability	$ 39,259,595
State's proportionate share of the net pension liability associated with the District	23,225,645
Total	$ 62,485,240

The net pension liability was measured as of June 30, 2017. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. The District's proportionate share for the measurement period June 30, 2017 and June 30, 2016, respectively, was 0.0425 percent and 0.0421 percent, resulting in a net increase in the proportionate share of 0.0004 percent.

For the year ended June 30, 2018, the District recognized pension expense of $3,946,552. In addition, the District recognized pension expense and revenue of $2,337,884 for support provided by the State. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	$ 3,305,273	$ -
Net change in proportionate share of net pension liability	927,103	1,066,924
Differences between projected and actual earnings on pension plan investments	-	1,045,592
Differences between expected and actual experiences in the measurement of the total pension liability	145,186	684,751
Changes of assumptions	7,273,298	-
Total	$ 11,650,860	$ 2,797,267

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows (Inflows) of Resources
2019	$ (869,240)
2020	657,757
2021	94,845
2022	(928,954)
Total	$ (1,045,592)

The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, differences between expected and actual experience in the measurement of the total pension liability, and changes of assumptions will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is seven years and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows (Inflows) of Resources
2019	$ 1,084,310
2020	1,084,310
2021	1,084,310
2022	1,084,310
2023	985,006
Thereafter	1,271,666
Total	$ 6,593,912

Actuarial Methods and Assumptions

Total pension liability for STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2016, and rolling forward the total pension liability to June 30, 2017. The financial reporting actuarial valuation as of June 30, 2016, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2016
Measurement date	June 30, 2017
Experience study	July 1, 2010 through June 30, 2015
Actuarial cost method	Entry age normal
Discount rate	7.10%
Investment rate of return	7.10%
Consumer price inflation	2.75%
Wage growth	3.50%

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance-PCA) as an input to the process. The actuarial investment rate of return assumption was adopted by the board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometrically linked real rates of return and the assumed asset allocation for each major asset class for the year ended June 30, 2017, are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-term Expected Real Rate of Return
Global equity	47%	6.30%
Fixed income	12%	0.30%
Real estate	13%	5.20%
Private equity	13%	9.30%
Absolute Return/Risk Mitigating Strategies	9%	2.90%
Inflation sensitive	4%	3.80%
Cash/liquidity	2%	-1.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability
1% decrease (6.10%)	$ 57,645,549
Current discount rate (7.10%)	39,259,595
1% increase (8.10%)	24,338,147

California Public Employees Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the School Employer Pool (SEP) under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2016 annual actuarial valuation report, Schools Pool Actuarial Valuation. This report and CalPERS audited financial information are publicly available reports that can be found on the CalPERS website under Forms and Publications at:
https://www.calpers.ca.gov/page/forms-publications.

Benefits Provided

CalPERS provide service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2018, are summarized as follows:

	School Employer Pool (CalPERS)	
	On or before	On or after
Hire date	December 31, 2012	January 1, 2013
Benefit formula	2% at 55	2% at 62
Benefit vesting schedule	5 Years of Service	5 Years of Service
Benefit payments	Monthly for Life	Monthly for Life
Retirement age	55	62
Monthly benefits as a percentage of eligible compensation	1.1% - 2.5%	1.0% - 2.5%
Required employee contribution rate	7.00%	6.50%
Required employer contribution rate	15.531%	15.531%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers are determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2018, are presented above and the total District contributions were $1,027,264.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2018, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling $11,961,743. The net pension liability was measured as of June 30, 2017. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. The District's proportionate share for the measurement period June 30, 2017 and June 30, 2016, respectively, was 0.0501 percent and 0.0512 percent, resulting in a net decrease in the proportionate share of 0.0011 percent.

For the year ended June 30, 2018, the District recognized pension expense of $2,154,695. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	$ 1,027,264	$ -
Net change in proportionate share of net pension liability	74,358	143,241
Differences between projected and actual earnings on pension plan investments	413,794	-
Differences between expected and actual experiences in the measurement of the total pension liability	428,541	-
Changes of assumptions	1,747,201	140,835
Total	$ 3,691,158	$ 284,076

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows (Inflows) of Resources
2019	$ (11,213)
2020	477,428
2021	174,172
2022	(226,593)
Total	$ 413,794

The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, differences between expected and actual experience in the measurement of the total pension liability, and changes of assumptions will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 3.9 years and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows (Inflows) of Resources
2019	$ 694,958
2020	707,580
2021	563,486
Total	$ 1,966,024

Actuarial Methods and Assumptions

Total pension liability for the SEP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2016, and rolling forward the total pension liability to June 30, 2017. The financial reporting actuarial valuation as of June 30, 2016, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2016
Measurement date	June 30, 2017
Experience study	July 1, 1997 through June 30, 2011
Actuarial cost method	Entry age normal
Discount rate	7.15%
Investment rate of return	7.15%
Consumer price inflation	2.75%
Wage growth	Varies by entry age and service

The mortality table used was developed based on CalPERS-specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first ten years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term Expected Real Rate of Return
Global equity	47%	5.38%
Global debt securities	19%	2.27%
Inflation assets	6%	1.39%
Private equity	12%	6.63%
Real estate	11%	5.21%
Infrastructure and Forestland	3%	5.36%
Liquidity	2%	-0.90%

Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability
1% decrease (6.15%)	$ 17,599,558
Current discount rate (7.15%)	11,961,743
1% increase (8.15%)	7,284,704

Tax Deferred Annuity/Social Security

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by Social Security or an alternative plan. The District has elected to use Social Security as its alternative plan.

On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS in the amount of $1,888,742 (9.328 percent of annual payroll). Contributions are no longer appropriated in the annual *Budget Act* for the legislatively mandated benefits to CalPERS. Therefore, there is no on-behalf contribution rate for CalPERS. Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. Accordingly, these amounts have been recorded in these financial statements. On behalf payments have been included in the calculation of available reserves, but have not been included in the budgeted amounts reported in the *General Fund - Budgetary Comparison Schedule*.

NOTE 14 - COMMITMENTS AND CONTINGENCIES

Grants

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2018.

Litigation

The District is involved in various litigations arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2018.

Construction Commitments

Capital Projects		Remaining Construction Commitments	Expected Date of Completion
High School - Roof system replacement	$	267,116	2018-2019

High School - Main office renovation		1,200,000	2021-2022
	$	4,248,822	

NOTE 15 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS, JOINT POWER AUTHORITIES, AND OTHER RELATED PARTY TRANSACTIONS

The District is a member of the Alliance of Schools for Cooperative Insurance Program (ASCIP), Schools Excess Liability Fund (SELF), and Western Orange County Self-Funded Workers' Compensation Agency public entity risk pools, and the College and Career Advantage Program. The District pays an annual premium to ASCIP and Western Orange County Self-Funded Workers' Compensation Agency for its property liability coverage and workers' compensation, respectively. Payments for excess insurance for property liability coverage are purchased through ASCIP from SELF. Payments for regional occupational services received are paid to the College and Career Advantage Program. The relationships between the District, the pools, and the JPA are such that they are not component units of the District for financial reporting purposes.

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. Audited financial statements are generally available from the respective entities.

The District has appointed two board members to the Governing Board of College and Career Advantage Program.

During the year ended June 30, 2018, the District made payments of $264,685, $388,900, and $148,908 to ASCIP, Western Orange County Self-Funded Workers' Compensation Agency, and College and Career Advantage Program, respectively.

NOTE 16 - RESTATEMENT OF PRIOR YEAR NET POSITION

The District adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, in the current year. As a result, the effect on the current fiscal year is as follows:

Government-Wide Financial Statements	
Net Position - Beginning	$ 27,832,263
Inclusion of net OPEB liability from the adoption of GASB Statement No. 75	(1,063,890)
Net Position - Beginning as restated	$ 26,768,373

Budgetary Comparison Schedule

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United State of America as prescribed by the Governmental Accounting Standards Board and provisions of the California *Education Code*. The governing board is required to hold a public hearing and adopt an operating budget no later than July 1 of each year. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for.

This schedule presents information for the original and final budgets and actual results of operations, as well as the variances from the final budget to actual results of operations.

Schedule of Changes in the District's Net OPEB Liability and Related Ratios

This schedule presents information on the District's changes in the net OPEB liability, including beginning and ending balances, the plan's fiduciary net position, and the net OPEB liability. In the future, as data becomes available, ten years of information will be presented.

Change in Benefit Terms – There were no changes in the benefit terms.

Change of Assumptions – There were no changes of assumptions.

Schedule of the District's Proportionate Share of the Net Pension Liability

This schedule presents information on the District's proportionate share of the net pension liability (NPL), the plans' fiduciary net position and, when applicable, the State's proportionate share of the NPL associated with the District. In the future, as data becomes available, ten years of information will be presented.

Changes in Benefit Terms – There were no changes in benefit terms since the previous valuations for both CalSTRS and CalPERS.

Changes of Assumptions – The CalSTRS plan rate of investment return assumption was changed from 7.60 percent to 7.10 percent since the previous valuation. The CalPERS plan rate of investment return assumption was changed from 7.65 percent to 7.15 percent since the previous valuation.

Schedule of District Contributions

This schedule presents information on the District's required contribution, the amounts actually contributed, and any excess or deficiency related to the required contribution. In the future, as data becomes available, ten years of information will be presented.

Other uses and transfers out	2,265,000	2,390,000	2,265,000	2,315,550
Total Expenditures and Other Uses	62,645,008	58,698,978	58,260,461	57,641,859
INCREASE (DECREASE) IN FUND BALANCE	$ (625,095)	$ 1,746,131	$ (54,886)	$ 339,177
ENDING FUND BALANCE	$ 8,588,006	$ 9,213,101	$ 7,466,970	$ 7,521,856
AVAILABLE RESERVES [2]	$ 3,150,000	$ 2,934,949	$ 2,913,024	$ 2,882,093
AVAILABLE RESERVES AS A PERCENTAGE OF TOTAL OUTGO	5.03%	5.00%	5.00%	5.00%
LONG-TERM OBLIGATIONS [4]	N/A	$ 25,978,448	$ 27,702,106	$ 28,851,478
K-12 AVERAGE DAILY ATTENDANCE AT P-2	2,784	2,788	2,878	2,899

The General Fund balance has increased by $1,691,245 over the past two years. The fiscal year 2018-2019 budget projects a decrease of $625,095 (6.8 percent). For a district this size, the State recommends available reserves of at least three percent of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating surpluses in two of the past three years but anticipates incurring an operating deficit during the 2018-2019 fiscal year. Total long-term obligations have decreased by $2,873,030 over the past two years.

Average daily attendance has decreased by 111 over the past two years. An additional decline of four ADA is anticipated during fiscal year 2018-2019.

[1] Budget 2019 is included for analytical purposes only and has not been subjected to audit.
[2] Available reserves consist of all unassigned fund balances including all amounts reserved for economic uncertainties contained with the General Fund.
[3] General Fund amounts do not include activity related to the consolidation of the Special Reserve Fund for Other Than Outlay Projects as required by GASB Statement No. 54.
[4] Long-term obligations have been restated as a result of the implementation of GASB Statement No. 75.

See accompanying note to supplementary information.

Schedule of Expenditures of Federal Awards

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The District has not elected to use the ten percent de minimis cost rate as covered in Section 200.414 Indirect (F&A) costs of the Uniform Guidance.

The following schedule provides reconciliation between revenues reported on the Governmental Funds Statement of Revenues, Expenditures, and Changes in Funds Balances, and the related expenditures reported on the schedule of Expenditures of Federal Awards. The reconciling amounts consist primarily of Medi-Cal Billing Options funds in the previous period were recorded as revenues but were unspent. These unspent balances have been expended in the current period.

	CFDA Number	Amount
Total Federal Revenues from the Statement of Revenues, Expenditures, and Changes in Fund Balances:		$ 1,062,505
Medi-Cal Billing Option	93.778	13,149
Total Schedule of Expenditures of Federal Awards		$ 1,075,654

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of *Education Code* Sections 46200 through 46206.

Districts must maintain their instructional minutes at the 1986-87 requirements, as required by *Education Code* Section 46201.

Reconciliation of Annual Financial and Budget Report With Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Non-Major Governmental Funds - Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances

The Non-Major Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures, and Changes in Fund Balances is included to provide information regarding the individual funds that have been included in the Non-Major Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

INDEPENDENT AUDITOR'S REPORTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Governing Board
Laguna Beach Unified School District
Laguna Beach, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Laguna Beach Unified School District (the District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Laguna Beach Unified School District's basic financial statements, and have issued our report thereon dated November 20, 2018.

Emphasis of Matter - Change in Accounting Principles

As discussed in Note 1 and Note 16 to the financial statements, in 2018, the District adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* Our opinion is not modified with respect to this matter.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Laguna Beach Unified School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Laguna Beach Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Laguna Beach Unified School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

10681 Foothill Blvd., Suite 300, Rancho Cucamonga, CA 91730 P 909.466.4410 F 909.466.4431 W vtdcpa.com

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Laguna Beach Unified School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Laguna Beach Unified School District in a separate letter dated November 20, 2018.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Governing Board
Laguna Beach Unified School District
Laguna Beach, California

Report on Compliance for Each Major Federal Program

We have audited Laguna Beach Unified School District's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Laguna Beach Unified School District's major Federal programs for the year ended June 30, 2018. Laguna Beach Unified School District's major Federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the Federal statutes, regulations, and the terms and conditions of its Federal awards applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Laguna Beach Unified School District's major Federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about Laguna Beach Unified School District's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major Federal program. However, our audit does not provide a legal determination of Laguna Beach Unified School District's compliance.

10681 Foothill Blvd., Suite 300, Rancho Cucamonga, CA 91730 P 909.466.4410 F 909.466.4431 W vtdcpa.com

Opinion on Each Major Federal Program

In our opinion, Laguna Beach Unified School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of Laguna Beach Unified School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Laguna Beach Unified School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Laguna Beach Unified School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Governing Board
Laguna Beach Unified School District
Laguna Beach, California

Report on State Compliance

We have audited Laguna Beach Unified School District's (the District) compliance with the types of compliance requirements as identified in the *2017-2018 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* that could have a direct and material effect on each of the Laguna Beach Unified School District's State government programs as noted below for the year ended June 30, 2018.

Management's Responsibility

Management is responsible for compliance with the requirements of State laws, regulations, and the terms and conditions of its State awards applicable to its State programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance of each of the Laguna Beach Unified School District's State programs based on our audit of the types of compliance requirements referred to above. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2017-2018 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. These standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on the applicable government programs noted below. An audit includes examining, on a test basis, evidence about Laguna Beach Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions. Our audit does not provide a legal determination of Laguna Beach Unified School District's compliance with those requirements.

Unmodified Opinion on Each of the Programs

In our opinion, Laguna Beach Unified School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the government programs noted below that were audited for the year ended June 30, 2018.

10681 Foothill Blvd., Suite 300, Rancho Cucamonga, CA 91730 P 909.466.4410 F 909.466.4431 W vtdcpa.com

In connection with the audit referred to above, we selected and tested transactions and records to determine the Laguna Beach Unified School District's compliance with the State laws and regulations applicable to the following items:

	Procedures Performed
LOCAL EDUCATION AGENCIES OTHER THAN CHARTER SCHOOLS	
Attendance	Yes
Teacher Certification and Misassignments	Yes
Kindergarten Continuance	Yes
Independent Study	No, see below
Continuation Education	No, see below
Instructional Time	Yes
Instructional Materials	Yes
Ratios of Administrative Employees to Teachers	Yes
Classroom Teacher Salaries	Yes
Early Retirement Incentive	No, see below
Gann Limit Calculation	Yes
School Accountability Report Card	Yes
Juvenile Court Schools	No, see below
Middle or Early College High Schools	No, see below
K-3 Grade Span Adjustment	Yes
Transportation Maintenance of Effort	Yes
Apprenticeship: Related and Supplemental Instruction	No, see below
SCHOOL DISTRICTS, COUNTY OFFICES OF EDUCATION, AND CHARTER SCHOOLS	
Educator Effectiveness	Yes
California Clean Energy Jobs Act	Yes
After/Before School Education and Safety Program:	
General Requirements	No, see below
After School	No, see below
Before School	No, see below
Proper Expenditure of Education Protection Account Funds	Yes
Unduplicated Local Control Funding Formula Pupil Counts	Yes
Local Control Accountability Plan	Yes
Independent Study - Course Based	No, see below
CHARTER SCHOOLS	
Attendance	No, see below
Mode of Instruction	No, see below
Non Classroom-Based Instruction/Independent Study for Charter Schools	No, see below
Determination of Funding for Non Classroom-Based Instruction	No, see below
Annual Instruction Minutes Classroom-Based	No, see below
Charter School Facility Grant Program	No, see below

The District does not offer an Independent Study Program; therefore, we did not perform procedures related to the Independent Study Program.

The District does not offer a Continuation Education Program; therefore, we did not perform procedures related to the Continuation Education Program.

The District did not offer an Early Retirement Incentive Program during the current year; therefore, we did not perform procedures related to the Early Retirement Incentive Program.

The District does not have any Juvenile Court Schools; therefore, we did not perform any procedures related to Juvenile Court Schools.

The District does not offer a Middle or Early College High School; therefore, we did not perform procedures related to the Middle or Early College High School Program.

The District does not offer an Apprenticeship Program; therefore, we did not perform any procedures for the Apprenticeship Program.

The District does not offer an After School Education and Safety Program; therefore, we did not perform any procedures related to the After School Education and Safety Program.

The District does not offer an Independent Study-Coursed Based Program; therefore, we did not perform any procedures related to the Independent Study-Coursed Based Program.

The District does not have any Charter Schools; therefore, we did not perform any procedures for Charter School Programs.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 2018

There were no audit findings reported in the prior year's schedule of financial statement findings.

VAVRINEK, TRINE, DAY & CO., LLP
Certified Public Accountants

Governing Board
Laguna Beach Unified School District
Laguna Beach, California

In planning and performing our audit of the financial statements of Laguna Beach Unified School District (the District) for the year ended June 30, 2018, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

However, during our audit we noted a matter that is an opportunity for strengthening internal controls and operating efficiency. The following item represents a condition noted by our audit that we consider important enough to bring to your attention. This letter does not affect our report dated November 20, 2018, on the financial statements of Laguna Beach Unified School District.

ASSOCIATE STUDENT BODY (ASB)

Laguna Beach High School

Observations

During our review of associated student body procedures, the following issues were noted:

1. Based on the review of the cash receipting procedures, it was noted that two of eight deposits tested were not deposited in a timely manner. The delay in deposit ranged from approximately nine to 12 days from the date of receipt. This could result in large cash balances being maintained at the sites, which can hinder the safeguarding of ASB assets.
2. Based on the review of the disbursement procedures, it was noted that three of 11 disbursements tested were not approved prior to the transactions taking place. This could potentially lead to spending in excess of available funds. Additionally, expenditures of a questionable nature could arise if disbursements are not pre-approved.
3. Based on the review of the disbursement procedures, it was noted that five of 11 disbursements were made without explicit receiving documentation for goods being ordered.
4. Two ticket sales report forms tested were incomplete. The forms did not have an explanation of why there was an overage or a shortage.
5. In reviewing the revenue potential forms, it was noted that all reviewed revenue potential forms were not completely filled out. An explanation for differences between budget and actual was not documented.

10681 Foothill Blvd., Suite 300, Rancho Cucamonga, CA 91730 P 909.466.4410 F 909.466.4431 W vtdcpa.com

Governing Board
Laguna Beach Unified School District

Recommendations:

1. The ASB should, at a minimum, make their deposits once a week to minimize the amount of cash held at the sites. During weeks of high cash activity, there may be a need to make more than one deposit. The District should communicate specific guidelines for this procedure including the maximum cash on hand that should be maintained at the site.
2. In order to ensure proper internal controls over the ASB disbursements, the site should ensure that all disbursement transactions are pre-approved by authorized administrative personnel and the student council. This would allow the reviewing administrator and/or the student council to determine if the proposed activities are appropriate and to determine if sufficient funding is available to finance the activities or the purchases.
3. All goods being ordered should be documented with explicit receiving documentation. Documentation should indicate the date that the goods have been received and documentation regarding whether or not the goods have been received intact, undamaged, and in the correct quantities. Payments for vendor invoices should only be made once the receiving documentation is available.
4. All ticket sales report form must be completely filled out at the end of each event. The form is important because it shows whether or not all the monies that should have been raised and turned in actually were based on the price of the ticket and number sold. The form is also used to document overages and shortages. An explanation of any overages/shortages must be documented on the form. The site administrator should ensure that these forms are completed and turned into the bookkeeper at the conclusion of the event.
5. Revenue potentials should be prepared to assist the ASB in identifying whether or not a fundraiser will be successful. By completing the expected results section of the revenue potential, the ASB will know how much profit should be made from the fundraiser. Once the fundraiser is complete, the actual results should be summarized and compared to the expected results to determine if the fundraiser generated the profit expected. Discrepancies should be investigated and explained and a determination should be made as to whether or not it is beneficial to conduct the fundraiser in the future.

We will review the status of the current year comments during our next audit engagement.
